
Choices[®]

PRICE LIST | DECEMBER 2021

For Canadian pricing, please visit Trendealer to see the current conversion rate being used or contact your local Trendway Representative.

Choices®

Choices is a fully featured product line that includes Systems and Desking Furniture, Tables and Filing and Storage. This price list includes detailed product information and pricing for these products.

Trendway product catalogs are available in the following design software: CAP, Data One, Giza, Midnight-Oil, and Project Matrix. The Systems price list is also available in .pdf (Acrobat Reader) format on dealer.trendway.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TA3666B represents a **T**ackable **A**coustical **P**anel that is **36"** (914)-wide and **66"** (1676)-high.

Order specification examples are shown throughout the price list at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.

Sequence Information

The table below shows a sample of the price list format's sequence of information which will assist when placing an order and checking an order acknowledgement.

Sample Part Number:

TA4884B	.H	.050	.050	.K	.K
---------	----	------	------	----	----

3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)
8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Choices products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

Choices Keying Order Form

This form can be used as a worksheet or an order form to determine what key alike Choices Core/Key Sets are needed for key-alike Choices filing and storage, Choices locks on Choices flipper units and for additional Choices Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on Trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Choices Core/Key Set

The Choices Core/Key Set is needed when the Key Alike Option 'T' is selected, or if a lock needs to be changed out in an existing unit. The Core/Key Set provides the ability to pick the key number for a single storage piece, each individual office or group of offices. Choices Core/Key Sets includes a lock core and 2 lock keys. Additional lock keys are available.

Choices Core Installation/Removal Key

Pack Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Pack lock cores.

*Choices Master Key

Choices Master Key is used to open any Choices style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8212. Orders are shipped within 24-hours of receipt.

Information

Choices Core/Key Set

The Choices Core/Key Set must be ordered when the Key-Alike Lock option is chosen to replace the "disposable" core that ships with Choices filing units in order for these units to lock. This set can also be ordered to replace an existing Choices Core/Key Set. The set includes a Choices lock core and 2 lock keys.

Choices Core Installation/Removal Key

Choices Core Installation/Removal Key is needed to install or remove Choices Cores in Choices filing units.

Choices Keys

Replacement Choices Keys are available for order.

Pack Core/Key Set

The Pack Core/Key Set must be ordered when the Key-Alike lock option is chosen to replace the “disposable” core that ships with Pack filing units in order for these units to lock. This set can also be ordered to replace an existing Pack Core/Key Set. The set includes a Pack lock core and 2 lock keys.

Pack Core Installation/Removal Key

The Pack Core Installation/Removal Key is needed to install or remove Pack Cores in Pack filing units or in Pack Locks for Choices Flipper Units (PKCHFLA and PKCTAFLA).

Pack Keys

Replacement Pack keys are available for order.

Pack Locks for Choices Flipper Units

A Pack Lock is used to replace the entire lock assembly on a Choices Flipper Unit. This will allow the lock core and bezel to have a silver color to match the Pack Filing and Storage lock.

There are two lock options to choose from, **randomly keyed** (option "R") or **key-alike** (option "T"). When the randomly keyed option "R" is chosen, the lock will be assembled with a randomly numbered core and key.

When the key-alike option "T" is chosen, the lock will be assembled with a plastic "disposable" core.

The "disposable" core must be field replaced with a Pack Core/Key Set in order for the filing unit to lock. The Core/Key Set (PLCAK) must be ordered separately or by using the Keying Order Form.

Randomly Keyed

Key-Alike

Panel Overview

Choices Panel Systems feature three panel types that provide different combinations of price and performance.

TA Series Panels

Tackable Acoustical (TA) Series Panels feature a rigid welded steel frame construction, base raceway capability and a fabric covered, multi-layer fiberglass core for sound control. Other panels in the TA Series include Half Open and Half Glazed Panels (HGP), and Full Open and Full Glazed Panels (FGP), which feature an aluminum frame construction.

Standard Features

All Trendway Panels include the following trim, hinge and base raceway components

- 1 removable top cap — available in powder-coated metal.
- 2 leveling glides — to compensate for uneven flooring; glides have a total adjustment range of 2" (51).
- floor gripper — fits under leveling glide to prevent panel slippage on carpet or hard flooring.
- 2 panel side rails — factory-attached, accepts panel hinges and have slots on 1" (25) increments to hold work surface and component brackets.

- multi polymer panel hinges — to create all angled, two-, three-, and four-way panel connections. No other connectors needed.
- base-mounted channel — interior is divided by a septum; open space on either side of septum can be used to route power and/or communication cables.

Each panel order automatically includes enough trim pieces to finish the panel base at all two-way, three-way, and end conditions.

Trendway panels are shipped with the side rails, top cap, base channel, and leveling glides pre-assembled. When panels arrive, they are ready for installation.

Options include pre-powered electrical, 3-Way and 90° Covers to enclose the openings at panel connections.

Finishes

The Trendway color program offers a variety of fabrics for the panel surface. Glazed panels can be specified in clear Plexiglass or tempered glass. Panel components are color-matched in one of Trendway's trim colors.

Enhanced Premium or standard Textured versions of our trim colors can be applied to all painted parts. When these finishes are specified all resin, composite or plastic components

(plastic hinge, slot cover etc.) will be matched to the basic trim color in the standard smooth finish.

Panels can be specified with wood top caps. For a complete wood-edging system, wood end caps and retrofit items are available and can be easily installed on any Trendway panel.

Dimensions

TA Panels are 2" (51)-thick. Powder-coated metal top caps are 3/8" (10)-tall. All dimensions listed are nominal unless otherwise noted.

Special Products

Please contact Trendway Custom Solutions for product availability and pricing on non-standard products.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TA4862B represents a Tackable Acoustical Panel, 48" (1219)-wide by 62" (1575)-high.

The acknowledgement you will receive from Trendway will follow the sequence of information outlined below.

Trendway strongly encourages you to follow the same steps so that checking your order against the acknowledgement will be the easiest possible.

When ordering panels, list the following:

1. Quantity (combine identical items and specify total quantity unless using special marking or tagging)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (CCND84B.150.J.J).

TA Panel Components

Sample Part Number:

Catalog Number	Surface Color	Trim Color	Top Cap
CCND84B	.150	.J	.J

Total Cost \$107 =

\$107	+	N/C	+	N/C	+	N/C
-------	---	-----	---	-----	---	-----

Panel Layout Planning

When planning workstation layouts, the Panel Layout Rules for Loaded and Non-loaded Panel Runs **must be followed** to ensure a safe panel installation.

Loaded Panel Runs

A Loaded Panel Run is defined as having panel hung components with two or more panels connected in a straight line.

The maximum length of a Loaded Panel Run before a return panel is used is 8' (2438) if there are two or more panel connections within the run (Fig. A).

Fig. A

A panel run can extend up to 10' (3048) before a return panel is required if the run has only one panel connection.

Example: Two 60" (1524)-wide TA Panels (Fig. B).

Fig. B

Non-Loaded Panel Runs

A Non-Loaded Panel Run is defined as having no panel hung components, regardless of size or weight.

The maximum length of a Non-Loaded Panel Run is 16' (4877) with a maximum of 3 panel connections (Fig. C).

Fig. C

Panel Runs Using a Building's Structural Element

An Adjustable Wall Starter Rail (AWSR) can be used to connect a Panel Run to a building's structural element. The Panel Run maximum lengths still apply as shown in Fig. A, B and C.

When securing the Adjustable Wall Starter Rail, the installer takes full responsibility to ensure that the rail is securely fastened to a sound structural element along the full height of the panel. (Fig. D and E).

Fig. D

Non-Loaded Panel Run

Fig. E

Loaded Panel Run

Return Panels

A return panel is a single panel mounted at right angles to a panel run.

The minimum return panel width to be used in any configuration is 24" (610) (Fig. C). See Work Surface Support Planning in the Panel Hung Components section for additional support considerations.

Loaded panel runs must conclude with return panels at each end (Fig. F) and on each side that is loaded (Fig. G).

Fig. F

Panel Run Loaded One Side

Fig. G

Panel Run Loaded Both Sides

Non-loaded panel runs must have 24" (610)-wide or wider return panels on at least three ends of the panel run (Fig. H).

Fig. H Non-Loaded Panel Run

When used with loaded or non-loaded runs, return panels shall have a minimum height as shown in Table 1 and Fig. I.

Table 1

A-Panel Run Height	B-Return Panel Min. Height	C-Max. Change in Height
84" (2134)	62" (1575)	22" (559)
78" (1981)	54" (1372)	24" (610)
66" (1676)	48" (1219)	18" (457)
62" (1575) Or Lower	30" (762)	32" (813)

Fig. I

Work Surface End Panels (ENP) may be substituted for return panels on 62" high or lower loaded or non-loaded panel runs (see Fig. J).

Fig. J

Note: When certain planning conditions are met, it is possible to use 30" (762)-high return panels with panels up to 66" (1676)-high panel runs. See "How to Plan for Lower Height Return Panels" on the following page.

Loading Return Panels

In order to use overhead storage components on a Return Panel, the Return Panel must be attached to the work surface.

Overhead Storage Support

When overhead storage units are installed side-by-side, it is recommended that the units be secured together. For metal units, the Flipper Shelf Clip (FSCL) should be used for this purpose. For laminate units, secure the units through the end panels with the laminate overhead Flipper/Shelf Clip (LOSCL). Installing these supports helps to ensure a uniform profile in the workstation.

How to Plan for Lower Height Return Panels

Lower panels (30" [762]-high return panels or Work Surface End Panels) may be substituted for return panels if all of the following criteria are met (Fig. K):

- Any loaded panels in the run may not exceed 66" (1676) in height.
- Any panel adjacent to the 30" (762)-high return panel or Work Surface End Panel must be at least 36" (914)-wide. This adjacent panel cannot have overhead storage components.
- All other panels in the run may not exceed 48" (1219)-wide.
- All other panels in the run may only have one row of overhead storage components.
- All other planning guidelines for loaded and non-loaded panel runs apply.
- When using 30" (762)-high return panels, the panel width and work surface width must match, and a work surface bracket must be used to support the front corner of the work surface (see "Work Surface Support Planning" in the Choices Components section for additional information on work surface supports).
- The combination of panels on the side with overhead storage must equal 48" (1219)-wide or wider.

Fig. K

Note: In all applications 30" 9762)-deep work surfaces require a 30" 9762)-wide panel and a Work Surface Bracket to support the front corner of the work surface (Fig. L).

Fig. L

Note: It is advised that an end panel instead of a cantilever be used if a return panel is wider than the length of the work surface. In this instance a work support bracket cannot be used and an end panel would provide more than adequate support.

Floor Supported Elements

In some cases Floor Supported Elements may be used in place of return panels.

Floor Supported Elements include:

- Panel Mounted Peninsula Work Surfaces
- Choices Floor Supported Pedestals and File Centers that are attached to the underside of a work surface.
- End Panels

Floor Supported Elements may replace return panels if all of the following criteria are met:

- All criteria for using **Lower Height return panels** is met.
- At least half of the support elements must be return panels.
- When using a panel mounted Peninsula Work Surface as a Floor Supported Element, the combination of return panels on the other end of the run must equal 48" (1219)-wide or wider (Fig. M).

- When using Choices Pedestals and File Centers or Intrinsic Pedestals and 2-High laterals as a Floor Supported Element, a Work Surface Bracket must be used to support the back of the work surface and the filing unit must be attached to the underside of the work surface.

Tackable Acoustical Panels – (TA)

The Tackable Acoustical Panel is surfaced with fabric and provides a tackable surface for information display needs. The TA Panel has a multi-layer core for maximum sound control. All TA Panels feature a base raceway for power and data capability. TA Panels using Trendway's Standard Fabrics are Class A fire rated.

TA Panels acoustical rating is .75 NRC and 10 STC.

Electrical

There are three baseline electrical options:

- **S - Standard Base**, which accepts PowerPac Electrical components (specified separately).
- **P1 - Powered Base**, which has Powerpac Blocks factory installed in the base raceway.*
- **H - Hardwire Base**, for use in the city of Chicago which has a factory installed base raceway that is designed specifically for field installed hardwiring.*

*** The Powered Base (P1) and the Hardwire Base (H) are only available with TA Series Panels 24" (610)-wide and wider. Panels narrower than 24" (610) accept pass through power only.**

Note: When ordering the Powered Base (P1) Electrical option, PowerPac Duplexes, Harnesses, and Base Feeds must be specified separately. When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician, and no PowerPac components should be specified.

Fabric

For fabric orientation, refer to the table located in the Fabric Planning section.

Note: When specifying different fabric grades on opposite sides of a panel, use price of higher fabric grade. For COM use Grade 1 for fabric pricing.

Hard Surface Vinyl-Covered Panels – TA Series

The Hard Surface Vinyl-Covered Panel has a multi-layer non-tackable core that is surfaced with a durable, abrasion-resistant vinyl. All TA Series Panels feature a base raceway for power and data capability.

Electrical

There are three baseline electrical options:

- **S - Standard Base**, which accepts PowerPac Electrical components (specified separately).
- **P1 - Powered Base**, which has Powerpac Blocks factory installed in the base raceway.*
- **H - Hardwire Base**, for use in the city of Chicago which has a factory installed base raceway that is designed specifically for field installed hardwiring.*

*** The Powered Base (P1) and the Hardwire Base (H) are only available with TA Series Panels 24" (610)-wide and wider. Panels narrower than 24"**

(610) accept pass through power only.

Note: When ordering the Powered Base (P1) Electrical option, PowerPac Duplexes, Harnesses, and Base Feeds must be specified separately. When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician, and no PowerPac components should be specified.

Tackable Half Open and Half Glazed Panels – TA Series

Tackable Half Open and Half Glazed TA Panels have a multi-layer tackable core on the lower half of the panel that is surfaced with fabric. Half Glazed TA Panels have a single pane of plexiglass or tempered glass centered in the top portion of the panel. All TA Panels feature a base raceway for power and data capability.

Electrical

There are three baseline electrical options:

- **S - Standard Base**, which accepts PowerPac Electrical components (specified separately).
- **P1 - Powered Base**, which has Powerpac Blocks factory installed in the base raceway.*
- **H - Hardwire Base**, for use in the city of Chicago which has a factory installed base raceway that is designed specifically for field installed hardwiring.*

*** The Powered Base (P1) and the Hardwire Base (H) are only available with TA Series Panels 24" (610)-wide and wider. Panels narrower than 24" (610) accept pass through power only.**

Note: When ordering the Powered Base (P1) Electrical option, PowerPac Duplexes, Harnesses, and Base Feeds must be specified separately. When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician, and no PowerPac components should be specified.

Fabric

For fabric orientation, refer to the table located in the Fabric Planning section.

Note: When specifying different fabric grades on opposite sides of a panel, use price of higher fabric grade. For COM use Grade 1 for fabric pricing.

Important: The Tackable Half Open Half Glazed HGPST Panel provides significant improvements over the earlier HGP panel, including lower cost, tackability, added glass lines, added 18" panel width, and a more consistent aesthetic. However, if a customer specifically requires the original HGP panel, it remains available through the Choices Service Parts catalog.

Bottom Open Panels – TA Series

The Bottom Open Panel is designed to enhance air ventilation within open plan furniture environments for improved air quality. This panel aids with the compliance to standards for ventilation effectiveness (ASHRAE 129) and thermal comfort (ASHRAE 55).

The Bottom Open Panel has an opening that is 197/8" (505)-high, begins 6" (152) from the floor, and is inset 2 5/8" (67) from the outer edges of the panel. The top portion of the panel consists of a multi-layer tackable core. All TA panels feature a base raceway for power and data capability.

Electrical

There are three baseline electrical options:

- **S - Standard Base**, which accepts PowerPac Electrical components (specified separately).
- **P1 - Powered Base**, which has Powerpac Blocks factory installed in the base raceway.
- **H - Hardwire Base**, for use in the city of Chicago which has a factory installed base raceway that is designed specifically for field installed hardwiring.

Note: When ordering the Powered Base (P1) Electrical option, PowerPac Duplexes, Harnesses, and Base Feeds must be specified separately. When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician, and no PowerPac components should be specified.

Fabric

For fabric orientation, refer to the table located in the Fabric Planning section.

Note: When specifying different fabric grades on opposite sides of a panel, use price of higher fabric grade. For COM, use Grade 1 for fabric pricing.

Full Open and Full Glazed Panels – TA Series

Glazed Panels have a single pane of plexiglass or tempered glass centered in the panel. All TA Panels feature a base raceway for power and data capability. Full Open and Full Glazed Panels are Class A fire rated with tempered glass.

Electrical

There are three baseline electrical options:

- **S - Standard Base**, which accepts PowerPac Electrical components (specified separately).
- **P1 - Powered Base**, which has Powerpac Blocks factory installed in the base raceway.*
- **H - Hardwire Base**, for use in the city of Chicago which has a factory installed base raceway that is designed specifically for field installed hardwiring.*

*** The Powered Base (P1) and the Hardwire Base (H) are only available with TA Series Panels 24" (610)-wide and wider. Panels narrower than 24" (610) accept pass through power only.**

Note: When ordering the Powered Base (P1) Electrical option, PowerPac Duplexes, Harnesses, and Base Feeds must be specified separately. When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician, and no PowerPac components should be specified.

Choices Glass Stacker

The Choices Glass Stacker attaches to the top of a Choices Tackable Acoustical Panel to increase the height of the panel and to provide see-through capability. The Stacker has a single pane of plexiglass or tempered glass centered in an all metal frame. The Glass Stacker includes all hardware needed for attachment to the panel.

Note: Glass Stackers are nonload bearing.

Note: Only one Glass Stacker is permitted per Choices Panel.

Choices Panel Compatibility Kits

The Compatibility kits assure a clean connection from the Original Choices panel to the new Enhanced panel. Selection of the kit depends on the finished look you desire.

The Original Choices Panel to Enhanced Panel Compatibility Kit

utilizes the new base trim detail for a cleaner finished look, especially in corner and 3-way conditions. The Original installed panel must be taken down to change out the glide housing. The Kit includes one new Enhanced style glide housing and two base covers.

Vinyl Door Sections

The Vinyl Door Sections are designed to be used with all Choices Panels. The 80" (2032)-high door is surfaced with a durable, abrasion-resistant vinyl and is available in both 30" (762)- and 36" (914)-widths. The Door Section replaces a 36" (914)- or 42" (1067)-wide panel. The door is shipped with right- or left-swing as specified, but is field reversible.

Note: A 42" (1067)-wide door frame/36" (914)-wide door (VDSR42A or VDSL42A) is required to meet the 32" (813) ADA clearance requirements.

Price includes door, F10 Satin Chrome Orb. Passage Set, top cap, side rails, threshold, leveling glides, hinges and one floor gripper.

Lock Option:

The F10 Satin Chrome Orb Passage Set is standard with a vinyl door section. Optional passage and lock set include the Orb. Satin Chrome Lockset (OL), the Lever Satin Chrome Passage Set (LN), and the Lever Satin Chrome Lockset (LL).

Note: Doors can only be used with 84" (2134)-high panels.

The hinge side of the door must be 18" (457) or closer to a panel system corner condition.

Specify LN and LL Locksets for ADA compliance.

Choices System Sliding Door

The Choices System Sliding Door has a metal frame with frosted plexiglass in the center to provide visual privacy. The door is 2" (51) thick so it will not take up valuable floor space.

The Sliding Door attaches to a Choices Panel that is 42" (1067) wide and covers a 36" (914) wide opening. An Integral door stop, allows the door to close against a panel, corner condition or structural wall. The pull option on the door matches the Pack storage. The handle is on the outside of the door and

a steel insert serves as the handle inside the office.

The Sliding Door does not lock.

Choices Sliding Door Jamb

The Sliding Door Jamb is an optional part that provides a channel for the edge of a closed door to slide into, providing a more finished, door-like appearance and functionality. It attaches to the side of an adjacent panel. Specify a right hand jamb for a right hand door, or left hand jamb for a left hand door.

Filler Panels Vinyl or Fabric

Filler Panels, designed to be used with all Choices Panels, are used when conditions will not accommodate a standard-width panel or to compensate for uneven wall conditions. The panel has a vinyl or fabric surface laminated to a wood frame and a foam core. One end of the panel can be cut vertically to desired panel width; the other end is fitted with a standard side rail for hinged attachment to adjacent panels. The Filler Panel can be cut down to a minimum of 4" (102)-wide. Filler Panel has a base channel for cable management and power pass through, but

cannot accept power duplexes. Includes wall channel for mounting Filler Panel to an existing structure.

Note: Adjustable Wall Starter Rail not required.

Fabric

For fabric orientation, refer to the table located in the Fabric Planning section.

Note: When specifying different fabric grades on opposite sides of a panel, use price of the higher fabric grade. For COM and Vinyl, use Grade 1 fabric pricing.

Choices Frameless Screen

The Frameless Screen can be mounted to the top of any Choices TA Panel. Extruded aluminum mounting hardware is included to support the screen. Mounting hardware color will match the top cap trim color. The screen is available in two heights. Screen height will line up with a standard panel height; for example, a 36"-high panel with a 12" screen will line up with a 48"-high standard panel.

Panel Topper Acrylic Screen

The Panel Topper Acrylic Screen attaches to any Choices Panel – monolithic, fabric, vinyl or glass. The Panel Topper attaches over the existing top cap and requires no field drilling. The acrylic screen is available in either Clear or Frosted Plexi and includes attachment hardware. Foam pads to protect the finish of the panel are included with the attachment hardware.

Note: The actual screen acrylic width is 5/8" shorter than nominal.

Note: Panel Topper Screens cannot attach behind steel overhead flipper units or on return panels next to any overhead storage unit.

Screen size	Number of Brackets
24" – 42"	2
48"	3
60"	4

Screen Alignment Clip

The Screen Alignment Clip is used in a straight line condition to assure straightness from one Panel Topper Screen to another. The Clip comes with foam pads and slides over the acrylic. It is available in all Trendway Trim colors.

Three-Way Cover

The Three-Way Cover encloses the opening in a straight three-way panel configuration and can conceal wires routed vertically. The cover can be surfaced in either vinyl or fabric. Price includes the cover as well as the required metal top cap and plastic base insert. This three way cover can be used with any Choices TA Series panel combination.

90 Degree Cover

The 90 Degree Cover encloses the opening in a 90 degree outside corner panel configuration and can conceal wires routed vertically. The cover can be surfaced in either vinyl or fabric. Price includes the cover as well as the required metal top cap and plastic base insert. This ninety degree cover can be used with any Choices TA Series panel combination.

For fabric orientation, refer to the table located in the Fabric Planning section.

Note: For COM pricing, use Vinyl pricing.

Four-Way Top Cap

The Four-Way Top Cap encloses the center opening where four Choices panels attach to each other at 90 degrees. The metal top cap is available in all finish options.

Adjustable Wall Starter Rail

The Adjustable Wall Starter Rail attaches panels to structural walls. This starter rail is adjustable to compensate for uneven walls. No panel hinge is needed to connect this piece to the Choices Panel.

Note: It is the responsibility of the dealer or installer to obtain the correct type of fastener for specific, existing wall conditions.

Note: For TrendWall applications, see the Architectural Walls price list.

Square Slot Covers

Slot Covers easily insert into side rails for maximum visual and acoustical privacy. Slot Covers come in 250' (76 meters) rolls and are available for field installation only.

Panel Hinges

Panel Hinges attach one panel to another in any configuration. Hinges are 20^{5/8}" (524)-long (three fit a 66" [1676] panel per side) and are easily field trimmed. Packaged in boxes of 50.

Note: The required quantity of hinges is included in each panel order; order Panel Hinges (H20) only when additional hinges are required for re-configuration.

Hinge/Glide Tool

The Hinge/Glide Tool is used to install Panel Hinges and Slot Covers. Use it also to adjust glides on panels, end panels, and pedestals.

Available in Black only.

Electrical & Communications Planning 48

Electrical Specification Guide 51

Electrical & Data Components 55

ELECTRICAL AND COMMUNICATIONS PLANNING

Power and Data Features and Capabilities

Choices offers base capability for accessing power and data in workstations. Choices Panels allow the distribution of power and data cables horizontally for access at baseline in TA Panels. Power can be distributed at the base using PowerPac® components. Hardwire raceway capabilities are also available at baseline only. Certain PowerPac Electrical components may be specified as factory installed in Choices Panels to simplify electrical planning and installation. PowerPac Electrical components can also be specified separately for field installation in non-powered panels.

The PowerPac Electrical System offers the power and flexibility of an 8-wire, four circuit system. PowerPac components are simple to specify and install. Each component is complete and sized for the panel where it will be used. PowerPac Blocks snap into place, with no tools required.

The PowerPac Electrical System is built to the requirements of the National Electrical Code and has not been approved for use in the City of the Chicago. For those cities and outlying areas required to abide by the Chicago Electrical Code, we offer an optional Hardwire Base raceway for use in TA Series Panels 24" (610) to 60" (1524)-wide. Follow the National Electrical Code (NEC) or other local, state or national codes.

Note: For Choices Panels manufactured before August 1990, contact Trendway Customer Care for assistance in specifying compatible PowerPac Electrical components.

Power and Data Locations

- The maximum number of power and/or data ports that can be used with a 30" (762) and wider TA Series Panel is 2 ports per panel side at baseline.

Note: 12" (305) and 18" (457) panels have pass through capability only; 24" (610) panels include 1 port per side at baseline.

Legend

- Electric
- - Communications

Note: Panel run Returns not shown.

Distributing Power

- PowerPac Harnesses are used to route power through the panels.
- PowerPac Blocks attach to the base using the Panel's Base Tee.
- The Hardwire Base is a factory installed baseline raceway option that accepts field-installed electrical hardwiring and is approved for use in the City of Chicago and outlying areas requiring hardwiring. The Hardwire Base Raceway consists of two additional steel raceways and two end caps that are added to each panel.

All electrical routing must be hardwired within the panel raceway by a certified electrician. The electrician provides all hardwired electrical components needed. For additional information on Chicago code projects, please contact a Trendway Customer Care Representative.

Note: When specifying the Hardwire Base option, no PowerPac components should be specified.

Distributing Data

- Data cables can be routed through TA Panels at the baseline.
- Communication Modules snap into an open duplex location.

Cable Capacity for Trendway Choices Panels

Cable Type	CAT 5E	CAT 6	25 Pair
	.220 (3/16" dia.)	.250 (1/4" dia.)	.375 (3/8" dia.)
Base without electrical (TA)	50	44	20
Base with electrical (TA)	16	8	4
90 degree corner pass thru	40	21	16
Tele-com power pole without ceiling power feed	42	31	16
Tele-com power pole with one ceiling power feed	36	23	14

POWERPAC ELECTRICAL AND DATA COMPONENTS

Components used in designing and specifying the modular electrical system are PowerPac Blocks, Harnesses, Base Feeds, Ceiling Feeds, Duplexes and Tele-Com Power Pole. All Choices PowerPac Electrical components are UL and CUL Listed/CSA Certified.

The following information provides a description of each PowerPac component:

PowerPac® Blocks

PowerPac Blocks may be ordered for field installation or as a factory installed option in a pre-powered panel produced after August 2004.

- PowerPac Blocks provide power access on both sides for up to two snap in Power Duplexes per side.
- 24" (610) PowerPac Block (PPB24) is a single distribution block to accommodate up to two power duplexes (maximum one per side). 24" (610) Blocks may be factory installed or may be used in 24" (610)-wide panels, or may be used for field installation in 24" (610) to 60" (1524)-wide panels to fill a single duplex location.
- 30" (762), 36" (914), 42" (1067), 48" (1219) and 60" (1524) PowerPac Blocks (PPB30-PPB60) have two distribution blocks to accommodate up to four power duplexes (maximum two per side).
- PowerPac Blocks have four end ports (two per end) where up to four PowerPac Harnesses can be plugged in.

Note: If PowerPac Blocks are required for installation in the baseline of Choices Panels manufactured prior to August 2004, please contact Customer Care for assistance.

Female/Female

PPB36-PPB60
36" to 60" width

PowerPac Harnesses

Harnesses distribute power horizontally from one panel to another and/or distribute power vertically from the panel base to the beltway. There are two different types of PowerPac Harnesses, the Block-to-Block Harness and the Extension Harness:

- **Choices PowerPac Block-to-Block Harness (PBH)** is used to connect PowerPac Blocks to one another. It has a swivel at one end to distribute power around 90° bends. PBH18 Harnesses and longer will span 3-way and 4-way conditions.

Male

PBH18-PBH90

- **PowerPac Extension Harness (PPH)** is used to extend between a PowerPac Block and the Block-to-Block Harness. PPH24 Harnesses and longer will span 3-way and 4-way conditions.

Male

PPH12-PPH144

Note: PowerPac Harnesses do not accept PowerPac Power Duplexes (PD Series), Base Feed Hardwire (BFH) or Base Feed Plugs (BFP).

Base Feeds

The Base Feed installs into a PowerPac Block to feed power from the building's electrical system. These are four different types of Base Feeds: Hardwired, Plug, New York City and End Mount.

- **Hardwired Base Feed (BFH)** installs into one duplex location in a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit base feed to the building's electrical system. Can be used in right- or left-hand installation requirement.

BFH

- **Base Feed Plug (BFP)** installs into one duplex location in a Power Block. It includes 2' (610) and 20-amp plug for powering Circuit I only. Can be used in right- or left-hand installation requirement.

BFP

- **New York City Base Feed (BFHNY)**

installs into the end of a Power Block. It includes 1 1/2' (457) of flexible conduit for hardwiring the standard 4-Circuit base feed to the building's electrical system as required by New York City.

Male

BFHNY

- **End-Mount Base Feed (EBFH)**

installs into the end of a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit base feed to the building's electrical system.

Male

EBFH

Ceiling Feed

The Ceiling Feed (CFTP) supplies power from the ceiling to the PowerPac system. The feed is channeled through the Tele-Com Power Pole. It has 13' (3962) of wire and 12' (3658) of flexible conduit.

Male

CFTP

Tele-Com Power Pole

The Tele-Com Power Pole (TCP) is used to channel PowerPac electrical components and communication cables by attaching to all panel side rails at end conditions and two-, three- and four-way 90° corner conditions.

TCP120-TCP144

POWERPAC ELECTRICAL AND DATA COMPONENTS (Cont.)

Power Duplexes

The Power Duplex plugs into PowerPac Blocks for access to the circuit. There are nine different duplexes that are used to create three different 4-Circuit options (See PowerPac Electrical Circuit Planning section). Each Power Duplex is color coded and marked to distinguish whether it is a general, dedicated or isolated circuit.

Circuits are marked with the following symbols: I, II, III, IV, I, II, III, III, IV. Power Duplexes need to be specified separately to match electrical circuit plan.

PD1-PD4A

USB Duplex

The USB duplex plugs into a PowerPac Block for access to the circuit. Each duplex provides 2 amps, one amp per port of charging power. Each USB Duplex is marked to distinguish its specific circuit. Circuits are marked with the following symbols: I, II, III, or IV. USB Duplexes need to be specified separately to match the electrical circuit plan.

Communication Modules

The Communication Module snaps into an open duplex location in the base and at the beltway providing access to communication distribution.

CM552

CM553, CM553BW, CM554

CM555

Baseline and Beltway Electrical and Communication Module Locations

For pre-powered Choices Panels, PowerPac Blocks will be installed in the baseline and/or the upper level of the beltway. Field installed PowerPac Blocks and Communication Modules may be installed in the baseline and/or both levels of the beltway.

SPECIFYING POWERPAC ELECTRICAL FOR PRE-POWERED PANELS

The following step-by-step guide illustrates how to specify pre-powered Choices Panels and connecting electrical hardware for standard applications. For more complex electrical specification tips see the Advanced Electrical Planning Guidelines on the next page.

Step 1 Understand Number of Available Power Duplex Locations per Panel Type.

TA Series Panels - Fig. A

12"-18" Panels – Pass Through Only	24" Panels – One Duplex Per Side	30"-60" Panels – Two Duplexes Per Side
--	--	--

Step 2 Specify Panels with Pre-Powered Electrical Option

TA Panels – P1 Option

When the Powered Base Option P1 is specified on TA Choices Panels, Power Blocks will be factory installed in baseline locations (Fig. A).

Eg: TA3662A.P1.O5O.O5O.G.G.SA

Step 3 Connect Powered Panels

When two powered 24" wide Choices panels are connected together with no 2-way, 3-way or 4-way intersection between, the PBH *needs* to be a **PBH15**. For all other standard panel-to-panel electrical connections specify the **PBH18** PowerPac Block to Block Harness at the base and/or beltline.

For all standard 180° Extended, 2-way 90°, 3-way, and 4-way panel electrical connections, specify the **PBH18**.

Step 4 Specify Base Feed, Power Duplexes and Communication Modules to Complete Electrical Installation

Available components are described in the PowerPac Electrical and Data Components section.

ADVANCED ELECTRICAL PLANNING GUIDELINES

This section builds upon the steps described previously in Specifying PowerPac Electrical, for more complex applications.

Passing Electrical Through a Non-Powered Panel

Use the following illustration and table to determine the correct PowerPac Block-to-Block Harness to connect two powered panels separated by a non-powered panel.

Pass-Through Panel Width	PBH Length
12"	PBH30
18"	PBH36
24"	PBH42
30"	PBH48
36"	PBH54
42"	PBH60
48"	PBH66
60"	PBH78

PBH Length = Pass-Through Panel Width + 18"

Passing Electrical Through Multiple Non-Powered Panels

Use PowerPac Block-to-Block Harnesses PBH in combination with Extension Harnesses PPH to pass through multiple panels. PBH and PPH lengths are determined by application.

To determine total harness length needed, add the pass-through panel widths together and add 18". When the total harness length needed exceeds the longest PowerPac Block-to-Block Harness length available (PBH90 equalling 90" long), use one PBH in combination with one or more PowerPac Extension Harness (PPH) to equal the total harness length needed.

Total Harness Length = A + B + 18" = PBH length + PPH length

(eg: 48" + 48" + 18" = 114" = PBH90 + PH24)

Note: When connecting PowerPac Extension Harnesses (PPH) to Block-to-Block Harnesses (PBH), the connection must be made in the baseline or beltway locations due to space requirements.

Integrating Communication Modules with Baseline and/or Beltway Electrical

- Order PPB24 Single Power Block
- Order PBH Harness to connect to the next panel's Power Block

Use the following illustration and table to determine the correct PowerPac Block-to-Block Harness length when bypassing a Communication Module.

Panel Width	PBH Length
30"	PBH24
36"	PBH30
42"	PBH36
48"	PBH42
60"	PBH54

$$\text{PBH Length} = \text{Panel Width} - 6"$$

Integrating Communication Modules with Baseline and/or Beltway Electrical for More Complex Applications

To determine PowerPac Block-to-Block Harness lengths for more complex applications, use the diagram and formula below.

$$\text{PBH Length} = A + B - 30"$$

(eg: 48" + 36" - 30" = 54" = PBH54)

Compatibility of Electrical Components with Panels Produced Prior to and After August 1, 2004

Choices Panels and PowerPac Electrical Components manufactured after August 1, 2004 are compatible with Panels produced prior to that date. Compatibility is as follows:

- As of 8/1/04, Choices PowerPac Blocks have been modified and can only be used in Choices Panels manufactured beginning 8/1/04
- Electrical components produced prior to that date (including PP4 and PP2 PowerPac Blocks) can be used in Choices Panels manufactured after 8/1/04
- PowerPac Blocks are now common in both baseline and beltway locations.

The following illustrations and tables show how to combine panels with old and new electrical. For additional electrical connection conditions, refer to www.trenddealer.com or contact a Trendway Customer Care Representative.

Connecting to Pre-August 2004 Choices Panels Standard Baseline Connections

Standard Block-to-Block connections in the baseline can be made using the PBH18 Harness. PP4 and PP2's can also connect directly to PPB's in a new panel.

$$\text{PBH Length} = \text{Pre-Aug. '04 Panel Width}$$

The PowerPac Electrical Circuit Planning and Hardwiring to Building Electrical Source

The PowerPac Electrical System is an 8-wire, four circuit system including a dedicated neutral and ground. Each circuit is rated for 20 amps. The PowerPac Electrical Schematic is included to show how the system installs to the building's power source (Fig. 1). There are three - four circuit options which include:

- Three general circuits, one dedicated circuit (Fig. 2).
- Three isolated circuits, one dedicated circuit (Fig. 3).
- Two general circuits, two isolated circuits (Fig. 4).

PowerPac Blocks

PowerPac Blocks are for use with base-line and beltway electrical. They serve as a housing for distributing electricity to Power Duplexes. Blocks can distribute up to four 20-amp circuits through a modular eight-wire electrical system.

The PPB24 is a single Block the PPB30 is a set of two Blocks, and the PPB36-PPB60 is a set of two Blocks connected with a harness.

UL and CUL Listed/CSA Certified.

Note: Order Power Duplexes separately.

Choices PowerPac Block-to-Block Harness

Choices PowerPac Block-to-Block Harnesses connect PowerPac Blocks to one another and may also be used in conjunction with PowerPac Extension Harnesses when extra length is required. The Choices PowerPac Block-to-Block Harness distributes power horizontally from one Choices panel to another and/or distributes power vertically from the baseline to the beltway. The Choices PowerPac Block-to-Block Harness has a swivel at one end to allow for 90° corner

installation. The Harness will span 3-way & 4-way conditions.

UL and CUL Listed/CSA Certified.

Note: Choices PowerPac Block-to-Block Harness does not accept Power Duplexes, Base Feed Hardwire (BFH) or Base Feed Plugs (BFP).

PowerPac Extension Harnesses

The PowerPac Extension Harness is designed to be used as an extension between a PowerPac Block-to-Block Harness and a PowerPac Block. The Extension Harness will span 3-Way and 4-Way conditions.

UL and CUL Listed/CSA Certified.

Note: PowerPac Extension Harness does not accept Power Duplexes, Base Feed Hardware (BFH) or Base Feed Plugs (BFP).

Power Duplexes

The Power Duplex plugs into PowerPac Blocks for access to the circuit. Power Duplex is clearly marked for Circuit I, II, III, IVΔ, IΔ, IIΔ, IIIΔ, ΔIIIΔ or IV access. See PowerPac Electrical Components and PowerPac Electrical Circuit Planning for guidelines on specifying PowerPac Duplexes. Packaged in boxes of six of the same duplex.

UL and CUL Listed/CSA Certified.

Note: Order PowerPac Blocks separately.

USB Duplexes

The USB duplex plugs into a PowerPac Block for access to power circuits. These duplexes provide a place to charge devices via a USB charger. Each Power Duplex is marked to indicate Circuit I, II, III, or IV.

These are available for order in quantities of one, or a box of six of the same circuit. USB duplexes are UL Listed and CUL Listed. They must be installed in PowerPac Blocks only.

PowerPac Block Port Cover

PowerPac Block Port Covers are used to cover the end of a PowerPac Block when required by electrical code. Packaged in boxes of 20.

Base Feeds

The Base Feed plugs into a PowerPac Block to feed power from the building's electrical system. The BFH Hardwired Base Feed has 6' (1829) of flexible liquid tight conduit for hardwiring the standard four-circuit system. The BFP Base Feed Plug has a 2' (610) cord and 20-amp plug for powering Circuit I only. Either feed accommodates right or left-hand installation requirement.

Note: Some cities may require base feeds to have a metallic seal tight conduit.

Consult an electrical inspector in your area for code requirements. If a metallic seal tight conduit is required, contact Trendway's Custom Solution Team.

UL and CUL Listed/CSA Certified.

Note: Order PowerPac Blocks separately.

Available in Black only.

New York and San Francisco Base Feed

The BFHNY New York City and BFHSF San Francisco Base Feed plugs into the end of a PowerPac Block to feed power from the building's electrical system. New York has 1 1/2'(457) and San Francisco has 6' (1829) of flexible conduit for hardwiring the standard four-circuit system.

UL and CUL Listed/CSA Certified.

Note: Order PowerPac Blocks separately.

Available in Black only.

End-Mount Base Feed

The End-Mount Base Feed plugs into the end of a PowerPac Block to feed power from the building's electrical system. It has 6' (1829) of flexible liquid tight conduit for hardwiring the standard four-circuit system.

UL and CUL Listed/CSA Certified.

Note: Order PowerPac Blocks separately.

Available in Black only.

Tele-Com Power Poles

The Tele-Com Power Pole channels power **and** communication cables by attaching to all panel side rails at end conditions and two-, three- and four-way 90° corner conditions. Pole TCP120 is for ceilings up to 9'6" (2896)-high; TCP144 is for ceilings up to 11' 6" (3505)-high. Price includes attachment hardware.

Note: To connect PowerPac system to ceiling power, order CFTP Ceiling Feed for Tele-Com Power Pole separately.

Note: Cable capacity of 40 category 5e

cables with CFTP electrical; 52 category 5e cables without electrical.

Ceiling Feed

The Ceiling Feed supplies power from the ceiling to the PowerPac system. The feed is channeled through the Tele-Com Power Pole. Ceiling Feeds are available in two lengths: the CFTP which has 13' (3692) of wire and 12' (3658) of flexible conduit when fully extended and is intended for use with the 10' (3048) Tele-Com Power Pole TCP120, and the CFTP144 which has 15' (4572) of wire and 14' (4267) of flexible conduit when fully extended and is intended for

use with the 12' (3658) Power Pole TCP144. Ceiling Feeds include junction box and attachment hardware.

Tele-Com Power Pole Divider

The Tele-Com Power Pole Divider allows a Power Pole to be divided vertically into two separate channels for power and data cables.

The steel divider consists of two (2) 60" parts for a total 10' of vertical division. If used with a 12' Power Pole, a 2' section of the Pole will remain undivided.

Communication Modules

The Communication Module snaps into an open duplex location in the baseline and at the beltway. It provides access to communication cables. Jacks are color coded as noted below. Includes icon tabs for easy identification of Data, Phone, Voice, and LAN (Local Area Network) lines.

Note: Verify your configuration with your building telecommunication contractor.

Note: All modules can be installed back to back.

Note: The RJ11 Jacks are rated category 3. The RJ45 Jacks are rated category 5e.

Electrical Contact Covers

The electrical contact cover is a protective piece used to help in installation or reconfiguration of electrical hardware. It is constructed of black plastic. This cover goes over the contact points of a live Base Feed Harness (BFH/CBFH) or the inside contacts (where the duplex snaps in) of a Power Block (PPB) to avoid any unwanted power transfers. Packaged in quantities of 20.

Choices Component Overview

Choices Components include the elements needed to complete a workstation once panels and electrical have been installed. Components include work surfaces, keyboard mechanisms, flipper door and shelf units, task lights, tackboards, marker boards, and paper management. Some of the components offered are pictured below.

The Choices System has a 29" (737)-high nominal work surface height. Work Surface Support Legs, End Panels, and under work surface storage components are designed to provide height adjustment around this 29" (737) nominal work surface height. These components do not support positioning of work surfaces at other heights. However, some work surfaces can be positioned at other heights by using Work Surface Supports and/or Brackets. See Work Surface Support Planning for proper application.

Standard Features and Finishes

Choices Work Surfaces and Counter Caps have high-pressure laminate surfaces, and are available with either vinyl or wood edge. Wood-trimmed products aesthetically match panels with wood top caps. Other Components are available in Trendway trim colors unless otherwise noted. See individual component descriptions for trim color options.

Choices Work Surfaces manufactured as of August 2004 have a 5/8" (16) gap between the back edge of the work surface and the panel face, designed

for enhanced cable. Factory-installed back edge grommets are available as an option on most Work Surfaces.

Beginning August 2004, work surface supports must be specified separately to ensure proper work surface support for each application. See Work Surface Support Planning on the following page for further details.

Specifications

All dimensions listed are nominal unless otherwise noted.

Special Products

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description and size. For example, SCC2414 represents a **Straight Counter Cap, 24"** (610)-wide by **14"** (356)-deep.

The acknowledgment you receive from Trendway will follow the sequence of information outlined below. Trendway strongly encourages you to follow the same steps so that checking your order against the acknowledgment will be the easiest possible way.

When ordering Work Surfaces, list the following:

1. Quantity (combine same products)
2. Complete Part Number (see Sample Part Number at the bottom of each page for correct order sequence)
3. For ease of reading, place a period between each option number (DWS3072.GY.Y.JP9.Y.Y)

Work Surface Support Planning

Work surfaces in this section are not designed to be freestanding. All Trendway work surfaces are shipped without supporting hardware except for Peninsula Work Surfaces, Corner Transaction Work Surfaces, and Extended Conference Radiused Work Surfaces which all include a support leg(s) only.

All other support hardware must be ordered separately. This allows the specification of the appropriate hardware based upon the desired planning condition while keeping overall workstation costs to a minimum.

These support planning guidelines should be followed carefully to ensure proper work surface support. The following examples illustrate typical applications of Trendway work surface support methods. If you have further questions, please contact Trendway Customer Care with questions regarding planning guidelines.

Work Surface Supports

Work Surface Supports are field installed for left, right, left shared or right shared applications. The shared supports can be used at the meeting point of two adjacent work surfaces. As a rule, left supports are hung from a panel's left side rail and right supports are hung from a panel's right side rail.

With the exception of the Extended Conference Work Surface either a left-hand or right-hand shared support may be used at any meeting point of two work surfaces.

Work Surface Brackets

Work Surface Brackets are used to provide support at the end of the work surface when it is next to return panels that are the **same depth** as the work surface. **When using a 30" (762)-deep work surface with return panels, the return panel width must match the work surface width, and a Work Surface Bracket must be used to support the front corner of the work surface.** A Work Surface Bracket must be specified to support the back corner of all corner work surfaces. Work Surface Brackets are available in left or right hand versions, or in pairs (Fig. B).

Work Surface Support Legs

Work surface support legs are used to support the end of Peninsula Work Surfaces, Corner Transaction Work Surfaces, and Extended Conference Radiused Work Surfaces. There are two work surface support leg styles: the 4" (102) diameter, 29" (737) adjustable-height center Support Column, available in trim color and the 29" (737)-high by 2" (51) diameter Straight Legs with height adjustable glides available in trim color with a black cover at the base. The Support Column provides a 4" (102) height adjustment and the Straight Legs provide a 3³/₄" (95) height adjustment.

Flush Support Plates

Flush Support Plates are used to connect a work surface that extends from an adjacent work surface up to 72" (1829)-long at the same level. A Peninsula Work Surface at a 90° angle to a panel-hung work surface is one example of its use.

Planning Work Surfaces with Reinforcement Bars

Work Surfaces with Reinforcement Bars extend your planning options. They provide the strength and rigidity needed for applications where the top will be unsupported for a span of more than 48". These Work Surfaces can be used as Rectangular Peninsulas supported by the Trig/Capture U Leg. They can also be combined with U legs to create stand-alone desks or tables. Those are the only applications where the Reinforcement Bars are required. These Work Surfaces match the top thickness of all Trendway systems surfaces (Fig. E).

Work Surface End Panels

Work Surface End Panels attach to panel side rails and the work surface to provide maximum support and stability at 29" (737)-height.

Work Surface End Panels must match the depth of the work surface (Fig. F).

Work Surface Support P Legs

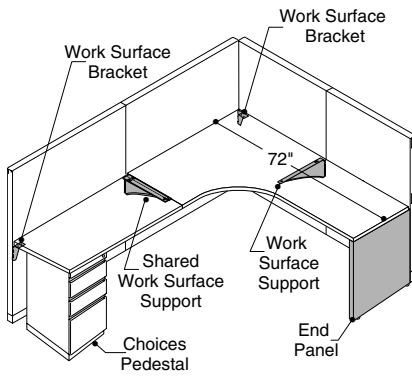

Work Surface Support P Legs attach to panel side rails and the work surface to provide support and stability at 26" (660) or 29" (737)-high. The 19" (483)-deep legs are used on 24" (610) work surfaces and the 29" (737)-deep legs are used on 30" (762)-deep work surfaces. (Fig. F).

Determining Work Surface Support Requirements

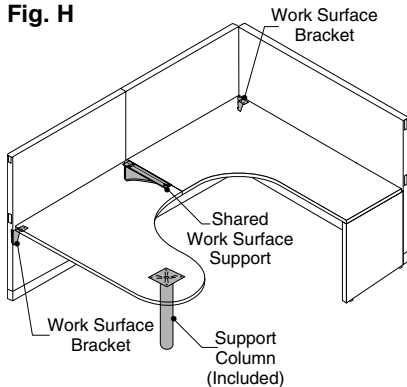

- Order 1 Shared Work Surface Support (WSSLs or WSSRS) at each location where two work surfaces meet in place of two individual work surface supports (Fig. A).
- Order 1 additional Work Surface Support (WSSL or WSSR) on work surfaces that span more than 60" (1524) to provide necessary work surface support.
- Order 1 Work Surface Bracket (WSBKR or WSBKL) when using a Choices Floor Supported Pedestal or File Center as a floor supported element. See Panel Planning section for details.

Fig. G

- Order 1 Work Surface Bracket (WSBKR or WSBKL) for each Corner Work Surface specified (Fig. G).
- Order 1 pair of Work Surface Brackets (WSBKP) per end when work surface ends are adjacent to return panels (Fig. B).
- Order 1 End Panel (ENP) (Fig. H) in place of a return panel where permitted (see Panel Layout Planning in the Choices Panels section for more information).

Fig. H

Component Capacities

Trendway Corporation will not, under any circumstances, guarantee or assume responsibility for loading performance beyond the basic individual component capacities given below.

Work Surfaces:

1.5 lbs. (.675kg) uniformly distributed per linear inch of perimeter of the work surface.

Maximum distributed load = $(A+B+C+D) \times 1.5$ lbs.

200 lbs. (90kg) maximum concentrated load per work surface.

Counter Caps:

2.8 lbs. (1.26kg) per linear inch, uniformly distributed.

Flipper Door Unit:

- A. Inside — 165 lbs. uniformly distributed.
- B. Top — 120 lbs. uniformly distributed.

Storage Shelves:

2.8 lbs. (1.26kg) per linear inch of usable space.

Components Glide Adjustment Ranges:

- End Panels — 1" (25)
- Support Columns — 4" (102) (Work surface height range 27³/₄" [705] - 31³/₄" [806])
- Straight Legs — 3³/₄" (95) (Work surface height range 27³/₄" [705] - 31¹/₂" [800])

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to our product or if the capacities referenced are exceeded.

Check panel stability after installation is complete and hanging furniture components are loaded. Add support legs or supporting panels or both to insure stability.

Back Edge Grommets

All panel hung work surfaces have a nominal 5/8" (16) gap between the back edge of the work surface and the panel face, designed for enhanced cable management. Back Edge Grommets are available as an option when additional pass through capability is needed.

Note: Back Edge Grommets are not needed in most TA Panel applications because the 5/8" (16) gap and flex of the panel face allow electrical cord plug caps to pass between the panel and the work surface. (Exception: when an

"L" shape configuration is created with two panel-hung work surfaces, the 5/8" gap will not be present in the entire configuration.) Back Edge Grommets are recommended when work surfaces are hung from the following panels:

- Half Open and Half Glazed Panels - TA Series

Back Edge Grommet color can be specified in any trim finish color.

Standard Back Edge Grommet locations are pictured below. Other grommet configurations may be available as a special order. Contact Trendway Custom Solutions for more information.

Rectangular Work Surfaces

The Rectangular Work Surface has a high-pressure laminate top with a vinyl edge. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a nominal 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section.

Additional work surface sizes are available in the electronic catalog in 1" width

increments for all standard depths.

All supports for the Rectangular Work Surface must be ordered separately. Rectangular Work Surfaces 66" (1676) and 72" (1829)-wide require an additional intermediate support along the width of the work surface. Shared Work Surface Supports are also recommended at all work surface junctions to lower work station costs. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Note: These work surfaces are not sized for use on Lateral Files or other storage units. Lateral File Tops are available in the Filing and Storage price list. For other non-standard sizes, consult Trendway Custom Solutions.

Corner Wedge Work Surface

The Corner Wedge Work Surface, creates a straight edge in the corner where two rectangle work surfaces meet. It has a high pressure laminate top and a vinyl edge along all three sides.

The Corner Wedge Work Surface comes with the supporting flat brackets and is predrilled.

Rectangular Work Surfaces with Reinforcement Bars

Rectangular Work Surfaces with Reinforcement Bars have a high pressure laminate top and vinyl edge. They also have reinforcement bars installed into the underside of the Work Surface. These bars provide the rigidity required for use as a freestanding table or as a Rectangular Peninsula supported by U-Legs. Work

Surfaces are nominal 1¼" (32) thick. All supports for the Rectangular Work Surface with Reinforcement Bars (U-Legs, Flush Support Plates, Shared Work Surface Supports) must be ordered separately.

Note: To create a Floor-supported Rectangular Peninsula a Trig or Capture U-Leg must be attached to the work surface. Floor-supported Rectangular Peninsulas that attach

to a panel require Shared Work Surface Supports (WSSLS or WSSRS) for installation. Floor-supported Rectangular Peninsulas that attach perpendicularly to another work surface require the installation of two Flush Support Plates. For additional information on Floor Supported Elements see the Panel Planning section.

Arc Transition Work Surfaces

The Arc Transition Work Surface provides a gradually arcing front edge, transitioning from 24" (610)-deep on one side to 30" (762)-deep on the other. The work surface has a high-pressure laminate top with a vinyl edge, and is available in Right-Hand or Left-Hand versions. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. The grommet location is in the center of any width work surface.

Additional work surface sizes are available in the electronic catalog in 1" width increments for all standard depths.

All supports for the Arc Transition Work Surface must be ordered separately. A Shared Work Surface Support is recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Extended Corner Work Surfaces – Curved and Straight Left-Hand

The Extended Corner Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Curved or Straight version. Work surfaces are nominal 1¹/₄" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section.

Additional work surface sizes are available in the electronic catalog in 1" width increments for all standard depths.

All supports for the Extended Corner Work Surface must be ordered separately. A Work Surface Bracket is required to support the back corner of the work surface. Work surfaces 66" (1676) and longer require an additional intermediate support along the length of the work surface. Shared Work Surface Supports are also recommended at all work

surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

D-Shaped Peninsula Work Surfaces

The D-Shaped Peninsula Work Surface has a high-pressure laminate top with a vinyl edge. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section. Peninsula Modesties are available.

Additional work surface sizes are available in the electronic catalog in 1" length increments for all standard depths.

The D-Shaped Peninsula Work Surface includes a center Support Column. All other support hardware must be ordered separately. A Shared Work Surface Support is recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (WSSLS or WSSRS). For additional information on Floor Supported Elements, see Panel Planning section page 24.

P-Shaped Peninsula Work Surfaces

The P-Shaped Peninsula Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Right-Hand or Left-Hand version. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section. Peninsula Modesties are available.

Additional work surface sizes are available in the electronic catalog in 1" length increments for all standard depths.

The P-Shaped Peninsula Work Surface includes a center Support Column. All other support hardware must be ordered separately. A Shared Work Surface Support is recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (WSSLS or WSSRS). For additional information on Floor Supported Elements, see Panel Planning section page 24.

Arc Peninsula Work Surfaces – Right-Hand

The Arc Peninsula Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Right-Hand or Left-Hand version. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

The Arc Peninsula Work Surface is available with either a 4" (102) diameter height adjustable Support Column or dual 2" (51) diameter height adjustable Straight Legs. Both support options are

available in trim colors. Straight Legs include black, 7 1/2" (191) tall glide covers.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section. Peninsula Modesties are available.

Additional work surface sizes are available in the electronic catalog in 1" length increments for all standard depths.

All other support hardware must be ordered separately. A Shared Work

Surface Support is recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (WSSLS or WSSRS). For additional information on Floor Supported Elements, see Panel Planning section page 24.

Arc Peninsula Work Surfaces – Left-Hand

The Arc Peninsula Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Right-Hand or Left-Hand version. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

The Arc Peninsula Work Surface is available with either a 4" (102) diameter height adjustable Support Column or dual 2" (51) diameter height adjustable

Straight Legs. Both support options are available in trim colors. Straight Legs include black, 7 1/2" (191) tall glide covers.

Back Edge Grommets are available for use in certain applications. For additional information, see Back Edge Grommets in the Choices Components Planning section. Peninsula Modesties are available.

Additional work surface sizes are available in the electronic catalog in 1" length increments for all standard depths.

All other support hardware must be ordered separately. A Shared Work

Surface Support is recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (WSSLS or WSSRS). For additional information on Floor Supported Elements, see Panel Planning section page 24.

Corner Transaction Work Surfaces

The Corner Transaction Work Surface provides a round, extended conference surface at the end of a work surface run.

The Corner Transaction Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Right-Hand or Left-Hand version. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

The Corner Transaction Work Surface includes a center support column. All other support hardware must be ordered separately. A Work Surface Bracket is required to support the back corner of the work surface. The Right-Hand Corner Transaction Work Surface (CTWSR) requires one right hand shared Work Surface Support (WSSRS) and one right hand Work Surface Bracket (WSBKR). The Left-Hand Corner Transaction Work Surface (CTWSL) requires one left hand shared Work Surface Support (WSSLS) and one left hand Work

Surface Bracket (WSBKL). For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Quarter Curved Work Surface

The Quarter Curved Work Surface concludes the end of a work surface run with a 90° arc.

The Quarter Curved Work Surface has a high-pressure laminate top with a vinyl edge, and is available in either a Right-Hand or Left-Hand version. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

All supports for the Quarter Curved Work Surface must be ordered separately. A Work Surface Bracket is required to support the back corner of the work surface. The Right-Hand Quarter Curved Work Surface (QWSR) requires one right hand shared Work Surface Support (WSSRS) and one right hand Work Surface Bracket (WSBKR). The Left-Hand Quarter Curved Work Surface (QWSL) requires one left hand shared Work Surface Support (WSSLS) and one left hand Work Surface Bracket (WSBKL). For additional information, see Work

Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Exterior Quarter Curved Work Surfaces

The Exterior Quarter Curved Work Surface continues a work surface run around an exterior 90° panel configuration by joining the ends of two 24" (610)-deep work surfaces.

The Exterior Quarter Curved Work Surface has a high-pressure laminate top with a vinyl edge. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

All supports for the Exterior Quarter Curved Work Surface must be ordered separately. Two shared Work Surfaces Supports, one right hand (WSSRS) and one left hand (WSSL) are required to support the Exterior Quarter Curved Work Surface. For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

Radiused Conference Work Surface

The Radiused Conference Work Surface provides a shared conferencing surface at the end of two adjacent work stations. Must be attached to two 24" (610)-deep Rectangular Work Surfaces of the same height.

The Radiused Conference Work Surface has a high-pressure laminate top with a vinyl edge. Work surfaces are nominal 1 1/4" (32) thick.

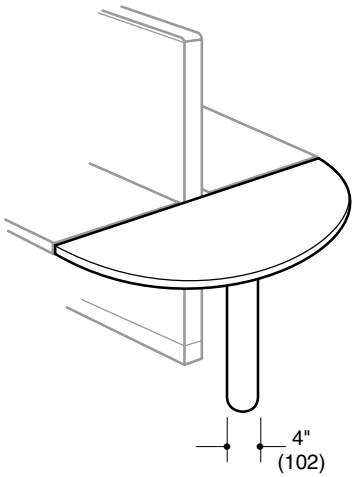

Note: A back edge grommet is available and is recommended when a full height wood end cap is specified in the

location of the radiused conference work surface, or when additional pass through capability is desired. For additional information, see back edge grommets in the Choices Components planning section.

The Radiused Conference Work Surface includes a center Support Column. All other support hardware must be ordered separately. Two shared Work Surfaces Supports, one right hand (WSSRS) and one left hand (WSSL) are required to support the Radiused Conference Work Surface.

For additional information, see Work Surface Support Planning in the Choices Components Planning section. See page 91 to order work surface supports.

COUNTER CAPS

Counter Caps are 1 1/4" (32) thick and have high-pressure laminate tops with either vinyl or wood edging. Price includes counter cap, support brackets, and mounting screws. Support brackets adjust to fit metal and wood top caps.

Straight Counter Caps

The Straight Counter Cap can be used individually or in combination with Radiused Counter Caps, Right Angle Counter Caps and Bowed Counter Caps.

Additional work surface sizes are available in the electronic catalog in 1" width increments for all standard depths.

Bowed Counter Caps

The Bowed Counter Cap is 14" (356)-deep at the ends and 16" (406)-deep at the center, creating a curve on the approach side of the surface. Bowed Counter Caps can be combined with Straight, Radiused and Right Angle Counter Caps to make functional and attractive transaction configurations.

Note: The curve geometry of Bowed Counter Caps varies based on the length of the counter cap selected.

Right Angle Counter Caps

The Right Angle Counter Cap provides a continuous surface to extend around 90° panel configurations.

Radiused Counter Caps

The Radiused Counter Cap has one radiused end and one straight end. The Radiused Counter Cap is designed to extend 6" (162) beyond the panel it is mounted to so that the radiused end extends beyond the end of the panel run. The Radiused Counter Cap can be used individually or in combination with Straight, Right Angle and Bowed Counter Caps to extend the run.

Note: Wood Edge is not available.

Corner Section Top

The Corner Section Top is designed for Panel Hung applications and is used with two Straight or Radiused Counter Caps to form a Corner Counter Cap. A corner counter cap attaches to two panels at a right angle. Order the straight or radiused counter caps 6" (162) less than the panel widths.

Work Surface Supports

Work Surface Supports are available in four different styles – Right-Hand, Left-Hand, Right-Hand Shared and Left-Hand Shared. Right- and Left-Hand supports are used at the end of a work surface run while shared supports are used where two work surfaces meet. Right- and Left-Hand Shared supports can be used interchangeably; however, handed versions are available in the event they may be visible from the end of a work surface run (as with the Extended Conference RADIUS Work Surface). Available in trim colors.

Note: Work Surface Supports are ordered separately for all work surfaces.

Note: Requirements for which support to use are given in the description section for each work surface.

Work Surface Brackets

Work Surface Brackets are used to support the back corner of all Corner Work Surfaces, and to support the end of a work surface that meets a return panel of equal width. Also used to connect back edge of work surface to panel when work surface is supported by Choices pedestal. As a rule, left supports are hung from a panel's left side rail and right supports

are hung from a panel's right side rail.

Note: Requirements for which support to use are given in the description section for each work surface.

Standard finish is Charcoal. Please contact a Customer Care Representative if other trim colors are required.

Flush Support Plates

Flush Support Plates connect a work surface that extends from an adjacent work surface at the same level. Includes two mounting plates and screws. Available in Black only.

Choices Work Surface End Panels

The Choices Work Surface End Panel replaces the standard cantilever support bracket on panel-hung work surfaces to provide additional support and stability. The Choices Work Surface End Panel is non-handed. It can be used in either left- or right- handed applications. Price includes end panel, leveling glides, and attachment hardware.

Trim color refers to the bracketry which attaches the end panel to the systems panel.

Note: To determine where Work Surface End Panels may be used, refer to Work

Surface Support Planning page in the Choices Components Planning section.

Work Surface Support P-Legs

The Work Surface Support P-Leg replaces cantilever and end panel support. Price includes support leg, leveling glide and attachment hardware.

Horizontal Wire Manager

The Horizontal Wire Manager accommodates electrical cords and communication cables. It attaches under all work tops and desks. Includes mounting hardware.

Available in Black only.

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically

and has 26" of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle. Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

Adjustable Tilt Keyboard and Mouse Platform

The Adjustable Tilt Keyboard and Mouse Platform has a 5 1/4" (133) height adjustment range, a low profile keyboard tray and a swing-out mouse platform. The keyboard mechanism features total knee clearance and simple, spring-assisted height adjustment without the use of knobs or levers. The keyboard tray includes a full-width, gel-filled wrist support for comfort and non-slip pads to keep the keyboard in place.

Keyboard tilt allows for a zero-to-negative 10° tilt capability. Keyboard tilt is easily changed by adjusting a sliding switch mounted on top of the keyboard mechanism. Includes mounting hardware. Available in Black only.

CPU Holder – Vertical Mount

The CPU Holder mounts beneath a work surface to provide convenient vertical CPU storage. The holder has sturdy straps that adjust to fit the shape of the computer. The holder extends forward up to 12" (305) and swivels 360°. Supports up to 75 pounds (34kg). Includes mounting hardware. Available in Black only.

Flipper Door Storage Units – Painted or Fabric Front

The Flipper Door Storage Unit is available with either a painted or fabric-covered locking door that stores over the top. The Flipper Door is 15" (381)-deep, and accommodates standard and A4 11⁷/₁₆" x 12⁵/₈" (291 x 321) size binders. The maximum storage height inside the unit is 13¹/₄". Units include a steel door with lock, cover and shelf, and color-matched resin end supports with brackets for mounting to Choices Panels. The shelf is designed with a ⁵/₈" (16) gap along the back to allow cable passage. Optional

factory installed accessories include the Accent Strip and Quarterback.

The Quarterback is a 1¹/₂" (38)-high back stop.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Note: Resin or composite end supports or end panels, accent strips and quarterbacks are not available in textured or premium trim finishes. If textured or premium trim finish is specified, these components will match the standard smooth trim color. For example, if Pebble Frost (FP) is specified these

components will be Pebble (P) in trim finish.

Lock Option

Locks and lock colors can be selected to match any storage offering. Select "CH" for a black Choices lock or "PK" if a silver Pack lock is required. If "RDM" is selected, the unit will ship with a lock and core in place. If "KA" is selected, the unit will ship without a lock or core at a reduced price, and the core/key set must be ordered separately and field installed: LCAK (Choices) or PLCAK (Pack).

Flipper Door Conversion Kits – Painted or Fabric Front

The Flipper Door Conversion Kit converts the Full End Shelf (FES) to a locking Flipper Door Storage Unit with a door that stores over the top. The kit includes a painted or fabric-covered door, steel cover, door mechanism, and attachment hardware.

Note: Flipper Door Conversion Kits (FDC) are not compatible with the RS or CCR series shelves.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Lock Option

Locks and lock colors can be selected to match any storage offering. Select “CH” for a black Choices lock or “PK” if a silver Pack lock is required. If “RDM” is selected, the unit will ship with a lock and core in place. If “KA” is selected, the unit will ship without a lock or core at a reduced price, and the core/key set must be ordered separately and field installed: LCAK (Choices) or PLCAK (Pack).

Laminate Overhead Assembly Tool

The Systems Laminate Overhead Assembly Tool makes assembling laminate overhead products much easier. The tool fits into a power driver chuck and provides a guide for driving the cam pins into laminate surfaces. This tool will save you time during the installation process, and reduce laminate surface chipping.

Laminate Overhead Flipper/Shelf Clip

The Laminate Overhead Flipper/Shelf Clip connects two adjacent Laminate Overhead storage pieces. The clips are recommended to reduce panel run deflection, and keep the gaps between units uniform. Includes six clips per box.

Choices Laminate Overhead Full-End Shelf

The Full-End Shelf consists of a high pressure laminate shelf and end panel with matching vinyl edge. The end supports are 16 1/8" high. The unit includes brackets for mounting to Choices Panels. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Choices Laminate Overhead Half-End Shelf

The Half-End Shelf consists of a high pressure laminate shelf and end panel with matching vinyl edge. The end supports are 8" high. The unit includes brackets for mounting to Choices Panels. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Note: The trim color option refers to the mounting brackets for a half- and full-end shelf.

Note: The Quarterback will match the trim color. It provides a 1 1/2" backstop to protect the fabric behind the half- and full-end shelf.

Choices Laminate Overhead Full-End Cubby

The Full-End Cubby is comprised of a high pressure laminate with matching vinyl edge. The unit is 16 1/8" high and allows for 13 1/2" of vertical storage space. The cubby includes brackets for mounting to Choices Panels. Units that are 48" and 60" wide will have a center divider. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Choices Laminate Overhead Half-End Cubby

The Half-End Cubby is comprised of a high pressure laminate with matching vinyl edge. The unit is 8" high and allows for 5 1/2" of vertical storage space. The cubby includes brackets for mounting to Choices Panels. Units that are 48" and 60" wide will have a center divider. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Note: The trim color option refers to the mounting brackets for a half- and full-end cubby.

Note: The Quarterback will match the trim color. It provides a 1 1/2" backstop to protect the fabric behind the half- and full-end shelf.

Choices Laminate Overhead Flipper Door Unit

The Choices Flipper Door Unit is comprised of a high pressure laminate with matching vinyl edge. The flipper door will accommodate standard and A4 (11 7/16" x 12 5/8") size binders. The unit has a full width locking door and stores over the top with a pull. To avoid the door from closing abruptly a slow close mechanism is available as an option. Units that are 36" to 60" wide will include a center spacer when a lock is specified. Units that are 48" and 60" wide will always include a center divider. Optional factory installed

accessories include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 60" wide units and all locking units.

Choices Laminate Overhead Dual-Hinged Doors

The Dual-Hinged Door is comprised of a high pressure laminate with matching vinyl edge. Each unit has two locking hinged doors that open up. The unit is 16 1/8" high and will accommodate standard and A4 (11 7/16" x 12 5/8") size binders. Units that are 36" to 60" wide will include a center spacer when a lock is specified. Units that are 48"

and 60" wide will always include a center divider. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Note: The trim color option refers to the mounting brackets for a flipper and dual-hinged doors.

Note: The Quarterback will match the trim color. It provides a 1 1/2" backstop to protect the fabric behind the half- and full-end shelf.

Note: Quarterback option required on 60" wide units and all locking units.

Choices Laminate Overhead Full-Height Single-Sliding Door

The Full-Height Single-slider is comprised of a high pressure laminate with matching vinyl edge. The high pressure laminate door has a pull and travels in an aluminum track. Each unit has a center divider so if the door is open or closed there will always be one cubby open and one closed. The unit is 16 1/8" high and can accommodate standard and A4 (11 7/16" x 12 5/8") sized binders. This unit does not lock. All units will have a center divider. Optional factory installed

accessories include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 60" wide units.

Choices Laminate Overhead Half-Height Single-Sliding Door

The Half-Height Single-slider is comprised of a high pressure laminate with matching vinyl edge. The high pressure laminate door has a knob pull and travels in an aluminum track. Each unit has a center divider so if the door is open or closed there will always be one cubby open and one closed. This unit

does not lock. All units will have a center divider. Optional factory installed accessories include a grommet for cord management and a Quarterback.

Note: The trim color option refers to the mounting brackets for a full- or half-height single-sliding door.

Note: The Quarterback will match the trim color. It provides a 1 1/2" backstop to protect the fabric behind the half- and full-end shelf.

Note: Quarterback option required on 60" wide units.

TASK LIGHTS

All Task Lights are ETL Certified.

Note: Fused plug approved for use in the city of Chicago.

Slim-Profile Task Lights

The Slim-Profile Task light has the lowest profile and smallest footprint. The base model includes a 9' (2743) cord that exits in the center, starter switch, fluorescent lamps, prismatic acrylic lens, full-length reflector, energysaving electronic ballast, attachment brackets for mounting under a flipper door or shelf

and screws for mounting to the Intrinsic Freestanding. Color, batwing lenses and fused plug are all options.

LED Task Lights

Ultra slim LED task lights are only 2" (51)-wide, just over 1/2" high and available in 3 widths-17, 31 and 44. They come complete with hardware to attach to both metal flipper doors and laminate freestanding hutches. All LED task lights include a dimmer, 10 hour auto shut off, and a 50,000 hour life span. The unit is anodized aluminum with white end caps. ETL listed.

LED Task Light Complete

The LED Task Light Complete includes the light, mounting hardware and power source. It is the equivalent of a regular fluorescent task light.

LED Task Light Main Power Daisy Chain

The Task light with main power provides the light and mounting hardware plus a 60 watt power supply capable of powering more than one light. The power supply can accommodate a maximum of 60 watts. Please see the chart-for appropriate wattages as to not overload the power supply.

Width	Watts
17	9
31	18
44	25

LED Task Light Daisy Chain Jumper Cord

The LED Daisy Chain Jumper Cord Task Light includes the light and mounting hardware, plus an 8" and 30" jumper cord to attach to another task light. The jumper cord can attach to a Daisy Chain Main Power Task Light or another Daisy Chain Jumper Cord Task Light. Each connected light will have an independent power switch.

LED Task Light Occupancy Sensor

The LED Occupancy Sensor will automatically turn off all interlinked fixtures after 30 minutes of no movement. One occupancy sensor can 'control' all the lights that are daisy chained together.

Luma Touch™ LED Desk Lamp

The Luma Touch LED personal task light is specified with either a Round or an Elongated lamp style. The Lamp can be selected with a Freestanding Base, Clamp Mount, or Slatwall Mount. The Slatwall Mount is compatible with Choices and Capture. Its double-arm articulated design allows the user to position the light effortlessly for optimum illumination. The single control responds to the lightest touch to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting

level if turned off and on. The optional Occupancy Sensor turns the lamp on when a user approaches and shuts it off after 30 minutes of inactivity, conserving energy use. Available in three colors. ETL, TAA and BAA certified.

ORI LED Desk Lamp

The ORI LED Personal Task Light provides 390 Lumens of clear white light right where you need it. It offers a wide range of vertical and rotational adjustment so the user can direct the light where it's needed. The clean, simple and attractive design

complements any interior. The single control responds to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting level if turned off and on. The Lamp is available as a freestanding model or with a clamp mount. UL Listed. Available in a Brushed Nickel finish

Tackboards

The Tackboard has a tackable fabric front and two grooves in back to conceal task light cords.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Note: When mounting underneath a Panel Hung Flipper or Shelf, use 20" (508)-high Tackboards on a 66" (1676)-high panel.

Choices Slatwall

Choices Slatwall is made of metal and attaches in the component slots of a Choices panel. The Slatwall has four horizontal slots that provide points of attachment for hanging paper management tools and accessories. The Slatwall comes with mounting brackets. Paper management accessories are specified separately.

Choices Slatwall Kit

The Choices Slatwall kit attaches in the slots of a 36"- or 48"- wide Choices panel. Each kit includes the slatwall, 2 Paper Trays, a Pen Holder and a Folder Tray.

Dual Wall Mounts

The Dual Wall Mount attaches work surfaces and components to existing walls. Price includes wall mount and cover piece.

Note: It is the responsibility of the dealer or installer to obtain the correct type of fastener for specific, existing wall conditions.

Ordering quantities: One component requires two wall mounts; 2 components mounted side-to-side require 3 wall

mounts; 3 components mounted side-to-side require 4 wall mounts.

Note: For safe use, Dual Wall Mount must extend to the floor.

Touch-Up Paint

The Touch-Up Paint covers nicks and scratches on metal parts and components.

Handy Hooks

The Handy Hook attaches to the top of a panel with metal top cap to provide hanging storage for individual garments. Will not fit on panel with wood top cap. The molded plastic construction supports up to 25 (11kg) pounds. Packaged in boxes of twelve. Only available in standard smooth finishes.

Choices Desking is a complete line of modular furniture designed to be used independently or in conjunction with the Choices Panel Systems. For maximum storage flexibility, Choices Desking provides shell components with separately specified storage components.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, CD2436 represents a Corner Desk, 24" (610)-deep by 36" (762)-wide.

By following the Sample Part Number Example at the bottom of each page, you create a Part Number for each product. This Part Number will match your acknowledgement and packing slip.

Acknowledgment Defaults:

- If grommet option is not identified, GN no grommet will be selected.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (SD2448.F.P.L.GY.G.JP9.G.JP9.G.G).

	Catalog Number	Modesty Panel	End Supports	Grommet Option	Grommet Color	Top Color	Edge Color	Top Base Color	Edge Color	Base Trim Color

Standard Features

Choices Desking and Components

- Freestanding Desks include a 1¹/₄" (32) thick work top surfaced with a high pressure laminate with vinyl edge, and support components.
- End panels are non-handed and can be attached under the left or right side of the work top. C-legs may be used as left, right, or shared supports.
- C-legs are designed with three different foot depths for proper support and clearance in each application. Rectangular desks have a C-leg foot that is 21¹/₂" (546)-deep, Corner Desks have a foot depth of 11³/₄" (298)-deep and Peninsula Desks have C-legs with 7" (178)-deep support feet (Fig. A).

C-legs provide cable management down each side of the C-leg. A one-piece cover allows easy access to the cables.

Fig. A

- The Peninsula Desk is supported by a T-Base and a Column Leg. C-Leg supports are available as an option in place of the T-Base. The Peninsula Desk must be attached to a Standard Desk, a Standard Return, or a Standard Bridge for proper stability.

Fig. B

- Bridges and Returns are designed to attach to other Freestanding desks. **Attachment hardware must be ordered separately.**
- Modesty panels are available as full-height or half-height. Half-height modesties provide 17" (432) of space under the modesty for accessing wall outlets. Modesty panels may be positioned with a one-inch space between the work top and the modesty panel to provide cable management.

Fig. C

Overhead Storage Units

Freestanding Flipper Units and Shelf Units have a 5/8" (16) gap between the back of the shelf and the back of the unit to allow cables to pass through to the work top.

All work tops that accept Freestanding Flipper and Shelf Units have pre-drilled pilot holes on the underside of the work top that serve as a guide for field installation.

Component Capacities

Trendway Corporation will not, under any circumstances, guarantee or assume responsibility for loading performance beyond the basic individual component capacities given below.

- Shelf Units: 3 lbs. (1.4kg) per linear inch of usable space.
- Overhead Storage Units: Inside — 3 lbs. (1.4kg) per linear inch. Top cover of under storing door unit — 2 lbs. (.9kg) per linear inch of usable space.
- Counter Caps: 3.5 lbs. (1.6kg) per linear inch, uniformly distributed.
- Desks: 5 lbs. (2.3kg) per linear inch, uniformly distributed.
- Center Drawers: 9 lbs. (4.1kg)

Pedestals and Files Centers

Any pedestal or file center that is attached to the underside of a work top must have glides adjusted to support the weight of the pedestal or file center.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Finishes

All freestanding units have a high-pressure laminate top with vinyl edge. C-Legs are all color matched in one of Trendway's trim colors.

Fig. D

Glide Adjustment Ranges:

- C-Legs 1/2" (13)
- End Panels 1" (25)
- T-Bases 1" (25)
- Support Columns 4" (102) work surface height range 27³/₄" (705) to 31³/₄" (806)
- Straight Legs 3³/₄" (95) work surface height range 27³/₄" (705) to 31¹/₂" (800)

Specifications

All dimensions listed are nominal unless otherwise noted.

Special Products

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Desking Components Planning

These planning guidelines provide instructions for safely configuring freestanding product applications. The following diagrams illustrate the proper use of supporting elements, connecting hardware, and overhead components.

C-Leg Supports

- In many applications, C-Legs can be shared between desk modules, thus serving as both the supporting and connecting hardware.

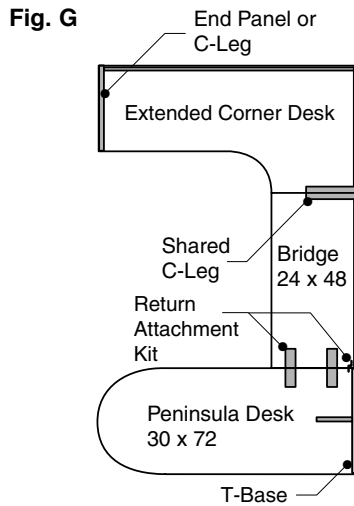

- Return Attachment Kits (RAK) are designed to be used when attaching Returns and Bridges to Freestanding Desks that are supported by End Panels or T-Bases (Fig. F).

- Where a Standard Return or Bridge connects to the front of the Freestanding Desk, Return Attachment Kits (RAK) must be specified (specify two kits for a bridge).

T-Base Supports

- When a T-Base is used to support the back end of a Peninsula Desk, a Return or Bridge must be attached to the Peninsula for proper stability. This attachment must be made using a Return Attachment Kit (RAK) (Fig. G).

Flush Support Plates

- Flush Support Plates (SICSP) are designed to be used with attaching a Peninsula Return to the front edge of a Freestanding Desk (Fig. H).
- Note:** Flush Support Plates must be ordered separately (see page 193).

Freestanding Flipper, Shelf and Screen Placement Guide

The following illustrations show valid locations for attaching Freestanding Flipper Units, Shelf Units, and Screens to Desk modules. All work tops that can accept Overhead Storage Units and Screens have pre-drilled pilot holes on the underside of the work top that serve as a guide for field installation. The pilot holes are placed to accept Overhead Storage Units and Screens of the same nominal size as the work top.

- Note:** If a Freestanding Flipper or Shelf Unit is placed on a single rectangular desk, it must be backed up against a wall or be connected to a desk to form a 90-degree angle.

Note: Extended Top Desks, Bowed Desks and Standard Bridges do not accept overhead components.

Freestanding Flipper, Shelf and Screen Placement Guide (Cont.)

Peninsula Desks

Peninsula Desks accept Freestanding Flipper, Shelf Units or Screens on the end only.

Corner Desks

Corner Desks accept Freestanding Flipper, Shelf Units, Screens, or Corner Screens on the end only.

Extended Corner Desks

Extended Corner Desks accept Freestanding Flipper, Shelf Units, Screens, or Corner Screens on either side.

Integrating Storage into Choices Desking Furniture

Choices Desking provides shell components with separately specified storage units to maximize storage flexibility. Storage components that work within Choices Desking include Pedestals, File Centers, and Center Drawers. Pedestals, File Centers, and Center Drawers are offered in the Filing and Storage price list along with other coordinating filing units.

Pedestals

Intrinsic, Choices and Pack Pedestals integrate with Desking components. Intrinsic Pedestals are 23" (584)-deep. Choices Pedestals are available in two depths, 22" (559) and 28" (711). Pack Pedestals are available in three depths, 18⁷/₈" (479), 21⁷/₈" (556) and 27⁷/₈" (708). All pedestals are available with two drawer configurations:

Choices Pedestals

6/6/12 – Two 6" box drawers and one 12" file drawer

12/12 – Two 12" box drawers

When the 22" (559)-deep Choices Pedestal, 21⁷/₈" (556)-deep Pack Pedestal or 23" (584)-deep Intrinsic Pedestal is used with a 24" (610)-deep work top, the grommet will be unusable. The same is true when using a 28" (711)-deep Choices Pedestal or 27⁷/₈" (708) Pack Pedestal with a 30" (762)-deep work top. On a 30" (762)-deep work top, use an 18⁷/₈" (479), 22" (559)- or 23" (584)-deep pedestal if grommet access is needed.

File Centers

Choices Floor-Supported File Centers are intended for use under work tops. They aesthetically align with the Choices Floor-Supported Pedestals with matching drawer fronts and base details.

Center Drawers

The Pencil Drawer and the Center Drawer mount beneath any work top.

Grommets

Grommets are available as an option on most desk units. They are not available on Extended Top or Bowed Top Desks. Grommets are available in Trendway trim colors. The following drawings show standard grommet locations. Other grommet locations may be available as a special order. Contact your Customer Care representative for more information.

Note: Grommets are not available on Extended Desks or Bowed Desks.

Note: When the 22" (559)-deep Choices Pedestal is used with a 24" (607)-deep work top, the grommet will be unusable. The same is true when using a 28" (711)-deep Choices Pedestal with a 30" (762) work top, specify a 22" or 23" (559 or 584)-deep pedestal if grommet access is needed.

Standard Grommet Locations

Grommet Dimensions

30" (762) Standard Desks with Full Modest and 22" (559) or 23" (584) depth Pedestal allows access to Grommet.

Choices Standard Desks

The Standard Desk has a rectangular, high-pressure laminate top with vinyl edging. Standard features include a Half Modesty and End Panels. Other available options include a Full Modesty, C-Legs, and Grommets. See Grommet information in the planning section for standard grommet locations and ordering guidelines.

The underside of the work top has pre-drilled pilot holes to accept Freestanding Flipper Units, Shelf Units, and Screens. A Placement Guide is located in the planning section.

End Panels are non-handed and can be field installed on either the left or right side.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty.

Pedestals, File Centers, Center Drawers and other Filing and Storage Units are specified separately for maximum flexibility. These units are offered in the Filing and Storage price list.

Note: When specifying grommets where Pedestals are being used, please refer to Integrating Storage into Choices Desking Furniture in the planning section for guidelines.

EXTENDED TOP AND BOWED TOP DESKS

The Extended Top and Bowed Top Desks have high-pressure laminate tops with vinyl edging. Standard features include a Half Modesty and End Panels. Other available options include a Full Modesty and C-Legs.

End Panels are non-handed and can be field installed on either the left or right side.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty.

Pedestals, File Centers, Center Drawers and other Filing and Storage Units are specified separately for maximum flexibility. These units are offered in the Filing and Storage price list.

Note: Grommets are not available on Extended Top and Bowed Top Desks.

Note: Extended Top and Bowed Top Desks do not accept attachment of Freestanding Flipper Units, Shelf Units or Screens.

Extended Top Desk

The Extended Top Desk has a rectangular top with a guest side that extends 6" (152).

Bowed Top Desk

The Bowed Top Desk has a bowed top that is curved on the guest side extending 6" (152) at the center.

CORNER AND COCKPIT CORNER DESKS

Corner Desks and Cockpit Corner Desks must be attached to a Standard Return (page 180) on both sides to ensure proper stability. The Corner and Cockpit Corner Desk have a high-pressure laminate top. Standard features include a Half Modesty, two C-Legs, and a corner support leg. Other available options include a Full Modesty and grommets. See Grommet information in the planning section for standard grommet locations and ordering guidelines.

The underside of the work top has pre-drilled pilot holes to accept Freestanding Flipper Units, Shelf Units, and Screens. A Placement Guide is located in the planning section.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty.

Note: Center Drawers and Pencil Drawers are available on Corner Desks with front widths greater than 22" (559).

Corner Desk

The Corner Desk is available with either a Curved or Straight front edge.

Cockpit Corner Desk

The Cockpit Corner Desk creates a wrap-around effect which provides deeper access into the corner work top. The front opening is 28½" (724)-wide, accommodating most chairs or a keyboard tray.

Peninsula Desks

Peninsula Desks have high-pressure laminate D or P shaped tops with vinyl edging. Standard features include a T-Base support and adjustable height center support column. Available options include two C-Legs with a Half Modesty or Full Modesty, and grommets. See Grommet information in the planning section for standard grommet locations and ordering guidelines.

The underside of the work top has pre-drilled pilot holes to accept Freestanding Flipper Units, Shelf Units, and Screens.

A Placement Guide is located in the planning section.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty (C-Leg version only).

Pedestals, File Centers, Center Drawers and other Filing and Storage Units are specified separately for maximum flexibility. These units are offered in the Filing and Storage price list.

Note: A Peninsula Desk must be connected to other Freestanding units for proper stability. Peninsula Desks with T-Base Supports require a Return Attachment Kit (RAKH or RAKF) to make this connection. The Return Attachment Kit must be ordered separately.

Peninsula Returns

Peninsula Returns are used in Desking applications as an extension off the front edge of a Freestanding Desk.

The Peninsula Return has a high pressure laminate D- or P-shaped top with vinyl edging. Includes an adjustable height center support column. Grommets are not available in Freestanding applications due to the placement of the work top.

Pedestals, File Centers, Center Drawers and other Filing and Storage Units are specified separately for maximum flexibility. These units are offered in the Filing and Storage price list.

Note: Flush Support Plates (SICSP) are required to attach the Peninsula Return to the front edge of a Freestanding Desk, and must be ordered separately.

Standard Returns

Standard Returns are designed to be used as an extension off the front edge of a Freestanding Desk, off the sides of a Corner Desk, or off the side of a Peninsula Desk. The Standard Return has a rectangular, high-pressure laminate top with vinyl edging. Standard features include a Half Modesty and one End Panel. Other available options include a Full Modesty, a C-Leg, and grommets. See Grommet information in the planning section for standard grommet locations and ordering guidelines.

The underside of the work top has pre-drilled pilot holes to accept Freestanding Flipper Units, Shelf Units, and Screens. A Placement Guide is located in the planning section.

End Panels are non-handed and can be field installed on either the left or right side.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty.

Pedestals, File Centers, Center Drawers and other Filing and Storage Units are specified separately for maximum flexibility. These units are offered in the Filing and Storage price list.

Note: When attaching a Standard Return to the front of a Freestanding Desk, the Freestanding Desk should be specified with an End Panel on the attachment side. A Return Attachment Kit (RAKH or RAKF) is required to attach the Standard Return to a Freestanding Desk, and must be ordered separately.

Standard Bridges

The Standard Bridge is designed to be used as a connection between two Freestanding Desks to create a U-shaped configuration. The Standard Bridge has a rectangular, high-pressure laminate top with vinyl edge. Standard features include a Half Modesty. Other available options include a Full Modesty and grommets. See grommet information in the planning section for standard grommet locations and ordering guidelines.

The underside of the work top has pre-drilled pilot holes to accept Freestanding Screens. Standard Bridges are not designed to support Flipper Units or Shelf Units.

Modesty Panels can be positioned to provide a one-inch wire management clearance at the top or at the bottom of the modesty.

Note: Each end of a Standard Bridge that attaches to the front of a Freestanding Desk with End Panel supports, requires a Return Attachment Kit (RAKH or RAKF), ordered separately.

Modesty Side Rail Attachment Kit

The Modesty Side Rail Attachment Kit secures the top and modesty panel of a return or bridge to a panel side rail. The kit contains both left and right brackets with mounting screws.

Available in standard smooth Trim color.

RETURN ATTACHMENT KIT

The Return Attachment Kit attaches Returns and Bridges to the front of a desk, and is also used to attach T-Base supported Peninsula Desks to

adjacent Freestanding Desks. One Kit is required for Standard Returns; two Kits are required for Standard Bridges.

Return Attachment Kit for Desk with a Half Modesty

The Kit contains a modesty to end panel bracket, available in trim color, Flush Support Plates in black trim color for work top-to-work top attachment, and the necessary mounting screws.

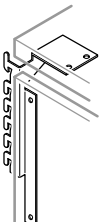

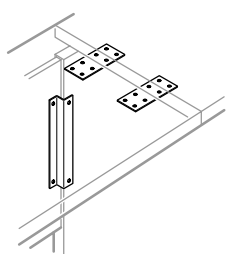

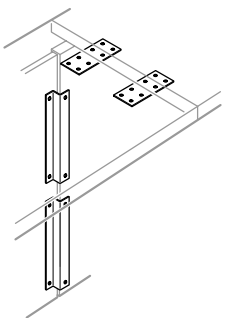

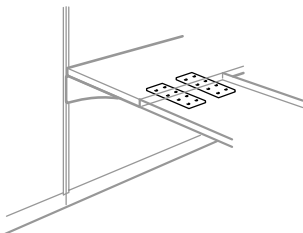

Return Attachment Kit for Desk with a Full Modesty

The Kit contains two modesty to end panel brackets, available in trim color, Flush Support Plates in black trim color for work top-to-work top attachment, and the necessary mounting screws.

Flush Support Plates

Flush Support Plates connect a work surface that extends from an adjacent work surface at the same level. Includes two mounting plates and screws.

Available in Black only.

Electrical Communications Monument

The Electrical Communications Monument provides two grounded outlets and two openings for communications connectors. It installs in a Freestanding work top or Full Depth Work Surface grommet to provide access at the work top. It has a 6' (1829) power cord.

UL and CUL Listed/CSA Certified.

Available in Black only.

Retractable Power Centers

The Retractable Power Center offers three grounded outlets and circuit breaker protection. It installs in a Freestanding work top or Full Depth Work Surface grommet and neatly stores below the work top and can be raised up for access. It has a 6' (1829) power cord.

UL and CUL Listed/CSA Certified.

Available in Black only.

Horizontal Wire Manager

The Horizontal Wire Manager accommodates electrical cords and communication cables. It attaches under all work tops and desks. Includes mounting hardware.

Available in Black only.

FREESTANDING FLIPPER UNITS

The Freestanding Flipper Unit attaches to Freestanding Desks of the same nominal width to serve a variety of storage and privacy needs. Freestanding Flipper Units are available with a painted or fabric covered locking door that stores over the top. The Flipper Unit is 15^{5/8}" (397)-deep, and accommodates standard and A4 11^{7/16}" x 12^{5/8}" (291 x 321) size binders.

Units include a steel door with lock, steel cover, steel shelf and composite end panels, a back panel, and a fabric covered tackboard below the shelf. The shelf is designed with a 5/8" (16) gap along the back

to allow cable passage. The back panel is surfaced with a high-pressure laminate. Optional factory installed accessories include the Accent Strip and Quarterback. The Quarterback is a 1^{1/2}" (38)-high back stop.

*Note: 66" (1676) and 72" (1829)-wide units have a single shelf, two door fronts and two tackboards.
Shipped ready to assemble.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Painted Front

Painted front units have color matched locking steel door, steel cover and steel shelf.

Fabric Front

Fabric front units have a fabric covered locking steel door and selected trim color, painted steel cover and steel shelf.

Note: Resin or composite end supports or end panels, accent strips and quarterbacks are not available in textured or premium trim finishes. If textured or premium trim finish is specified, these components will match the standard smooth trim color. For example, if Pebble Frost (FP) is specified these components will be Pebble (P) in trim finish.

**Fabric Grade will be determined by taking the highest grade fabric chosen for either the door front or tackboard.
Build your complete Part Number here:

Lock Option

Locks and lock colors can be selected to match any storage offering. Select "CH" for a black Choices lock or "PK" if a silver Pack lock is required. If "RDM" is selected, the unit will ship with a lock and core in place. If "KA" is selected, the unit will ship without a lock or core at a reduced price, and the core/key set must be ordered separately and field installed: LCAK (Choices), PLCAK (Pack).

CABINET UNIT

The Cabinet Unit attaches to Freestanding Desks of the same nominal width to serve a variety of storage and privacy needs. Cabinet Units are available with a painted or fabric covered locking **door that stores below the top shelf**. The Cabinet Unit is 15^{5/8}" (397)-deep, and accommodates standard and A4 11^{7/16}" x 12^{5/8}" (291 x 321) size binders.

Units include a steel door with lock, steel cover, steel shelf and color matched composite end panels, a back panel, and a fabric covered tackboard below the shelf. The shelf is designed with a ^{5/8}"

(16) gap along the back to allow cable passage. The back panel is surfaced with a high-pressure laminate. Optional factory installed accessories include the Accent Strip and Quarterback.

The Quarterback is a 1^{1/2}" (38)-high back stop.

*Note: 66" (1676) and 72" (1829)-wide units have a single shelf, two door fronts and two tackboards.

Shipped ready to assemble.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Painted Front

Painted front units have color matched locking steel door, steel cover and steel shelf.

Fabric Front

Fabric front units have a fabric covered locking steel door and selected trim color, painted steel cover and steel shelf.

Note: Resin or composite end supports or end panels, accent strips and quarterbacks are not available in textured or premium trim finishes. If textured or premium trim finish is specified, these components will match the standard smooth trim color. For example, if Pebble Frost (FP) is specified these components will be Pebble (P) in trim finish.

Fabric Grade will be determined by taking the highest grade fabric chosen for either the door front or tackboard. **Build your complete Part Number here:

Lock Option

Locks and lock colors can be selected to match any storage offering. Select "CH" for a black Choices lock or "PK" if a silver Pack lock is required. If "RDM" is selected, the unit will ship with a lock and core in place. If "KA" is selected, the unit will ship without a lock or core at a reduced price, and the core/key set must be ordered separately and field installed: LCAK (Choices), PLCAK (Pack).

Freestanding Shelf Units

The Freestanding Shelf Unit attaches to Freestanding Desks of equal width to serve a variety of storage and privacy needs. The 15" (381)-deep steel shelf is designed with a 5/8" (16) gap along the back to allow cable passage. A tackboard is provided below the shelf. Back panels are high-pressure laminate and the end panels are composite which are all finished in the matching selected trim color in a standard smooth finish. Optional factory installed accessories include the Accent Strip and Quarterback.

Freestanding Corner Shelf Units

The Freestanding Corner Shelf Unit attaches to Freestanding Corner Desks of equal width. A Corner Shelf may be used on an Extended Corner Desk, Cockpit Desk, Extended Cockpit Desk or an Extended D-Shaped Peninsula Desk. The appropriate size is equal to the smaller of the length dimensions. Corner Shelf Units have two 15" (381)-deep steel shelves that are designed with a 5/8" (16) gap along the back to allow cable passage. A tackboard is provided below each shelf. Back panels are high-pressure laminate and the end panels are composite which are all finished in the matching

selected trim color in a standard smooth finish. Optional factory installed accessories include the Accent Strip and Quarterback.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Note: Listed are the maximum light sizes that will fit in the Short Pans and Full Pans.

	Maximum Light Size for Short/Full Pan per Unit

Flipper Door Conversion Kits – Painted or Fabric Front

The Flipper Door Conversion Kit converts the Freestanding Shelf Unit (FRS) to a locking Freestanding Flipper Unit with a door that stores over the top. The kit includes a painted or fabric-covered door, steel cover, door mechanism, and attachment hardware.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Lock Option

Locks and lock colors can be selected to match any storage offering. Select “CH” for a black Choices lock or “PK” if a silver Pack lock is required. If “RDM” is selected, the unit will ship with a lock and core in place. If “KA” is selected, the unit will ship without a lock or core at a reduced price, and the core/key set must be ordered separately and field installed: LCAK (Choices), PLCAK (Pack).

Shelf/File Dividers

Shelf/File Dividers are freestanding dividers that magnetically attach to a shelf or drawer bottom. Includes three dividers. Available in all standard smooth trim colors.

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26" of reach. The arm can be adjusted to accu-

ately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle. Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

Low Screens

Low Screens provide work top separation and accept Counter Caps of equal width. Screens attach to Freestanding Desks or Corner Desks providing privacy for the desk user. Screens have a fabric covered tackboard front, high-pressure laminate back and composite end panels. Price includes attachment hardware.

Screens have a depth of 9" (229).

Note: 66" (1676) and 72" (1829)-wide units have two tackboards.

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

Corner Low Screens

Corner Low Screens attach to Freestanding Corner Desks or Extended Corner Desk and accept Right Angle Counter Caps of equal width. Screens have a fabric covered tackboard front, high-pressure laminate back, and composite end panels.

Screens have a depth of 9" (229).

Note: For fabric orientation, refer to the table located in the Fabric Planning section.

COUNTER CAPS

Counter Caps attach to the top of Low Screens to provide a transaction/reception top. Tops have high-pressure laminate tops with vinyl edging. Includes mounting hardware.

Note: Specify Counter Cap to match screen width.

Straight Counter Caps

The Straight Counter Cap attaches squarely on low screens of matching width.

Bowed Counter Caps

The Bowed Counter Cap is 14" (356)-deep at the ends and 16" (406)-deep at the center, creating a curve on the approach side of the surface. Bowed Counter Caps attach to the low screens of matching width.

Finishes

All Choices filing and storage units are painted metal. Choices Accent Strips are available in standard smooth finishes only.

Specifications

All dimensions are nominal unless otherwise noted.

Load Capacities

Center Drawers:

Center Drawer — 9 lbs. (4.1kg)

Total load capacities of hanging work surfaces are equal to the sum of the fully loaded components attached to the underside of the work surface plus the loads placed on the top of the work surface.

Pedestal Drawers:

6" (152) Pedestal Drawer — 20 lbs. (9kg)

12" (305) Pedestal Drawer — 40 lbs. (18kg)

Lateral File and Pedestal Lateral File Drawers:

2 lbs. (.9kg) per linear inch of usable space.

Maximum Load Capacity For Any Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. per linear inch per each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a DD336E
 = unit bottom + 2 shelves + unit top
 at 3 lbs. per linear inch
 = 36" (914) linear in. per shelf x 3 lbs. x 4
 = 432 lbs. maximum load

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

Proper Usage

Pedestals and File Centers

Any pedestal or file center that is attached to the underside of a work surface must have glides adjusted to support the weight of the pedestal or file center.

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights whenever lateral files or pedestals are not anchored or ganged back-to-back.

To avoid tipping, always load bottom drawers before loading top drawer.

Choices Filing and Storage Offering – Additional filing and storage options are available in the Pack Price List.

Keyed Alike

Choices filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge. When the randomly keyed option "R" is chosen the Choices filing and storage unit will ship with a randomly numbered core/key.

When the key-alike lock option "T" is chosen the Choices filing unit will ship with a "disposable" core in place of the core/key and the specified Choices Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with a Choices Core/Key set in order for the Choices filing unit to lock. The Core/Key set (LCAK) must be ordered separately.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, PTBR641212 represents a Choices **P**edestal **T**ower with **B**ookcase-**R**ight-Hand, **64**-High with **2 12**" (305) drawers.

Trendway has further simplified the order process by having all the options available for a product listed in the price chart. By following the Sample Part Number Example at the bottom of each page, you create a Part Number for each product. This Part Number will match your acknowledgement and packing slip.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number (see Sample Part Number at the bottom of each page for correct number sequence).
3. For ease of reading, place a period between each option number (FSLF536E.J.K.R).

	Catalog Number	Trim Color	Accent Strip Color	Lock

Lateral File Top Specification Guide

Lateral File Tops are available for use with one, two or four lateral file unit combinations. For non-standard sizes, contact Trendway Custom Solutions 1-800-893-8117.

Choices Storage Tower with Wardrobe

The Choices Storage Tower with Wardrobe provides coat, drawer, and cupboard storage in a single cabinet. The Tower is available in two heights and in either a Right-Hand version with the wardrobe on the right side, or a Left-Hand version with the wardrobe on the left side.

The Tower is constructed of painted metal and has adjustable leveling glides. The cupboard door and the drawers have one common lock. The cupboard unit includes one adjustable painted metal shelf. The pedestal includes painted

metal drawer fronts. 6" (152) and 12" (305) drawers have full extension ball-bearing slides. Doors and pedestal drawer fronts include Choices Accent Strips.

Available accessories include Choices Pedestal Divider/Conversion Kit (PCD), Choices Pencil Tray (HPPT), Lateral File Dividers (LFDE) and Shelf/File Dividers (SDIV).

Note: The Choices Storage Tower Wardrobe door does not lock.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Choices Storage Tower with Wardrobe and Bookcase

The Choices Storage Tower with Wardrobe and Bookcase provides coat, drawer and bookcase storage in a single cabinet.

The Tower is available in two heights and in either a Right-Hand version with the wardrobe on the right side, or a Left-Hand version with the wardrobe on the left side.

The Tower is constructed of painted metal. Includes lockable drawers with painted metal drawer fronts and adjustable leveling glides. 6" (152) and 12" (305) drawers

have full extension ball-bearing slides. Doors and pedestal drawer fronts include Choices Accent Strips.

The 52" (1321) Tower has one adjustable painted metal shelf that allows for one row of binder storage plus additional storage in the bookcase. The 64 1/8" (1641) Tower has two adjustable painted metal shelves that allow for two rows of binder storage plus additional storage in the bookcase.

Available accessories include Choices Pedestal Divider/Conversion Kit (PCD), Choices Pencil Tray (HPPT), Lateral File

Dividers (LFDE) and Shelf/File Dividers (SFDIV).

Note: The Choices Storage Tower Wardrobe door does not lock.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Choices Pedestal Tower with Bookcase

The Choices Pedestal Tower with Bookcase combines the functionality of a pedestal with the added storage of a bookcase.

The Tower is available in Right- and Left-Hand versions. The Right-Hand version is intended for placement on the right-hand of a work station with the bookcase facing inward. The Left-Hand version is intended for placement on the left-hand of a work station with the bookcase facing inward.

The Tower is constructed of painted metal and has adjustable leveling glides. The bookcase unit includes two adjustable shelves that accommodate two rows of binder storage plus additional storage. The pedestal includes lockable drawers with painted metal drawer fronts. 6" (152) and 12" (305) drawers have full extension ball-bearing slides. Pedestal drawer fronts include Choices Accent Strips.

Available accessories include Choices Pedestal Divider/Conversion Kit (PCD), Choices Pencil Tray (HPPT), Lateral File Dividers (LFDE) and Shelf/File Dividers (SFDIV).

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

CHOICES LATERAL FILES

Lateral Files are constructed of metal and include full-extension ball-bearing slides, leveling glides, and one plastic label holder per drawer. Drawer fronts are painted metal with accent strips.

Lateral Files include locks. Drawers accommodate side-to-side letter, A4, legal, EDP filing, and include a safety interlock mechanism that allows only one drawer to open at a time.

Accessories include the Choices Freestanding Traverse Kit (FSTK), Lateral File Dividers (LFDE), Choices Lateral File Tops (LFT) and Choices Lateral File Counterbalance Weights (CBWL).

Note: Lateral File Counterbalance Weights are required for individual lateral files that are not anchored or ganged back-to-back.

Choices Five-Drawer Lateral Files

The Five-Drawer model has four lateral drawers and a receding top door with roll-out shelf. Roll-out shelf includes 3 LFDE Lateral File Dividers.

When the key-alike lock option T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Choices Floor-Supported File Centers

The Choices Floor-Supported File Center is intended for use under work surfaces. It aesthetically integrates with Floor-Supported Pedestals with matching drawer fronts and base details. The File Center has full extension ball bearing slides. Available accessories include the Choices Freestanding Traverse Kit (FSTK) for front-to-back filing, Lateral File Dividers (LFDE) and Choices Label Holders (LH).

Choices Pedestal Lateral File Center

The Choices Pedestal Lateral File Center combines the functionality of a pedestal and the lateral file into a single cabinet that fits below a systems work surface or a desk module. It is designed to visually integrate with Choices Floor-Supported Pedestals.

Units are constructed of metal and include full-extension ball bearing slides on all drawers. Drawer fronts are painted metal with Choices pull Accent Strips. Available accessories include the Choices Freestanding Traverse Kit (FSTK) for front-to-back filing, Lateral File Dividers (LFDE),

Choices Label Holders (LH), Choices Pedestal Divider/Conversion Kit (PCD) and Choices Pencil Tray (HPPT).

Note: File center must be attached to a panel-mounted work surface or a desk unit.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Choices Lateral File Tops

Choices Lateral File Tops are sized to be used with Choices Two-Drawer, Three-Drawer, Four-Drawer and Five-Drawer Lateral Files. They are available for use with a single lateral file or combination of two or four lateral files. Lateral File Tops have a high-pressure laminate surface with vinyl edge. Tops are nominal 1 1/4" (32) thick.

Note: 18" (457)-deep Lateral File Tops are sized to fit between Return Panels and can also be used in freestanding applications. 36" (914)-deep Lateral File Tops are sized for freestanding applications only.

For non-standard sizes, contact Trendway Custom Solutions 1-800-893-8117.

See Lateral File Top Specification Guide in the Planning section.

Note: Lateral File Tops cannot be used in place of counterbalance weights, ganging or anchoring.

CHOICES LATERAL FILE ACCESSORIES

Choices Lateral File Counterbalance Weights

The Choices Lateral File Counterbalance Weight **provides additional stability and must be used for individual lateral files that are not anchored or ganged back-to-back**. All hardware is included for field installation.

Choices Freestanding Traverse Kit

The Choices Freestanding Traverse Kit converts Choices Freestanding Lateral Files and Floor-Supported File Centers

from standard side-to-side filing to front-to-back filing.

Note: For each drawer, order one kit for 30" (762)- and 36" (914)-wide lateral files; order two kits for 42" (1067)-wide lateral files. See Lateral File Front-to-Back Conversion Bar Application Guide in the Planning section for further information.

Available in Black only.

Lateral File Dividers

The Lateral File Dividers are freestanding dividers that securely attach magnetically to a shelf or drawer bottom.

Available in Black only.

Choices Label Holders

The Choices Label Holder attaches to freestanding lateral file and pedestal drawers with pull accent strips. Packaged in boxes of 6. Includes label inserts.

Note: The required number of holders are included with each lateral file order; order extra Label Holders only when additional holders are needed.

Available in Clear Plastic only.

Choices Floor-Supported Pedestals

The Floor-Supported Pedestal mounts beneath the work surface. Includes lockable drawers, ball-bearing slides, 1⁵/₈" (41) leveling glides and mounting hardware. The 6" (152) drawers have 3/4" extension slides; the 12" (305) drawers fully extend. Pedestals are painted metal. Drawers have pull accent strips across the length of the pull.

Note: One pencil tray is included with the FSP6612E and FSPD6612E. Order drawer dividers and other drawer accessories separately.

Choices Mobile Pedestals

The Mobile Pedestal includes two locking and two non-locking casters, lockable drawers, ball-bearing slides, and a factory-installed counterbalance weight. The 6" (152) drawers have 3/4" extension slides; 12" (305) drawer slides fully extend. Pedestals are painted metal. Drawers have pull accent strips across the length of the pull.

Note: One pencil tray is included with the MP6612E. Order drawer dividers and other drawer accessories separately.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Choices 3/4 Mobile Pedestals

The Mobile Pedestal includes two locking and two non-locking casters, lockable drawers, ball-bearing slides, and a factory-installed counterbalance weight. Pedestals are painted metal. Drawers have pull accent strips across the length of the pull.

Note: One pencil tray is included with the MP612E. Order drawer dividers and other drawer accessories separately.

Choices Mobile Pedestal Cushion Top Kit

The Pedestal Cushion Top Kit includes a 1" thick upholstered cushion and four attached Velcro tabs to affix cushion. This cushion top can only be used on Choices Mobile Pedestals.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Choices Core/Key Sets in order for the Choices filing unit to lock. Core/Key Sets (LCAK) must be ordered separately or by using the keying order form.

Terms & Policies 180

Index 184

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgment with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.

2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.

3. If the material is pre-approved in the COM Library, customer must submit a COM Order Submission Form (available from Trendway Customer Care Representative).

4. If the material requested is not in the COM Library, customer must submit a COM test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.

5. Ship COM samples to:

U.S. Mail and UPS, FedEx Shipment:
 Trendway Corporation
 13467 Quincy Street
 Holland, MI 49424
 Attn: COM Request

6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume responsibility for any spoilage that takes place in the course

of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government,

or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon Eastern on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside

standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care. Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for dam-

age upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Key-Alike Option

The key-alike option is available on all orders. To order key-alike items within a workstation, follow these steps:

- Fill out a key-alike form and submit it with your purchase order. If key-alike orders are placed with your PO or within 30 days of receipt of your order, they will be sent at no charge.
- After 30 days of your PO regardless of your installation date, the cost of key-alike requests will be \$3.00 net per core and key, if the quantity exceeds 10.

Note: Credit will not be issued for return of unused cores and key's.

Key-Alike forms are available on www.trenddealer.com or through Trendway Customer Care.

24. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

25. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components 	<ul style="list-style-type: none"> •System Textiles •Finishes 	
3 Year	<ul style="list-style-type: none"> •Veneer •Magnetic Ballasts 		<ul style="list-style-type: none"> •Trim •Foam •Upholstery •Arm Pads
2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in woodgrain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Capture®

PRICE LIST | DECEMBER 2021

For Canadian pricing, please visit Trendealer to see the current conversion rate being used or contact your local Trendway Representative.

Capture

Capture is a fully featured frame and tile furniture system that includes laminate storage elements. This price list includes detailed product information and pricing for these products.

Trendway product catalogs are available in the following design software: CAP, Data One, Giza, Midnight-Oil, and Project Matrix. The Systems price list is also available in .pdf (Acrobat Reader) format on www.trenddealer.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, C8FR2034 represents a **Capture 8 Wire Base Frame** that is **20"** (508)-wide and **34"** (864)-high.

Order specification examples are shown throughout the price list at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.

Sequence Information

The table below shows a sample of the price list format's sequence of information which will assist when placing an order and checking an order acknowledgement.

Sample Part Number:

C8FR2034	.H	.BB	.K	.FF	.AH2
-----	-	--	-	--	---

3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.
(Refer to your price list for ordering options.)
8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Capture products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

Capture Keying Order Form

This form can be used as a worksheet or an order form to determine what key-alike Capture Core/Key Sets are needed for key-alike Capture filing and storage, Capture locks on Choices flipper units and for additional Capture Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Capture Core/Key Set

Capture Core/Key Set includes a lock core and 2 lock key. Capture Core/Key Set numbers are randomly selected from existing inventory unless otherwise specified on this form. Requesting specific numbers** may delay shipment of your key-alike order and may require partial or delayed shipment of your lock cores and keys separately from your order. Additional lock keys are available.

Capture Core Installation/Removal Key

Capture Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Capture lock cores.

*Capture Master Key

Capture Master Key is used to open any Capture style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8121. Orders are shipped within 24-hours of receipt.

3	\$12	

Capture Master Key(s)

Capture Master Keys are used to open any Capture style lock. Master keys are sent separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8121. Orders are shipped within 24-hours of receipt.

Capture Core/Key Set

The Capture Core/Key Set must be ordered when the Key-Alike Lock option is chosen to replace the “disposable” core that ships with Capture filing units in order for these units to lock. This set can also be ordered to replace an existing Capture Core/Key Set. Includes a Capture lock core and 2 lock keys.

Capture Core Installation/Removal Key

The Capture Core Installation/Removal Key is needed to install or remove Capture Cores in Capture filing units. One Core Key is included at no charge with every 1 to 50 Capture Core/Key Sets ordered. This key is available if additional Installation/Removal Keys are needed.

Capture Lock Key

Replacement Capture Keys are available for order.

Frames

<i>Panel Layout Planning</i>	<i>18</i>
<i>8-Wire, 4-Circuit Base Frame</i>	<i>24</i>
<i>8-Wire, 4-Circuit Elevated Base Frame</i>	<i>26</i>
<i>Elevated Frame Stanchion</i>	<i>28</i>
<i>Stacker Frames</i>	<i>29</i>
<i>Top Caps & Corner Covers</i>	<i>32</i>
<i>Connectors & Changes of Height</i>	<i>41</i>
<i>Connection Brackets</i>	<i>48</i>

Panel Layout Planning

When planning workstation layouts, the Panel Layout Rules for Loaded and Non-Loaded Panel Runs **must be followed** to ensure a safe panel installation.

Loaded Panel Runs

A Loaded Panel Run is defined as having panel hung components with two or more panels connected in a straight line.

The maximum length of a Loaded Panel Run before a return panel is used is 8' (2438) with a maximum of two panel connections within the run (Fig. A).

Fig. A

Non-Loaded Panel Runs

A Non-Loaded Panel Run is defined as having no panel hung components, regardless of size or weight.

The maximum length of a Non-Loaded Panel Run is 16' (4877) with a maximum of three panel connections (Fig. B).

Fig. B

Panel Runs Using a Building's Structural Element

An Adjustable Wall Starter Rail (CAWSR) can be used to connect a Panel Run to a building's structural element. The Panel Run maximum lengths still apply as shown in Fig. A and B.

When securing the Adjustable Wall Starter Rail, the installer takes full responsibility to ensure that the rail is securely fastened to a sound structural element along the full height of the panel. (Fig. C and D).

Fig. C

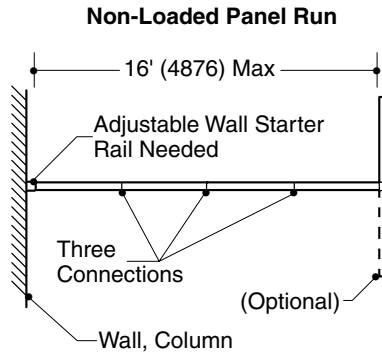

Fig. D

Return Panels

A Return Panel is a single Panel run, or a Capture Frame End Panel attached perpendicular to the Panel run. The minimum Return Panel width to be used in any configuration is 24" (610) (Fig. B). See Work Surface Support Planning in the Panel Hung Components section for additional support considerations. Loaded Panel runs must terminate with Return Panels at both ends (Fig. E) and on each side that is loaded (Fig. F).

Fig. E

Panel Run Loaded One Side

Fig. F

Panel Run Loaded Both Sides

Non-loaded panel runs must have 24" (610)-wide or wider return panels on at least three ends of the panel run (Fig. G).

Fig. G

Panel Hung Components

When full height overhead storage is used, the adjacent return can not have a change of height greater than 16". If the change of height of the adjacent return is 16", use the Storage Support Bracket. All other conditions without panel hung storage can have a maximum change of height of 24" (Fig. H).

Fig. H

When specifying a 24" deep Work Surface with return panels, it is recommended that the front edge of the Surface be supported by a Support Leg, Storage element or Work Surface Bracket.

If the layout requires just a cantilever support, the return panel must be the same height as the adjacent panel, and be wider than the work surface.

Loading Return Panels

In order to use overhead storage components on a Return Panel, the Return Panel must be attached to the work surface (Fig. I).

How to Plan for Lower Height Return Panels

Lower panels (34" [864]-high return panels or Work Surface End Panels) may be substituted for return panels if all of the following criteria are met (Fig. J):

- Any work surface loaded panels in the run may not exceed 66" (1676) in height.
- Any panel adjacent to the 34" (864)-high return panel or Work Surface End Panel must be at least 36" (914)-wide.
- All other panels in the run may only have one row of overhead storage components.
- All other planning guidelines for loaded and non-loaded panel runs apply.
- When using 34" (864)-high return panels, the panel width and work surface width must match, and a work surface bracket must be used to support the front corner of the work surface (see "Work Surface Support Planning" in the Capture Components section for additional information on work surface supports).

Note: In all applications 30" (762)-deep work surfaces require a 30" (762)-wide panel and a Work Surface Bracket to support the front corner of the work surface (Fig. K).

Note: It is advised that a 30" (762) end panel instead of a work surface support bracket be used if a return panel is wider than the length of the work surface. In this instance a work support bracket cannot be used and an end panel support would provide more than adequate support.

Floor Supported Elements

In some cases Floor Supported Elements may be used in place of return panels.

Floor Supported Elements include:

- Panel Mounted Peninsula Work Surfaces
- Capture Under Desk or Pack Floor Supported Pedestals and File Centers
- End Panels
- P-Leg
- U-Leg with attaching panel bracket
- Storage unit with attaching panel bracket

Floor Supported Elements may replace return panels if all of the following criteria are met: (Fig. M)

- All criteria for using **Lower Height return panels** is met.
- At least half of the support elements must be return panels.
- When using Pack Pedestals and File Centers or Capture Under Desk Storage as a Floor Supported Element, a Work Surface Bracket must be used to support the back of the work surface and the filing unit must be attached to the underside of the work surface.

Stackers

Stackers can be used with any width panel. Stackers can be stacked two high off of one base panel for a maximum height of 98".

Fig. M

Glass Stackers

Glass Stackers can be mounted on panels of any width and panels with a single stacker. Only one can be used per panel. They must be placed in the uppermost position on a panel. Tiles immediately below a Glass Stacker may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Top Mounted Storage

Top Mounted Storage must always be mounted on a base panel frame. There is a maximum 8" Change of Height allowed for any panel adjacent to the Top Mounted unit. The tiles immediately below a Top Mounted Storage unit may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

If no Work Surface is mounted to the panel supporting the Storage unit, returns are required. There is a maximum 8' change of height allowed between the returns and the base panel. Returns must be mounted on each end of the panel supporting the Storage unit, and also on each side of the panel that does not have a work surface installed.

If two Top Mounted Storage units are installed next to each other, returns are required at each end of the adjacent-panel run. A maximum 8' is allowed between returns. Top Mounted Storage units attach to each other, side by side, using the Laminate Overhead Shelf Clip (LOSCL). It is advised that LOSCL always be used if two units are mounted next to each other.

Planning Guidelines – Capture Freestanding Screen Foot

The Capture Freestanding Screen Foot transforms assembled Capture Panels into freestanding screens. The Foot can be attached on the right or left side of any width Frame. It will not interfere with power installation or access.

The Freestanding Screen Foot can support Capture Panels up to a maximum height of 50". This maximum height may be a 50" Frame, or any combination of Frames, Stackers or Screens totaling 50".

The Freestanding Screen Foot CANNOT:

- Be used in conjunction with the Elevated Panel Stanchion.
- Be used on frames where there is Top Mounted Storage.
- Be used on Frames with Panel Hung Overhead Storage.
- Be placed side by side at an angle when used in 120° application.

A single Panel freestanding application requires a Support Foot on each end of the Frame (2 Feet total).

Panel runs can be configured up to a maximum of 20 feet in length, with all these criteria met:

- A Screen Foot mounted at the beginning and end of the run
- Distance between Screen Feet does not exceed 8'

Panels supported by Capture Freestanding Screen Feet can be configured with Height Adjustable Tables.

Parallel Configuration

The space between Express Height Adjustable Table Base support bars can be adjusted to fit between Freestanding Screen Feet as required.

When ordered as a complete unit, the 4 Adjustability Table has a fixed base width per catalog number. When specifying 4 Adjustability Tables for a Freestanding Screen Parallel application, order the Base and Top separately so the Base can be sized smaller to fit between the Panel Support Feet. Specify a Base one size smaller than the Table Top, e.g. a 66" Base for a 72" Top.

Perpendicular Configurations

There are two layout options to accommodate Tables set perpendicular to the Panels.

1. Base Positioned Inside the Freestanding Screen Foot

The Tables can be positioned inside of the Freestanding Screen Foot, regardless of Base size. Both the Express and 4 Adjustability Tables can easily be used in this configuration; however, a small reduction of usable office footprint will result.

2. Base Sized to Clear the Freestanding Screen Foot

The Express Height Adjustable Table's support bars are adjustable and can be adjusted to not interfere with the Freestanding Screen Foot.

When ordered as a complete unit, the 4 Adjustability Table has a fixed base width per catalog number. When specifying 4 Adjustability Tables for a Freestanding Screen Perpendicular application, order the Base and Top separately so the Base can be sized smaller to fit next to the Panel Support Feet. Specify a Base one size smaller than the Table Top, e.g. a 66" Base for a 72" Top.

Capture Frame End Panel

The Capture Frame End Panel has two applications, used with the Freestanding Screen Foot and as a replacement for Return Panels.

1. With the Freestanding Screen Foot it can be used to create a more finished-looking termination to a Panel run and afford more privacy. In this application it will replace the end Screen Foot.

2. When used as a replacement for Return Panels, the same change of height planning holds true as for the Capture End Panel. When a full height overhead storage is used, the adjacent Return Panel cannot have a change of height greater than 16". All other change of height conditions without Panel hung storage the maximum change of height of 24".

When attaching an End Panel to a taller Frame, use the Capture Change of Height Cover (CCH##).

Frameless Screen with Channel

The Frameless Screen with Channel can be mounted to the top of any Capture Base Frame or Stacker Frame. They cannot be stacked two high or used with Glass Stacker Frames. These screens are designed so the glass can be specified to match a panel width or to span multiple panels, up to a total of 96" wide. It is important to note if your screen will be mounted on a frame in a change of height condition, because the change of height end cover will interfere with full width glass. When specifying for this type of condition, you will need to select the Frameless Screen option designed for the change of height condition the screen is being placed in:

No Change of Height (NCH)

Single Change of Height (SCH)

Dual Change of Height (DCH)

Capture 8-Wire Base Frame

The Frame provides a structural, moveable wall section that can be covered on both sides with a variety of tile options. The 8-Wire, 4-Circuit frame includes non-powered and powered frame assemblies with base raceway covers, tile light block, leveling glides (with carpet grippers), base wire duct and vertical and horizontal wire management clips. Straight line frame-to-frame connectors and top caps must be specified separately.

Lay-in cable capacity of the base raceway is 20 twisted pairs or 68 Category-5 cables without electrical at the base and 10 twisted pairs or 38 Category-5 cables with base electrical. Pass-through capacity for horizontal distribution at other points within the frame is 10 twisted pairs or 36 Category-5 cables at beltway slot and 10 twisted pairs or 30 Category-5 cables at lower frame slot.

Electrical

The 8-Wire, 4-Circuit frame can be specified as non-powered or powered at the base raceway and beltway. 8-Wire, 4-Circuit and 5-Wire, 3-Circuit frames and components cannot be mixed.

(Powered panel option available on Capture frames 24" (610) wide and wider. Panels narrower than 24" (610) accept pass-through power only. Beltway power not available on 34" (864) high Capture Frames.)

Note: When ordering a Capture powered frame, electrical attachment brackets will be installed in the frame. The Power Pac Blocks, Base Covers and Beltway Power Data Tiles are included. PowerPac Duplexes, Harnesses and Base Feeds must be specified separately.

The following is a list of available power Options:

- **P1.CB – Single Sided Base Power** – Provides 2 openings for power at the base, except 24" wide frames which have 1 opening on one side only and standard base (no openings) on the other.
- **P1.CC – Dual Sided Base Power** – Provides 2 openings for power at the base, except 24" wide frames which have 1 opening on both sides.
- **P2.CB – Single Sided Beltway Power** – Provides 2 openings for power at the beltway, except 24" wide frames which have 1 opening on one side only. Includes 2 standard (no openings) base covers and 1 Beltway Power/Data Tile.
- **P2.CC – Dual Sided Beltway Power** – Provides 2 openings for power at the beltway, except 24" wide frames which have 1 opening on both sides. Includes 2 standard (no openings) base covers and 2 Beltway Power/Data Tiles.
- **PP.CB – Single Sided Base and Beltway Power** – Provides 2 openings for power at the base and beltway, except 24" wide frames which have 1 opening on one side only. Includes 1 standard base cover (no openings), 1 base cover with openings and 1 Beltway Power/Data Tile.
- **PP.CC – Dual Sided Base and Beltway Power** – Provides 2 openings for power at the base and beltway, except 24" wide frames which have 1 opening on both sides. Includes 2 base covers with openings and 2 Beltway Power/Data Tiles.
- **H.CB – Single Sided Hardwired** – For use in the City of Chicago. Provides 2 openings for power at the base, except 24" wide frames which have 1 opening on one side only and standard base (no openings) on the other. Designed for Field-installed hardwiring. Electrical Panel Communications Isolation Box.
- **H.CC – Dual Sided Hardwired** – For use in the City of Chicago. Provides 2 openings on either side for power at the base, except 24" wide frames which have 1 opening on both sides. Electrical cannot be back to back. Designed for Field-installed hardwiring.

Note: When ordering the Hardwire Base, all electrical components must be supplied and installed by a certified electrician. No PowerPac components should be specified.

The Frame has been tested to meet or exceed ANSI/BIFMA x5.6-2016.

The Frame is available in Charcoal only, but base covers are available in all standard and premium systems trim colors.

Capture 8-Wire Elevated Base Frame

The 8-Wire, 4-Circuit Frame Elevated Base Frame provides a structural, movable wall section that can be covered on both sides with a variety of tile options. It includes non-powered or powered Frame assemblies with Elevated foot, tile light block, leveling glides (with carpet grippers), and vertical and horizontal wire management clips. Straight line Frame-to-Frame connectors and top caps must be specified separately.

The pass-through capacity for horizontal distribution within the Frame is 10 twisted pairs or 36 Category-5 cables at the beltway slot, and 10 twisted pairs or 30 Category-5 cables at lower Frame slot.

The Elevated Base Frame accepts the same tiles, trim and components as the standard non-Elevated Frames.

Elevated and non-Elevated Base Frames can connect together. If there is base power/data in the non-Elevated Frame, the power/data cannot pass through into the Elevated Frame at the base location.

Electrical

The 8-Wire, 4-Circuit Frame can be specified as non-powered or powered at the beltway. 8-Wire/4-Circuit and 5-Wire/3-Circuit Frames and components cannot be combined in an application.

(Powered Panel option available on Capture Frames 24" (610) wide and wider. Panels narrower than 24" (610) accept pass-through power only. Beltway power is not available on 34" (864) high Capture Frames.)

Note: When ordering a powered Capture Frame, electrical attachment brackets will ship installed on the Frame. PowerPac Blocks and Beltway Power Data Tiles are included. PowerPac Duplexes, Harnesses and Base Feeds must be specified separately.

Note: Power and Data cannot be routed or accessed at the Elevated Frame base location.

The following is a list of available power Options:

- **P2.CB – Single Sided Beltway Power** – Provides 2 openings for power at the beltway, except 24" wide Frames which have 1 opening on one side only. Includes 1 Beltway Power Data Tile.
- **P2.CC – Dual Sided Beltway Power** – Provides 2 openings for power at the beltway, except 24" wide Frames which have 1 opening on both sides. Includes 2 Beltway Power Data Tiles.

Hardwired power can also be specified for the Elevated Frame at the Beltway raceway only. Please order and utilize the Capture Electrical Panel Communications Isolation Box (CEPCIB) and Capture Beltway Power Data Tiles.

The Frame has been tested to meet or exceed ANSI/BIFMA x5.6-2016.

The Frame is available in Charcoal only, but the Elevated panel Stanchions are available in all standard and premium systems trim colors.

Capture Elevated Frame Stanchion

The Capture Elevated Frame Stanchion provides the ability to retrofit any standard Capture Frame to create an Elevated Capture Frame. Includes 2 Elevated support feet, one for each side of the Frame.

Note: With use of the Stanchion, power and data cannot be routed or accessed at the base location. Power/data must be accessed at the beltway.

Note: Cannot be used with the Freestanding Screen Foot.

Capture Stacker Frames

Stacker Frames attach to the top of a Base Frame to increase the height of a full-frame wall. Stacker Frames can be covered on both sides with a variety of tile options. The Stacker Frame is made of steel, with steel brackets at the bottom for attachment to the base frame below.

Stacker Frames include brackets and bolts for attachment to Base frame and tile light block. Top caps must be ordered separately. A maximum of two Stacker Frames can be added to

a Base Frame for a maximum height of 98".

The Stacker Frame has been tested to meet or exceed ANSI/BIFMA x5.6-2016.

The frame is available in Charcoal only.

Note: Overhead Storage cannot be hung on stacker frames. They are non-load-bearing.

Capture Glass Stacker Frames

Glass Stacker Frames attach to the top of a base frame to increase the height of the wall and to provide see-through capability. Glass Stacker Frames are made of aluminum with plastic panel-to-frame connectors at the bottom, for attachment to the base frame.

Stacker includes hardware for attachment to the base frame. The top cap must be ordered separately. If the Stacker Frame is at the end of a run,

a change of height cover must be ordered separately

Note: Glass Stackers can be mounted on panels of any width and panels with a single stacker. Only one can be used per panel. They must be placed in the uppermost position on a panel.

The Glass Stacker Frame has been tested to meet or exceed ANSI/BIFMA x5.6-2016.

The Glass Stacker Frame is available in all standard and premium systems trim colors.

Note: Overhead Storage cannot be hung on Glass Stacker Frames. They are non-load-bearing frames.

Note: To permit installation, the tiles immediately below a Glass Stacker may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Capture Double Glass Stacker Frames
 Double Glass Stacker Frames attach to the top of a base frame to increase the height of the wall and to provide see-through capability. Glass Stacker Frames are made of aluminum. Stacker Frames include hardware for attachment to the base frame. The top cap must be ordered separately. If the Stacker Frame is at the end of a run, an End of Run Cover to match the overall height is needed.

Note: Double Glass Stackers can be mounted only on a base frame with a matching width of the Stacker Frame. Only one can be used per panel. They must be placed in the uppermost position on a panel. The maximum overall height of the base and Double Glass Stacker Frame cannot exceed 98" in height. The Double Glass Stacker Frame has been tested to meet or exceed ANSI/BIFMA x5.6-2016. The Double Glass Stacker Frame is available in all standard and premium systems trim colors.

Note: Overhead Storage cannot be hung on Double Glass Stacker Frames. They are non-load-bearing frames.

Note: When specifying different insert materials in the top and bottom location, use the price of the higher insert material.

Note: To permit installation, the tiles immediately below a Double Glass Stacker may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Capture Swing Door Section

The Capture Swing Door Section is designed to replace a 42" (1067) wide frame. The door is non-handed and can be field reversed. Price includes door with lever, header, door jambs, threshold and all necessary hardware. The door section meets the 32" (813) ADA clearance requirements.

The 85" (2159) high door is surfaced with a durable, abrasion-resistant vinyl or an HPL and has the option to be solid (no lite) or full light. The door

comes standard with a nonlocking Level handle, and can be upgraded to a locking Lever Set both of which are ADA compliant.

Note: If the door section is connecting directly into a 2- or 3-way condition please order the specific Capture Swing Door Corner Connection Cover (CSWDSCC90/98) or Three Way Cover (CSWDSTWC90/98).

Note: The Door section can accommodate an 8" stacker Frame.

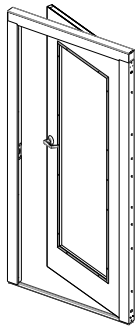

But cannot accommodate a Glass Stacker frame.

Note: Doors can only be used with 90" (2286) - high panels or higher.

Note: The hinge side of the door must be 24" (610) or closer to a panel connection wall start, 2-way or 3-way.

Note: The Door Section cannot connect into a 4-way panel condition.

Capture Swing Door Corner Connection Cover

The Capture Swing Door Corner Connection Cover connects a Capture Swing Door Section with another Capture Frame with stacker(s) at a 90° angle. The aluminum Corner Connection Covers include the specific connectors needed for the internal connection between the Door Section and the Frame, light block, corner top cap and alignment clips.

Note: The Corner Connection Cover, Swing Door Section (with Stacker) and Base Frame with stacker(s) should all be the same height.

Capture Swing Door Three-Way Connection Cover

The Capture Swing Door Three-Way Connection Cover connects the Capture Swing Door Section to two other Capture Frame with stacker(s) to form one straight and two 90° angles. The aluminum Three-Way Connection

Covers include the specific connectors needed for the internal connection between the Door Section and the Frames, light block, corner top cap and alignment clips.

Note: The Three-Way Connection Cover, Swing Door Section (with Stacker) and Base Frames with stacker(s) should all be the same height.

Capture Frameless Top Screen with Brackets

Top Screens with Brackets can be mounted to the top of any Capture Base Frame or Stacker. They must be specified to match the width of the panel they will attach to. Top Screens with Brackets can not span multiple panels. They ship with the top cap they will mount to, along an acrylic insert and die-cast aluminum

hardware to support the screen. Top Caps can be specified in any standard and premium trim colors, but the attachment bracket is available in brushed aluminum only.

Screens are available in 8" height only, and line up with standard panel heights. For example, a 34" high panel with the 8" screen will line up with a standard 42" high panel.

Note: Frameless Top Screen with Brackets can not be used with Glass Stacker Frames.

Note: To permit installation, the tiles immediately below a Frameless Top Screen may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Panel Topper Acrylic Screen

The Panel Topper Acrylic Screen attaches to any Capture Base Frame, Stacker, or Glass Stacker. The Panel Topper attaches over the existing top cap and requires no field drilling. The acrylic screen is available in either Clear or Frosted Plexi and includes attachment hardware. Foam pads to protect the finish of the panel are included with the attachment hardware.

Note: Panel Topper Screens cannot attach behind steel overhead flipper units or on return panels next to any overhead storage unit.

Screen size	Number of Brackets

Capture Frameless Top Screen with Channel

The Frameless Top Screen with Channel can be mounted to the top of any Capture Base Frame or Stacker Frame with the exception of Glass Stacker Frames. These Top Screen can be specified to span multiple panels, up to 96". The Screen is available in two heights, 8" and 16". Screen heights can be specified to align with adjacent base or stacker frames. For example, a 42"- high panel with an 8" screen will line up with a 50"-high panel. Extruded aluminum mounting hardware is

included with each Screen.

Note: Top Caps are not included with Frameless Top Screens with Channel and must be ordered separately.

Note: To permit installation, the tiles immediately below a Frameless Top Screen may not include laminate or slatwall style tiles on both sides of the frame. They are permitted on one side only.

Note: If screens are mounted to the lower frame in an inline change of height condition, the change of height

end cover will interfere with a full width screen. Specify single change of height (SCH) or dual change of height (DCH) Frameless Screen option when the screen is mounted in an inline change of height condition, with taller frames on one or both sides of it. Choose the no change of height (NCH) Screen when there is no change of height condition present.

Capture Frameless Top Cap

Frameless Top caps mount directly to the top of a Capture Base Frame or Stacker Frame where a Frameless Top Screen with Channel is used. They must be specified separately. Order one for each panel the Frameless Top Screen mounts to.

Top Caps are available in all standard and premium Systems Trim Colors.

Capture Full Frame Top Caps

Top Caps mount directly to the top of a Capture Frame when a top screen or top mounted storage is not used.

Top Caps are available in all standard and premium Systems Trim colors.

Capture Freestanding Screen Foot

The Capture Freestanding Screen Foot is used to transform assembled Capture Panels into freestanding screens. The Foot can be used to support a single Panel or run of freestanding Panels, without additional support from Return Panels or attached surfaces. The maximum total height of the supported frame is 50 inches, including any attached stackers or frameless screens. The Foot is constructed of steel and ships complete with leveling glides and attachment hardware.

Please refer to the planning section on page 20 for planning and layout rules.

Capture Frame End Panels

The Capture Frame End Panel is a structural component that attaches perpendicular to the side of a Capture Frame to provide support at the end of a Panel run. Frame End Panels can be used as an end-of-run alternative to a pair of Return Panels in a normal Capture layout, or in conjunction with the Capture Freestanding Screen Foot. They may attach to frames of equal height or taller. Frame End Panels are 1¼" thick and constructed of HPL.

The installed Frame End Panel is 3.25" wider than the width of an equivalent pair of installed Return Panels. This is to accommodate the 3 way condition and to

provide the recommended 1" clearance to avoid pinch points with Height Adjustable Tables.

Note: Due to the attachment method, a Frame End panel CANNOT be taller than the frame it connects to.

Frame End Panels are offered in the Trendway standard HPL colors that have a matching Edge Band. The Edge color will automatically match the specified laminate. If a wood grain laminate is selected, the grain direction will be run horizontally.

Please refer to the planning section on page 21 for planning and layout rules.

Capture Full Frame Corner Covers

Corner Covers connect two Capture full frames at a 90° angle. The aluminum corner cover also includes connectors for the internal connection between the two frames, corner light block, corner top cap and corner top cap alignment clips.

Note: Connection can be made between equal or unequal height frames or Stacker/Base combinations. For an unequal height connection, order the Corner Cover to match the height of the lower frame. Unequal height connections require a Change of Height Cover to cover the exposed side of the taller frame or Stacker Frame.

Note: A single Corner Cover can be used to connect a configuration of up to 98". Select the Corner Cover in the height that matches the total height of the base frame/stacker/glass stacker combination.

Note: The height difference between adjacent frames can be no greater than 24" (610).

Note: When a Swing Door is one of the panels in a 2-way condition please order the Capture Swing Door Corner Connection Cover (CSWDCC##).

Capture Stacker Frame Corner Covers

Stacker Frame Corner Covers connect a Capture Stacker Frame or Glass Stacker Frame at a 90° angle to another Stacker, Glass Stacker or Base Frame. The aluminum corner cover also includes connectors for the internal connection between the two Frames, corner light block, corner top cap and corner top cap alignment clips.

Capture Full Frame Three-Way Corner Covers

Three-Way Corner Covers connect three Capture Full frames to form one straight and two 90° angles. The aluminum corner cover also includes connectors for the internal connection between the three Frames, corner light block, corner top cap and corner top cap alignment clips.

Note: Connection can be made between equal or unequal height frames or Stacker/Frame combinations. For an unequal height connection, order the Three-Way Corner Cover to match the height of the lower Frame.

Unequal height connections require a Change of Height Cover to cover the exposed side of the taller Frame or Stacker Frame.

Note: A single Three-Way Corner Cover can be used to connect a configuration of up to 98". Select the Three-Way Corner Cover in the height that matches the total height of the base frame/stacker/glass stacker combination.

Note: The height difference between adjacent frames can be no greater than 24" (610).

Note: When a Swing Door is one of the panels in a 3-way condition

please order the Capture Swing Door Three-Way Corner Connection Cover (CSWDSTWC##).

Capture Stacker Frame Three-Way Corner Covers

Stacker Frame Three-Way Corner Covers connect a Capture Stacker or Glass Stacker Frame at a three way corner to another Stacker, Glass Stacker or Base Frame. The aluminum three way cover also includes connectors for the internal connection between the three frames, corner light block, corner top cap and corner top cap alignment clips.

Capture Inline Change of Height Post

Inline Change of Height Posts are used in Three and Four-Way change of height conditions where two of the Base Frames or Base/Stacker/Glass Stacker combinations in a straight line condition are of equal height. Inline Posts fill in opening between the straight line panels created by lower height panels at 90° angles.

Inline Change of Height Posts include a painted aluminum extrusion, top cap and post change of height cap.

Capture Multiple Change of Height Post

Multiple Change of Height Posts are used in three and Four-Way change of height conditions where only one panel is at the highest elevation. Post height is determined from the difference between tallest and shortest panel in

the three or Four-Way corner condition. Multiple Change of Height Posts attach to the tallest panel only.

Note: The tallest panel in the condition can not be a Glass Stacker Frame.

Capture Inline Panel to Panel Connection

Inline Panel to Panel Connection is used to connect Base Frames or Frame Base/Stacker combinations in straight line conditions.

Capture Stacker Inline Connection Bracket

Stacker Inline Connection Bracket is used to connect Capture Stacker

Frames to adjacent Base Frames or Stacker Frame in straight line conditions.

Capture Frame Vertical Light Block

Vertical Light Block is a black vinyl tape with single-side adhesive. It easily applies to the vertical reveal between tiles to provide maximum visual privacy. Light Block comes in 100' (30 meter) rolls and is available for field installation only.

Light Block is most easily applied before Tile installation but can be added either before or after. If added after tile installation, it is recommended that a hinge tool be used to ensure proper application.

Available in black only.

Capture 120 Degree Full Three Way Connectors w/ Top Cap

120 Degree Three Way Connectors connect three Capture Frames at three 120° angles. The kit includes brackets for the internal connection between the three Frames, corner light block, corner cap and corner top cap alignment clips.

Note: Connection can be made between equal or unequal height Frames or Stacker/Base Frame combinations. For an unequal height connection, order the Three Way Connector kit to match the height of the lower Frame. Unequal height connections require a Change of Height Cover to cover the exposed side of the taller Frame or Stacker Frame.

Note: A single Three Way Connector kit can be used to connect a configuration of up to 98". Select the

Three Way Connector kit in the height that matches the total height of a Base Frame /Stacker/Glass Stacker combination.

Note: The height difference between adjacent Frames can be no greater than 24" (610).

Capture 120 Degree Stacker Frame Three Way Connectors

120 Degree Stacker Three Way Connectors connect a Capture Stacker or Glass Stacker Frame at a three-way corner to another Stacker, Glass Stacker or Base Frame. The kit includes connectors for the internal connection between the three Frames and corner light block.

Capture 120 Degree Multiple Change of Height Post

120 Degree Multiple Change of Height Post is used in three way change of height corner conditions where only

1 panel is at the highest elevation. Post height is determined from difference between tallest and shortest panel in the three or four way corner condition. The Multiple Change of Height Post attaches to the tallest panel only.

Note: The tallest panel in the condition cannot be a Glass Stacker Frame.

Capture Glass Stacker Connection Brackets are included with the original product order for the Glass Stacker Frame. In cases of subsequent reconfigurations where the original Brackets were discarded or where glass is introduced, these Brackets can be ordered separately.

Capture Glass Stacker Inline Connection Bracket

Glass Stacker Inline Connection Bracket is used to connect Capture Glass Stacker Frames to adjacent Base, Stacker or Glass Stacker Frame in straight line conditions.

Stacker or Glass Stacker Frames to adjacent Base, Stacker or Glass Stacker Frames at a 90° angle.

Capture Glass Stacker Three-Way Connection Bracket

Glass Stacker Three-Way Connection Bracket connects a Capture Glass Stacker at a three-way corner condition to a Stacker, Glass Stacker or Base Frame.

Capture Glass Stacker Four-Way Connection Bracket

Glass Stacker Four-Way Connection Bracket connects a Capture Glass Stacker at a four-way corner condition to a Stacker, Glass Stacker or Base Frame.

Capture Glass Stacker Corner Connection Bracket

Glass Stacker Corner Connection Bracket is used to connect Capture

<u>Electrical & Communications Planning</u>	<u>50</u>
<u>8-Wire, 4-Circuit Planning & Specifying</u>	<u>54</u>
<u>Electrical & Data Components</u>	<u>58</u>

ELECTRICAL AND COMMUNICATIONS PLANNING

Power and Data Features and Capabilities

Capture offers base and beltway capabilities for accessing power and data in workstations. Power can be distributed at the base and at the beltway using PowerPac components. Hardwire raceway capabilities are also available at both the base and the beltway. Certain PowerPac Electrical components may be specified as factory installed in Capture Panels to simplify electrical planning and installation. PowerPac Electrical components can also be specified separately for field installation in non-powered panels.

The PowerPac Electrical System offers the power and flexibility of an 8-Wire, 4-Circuit system. PowerPac components are simple to specify and install. Each component is complete and sized for the panel where it will be used. PowerPac Blocks snap into place, with no tools required.

The PowerPac Electrical System is built to the requirements of the National Electrical Code and has not been approved for use in the City of the Chicago. For those cities and outlying areas required to abide by the Chicago Electrical Code, we offer a Hardwire option for use in panels 24" (610) to 48" (1219)-wide. Follow the National Electrical Code (NEC) or other local, state or national codes.

Power and Data Locations

- The maximum number of power and/or data ports that can be used with a 30" (762) and wider panel is 2 ports per panel side at baseline, and 2 ports per panel side at beltway.

Note: 20" (508) panels have pass through capability only; 24" (610) panels include 1 port per side at baseline and 1 port per side at beltway.

Distributing Power

- PowerPac Connectors are used to route power through the panels both horizontally and vertically from base to beltway.
- Power Blocks attach at the base and beltway locations using a common mounting bracket.
- The Chicago Electric Hardwire Box accepts field-installed electrical hardwiring and is approved for use in the City of Chicago and outlying areas requiring hardwiring. All electrical routing must be hardwired within the panel raceway by a certified electrician. The electrician provides

Note: Panel run Returns not shown.

all hardwired electrical components needed. For additional information on Chicago code projects, please contact a Trendway Customer Care Representative.

Note: When specifying the Hardwire Panel option, no PowerPac components should be specified.

Distributing Data

- Data cables can be routed through all panels at the baseline, beltway and data pass-thru location.
- Communication Modules snap into an open duplex location in the base and at the beltway.

Cable Capacity for Trendway Capture Frames

Cable Type	CAT 5E .220 (9/16"dia.)	CAT 6 .250 (1/4"dia.)	25 Pair .375 (3/8"dia.)
Base without electrical*	62	46	20
Base with electrical*	44	34	14
Beltway without electrical	46	36	16
Beltway with electrical	34	24	10
Mid-frame Data Pass thru	26	21	10
Power Pole	94	78	36
Power Pole with one Electrical Conduit	77	65	31

120° Power Pole with one Electrical Conduit	29	22	9

* The Capture Freestanding Screen Foot installed at the Base reduces Cable capacity by 25%.

8-Wire, 4-Circuit

POWERPAC ELECTRICAL AND DATA COMPONENTS

Components used in designing and specifying the modular electrical system are PowerPac Blocks, Connectors, Base Feeds, Ceiling Feeds, Duplexes and Power Poles. All Capture PowerPac Electrical components are UL and CUL Listed/CSA Certified.

The following information provides a description of each PowerPac component:

PowerPac® Blocks

PowerPac Blocks may be ordered with the frame or specified separately.

- PowerPac Blocks provide power access on both sides for up to two snap in Power Duplexes per side.
- 24" (610) PowerPac Block (PPB24) is a single distribution block to accommodate up to two power duplexes (maximum one per side). 24" (610) Blocks may be used for field installation in 24" (610) to 48" (1219)-wide panels to fill a single duplex location.
- 30" (762), 36" (914), 42" (1067), and 48" (1219) PowerPac Blocks (PPB30-PPB48) have two distribution blocks to accommodate up to four power duplexes (maximum two per side).
- PowerPac Blocks have four end ports (two per end) where up to four PowerPac Connector can be plugged in.

PPB24
24" width

PPB30
30" width

PPB36-PPB60
36" to 48" width

PowerPac Connectors

Connectors distribute power horizontally from one panel to another and/or distribute power vertically from the panel base to the beltway.

- **The Block-to-Block Connectors (PPC)** is used to connect PowerPac Blocks to one another. It has a swivel at one end to distribute power around 90° bends. PPC22 Connectors and longer will span 3-way and 4-way conditions.

Male

Base Feeds 8-Wire, 4-Circuit

The Base Feed installs into a PowerPac Block to feed power from the building's electrical system. These are four different types of Base Feeds: Hardwired, Plug, New York City and End Mount.

- **Hardwired Base Feed (CPRBFH)** installs into one duplex location in a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit base feed to the building's electrical system. Can be used in right- or left-hand installation requirement.

CPRBFH

- **Base Feed Plug (CPRBFP)** installs into one duplex location in a Power Block. It includes 2' (610) and 20-amp plug for powering Circuit I only. Can be used in right- or left-hand installation requirement.

CPRBFP

- **Power Feed Connector (CPRBFHNY)** (New York City hardwired) has 6' of flexible conduit and a junction box for hardwiring the standard four-circuit system in New York City applications.

CPRBFHNY

- **End-Mount Base Feed (CPREBFH)** installs into the end of a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit base feed to the building's electrical system.

CPREBFH

Ceiling Feed

The Ceiling Feed (CFTP) supplies power from the ceiling to the PowerPac system. The feed is channeled through the Tele-Com Power Pole. It has 13' (3962) of wire and 12' (3658) of flexible conduit.

Male

CFTP

Capture Power Pole

The Capture Power Pole (CPP) is used to channel PowerPac electrical components and communication cables by attaching to all panel side rails at end conditions and two-, three- and four-way conditions.

CPP

Power Duplexes

The Power Duplex plugs into PowerPac Blocks for access to the circuit. There are nine different duplexes that are used to create three different 4-Circuit options (See PowerPac Electrical Circuit Planning section). Each Power Duplex is color coded and marked to distinguish whether it is a general, dedicated or isolated circuit.

Circuits are marked with the following symbols: I, II, III, IV, I, II, III, III, IV. Power Duplexes need to be specified separately to match electrical circuit plan.

CPD151 - CPD154 A

POWERPAC ELECTRICAL AND DATA COMPONENTS (Cont.)

USB Duplex

The USB duplex plugs into a PowerPac Block for access to the circuit. Each duplex provides 2 amps, one amp per port of charging power. Each USB Duplex is marked to distinguish its specific circuit. Circuits are marked with the following symbols: I, II, III, or IV. USB Duplexes need to be specified separately to match the electrical circuit plan.

Communication Modules

The Communication Module snaps into an open duplex location in the base and at the beltway providing access to communication distribution.

CM553, CM553BW, CM554

CM555

SPECIFYING POWER ELECTRICAL FOR POWERED PANELS

The following step-by-step guide illustrates how to specify powered Capture Panels and connecting electrical hardware for standard applications. For more complex electrical specification tips see the Advanced Electrical Planning Guidelines on the next page.

Step 1

Understand Number of Available Power Duplex Locations per Panel Type.

20" Panels – Pass Through Only
24" Panels – One Duplex Per Side
30"-48" Panels – Two Duplexes Per Side

Step 2 Specify Panels with Powered Electrical Option

P1 Option

When the Powered Base Option P1 is specified, electrical brackets will be factory installed in baseline locations. Power Blocks will be provided for field installation.

P2 Option

When the Powered Beltway Option P2 is specified, electrical brackets will be factory installed in beltway locations. Power Blocks will be provided for field installation.

PP Option

When the Powered Base/Beltway Option PP is specified, electrical brackets will be factory installed in both the base and beltway locations. Power Blocks will be provided for field installation.

Step 3 Specify which sides of the panel are powered

CB Option

When the One-Sided CB Option is selected, only one side of the panel will have electrical cut-outs

CC Option

When the Dual-Sided CC Option is selected, both sides of the panel will have electrical cut-outs

Step 4

For all standard 180° connection specify PPC20.

For all 2-way 90°, 3-way, and 4-way panel electrical connections, specify the PPC22.

Step 5

For all baseline-to-beltway electrical connections, specify the PPC48 Power Connector.

Note: The transition from base to beltway occurs within the panel frame.

Step 6

Specify Base Feed, Power Duplexes and Communication Modules to Complete Electrical Installation. Available components are described in the PowerPac Electrical and Data Components section.

ADVANCED ELECTRICAL PLANNING GUIDELINES

This section builds upon the steps described previously in Specifying Power Electrical, for more complex applications.

Passing 8-Wire Electrical Through a Non-Powered Panel

Use the following illustration and table to determine the correct PowerPac Block-to-Block Connector to connect two powered panels separated by a non-powered panel.

Connector Length for 8-Wire	
Panel Width	Connector
20"	PPC42
24"	PPC48
30"	PPC54
36"	PPC60
42"	PPC66
48"	PPC72

$$\text{PPC Length} = \text{Pass-Thru Panel Width} + 24"$$

For 8-Wire, please add 24" to your Pass-Thru Panel Width to get your PPC Length.

Pass Thru Panel / Panels and (2) Corner Conditions

Connector Length	
Panel/Panel Width	Connector
20"	PPC48
24"	PPC54
30"	PPC60
36"	PPC66
42"	PPC72
48"	PPC78
54"	PPC84
60"	PPC90
66"	PPC96
72"	PPC102
78"	PPC108
84"	PPC114
90"	PPC120
96"	PPC126

$$\text{PPC Length} = \text{Panel/Panels Width} + 30"$$

Integrating Communication Modules with 8-Wire Baseline and/or Beltway Electrical

- Order CPPB24 Single Power Block
- Order PPC Connectors to connect to the next panel's Power Block Use the following illustration and table to determine the correct Power Block-to-Block Connector length when bypassing a Communication Module.

$$\text{Connector Length} = \text{Panel Width}$$

Integrating Communication Modules with 8-Wire Baseline and/or Beltway Electrical for More Complex Applications

To determine Power Block-to-Block Connector lengths for more complex applications, use the diagram and formula below.

$$\text{Connector Length} = A + B - 24"$$

Note: If there is a connection point for a 2, 3 or 4 way connection condition add 3" and then round up to the nearest size harness.

Pass Thru (1) Panel and (1) 2-way 90 degree, 3-way and 4-way Condition

Connector Length	
Panel Width	Connector
20"	PPC48
24"	PPC48
30"	PPC54
36"	PPC60
42"	PPC66
48"	PPC72

$$\text{PPC Length} = \text{Pass-Thru Panel Width} + 24"$$

For 8-Wire, add 24" to your Pass-Thru Panel Width to get your PPC length.

The 8-Wire PowerPac Electrical Circuit Planning and Hardwiring to Building Electrical Source

The PowerPac Electrical System is an 8-Wire, 4-Circuit system including a dedicated neutral and ground. Each circuit is rated for 20 amps. The PowerPac Electrical Schematic is included to show how the system installs to the building's power source (Fig. 1). There are three - four circuit options which include:

- Three general circuits, one dedicated circuit (Fig. 2).
- Three isolated circuits, one dedicated circuit (Fig. 3).
- Two general circuits, two isolated circuits (Fig. 4).

Fig. 1 Installing to Buildings Power Source
208/120V 3-Phase Building Supply

240/120V Single-Phase Building Supply

Options for PowerPac Four Circuit System

Fig. 2 Three General Circuits, One Dedicated

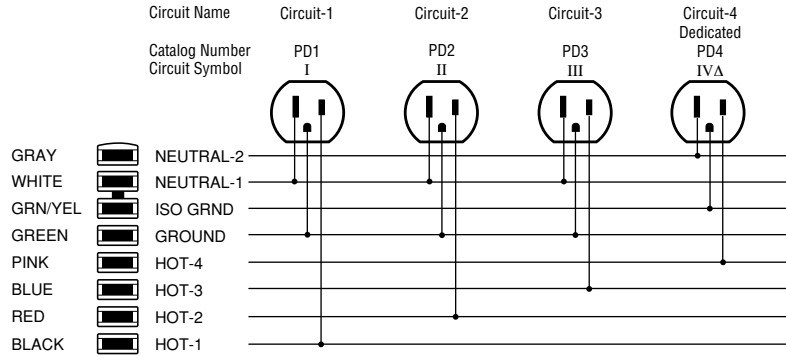

Fig. 3 Three Isolated Circuits, One Dedicated

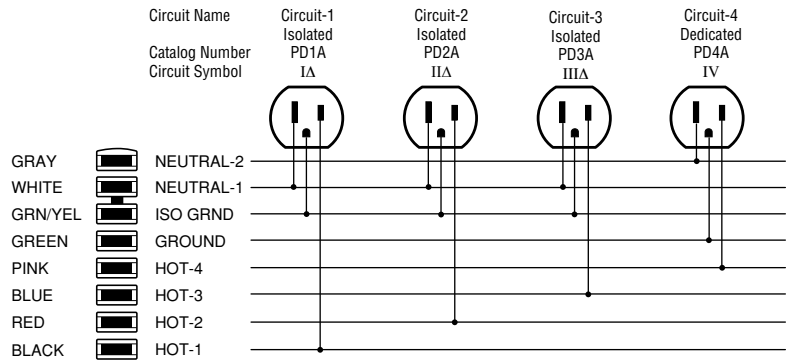

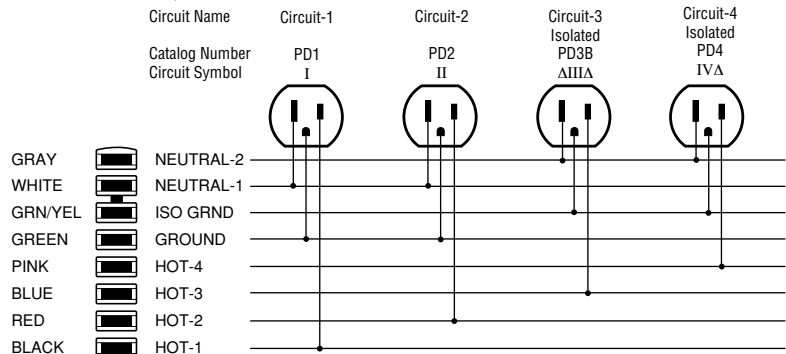

Fig. 4 Two General Circuits, Two Isolated

8-Wire, 4-Circuit PowerPac Blocks

The 8-Wire, 4-Circuit PowerPac Block, located 12" (305) on center from the vertical side rails, serves as a housing for receptacles and distributes power horizontally through a Capture Frame or Stacker Frame. It can distribute up to four 20-amp circuits through a modular eight-wire electrical system. It accommodates up to four duplex receptacles (eight outlets) on two sides of all Frames except 24" (610)-wide Frames. The 24" (610)-wide

Frames accommodate only two duplex receptacles (four outlets) on two sides. Receptacles are ordered separately. The PowerPac Blocks are UL Listed and CUL Listed/CSA Certified.

Note: Includes PowerPac Block mounting brackets.

Capture 8-Wire, 4-Circuit PowerPac Connectors

Capture PowerPac Connectors connect PowerPac Blocks to one another, distributing power horizontally from

one Capture Frame or Stacker Frame to another and/or distributing power vertically from one level to another within a Frame. The Capture PowerPac Connector has a swivel at each end to distribute power around 90° bends. Longer lengths allow for pass-thru power in some Frames. The Capture PowerPac Connector is UL Listed and CUL Listed/CSA Certified.

Electrical Panel Communications Isolation Box

The Electrical Panel Communications Isolation Box is a modular metal outlet box to provide physical and electrical separation between power and communications. The box is UL Listed as an outlet box, so it can be used to hard-wire duplex receptacles if necessary. The Box can also be used in the beltway location for Chicago hardwired power.

Note: Two CEPCIBs cannot be used back to back.

Note: Order Communications Modules separately.

Capture 8-Wire, 4-Circuit Power Duplexes

The Power Duplex plugs into a PowerPac Block for access to power circuits. Each Power Duplex is marked to indicate Circuit I, II, III, IV. Circuit IV has an orange numeral and delta symbol (Δ) to indicate it accesses the dedicated and isolated circuits. Circuits I Δ , II Δ , III Δ , and Δ III Δ have an orange numeral and delta symbol (Δ) to indicate they access the isolated circuits.

Packaged in boxes of six of the same duplex. Power Duplexes are UL Listed

and CUL Listed. They must be installed in PowerPac Blocks only.

8-Wire, 4-Circuit USB Duplexes

The USB duplex plugs into a PowerPac Block for access to power circuits. These duplexes provide a place to charge devices via a USB charger. Each Power Duplex is marked to indicate Circuit I, II, III, or IV.

These are available for order in quantities of one, or a box of six of the same circuit. USB duplexes are UL Listed and CUL Listed/CSA Certified. They must be installed in PowerPac Blocks only.

Capture 8-Wire, 4-Circuit Power Feed Harnesses

The Power Feed Harness plugs into the PowerPac system to feed power from the building's electrical system. The CPRBFH Power Feed Harness (hardwired) has 6' (1829) of flexible conduit for hardwiring the standard four-circuit system. The CPRBFP Power Feed Harness (plug) has a 2' (610) cord and a 20-amp plug for powering Circuit I only. Either feed

accommodates right- or left-hand installation requirements. UL Listed and CUL Listed/CSA Certified. The CPRBFHNY Power Feed Harness (hardwired junction box) is for New York City. It allows the hardwired distribution of the standard 4-circuit power to be connected to a PowerPac Block. The Power Feed Harness includes J-Box and Cover, 6' (1829) Flex-conduit, coupling, nipple, and modular harness. San Francisco has 6'

(1829) of flexible conduit for hardwiring the standard four-circuit system.

Capture 8-Wire, 4-Circuit Ceiling Feeds for Power Pole Kits

The Ceiling Feed supplies power from the ceiling to the PowerPac system. The feed is channeled through the Power Pole Kit. It has 13' (3962) of wire and 12' (3658) of flexible conduit. UL Listed and CUL Listed/CSA Certified.

Capture Power Poles

Power Poles channel power and communication cables by attaching to panel side rails at end conditions and two, three and four way 90° corner conditions. Power poles are structural and will replace the panel to panel connection brackets. Panels will bolt directly to it.

Note: Desired power pole is determined by end of run or corner condition and height of panels. For change of height corners, specify the pole to match the specific corner condition and the lowest base frame height. Power Pole is 12' in height.

Note: Cable capacity of 80 Category 5e cables with Ceiling Feed and 94 Category 5e cables without electrical.

Capture 120 Degree Power Poles

Power Poles channel power and communication cables by attaching to panel side rails at two and three way 120° corner conditions. Power Poles are structural, replacing the panel to panel connection brackets. Panels bolt directly to the Pole.

Note: Desired Power Pole is determined based on end of run or corner condition and height of panels. For change of height corners, specify

the Pole to match the specific corner condition and the lowest height panel. Power Pole is 12' in height.

Note: Cable capacity of 29 category 5e cables with Ceiling Feed and 39 category 5e cables without electrical.

Communication Modules

The Communication Module snaps into an open duplex location in the baseline and at the beltway. It provides access to communication cables. Jacks are color coded as noted below. Includes icon tabs for easy identification of Data, Phone, Voice, and LAN (Local Area Network) lines.

Note: Verify your configuration with your building telecommunication contractor.

Note: All modules can be installed back to back.

Note: The RJ11 Jacks are rated category 3. The RJ45 Jacks are rated category 5e.

Capture Tile Overview

The total height of tiles used on a frame must equal the specified frame height minus 6". The base components and top cap occupy those 6".

The tile installed in the lowest position on a frame may be 28", 36", 44", 52" or 60".

If multiple tiles will be applied to a frame, the total height of additional segments must equal the difference between the lowest tile height and the Frame height, minus 6".

For Example:

42" Frame
 -28" Lowest Tile
 -6" Base and Top Cap

 = 8" Available for placement of one tile at the top

58" Frame
 -36" Lowest Tile
 -6" Base and Top Cap

 = 16" Available for placement of one 16" or two 8" tiles

66" Frame
 -36" Lowest Tile
 -6" Base and Top Cap

 = 24" Available for placement of three 8", one 8" plus one 16", or one 24" tiles

Capture Steel Tiles

Steel Tiles are mounted on either side of a Base or Stacker Frame to provide a durable, easily cleaned powdercoat surface. **28" (711) high tiles are to be used below the beltway location only.** All other tile heights are to be used at beltway or above.

Steel tiles include plastic clips and magnets for attachment to frames.

Steel tiles can be painted in all standard and premium Systems trim colors.

Steel tiles are Class A fire rated with Standard Acoustical ratings of .40 NRC and 15 STC.

Capture Marker Board Tiles

Marker Board Tiles are constructed of steel with a durable writable/erasable powdercoat finish. Tiles can be mounted on either side of a Base or Stacker Frame to provide a magnetic marking surface. **28" (711) high tiles are to be used below the beltway location only.** All other tile heights are to be used at beltway or above.

Marker Board tiles include, plastic clips and magnets for attachment to frames. (Marking pens and eraser not included).

Marker Board tiles are Class A fire rated with Standard Acoustical ratings of .40 NRC and 15 STC.

Capture Laminate Tile Sets – Thermofused Laminate

Thermofused Laminate Tile Sets attach on either side of a Base frame to provide a laminate surface. Tiles are surfaced with Thermofused laminate and have a matching vinyl edge. The Sets allow vertical pattern matching with wood grain laminates. Tile sets include 2 laminate tiles that attach to 1 side of a Base frame. The lower tile will always be 28" (711) high.

The wood grain pattern is matched vertically across the tiles. Laminate tile sets are available for frame heights 42" – 66". Chart below shows the tile set size needed for each frame height.

Full Frame Height	Laminate Tile Set Size
42" (1067)	36" (914)
50" (1270)	44" (1118)
58" (1473)	52" (1321)
66" (1676)	60" (1524)

Note: Laminate Tile Sets are not available for 34" (864) high Capture Full Frame, since only a single 28" (711) tile is allowed.

Attachment hardware included.

Capture Slatwall Tiles

Aluminum Slatwall Tiles have five horizontal slots that provide points of attachment for Capture Slatwall Tools. They come in widths to match Capture Frames, 20" – 48" wide. Mounting brackets included with the product will mount into slots in a full frame at the beltway location and above.

Note: Slatwall tiles mount directly onto the Frame (vs. mounting onto another tile) and are to be used in place of an 8" tile at the beltway and above.

Available in all standard systems trim colors.

Capture Tackable Tiles

Tackable tiles attach on either side of a Base or Stacker frame to provide a fabric covered, tackable surface. Tackable tiles are Class A fire rated with Standard Acoustical ratings of .65 NRC and 11 STC.

Tackable tiles are available in Monolithic and Segmented tile heights.

Chart below shows Monolithic tile size needed for each Capture Base Full Frame height:

Full Frame Height	Monolithic Tile Size
34" (864)	28" (711)*
42" (1067)	36" (914)
50" (1270)	44" (1118)
58" (1473)	52" (1321)
66" (1676)	60" (1524)

*28" (711) monolithic tile is starter tile for segmentation below the beltway.

Note: For 34" (864) high Capture Full Frames, segmentation is not allowed,

so the Monolithic tile must be selected.

For segmentation, the lowest tile position (below beltway) must use either the 28" (711) high tile or a monolithic tile. At beltway and above, the 8" (203), 16"(406), 24"(610) & 32" (813) high tiles can be used depending on the Full Frame height. See Capture Planning guide for more specific details on tile segmentation.

Note: For Fabric orientation, refer to table located in Fabric Planning Section.

Capture Bottom Open Tile

The Bottom Open Tile provides an opening below the work surface for electrical access or to enhance air ventilation. The tile will finish both sides of a Frame and is sized to fit the same height as a 28" high tile. It includes aluminum covers to finish off the frame on both sides and bottom, and two Six Inch Fabric Tiles to complete the top of both sides of the frame.

Note: For Fabric orientation, refer to table located in Fabric Planning Section.

Note: When specifying different fabric grades on opposite sides of a panel, use price of higher fabric grade. For COM, use Grade 1 for fabric pricing.

Capture Beltway Power Data Tiles

Beltway Power Data Tiles are mounted on either side of a Capture Full frame at the beltway location only, to provide access on the front of the tile face to electrical outlets and telecommunications modules. Tiles that are 24" wide will have one opening for a power or data module. Tiles that are 30" to 48" will have two openings. Power Data Tiles are available in

standard and premium systems trim colors or upholstered in all systems fabrics.

Power Data tiles include plastic clips and magnets for attachment to frames, and plastic covers to conceal openings not in use for power or data receptacles. These plastic covers match the selected trim color if the painted tile option is chosen. If the fabric tile option is selected, the electrical outlet covers will be Charcoal.

Capture Component Overview

Capture Components include the elements needed to complete a workstation once panels and electrical have been installed. Components include work surfaces, keyboard mechanisms, flipper door and shelf units, task lights, tackboards, marker boards, and paper management. Some of the components offered are pictured below.

The Capture System has a 29" (737)-high nominal work surface height. Work surface support legs, end panels, and under work surface storage components are designed to provide height adjustment around this 29" (737) nominal work surface height. These components do not support positioning of work surfaces at other heights. However, some work surfaces can be positioned at other heights by using Work Surface Supports and/or Brackets. See Work Surface Support Planning for proper application.

Standard Features and Finishes

Capture Work Surfaces and Counter Caps have high-pressure laminate surfaces available with vinyl edge. Other Components are available in Trendway trim colors unless otherwise noted. See individual component descriptions for trim color options.

Capture Work Surfaces have a 1/2" (13) gap between the back edge of the work

Work Surface Edging Detail

surface and the panel face, designed for enhanced cable management. Back edge grommets are available as an option on most work surfaces. **Work surface supports must be specified separately to ensure proper work surface support for each application.** See Work Surface Support Planning on the following page for further details.

Specifications

All dimensions listed are nominal unless otherwise noted.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description and size. For example, CRWS2024 represents a **Capture Rectangular Work Surface, 20"** (508)-deep by **24"** (610)-wide.

The acknowledgment you receive from Trendway will follow the sequence of information outlined below. Trendway strongly encourages you to follow the same steps so that checking your order against the acknowledgment will be the easiest possible way.

When ordering Work Surfaces, list the following:

1. Quantity (combine same products)
2. Complete Part Number (see Sample Part Number at the bottom of each page for correct order sequence)
3. For ease of reading, place a period between each option number (CRWS2024.GY.Y.JP9.Y)

Work Surface Support Planning

All Trendway work surfaces are shipped without supporting hardware except for Peninsula Work Surfaces, Blade Work Surfaces, and Extended Conference Radiused Work Surfaces which all include a support leg(s) only. **All other support hardware must be ordered separately.**

This allows the specification of the appropriate hardware based upon the desired planning condition while keeping overall workstation costs to a minimum.

These support planning guidelines should be followed carefully to ensure proper work surface support. The following examples illustrate typical applications of Trendway work surface support methods. If you have further questions, please contact Trendway Customer Care with questions regarding planning guidelines.

Sample Part Number:	Catalog Number	Back Edge Grommet	Back Edge Grommet Color	Laminate Color	Edge Color				
CRWS2024	.GY	.Y	.JP9	.Y					
Total Cost \$210 =	\$191	+	\$19	+	N/C	+	N/C	+	N/C

Work Surface Supports

Work Surface Supports are field installed for left, right, left shared or right shared applications. The shared supports can be used at the meeting point of two adjacent work surfaces. As a rule, left supports are hung from a panel's left side rail and right supports are hung from a panel's right side rail. When Work Surface Supports are used, surface heights can be adjusted from 23" (584) to 32" (813), in 1" increments.

Either a left-hand or right-hand shared support may be used at any meeting point of two work surfaces.

Fig. A

Work Surface Brackets

Work Surface Brackets are used to provide support at the end of the work surface when it is next to return panels that are the **same depth** as the work surface. **When using a 30" (762)-deep work surface with return panels, the return panel width must match the work surface width, and a Work Surface Bracket must be used to support the front corner of the work surface.** A Work Surface Bracket must be specified to support the back corner of all corner work surfaces. Work Surface Brackets are available in left or right hand versions, or in pairs (Fig. B).

Standing Height Work Surface

Work Surface Brackets can be used to support work surfaces at heights above the maximum 32" (813) height allowed by Work Surface Supports. The Capture Base Frame has preset locations for these brackets that allow work surface heights of 34" (864), 42" (1067), 46" (1168) and 50" (1270). At these heights, return panels that match the work surface depth must be used on both ends. Work Surface Brackets support all four corners of the work surface (Fig. B). Work Surface Brackets can support work surface widths of only up to 60" (1524).

Fig. B

Work Surface Support Legs

Work surface support legs are used to support the end of Peninsula Work Surfaces and Blade Work Surfaces. There are two work surface support leg styles: the 4" (102) diameter, 29" (737) high Support Column, available in all trim colors and the work surface U-Leg Supports (Fig. C).

Fig. C

Flush Support Plates

Flush Support Plates are used to connect a work surface that extends from an adjacent work surface up to 72" (1829)-long at the same level. A Peninsula Work Surface at a 90° angle to a panel-hung work surface is one example of its use (Fig. D).

Fig. D

Planning Work Surfaces with Reinforcement Bars

Work Surfaces with Reinforcement Bars extend your planning options. They provide the strength and rigidity needed for applications where the top will be unsupported for a span of more than 48". These Work Surfaces can be used as Rectangular Peninsulas supported by the Capture U-Leg. They can also be combined with U-Legs to create stand-alone desks or tables. Those are the only applications where the Reinforcement Bars are required. These Work Surfaces match the top thickness of all Trendway systems surfaces (Fig. E).

Fig. E

Work Surface End Panels

Work Surface End Panels attach to panel side rails and the work surface to provide maximum support and stability at 29" (737)-height. **Work Surface End Panels must match the depth of the work surface (Fig. F).**

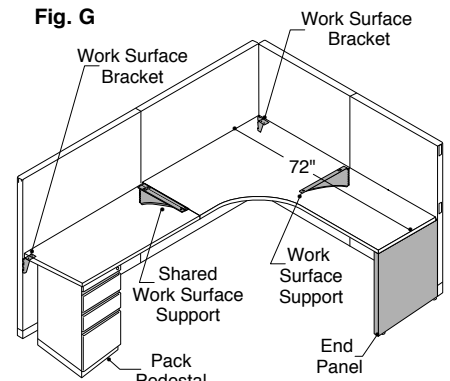

Fig. F

Determining Work Surface Support Requirements

- Order 1 Shared Work Surface Support (WSSLs or WSSRS) at each location where two work surfaces meet in place of two individual work surface supports (Fig. G).
- Order 1 additional Work Surface Support (WSSL or WSSR) on work surfaces that span more than 60" (1524) to provide necessary work surface support (Fig. G).
- Order 1 Work Surface Bracket (WSBKR or WSBKL) when using a Capture or Pack Pedestal as a floor supported element. See Panel Planning section for details (Fig. G).
- Order 1 Work Surface Bracket (WSBKR or WSBKL) for each Corner Work Surface specified (Fig. G).
- Order 1 pair of Work Surface Brackets (WSBKP) per end when work surface ends are adjacent to return panels (Fig. B).
- Order 1 End Panel (CWSEP) (Fig. G) in place of a return panel where permitted (see Panel Layout Planning in the Capture Panels section for more information).

Fig. G

Panel Hung Overhead Storage

Capture Panel Hung Overhead Storage can be installed singly or in a variety of combinations, depending on the size of the base frame and adjacent tiles. Overheads are available in 16" and 8" heights and can be installed on base frames that are 50", 58" or 60" high.

- For 50" frames, one 8" can be installed so the top is at 50". See below for proper placement.

- For 58" frames, one 16" unit or up to two 8" units can be installed. See below for proper placement.

- For 66" frames, combinations of one 16" unit, one 16" unit plus one 8" unit, or up to three 8" units can be installed. See below for proper placement.

Component Mounting Rail Tackboards

The following chart list the correct tackboard size to use in each application for the specific height of Component Mounting Rail.

Note: When overheads are being used, the recommended tackboard size is based on the overhead being mounted at the top of the Component Mounting Rail.

Tackboard Size per Application	Component Mounting Rail Height			
	34"	50"	58"	66"
Work Surface Only	4"	20"	28"	36"
Work Surface and 8" High Overhead	N/A	12"	20"	28"
Work Surface and 16" High Overhead	N/A	N/A	12"	20"

Note: For fabric orientation refer to the table located in the Fabric Planning section.

Component Capacities

Trendway Corporation will not, under any circumstances, guarantee or assume responsibility for loading performance beyond the basic individual component capacities given below.

Work Surfaces:

1.5 lbs. (.675kg) uniformly distributed per linear inch of perimeter of the work surface.

Maximum distributed load = (A+B+C+D) x 1.5 lbs.

200 lbs. (90kg) maximum concentrated load per work surface.

Counter Caps:

2.8 lbs. (1.26kg) per linear inch, uniformly distributed.

Flipper Door Unit:

A. Inside — 2.8 lbs. (1.26kg) per linear inch of usable space

B. Top — 2 lbs. (.9kg) per linear inch of usable space

Storage Shelves:

2.8 lbs. (1.26kg) per linear inch of usable space.

Components Glide Adjustment Ranges:

End Panels — 1" (25)
Support Columns — 4" (102)
U-Leg/P-Leg — 1 5/8" (42)

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to our product or if the capacities referenced are exceeded.

Check panel stability after installation is complete and hanging furniture components are loaded. Add support legs or supporting panels or both to insure stability.

Back Edge Grommets

All panel hung work surfaces have a nominal 1/2" (13) gap between the back edge of the work surface and the panel face, designed for enhanced cable management. Back Edge Grommets are available as an option when additional pass through capability is needed.

Note: Back Edge Grommets are needed in most panel applications because the 1/2" (13) gap will not allow an electrical power plug to pass between the panel and the work surface.

Back Edge Grommet color can be specified in any trim finish color.

Standard Back Edge Grommet locations are pictured below. Other grommet configurations may be available as a special order. Contact Trendway Custom Solutions for more information.

Full Width Rectangular Work Surfaces

Rectangular Work Surfaces

Rectangular Work Surfaces have a high pressure laminate top with a vinyl edge. Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a nominal 1/2" (13) gap along the back edge for cable management. Back Edge Grommets are available for use in certain applications.

All supports for the Rectangular Work Surface must be ordered separately.

Rectangular Work Surfaces 66" (1672) and wider require an additional intermediate support along the width of the work surface. Shared work surface supports are recommended at all work surface junctions, to lower work station cost. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Note: Rectangular Work Surfaces can not be used as a floor supported element.

Rectangular Work Surfaces with Reinforcement Bars

Rectangular Work Surfaces with Reinforcement Bars have a high pressure laminate top and vinyl edge. They also have reinforcement bars installed into the underside of the Work Surface. These bars provide the rigidity required for use as a freestanding table or as a Rectangular Peninsula supported by U-Legs. Work

Surfaces are nominal 1¼" (32) thick. These Work Surfaces will not provide a ½" gap along the back edge when installed onto a panel. All supports for the Rectangular Work Surface with Reinforcement Bars (U-Legs, Flush Support Plates, Shared Work Surface Supports) must be ordered separately.

Note: To create a floor supported Rectangular Peninsula a U-Leg must be attached to the work surface. If the

Rectangular Peninsula attaches to a panel it requires Shared Work Surface Supports (CWSSLS or CWSSRS) for installation. Floor-supported Rectangular Peninsulas that attach perpendicularly to another work surface require two Flush Support Plates. For additional information on Floor Supported Elements see the Frame Planning section.

Rectangular Work Surfaces for Corner Applications

Rectangular Work Surfaces for Corner Applications have a high pressure laminate top with a vinyl edge. Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a nominal 1/2" (13) gap along the back edge for cable management. Back Edge Grommets are available for use in certain applications.

Corner Application Work Surfaces are available in right and left hand versions and are to be used only when corners

are being created using rectangular work surfaces. When installed, the Left Hand Version will have a nominal 1/2" (13) gap on the right edge. Right Hand surfaces will have the gap on the left. This gap will align with the 1/2" (13) along the back edge of the return work surface in corner applications to give a consistent gap for cable management between Capture Frames and Work Surfaces.

All supports for Rectangular Work Surfaces for Corner Applications must be ordered separately. Rectangular

Work Surfaces for Corner Applications 66" (1672) and wider require an additional intermediate support along the width of the work surface. Shared work surface supports are recommended at all work surface junctions, to lower work station cost. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Note: Rectangular Work Surfaces can not be used as a floor supported element.

Capture Arc Work Surfaces

Arc Work Surfaces provide a smooth, gradually curved transitional to link either a 20" (508) deep work surface to a 24" (610) deep work surface, or a 24" (610) deep work surface to a 30" (762) deep work surface in the same wall run. Arc Work Surfaces have a high pressure laminate top with vinyl edge, and are available in Right Hand or Left Hand versions. Work Surfaces

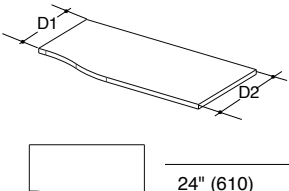

are nominal 1 1/4" (32) thick and when installed provide a 1/2" (13) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications. The grommet location is in the center of any width work surface.

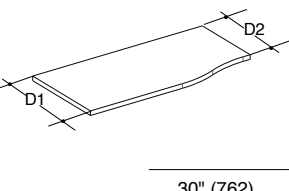

All supports for the Arc Work Surface must be ordered separately. A shared work surface support is recommended

at all work surface junctions, to lower work station cost. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Capture Corner Work Surfaces

Corner Work Surfaces have a high pressure laminate top with vinyl edge, and are available with either a curved or straight front edge. Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a 1/2" (13) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications.

All supports for the Corner Work Surface must be ordered separately. A separately specified Work Surface Bracket is required to support the back corner of the work surface. A shared work surface support is recommended at all work surface junctions, to lower work station cost. For additional information, see Work Surface Support

Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Capture Extended Transitional Corner Work Surfaces

Extended Transitional Corner Work Surfaces have a high pressure laminate top with vinyl edge, and are available in Left Hand or Right Hand versions. The Extended Transitional Corner Work Surface is designed with dual depth of either 20" and 24" or 24" and 30".

Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a

1/2" (13) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications.

All Supports for the Extended Transitional Corner Work Surface must be ordered separately. A separately specified Work Surface Bracket is required to support the back corner of the work surface. Work Surfaces 66" (1676) and longer require and

additional intermediate support along the length of the work surface. Shared Work Surface Supports are also recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Capture Blade Work Surfaces

Blade Work Surfaces have a high pressure laminate top with vinyl edge, and are available in Right Hand and Left Hand Versions. Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a 1/2" (13) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications.

The Blade Work Surface includes a Capture Work Surface U-Leg Support. All other support hardware must be ordered separately. Shared Work Surface Supports are also recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Capture Components Planning

Section. See page 99 to order work surface supports.

Note: If using the Blade as a Floor Supported Element a Shared Work Surface Support must be used (CWSSLS or CWSSRS). For additional information on Floor Supported Elements see the Frame Planning section.

Capture Peninsula D-Shaped Work Surfaces

Peninsula D-Shaped Work Surfaces have a high pressure laminate top with vinyl edge. Work Surfaces are nominal 1 1/4" (32) thick and when installed provide a 1/2" (13) gap along the back edge for cable management.

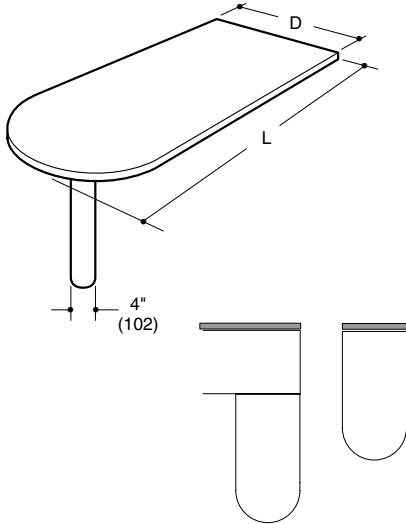

Back Edge Grommets are available for use in certain applications.

Peninsula D-Shaped Work Surfaces includes a center Support Column. All other support hardware must be ordered separately. Shared Work Surface Supports are also recommended at all work surface junctions. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (CWSSLS or CWSSRS). For additional information on Floor Supported Elements see the Frame Planning section.

Capture Extended Peninsula D-Shaped Work Surfaces

The Extended Peninsula D-Shaped Work Surface has a high pressure laminate top with vinyl edge and is available in Right Hand or Left Hand versions. Work Surfaces are nominal 1¼" (32) thick and when installed provide a ½" (13) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications.

The Extended Peninsula D-Shaped Work Surface includes a center Support Column. All other support hardware must be ordered separately. Shared Work Surface Supports are also recommended at all work surface junctions. For additional information, see Work Surface Support Planning

in the Capture Components Planning Section. See page 99 to order work surface supports.

Note: If using the Peninsula as a Floor Supported Element, a Shared Work Surface Support must be used (CWSSLS or CWSSRS). For additional information on Floor Supported Elements see the Frame Planning section.

Capture Radiused Conference Work Surfaces

Radiused Conference Work Surfaces provide a shared conferencing surface at the end of two adjacent work stations. It must be matched to two Rectangular Work Surfaces of equal depth and height.

Radiused Conference Work Surfaces have a high pressure laminate top with vinyl edge. Work Surfaces are nominal 1¼" (32) thick.

The Radiused Conference Work Surface includes a center support column. All other support hardware must be ordered separately. One right hand (CWSSRS) and one left hand (CWSSLS) are required to support the Radiused Conference Work Surface.

For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

Capture 120 Degree Corner Work Surfaces

The 120 Degree Corner Work Surface has a high pressure laminate top with vinyl edge and is available with either curved or straight front edge. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 5/8" (16) gap along the back edge for cable management.

Back Edge Grommets are available for use in certain applications.

All supports for the Corner Work Surface must be ordered separately. A separately specified Work Surface Bracket is required to support the back

corner of the work surface. A shared work surface support is recommended at all work surface junctions to lower work station costs. For additional information, see Work Surface Support Planning in the Capture Components Planning Section. See page 99 to order work surface supports.

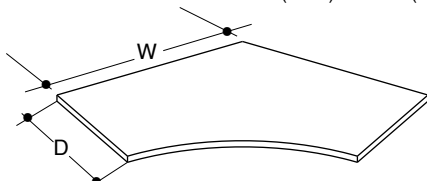

Capture 120 Degree Outside Corner Work Surfaces

The 120 Degree Outside Corner Work Surface continues a work surface run around an outside 120° panel configuration by adjoining the ends of two work surfaces.

The 120 Degree Outside Corner Work Surface has a high-pressure laminate top with a vinyl edge. Work surfaces are nominal 1 1/4" (32) thick and when installed provide a 1/2" (13) gap along the back edge for cable management.

All supports for the Outside Corner Work Surface must be ordered separately. Two shared Work Surface Supports, one right hand (CWSSRS) and one left hand (CWSSL) are required to support the Outside Corner Work Surface. See page 99 to order work surface supports.

Counter Tops

Counter Tops are 1¼" (32) thick and have high pressure laminate tops with vinyl edge. Price includes counter top, support brackets and mounting hardware.

Note: Top Caps are not used with Counter Tops.

Note: Counter Tops can not be placed on top of Glass Stacker Frames.

Capture Rectangle Counter Tops

Rectangle Counter Tops can be used individually or in combination with Radiused, Right Angle and Bowed Counter Tops.

Bowed Counter Tops

The Bowed Counter Top is 14" (356) deep at the ends and 16" (408) deep at the center, creating a curve on the approach side of the surface. Bowed Counter Tops can be combined with Rectangle, Radiused and Right Angle Counter Tops to make functional and attractive transaction configurations.

Note: The curve geometry of Bowed Counter Tops varies based on the length of the counter top selected.

Radiused Counter Tops

Radiused Counter Tops have one radiused end and one straight end. The Radiused Counter Top is designed so that the radiused end extends 6" (162) beyond the end of the panel run. Radiused Counter Tops can be used individually or in combination with Rectangle, Right angle and Bowed Counter Tops to extend the run.

Right Angle Counter Tops

The Right Angle Counter Top provides a continuous surface to extend around 90° panel configurations.

Capture Work Surface Supports
Work Surface Supports are available in four different styles- Right Hand, Left Hand, Right Hand Shared and Left Hand Shared. Right and Left Hand cantilevers are used at the end of a work surface run while shared cantilevers are used where two work surfaces meet. Right and Left Hand Shared cantilevers can be used interchangeably; however, handed versions are available for conditions where they are visible from the end of a work surface run (as with the Capture Radiused Conference Work Surface) Available in Standard Smooth Trim colors.

Note: Work Surface Supports are ordered separately for all work surfaces.

Note: Requirements for which support to use are given in the description section for each work surface.

Capture Work Surface Brackets
Work Surface brackets are used to support the back corner of all Corner Work Surfaces, and to support the end of a work surface that meets a return panel of equal width. They are also used to connect the back edge of Work Surfaces to a panel when the work surface is supported by metal pedestal. As a rule, left supports are hung from the panel's

left side rail and right supports are hung from the panel's right side rail.

Note: Requirements for which support to use are given in the description section for each work surface.

Flush Support Plates
Flush Support Plates connect a work surface that extends from an adjacent work surface at the same level. Includes two mounting plates and screws. Available in Black only.

Capture Work Surface P-Leg Supports

Work Surface P-Leg Supports are available in four different styles – Right Hand, Left Hand, Right Hand Shared and Left Hand Shared. Right and Left Hand P-Legs are used at the end of a work surface run while shared P-Legs are used where two work surfaces meet.

Work Surface P-Leg Supports replace cantilever and end panel support.

Price includes support leg, leveling glide and panel attachment hardware.

Note: P-Leg and Work Surface depth should match.

Capture Work Surface U-Leg Supports

Work Surface U-Leg Supports are available in two different styles- End Support and Shared. End Support U-Legs are used at the end of a work

surface run while shared U-Legs are used where two work surfaces meet.

Work Surface U-Leg Supports replace work surface supports and end panel support. Price includes support leg, leveling glide and panel attachment hardware.

Note: U-Leg and Work Surface depth should match.

Capture Work Surface Post Leg

The Work Surface Post Leg can be used to support the front corner of a Capture work surface when a Work Surface Bracket (specified separately) is supporting the back edge. This combination can be used to replace a P Leg, U Leg or End Panel supports. Price includes post leg, leveling glide and attachment hardware.

Capture Bench Storage Work Surface Short Support

The Bench Storage Work Surface leg is used with Capture Bench Height Storage units to support the end of a

work surface. 20" and 24" deep work surfaces use CBSWSL13 and 30" deep surfaces use CBSWSL19. Legs are available in all Trendway Standard and Premium Finishes.

All necessary attachment hardware is included.

Capture Work Surface End Panels

The Capture Work Surface End Panel replaces the standard cantilever support bracket on panel-hung work surfaces to provide additional support and stability. Price includes end panel, leveling glides, and attachment hardware.

Trim color refers to the bracketry which attaches the end panel to the systems panel.

Note: To determine where Work Surface End Panels may be used, refer to Work Surface Support Planning page in the Capture Components Planning section.

Support Riser

Capture Support Riser ships with necessary hardware to mount work surface to top of Under Desk Storage or Credenza that are a height of 26 3/4".

Available in Black only.

Adjustable Tilt Keyboard and Mouse Platform

The Adjustable Tilt Keyboard and Mouse Platform has a 5 1/4" (133) height adjustment range, a low profile keyboard tray and a swing-out mouse platform. The keyboard mechanism features total knee clearance and simple, spring-assisted height adjustment without the use of knobs or levers. The keyboard tray includes a full-width, gel-filled wrist support for comfort and non-slip pads to keep the keyboard in place.

Keyboard tilt allows for a zero-to-negative 10° tilt capability. Keyboard tilt is easily changed by adjusting a sliding switch mounted on top of the keyboard mechanism. Includes mounting hardware. Available in Black only.

CPU Holder – Vertical Mount

The CPU Holder mounts beneath a work surface to provide convenient vertical CPU storage. The holder has sturdy straps that adjust to fit the shape of the computer. The holder extends forward up to 12" (305) and swivels 360°. Supports up to 75 pounds (34kg). Includes mounting hardware. Available in Black only.

Capture Laminate Full-Height Shelf

The Full-Height Shelf consists of a Thermofused laminate shelf and end panel with matching vinyl edge. The end supports are 15 3/4" (400) high. The unit includes brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Half-Height Shelf

The Half-Height Shelf consists of a Thermofused laminate shelf and end panel with matching vinyl edge. The

end supports are 7 7/8" (200) high. The unit includes brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Half-Height Personal Shelf

The Half-Height Personal Shelf consists of a Thermofused laminate shelf and end panel with matching vinyl edge. The end supports are 7 7/8" (200) high. Personal Shelf depth is 9 1/4" (235) to reduce

overhead space when smaller items are being stored.

The unit includes brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 42" and 48" wide units.

Note: Trim color refers to the mounting brackets for Half and Full-Height Shelf and Half-Height Personal Shelf.

Note: Quarterbacks will match the trim color. They provide a 1 1/2" backstop to protect the fabric behind the unit.

Capture Laminate Full-Height Single Slider

Full-Height Single Sliders are comprised of Thermofused laminate with matching vinyl edge. The door has a pull and can be either Thermofused laminate or frosted plexi glass. Each unit has a center divider so there will always be one cubby open and one closed. The unit is 15 3/4" high, with 13 1/2" of vertical storage space to accommodate standard and A4 (11 7/16" x 12 5/8") sized binders. This unit does not lock.

Full-Height Single Sliders include brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Half-Height Single Slider

Half-Height Single Sliders are comprised of Thermofused laminate with matching vinyl edge. The door has a knob pull, and can be either Thermofused laminate or frosted plexi glass. Each unit has a center divider so there will always be one cubby open and one closed. This unit does not lock.

Half-Height Single Sliders include brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Trim color refers to the mounting brackets for Half and Full-Height Single Sliders.

Note: Quarterbacks will match the trim color. They provide a 1 1/2" backstop to protect the fabric behind the unit.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Full-Height Dual Slider

Full-Height Dual Sliders are comprised of Thermofused laminate with matching vinyl edge. The unit comes with two frosted plexiglass doors that run back to back in an aluminum track. Each unit has a center divider so there will always be one cubby open and one closed. The unit is 15 3/4" high, with 13 1/2" of vertical storage space to accommodate standard and A4 (11 7/16" x 12 5/8") sized binders. This unit does not lock.

Full-Height Dual Sliders include brackets for mounting to Capture

Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Half-Height Dual Slider

Half-Height Dual Sliders are comprised of Thermofused laminate with matching vinyl edge. The unit comes with two frosted plexiglass doors that run back to back in an aluminum track. The half-height unit comes standard with a knob pull. This unit does not lock

Half-Height Dual Sliders include brackets for mounting to Capture Frames. Factory installed options include a grommet for cord management and a Quarterback.

Note: Trim color refers to the mounting brackets for Half and Full-Height Dual Sliders.

Note: Quarterbacks will match the trim color. They provide a 1 1/2" backstop to protect the fabric behind the unit.

Note: Quarterback option required on 42" and 48" wide units.

Capture Laminate Flipper Door

Flipper Doors are comprised of thermofused laminate with matching vinyl edge. The unit is 15 3/4" high, with 13 1/2" of vertical storage space to accommodate standard and A4 (11 7/16" x 12 5/8") sized binders. The unit has a full width locking door which stores over the top with a pull. A slow close mechanism is available as an option to prevent the door from closing

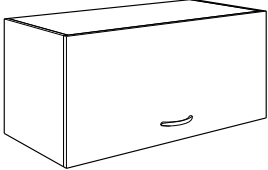

abruptly. Units that are 48" wide will have a center divider. If a wood grain laminate is selected, the grain will run vertically on the door front. Factory installed options include a grommet for cord management and a Quarterback.

Note: Trim color refers to the mounting brackets for flipper doors.

Note: Quarterbacks will match the trim color. They provide a 1 1/2" backstop to protect the fabric behind the unit.

Note: Quarterback option required on 42" and 48" wide units and all units specified with a lock.

Laminate Overhead Assembly Tool

The Systems Laminate Overhead Assembly Tool makes assembling laminate overhead products much easier. The tool fits into a power driver chuck and provides a guide for driving the cam pins into laminate surfaces. This tool will save you time during the installation process, and reduce laminate surface chipping.

Laminate Overhead Flipper/Shelf Clip

The Laminate Overhead Flipper/Shelf Clip connects two adjacent Laminate Overhead storage units. The clips are recommended to reduce panel run deflection, and keep the gaps between units uniform. Includes six clips per box.

Capture Component Mounting Rails

Component Mounting Rails attach Work Surfaces and Capture Systems components to interior architectural walls.

Note: It is the responsibility of the dealer or installer to ensure that the correct type of fastener for the specific, existing wall conditions is used to attach the wall mount to the wall.

Note: Component Mounting Rails are handed to match the single slotted pattern of a Capture vertical frame rail. Two Component Mounting Rails are required for each component(s) / work surface(s). Component Mounting Rails are sold in pairs, to include both a Right and Left Hand Rail.

Capture Component Mounting Rail Tackboards

Tackboards have a tackable fabric

surface. They are designed to be mounted to Component Mounting Rails only.

Tackboards are available in sizes to match Component Mounting Rail heights with either work surfaces or overheads mounted to them. See page 72 for tackboard height applications.

Two CWM's are shown.

Capture Laminate Panel-Top Mounted Full-Height Dual Shelf

The Top Mounted Full-Height Dual Shelf is comprised of thermofused laminate with matching vinyl edge. The end supports are 15 3/4" high. Units include mounting brackets and hardware for attachment to top of Capture frame.

Top Caps are included with Panel-Top Mounted shelves. Units are designed to provide storage access to users on both sides of a Capture panel.

Note: Right and left hand versions available. Handedness is determined by location of opening.

Note: Wood grain direction on all filing and storage units run vertical.

Note: To permit installation, the tiles immediately below a Top Mounted Storage unit may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Capture Laminate Panel-Top Mounted Half-Height Dual Shelf

The Top Mounted Half-Height Dual Shelf is comprised of Thermofused laminate with matching vinyl edge. The end supports are 7 7/8" high. Units include mounting brackets and hardware for attachment to top of Capture frame.

Top Caps are included with Panel-Top Mounted shelves. Units are designed to provide storage access to users on both sides of a Capture panel.

Note: Right and left hand versions available. Handedness is determined by location of opening.

Note: Wood grain direction on all filing and storage units run vertical.

Note: To permit installation, the tiles immediately below a Top Mounted Storage unit may not include Laminate or Slatwall style tiles on both sides of the frame. They are permitted on one side only.

Capture Steel Flipper Door

The Steel Flipper Door is available with painted steel or fabric covered locking door that stores below the top. The Flipper Door is 15" (381) deep, with 12 3/4" of vertical storage space to accommodate standard and A4 size binders. Units include a steel door with lock, cover and shelf, and color matched resin end supports with brackets for mounting to Capture Panels. The shelf is designed with a 5/8" (16) gap along the back edge to allow cable passage. Optional factory installed accessories include a Quarterback.

The Quarterback is a 1 1/2" (38) high back stop.

Note: For fabric orientation, refer to the table located in the Fabric Planning Section.

Note: Resin or composite end supports or end panels and quarterbacks are not available in textured or premium trim finishes. If textured or premium finish is selected, these items will match the standard smooth trim color.

Capture Steel Flipper Door Storage Unit

The Steel Flipper Door is available with either a painted or fabric covered locking door that stores above the top. The Flipper Door is 15" (381) deep, with 13 1/4" of vertical storage space to accommodate standard and A4 size binders. Units include a steel

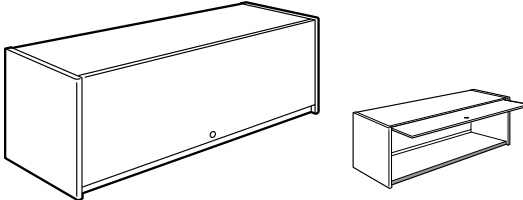

door with lock, cover and shelf, and color matched resin end supports with brackets for mounting to Capture Panels. The shelf is designed with a 5/8" (16) gap along the back edge to allow cable passage. Optional factory installed Quarterback.

The Quarterback is a 1 1/2" (38) high back stop.

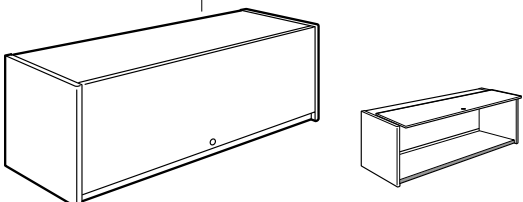

Note: For fabric orientation, refer to the table located in the Fabric Planning Section.

Note: Resin or composite end supports or end panels and Quarterbacks are not available in textured or premium trim finishes. If textured or premium finish is selected, these items will match the standard smooth trim color.

Capture Designer Shelf

The Designer Shelf includes a steel shelf, support rods and mounting brackets for attaching to a Capture Frame.

Note: The Designer Shelf must be attached at the top of a Capture frame, due to the attachment hardware. **There must also be a 16" high tile behind this shelf** to create a segmentation line for the lower attachment brackets to attach to the frame.

The Slim-Profile Light will not attach underneath the Designer Shelf.

Note: Tiles immediately below a Designer Shelf unit may not include Laminate or Slatwall style tiles.

Shelf/File Dividers

Shelf/File Dividers are freestanding dividers that magnetically attach to a shelf or drawer bottom. Includes three dividers. Available in all standard smooth trim colors.

Flipper/Shelf Clip

Flipper/Shelf Clips connect to the underside of two adjacent flipper doors or shelf units. Clips are recommended for heavy loading conditions to reduce panel run deflection. Includes six clips per box. Available in all standard smooth trim colors.

Used with the steel shelf and flipper door units.

TASK LIGHTS

All Task Lights are ETL Certified.

Note: Fused plug approved for use in the city of Chicago.

Slim-Profile Task Lights

The Slim-Profile Task light has the lowest profile and smallest footprint. The base model includes a 9' (2743) cord that exits in the center, starter switch, fluorescent lamps, prismatic acrylic lens, full-length reflector, energysaving electronic ballast, attachment brackets for mounting under a flipper door or shelf and screws for mounting to the laminate

overhead units. Color, batwing lenses and fused plug are all options.

The Slim-Profile Light will not attach underneath the Designer Shelf.

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26" of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel

360 degrees. All this leads to an ergonomically correct viewing angle. Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

LED Task Lights

Ultra slim LED task lights are only 2" (51)-wide, just over 1/2" high and available in 3 widths-17, 31 and 44. They come complete with hardware to attach to both metal flipper doors and laminate freestanding hutches. All LED task lights include a dimmer, 10 hour auto shut off, and a 50,000 hour life span. The unit is anodized aluminum with white end caps. ETL listed.

LED Task Light Complete

The LED Task Light Complete includes the light, mounting hardware and power source. It is the equivalent of a regular fluorescent task light.

LED Task Light Main Power Daisy Chain

The Task light with main power provides the light and mounting hardware plus a 60 watt power supply capable of powering more than one light. The power supply can accommodate a maximum of 60 watts. Please see the chart-for appropriate wattages as to not overload the power supply.

Width	Watts
17	9
31	18
44	25

LED Task Light Daisy Chain Jumper Cord

The LED Daisy Chain Jumper Cord Task Light includes the light and mounting hardware, plus an 8" and 30" jumper cord to attach to another task light. The jumper cord can attach to a Daisy Chain Main Power Task Light or another Daisy Chain Jumper Cord Task Light. Each connected light will have an independent power switch.

LED Task Light Occupancy Sensor

The LED Occupancy Sensor will automatically turn off all interlinked fixtures after 30 minutes of no movement. One occupancy sensor can 'control' all the lights that are daisy chained together.

Horizontal Wire Manager

The Horizontal Wire Manager accommodates electrical cords and communication cables. It attaches under all work tops and desks. Includes mounting hardware.

Available in Black only.

Light Cord Covers

Light Cord Covers are extruded plastic covers that conceal and manage light cords that run from overhead task lights. They are mechanically fastened by being snapped into slots in the sides of System Frames. The Light Cord Covers match all Capture Systems Trim Colors.

Note: Can be field-cut to size.

Credenzas

Capture Credenzas come with a 1" Thermofused laminate top and 2" support legs with leveling glides. Credenzas are 20" deep and 26 3/4" high. Units are intended for freestanding applications. Units ship fully assembled except for 2" support legs.

Note: Trim color includes support legs and Framed Door option (FD) when selected.

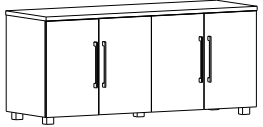

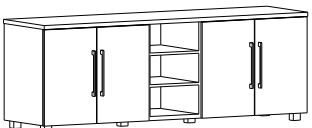

Note: If wood grain laminate is selected the grain on the front of the unit will run vertical.

Credenzas with Doors

Features include hinged doors with optional locking. (Locking not available on aluminum door option) Credenzas 60" and 72" wide have (1) adjustable shelf in each double door. Shelves adjust vertically in 2 1/2" increments.

Note: If wood grain laminate is selected the grain on the front of the unit will run vertical.

Wardrobe Storage Tower and Wardrobe Storage Tower with Bookcase

The Wardrobe Storage Tower provides, wardrobe, drawer and cupboard storage in a single cabinet. Each of these storage areas can be locked independently to allow for varying levels of security. Wardrobe Storage Towers are available in either Right-Hand version with the wardrobe on the right side or a Left-Hand version with the wardrobe on the left side.

The Storage Towers are available with two lateral drawer configurations: 12/12

with 12" drawers or 6/6/12 with two 6" drawers and one 12" drawer.

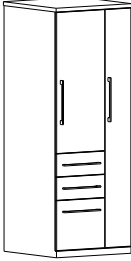

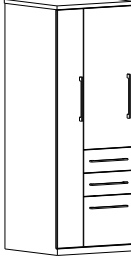

Wardrobe Storage Towers have adjustable leveling glides. The wardrobe unit includes a wardrobe bar and one adjustable shelf. The cupboard unit includes two adjustable shelves. The bookcase unit and cupboard unit includes two adjustable shelves. Shelves adjust vertically in 2 1/2" (64) increments. The pedestals have full extension ball bearing slides on both the 6" and 12" drawers.

Unit ships fully assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with a Key set in order for the Capture filing unit to lock. The Core/Key set (CLCK) must be order separately or by using the keying order form. Check Customer Care for availability.

Note: If wood grain laminate is selected the grain on the front of the unit will run vertical.

Under Desk Lateral Support Storage

Capture Under Desk Lateral Support Storage is available in three depths. The Lateral includes full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front to back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

Capture Under Desk Lateral Support Storage is pre-drilled to accept a 1" riser (included) for mounting under the desk (mounting screws included).

Optional locking available for drawers.

Units are intended for work surface support applications.

Ships fully assembled except 2" support leg.

Note: If wood grain laminate is selected the grain on the front of the unit will run vertical.

Under Desk Pedestal Support Storage

Capture Under Desk Pedestals include a 1" riser for mounting under the desk. Pedestals have full extension ball bearing slides, side-to-side and front to back filing bars and leveling glides.

Optional locking available for drawers.

Units are intended for work surface support applications.

Ships fully assembled except 2" support leg.

Note: If wood grain laminate is selected the grain on the front of the unit will run vertical.

Capture Stack Storage - Open Shelf

Open Shelves can be used where open shelf storage is desired above any Capture credenza or freestanding storage 30" or wider. The stackers are available in two different heights to align with 57 3/4" and 65 3/4" high combination storage and storage towers. Standard features include a 3/8" (10) cord pass-through gap behind the shelves and a 1" full length cord management gap at the base of the back panel. An optional gap guard is available. The 31" high stacker

has one adjustable shelf and the 39" has two adjustable shelves. Shelves are 5/8" thick and adjust in 2 1/2" increments.

Stackers ship ready to assemble with all necessary mounting hardware.

Capture Laminate Storage to Panel Bracket

Storage to panel brackets are used to connect Capture laminate storage units to Capture panels for additional work surface rigidity. The use of a laminate storage unit with panel attachment bracket

is considered a Floor Supported Element and must follow rules of Panel Layout Planning guideline.

Storage to Panel Brackets are available in Charcoal only.

All necessary hardware for assembling brackets to laminate storage is included.

Terms, Policies & Index

<i>Terms & Policies</i>	<i>146</i>
<i>Warranty</i>	<i>149</i>
<i>Index</i>	<i>150</i>

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment

differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM* test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:

U.S. Mail and UPS, FedEx Shipment:
Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller,

processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Specials Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to,

compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be

requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original

Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day
On-Site, \$1,200

Field Installation Assistance: 3 Days
On-Site, \$1,800

Field Installation Assistance: 4 Days
On-site, \$2,400

Field Installation Assistance: 5 Days
On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Product	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components 	<ul style="list-style-type: none"> •System Textiles •Finishes 	
3 Year	<ul style="list-style-type: none"> •Veneer •Magnetic Ballasts 		<ul style="list-style-type: none"> •Trim •Foam •Upholstery •Arm Pads
2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	•Surface Trend Fabrics	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	•Non-Standard Product	•Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	•Customer's Own Material	•Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in woodgrain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Pack

The Pack filing and storage collection offers an exceptional range of sizes, configurations and functions to make your work life better. The Pack collection is SCS Certified - Indoor Advantage GOLD for indoor air quality.

Trendway product catalogs are available in the following design software: CAP, Data One, Giza, Midnight-Oil, and Project Matrix. The Pack price list is also available in .pdf (Acrobat Reader) format on dealer.trendway.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, PSLAT436 represents a Pack Four-High **L**ateral File that has **4** drawers and is **36"** (914)-wide.

Order specification examples are shown throughout the price book at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)
8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Pack products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES**Standard Program Binder Cards**

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

- Not Available
- ↕ Non Directional - Pattern will be applied for best yield
- ↓ Down Roll - The height dimension of the tile or component is parallel to the warp of the fabric
- R Railroaded - The height dimension of the tile or component is perpendicular to the warp of the fabric
- * Multi-use fabric (seating and panel) available on Capture, Fabric Screens, and Volo
- ** Not available on Choices Panels, but approved on Choice's Tackboards and Flipper Doors

Down-Roll (↓)

Down-roll means the height dimension of the tile or component is parallel to the warp of the fabric (Fig. A).

Fig. A

Railroad

Railroad means the height dimension of the tile or component is perpendicular to the warp of the fabric (Fig. B).

Fig. B

COM Fabrics

COM fabrics may be applied either Down-roll (Fig. A) or Railroad (Fig. B). When choosing Railroad on COM fabrics please note that 84" (2134)-high Choices and TrendWall Panels cannot be Railroad due to panel fabric being 66" (1676)-wide (Fig. C).

This form can be used as a worksheet or an order form to determine what key alike Pack Core/Key Sets are needed for key-alike Pack filing and storage, Pack locks on Choices flipper units and for additional Pack Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on Trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Pack Core/Key Set

The Pack Core/Key Set is needed when the Key Alike Option 'T' is selected, or if a lock needs to be changed out in an existing unit. The Core/Key Set provides the ability to pick the key number for a single storage piece, each individual office or group of offices. Pack Core/Key Sets includes a lock core and 2 lock keys. Additional lock keys are available.

Pack Core Installation/Removal Key

Pack Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Pack lock cores.

*Pack Master Key

Pack Master Key is used to open any Pack style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8212. Orders are shipped within 24-hours of receipt.

Pack Master Key(s)

Pack Master Keys are used to open any Pack style lock. Master keys are sent separately from the product order. Requests for Master keys must be made on the end-user's letterhead and faxed to Trendway Customer Care at 1-800-893-8121. Orders are shipped within 24 hours of receipt.

Pack Core/Key Set

The Pack Core/Key Set must be ordered when the Key-Alike lock option is chosen to replace the “disposable” core that ships with Pack filing units in order for these units to lock. This set can also be ordered to replace an existing Pack Core/Key Set. The set includes a Pack lock core and 2 lock keys.

Pack Core Installation/Removal Key

The Pack Core Installation/Removal Key is needed to install or remove Pack Cores in Pack filing units or in Pack Locks for Choices Flipper Units (PKCHFLA and PKCTAFLA).

Pack Keys

Replacement Pack keys are available for order.

Finishes

All Pack filing and storage units, including door and drawer fronts, are painted metal and are available in a variety of finishes.

Pull Style Options

Pack filing units have two pull style options, a bevel pull and an applied pull. The applied pull has three 128mm center pull hardware options to choose from: Classic, Streamline and Designer. These are all plated nickel finish.

Bevel

Applied

Note: Applied Pulls (Classic, Streamline, Designer and Mod2) add up to 1 1/8" (29) to the depth of the file unit.

Casters

Black standard casters are included, two (2) locking and two (2) non-locking on each unit.

Specifications

All dimensions are nominal unless otherwise noted.

Keyed Alike

Pack filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge. When the randomly keyed option "R" is chosen the Pack filing and storage unit will ship with a randomly numbered core/key.

When the key-alike lock option "T" is chosen the Pack filing unit will ship with a "disposable" core in place of the core/key and the specified Pack Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with a Pack Core/Key set in order for the Pack filing unit to lock. The Core/Key set (PLCAK) must be ordered separately.

Load Capacities

All Pack filing units meet or exceed the applicable load requirements. For a complete listing of load capacities, contact Trendway Customer Care or visit trenddealer.com

Pedestal Drawers:

- 3" (76) Pedestal Drawer — 10 lbs. (4.5kg)
- 6" (152) Pedestal Drawer — 20 lbs. (9kg)
- 12" (305) Pedestal Drawer — 40 lbs. (18kg)

Lateral File and File Center Lateral Drawers:

2 lbs. (.9kg) per linear inch of usable space

Bookcases:

- 30" (762) shelf — 70 lbs. (32kg)
- 36" (914) shelf — 85 lbs. (39kg)
- 42" (1067) shelf — 100 lbs. (45kg)

Lockers:

- 12" wide — 35 lbs. (16kg)
- 18" wide — 55 lbs. (25kg)

Double-Door and Wardrobe:

30" (762) shelf — 90 lbs. (41kg)
 36" (914) shelf — 105 lbs. (48kg)
 42" (1067) shelf — 125 lbs. (57kg)
 Wardrobe Bar

Storage Tower:

3 lbs. (1.4kg) per linear inch

Maximum Load Capacity For Any Steel Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. for each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a PSBC336 =
 unit bottom + 2 shelves + unit top at 3 lbs.
 per linear inch = 36"
 (914) linear in. per shelf x 4 = 432
 lbs. maximum load

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

Proper Usage

Pedestals and File Centers

Any pedestal or file center that is attached to the underside of a work surface must have glides adjusted to support the weight of the pedestal or file center.

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights when-ever lateral files or pedestals are not anchored or ganged back-to-back. Side-by-side ganging does not improve stability.

To avoid tipping, always load bottom drawers before loading top drawer.

Glide Adjustment Ranges

Pack Pedestal and Pedestal Tower	1 5/8" (41)
Pack Lateral	1 1/4" (32)
Pack Storage Tower	7/8" (22)
Pack Bookcases	5/8" (16)
Pack File Centers	1 1/4" (32)
Pack Double-Door and Wardrobe	7/8" (22)
Pack Lockers	7/8" (22)

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, PSLAT530 represents a **Pack Storage LATeral 5-High by 30"** (762) -wide.

Trendway has further simplified the order process by having all the options available for a product listed in the price chart. By following the Sample Part Number Example at the bottom of each page, you create a Part Number for each product. This Part Number will match your acknowledgement and packing slip.

When ordering filing and storage units, list the following:

- Quantity (combine same products)
- Complete Part Number (see Sample Part Number at the bottom of each page for correct number sequence).
- For ease of reading, place a period between each option number (PSP1212.B.TL).

Sample Part Number:	Catalog Number	Pull Style	Trim Color
	PSP1212	.B	.TL
Total Cost \$620 =	\$620	+ N/C	+ N/C

Pack Storage Tower

The Pack Storage Tower provides coat, drawer, and cupboard storage in a single freestanding cabinet. The Tower is constructed of painted metal, has 7/8" adjustable leveling glides, and is available in a Right-Hand version (wardrobe on the right side) or a Left-Hand version (wardrobe on the left side). Towers are available with five pull options, including four applied pulls and a bevel pull extending the length of the door or drawer.

The cupboard unit includes adjustable painted metal shelves. Pedestal drawers have painted metal drawer fronts and full extension ball-bearing slides. The drawers and doors have one common lock. The wardrobe includes one coat rod.

Available accessories include Pack Pedestal Divider/Conversion Kit(PCD), Pack Pencil Tray (HPPT), Lateral File Dividers (LFDE) and Shelf/File Dividers (SFDIV).

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

Pack Pedestal Tower with Bookcase
 The Pack Pedestal Tower with Bookcase combines the functionality of a pedestal with the added storage of a bookcase. The Tower is available in Right- and Left-Hand versions. The Right-Hand version is intended for placement on the right-hand of a workstation with the bookcase facing inward. The Left-Hand version is intended for placement on the left-hand of a workstation with the bookcase facing inward. The Tower is constructed of painted metal and has 1-5/8" adjustable leveling glides. The bookcase unit includes adjustable shelves that can

accommodate two rows of binder storage plus additional storage in the 65-7/8" high towers. The pedestal includes lockable drawers with painted metal drawer fronts. Drawers have full extension ball-bearing slides. Drawers are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

Available accessories include Pack Pedestal Divider/Conversion Kit(PCD), Pack Pencil Tray (HPPT), Lateral File Dividers (LFDE) and Shelf/File Dividers (SFDIV).

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. Pack Single Lockers

Pack Single Lockers are available in heights to match the four and five-high Pack Lateral File and Double Door Cabinet. The units are constructed of powder-coated steel and have a locking door. Doors are 20 gauge steel. Units include a single fixed shelf, full width wardrobe bar and leveling glides. Single Lockers are available with five pull options, including four applied pulls and a bevel pull extending the length of the door.

Units are available in either a Right-Hand version with the door opening to the right side or a Left-Hand version with the door opening to the left side.

When the key-alike lock option "T" is chosen, a "disposable" core is assembled in the unit to temporarily secure the door for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the unit to lock. Core/Key Sets (PLCAK) must be ordered separately using design software, online order entry or by the Pack Keying Order Form.

Pack Double Lockers

Pack Double Lockers are constructed of powder-coated steel and have (2) locking doors. Units include leveling glides and a two-pronged coat hook in each locker. Double Lockers are available with five pull options, including four applied pulls and a bevel pull extending the length of the door. Shelves are 18 gauge steel and .75" thick.

Units are available in either a Right-Hand version with all the doors opening to the right side or a Left-Hand version

with all the doors opening to the left side.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the unit to temporarily secure the door for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the unit to lock. Core/Key Sets (PLCAK) must be ordered separately using design software, online order entry or by the Pack Keying Order Form.

Pack Quad Lockers

Pack Quad Lockers are constructed of powder-coated steel and have (4) locking doors. Units include a two-pronged coat hook in each locker and leveling glides. The center partition is constructed of steel and 1.4" thick. Quad Lockers are available with five pull options, including four applied pulls and a bevel pull extending the length of the door.

Units are available in either a Right-Hand version with all the doors opening to the right side or a Left-Hand version with all the doors opening to the left side.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the unit to temporarily secure the door for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the unit to lock. Core/Key Sets (PLCAK) must be ordered separately using design software, online order entry or by the Pack Keying Order Form.

Pack Cubby Lockers

Pack Cubby Lockers are constructed of powder-coated steel and include (4) or (8) locking doors and leveling glides. The center partition is constructed of steel and 1.4" thick. Lockers are available with

five pull options, including four applied pulls and a bevel pull extending the length of the door.

Units are available in either a Right-Hand version with all the doors opening to the right side or a Left-Hand version with all the doors opening to the left side.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the unit to temporarily secure the door for transit. PACK LATERAL FILES

The Pack Lateral Files are available with or without pre-installed counterbalance weights. Lateral Files are constructed of metal and include full-extension ball-bearing slides and 1-1/4" leveling glides. Drawer fronts are painted metal and are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

The Pack Two-High Lateral Work Surface Supporting is designed to be used under a work surface and does not have a top. A

top is available separately (PSLATTOP) to change the unit from work surface supporting to freestanding.

Lateral Files come standard with locks which secure the drawer front on both sides for added security. Drawers accommodate side-to-side letter, A4, legal, EDP filing, and include a safety interlock mechanism that allows only one drawer to open at a time.

Accessories include the Pack Freestanding Traverse Kit (FSTK), Lateral File Dividers (LFDE), Pack Lateral File Tops (LFT) and Pack Lateral File Counterbalance Weights (CBWL).

Note: Lateral File Counterbalance Weights are required for individual lateral files that are not ganged back-to-back.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

Pack Lateral File Counterbalance Weights

The Pack Lateral File Counterbalance Weight provides additional stability and must be used for individual lateral files that are not anchored or ganged back-to-back. All hardware is included for field installation.

Pack Two-High Painted Metal Lateral File Top

The Pack Two-High Painted Metal Lateral Top is used to convert a Two-High Lateral – Work Surface Supporting, to a freestanding lateral. Top is a nominal 5/8" (16) thick.

Pack Lateral File Tops

Pack Lateral File Tops are sized to be used with Pack Two-Drawer, Three-Drawer, Four-Drawer and Five-Drawer Lateral Files. They are available for use with a single lateral file or combination of two or four lateral files. Lateral File Tops have a high-pressure laminate or Thermofused laminate surface with vinyl edge. Tops are nominal 1¹/₄" (32) thick on high-pressure laminate and nominal 1" (25) thick on Thermofused laminate. Thermofused laminate is only available with matching edge color.

Note: 18¹/₄" (464)-deep Lateral File Tops are sized to fit between Return Panels and can also be used in freestanding applications. 36¹/₂" (927)-deep Lateral File Tops are sized for freestanding applications only.

For non-standard sizes, contact Trendway Custom Solutions 1-800-893-8117.

See Lateral File Top Specification Guide in the Planning section.

Note: Lateral File Tops cannot be used in place of counterbalance weights, ganging or anchoring.

PACK LATERAL FILE ACCESSORIES

Pack Freestanding Traverse Kit

The Pack Freestanding Traverse Kit converts Pack Freestanding Lateral Files and File Centers from standard side-to-side filing to front-to-back filing.

Note: For each drawer, order one kit for 30" (762)- and 36" (914)-wide lateral files; order two kits for 42" (1067)-wide lateral files. See Lateral File Front-to-Back Conversion Bar Application Guide in the Planning section for further information.

Available in Black only.

Lateral File Dividers

The Lateral File Dividers are freestanding dividers that securely attach magnetically to a shelf or drawer bottom.

Available in Black only.

Pack Label Holders

Pack Label Holders attach to Pack filing units. Packaged in boxes of 10 label holders with 10 labels

Pack Double-Door Storage Cabinets

Pack Double-Door Storage Cabinets are available in heights to match the two, three, four and five-high Pack Lateral Files. The units are constructed of painted metal and have locking doors. Painted metal shelves adjust vertically in 1½" increments. The Storage Cabinets are available with five pull options, including four applied pulls and a bevel pull extending the length of the door.

The Pack Work Surface Supporting Double Door Storage Cabinet is designed to be used under a work surface and does not have a top. A top is available separately

to change this unit from work surface supporting to freestanding.

Note: Lateral File Tops (PLFT and/or ZFPLFT) can be used on Pack Double-Door Storage Units to create credenzas or file islands. Use PSDDTOP to transform a Two-High Work Surface Supporting Double Door to a freestanding one.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

Additional storage shelves (SS) are available.

Pack Floor-Supported File Center
 The Pack file center combines the functionality of a pedestal and Pack lateral file into a single cabinet that fits below a systems work surface.

Available accessories include the Pack freestanding traverse kit (FSTK) for front-to-back filing, lateral file dividers (LFDE) and label holders (ZLHA).

Note: Floor-Supported file center must be attached to a panel-mounted work surface or a desk unit.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

Pack Freestanding Pedestals

Freestanding Pedestals are available in 3 depths to work with different work surface depths. Units can be placed under the work surface but are not work surface supporting. Shallower depths allow access behind the pedestal for plug accessibility and cable management. Pedestals include lockable drawers with painted metal drawer fronts and full extension ball-bearing slides and a factory installed counter-balance weight. Drawers are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

Available accessories include Pack Pedestal Divider/Conversion Kit (PCD), Pack Pencil Tray (HPPT).

Pack Support Pedestals

The Work Surface Supporting Pedestal mounts beneath the work surface. Pedestals include lockable drawers with painted metal drawer fronts, full extension ball-bearing slides, 1⁵/₈" leveling glides and mounting hardware. Drawers are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

Available accessories include Pack Pedestal Divider/Conversion Kit (PCD), Pack Pencil Tray (HPPT).

Pack Hanging Pedestals

The Hanging Pedestal suspends beneath the work surface. It includes lockable drawers with painted metal fronts, full extension ball-bearing slides and mounting hardware. Drawers are available with four pull options, including four applied pulls and an integral bevel pull.

Available accessories include Pack Pedestal Divider/Conversion Kit (PCD), Pack Pencil Tray (HPPT).

Freestanding desks with two full end panels can accommodate up to 2 hanging pedestals per desk.

Freestanding desk with P-Leg supports, returns and system work surfaces, when attached next to an end panel or panel return with support brackets, can accommodate one hanging pedestal.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

Pack Mobile Pedestals

The Mobile Pedestal includes two locking and two non-locking casters, lockable drawers with painted metal drawer fronts, full extension ball-bearing slides, and a factory installed counterbalance weight. Drawers are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

Available accessories include Pack Pedestal Divider/Conversion Kit (PCD), Pack Pencil Tray (HPPT).

Pack 3/4 Mobile Pedestals

The Mobile Pedestal includes two locking and two non-locking casters, lockable drawers with painted metal drawer fronts, full extension ball-bearing slides, and a factory installed counterbalance weight. Drawers are available with five pull options, including four applied pulls and a bevel pull extending the length of the drawer.

The 3/4 Mobile Pedestal can be teamed with a cushion top, providing guest seat and storage in one piece.

Available accessories include Pack Pedestal Divider/Conversion Kit (PCD), Pack Pencil Tray (HPPT).

Note: All Pack Mobile Pedestals are sold with a pull on the lock strip. If an Applied Pull is specified for the drawers, the lock strip pull will match. If a Bevel Pull is specified, the lock strip will feature a simple generic pull.

Pack Mobile Pedestal Cushion

The Pedestal Cushion includes a 1" thick upholstered cushion and four attached Velcro tabs to affix cushion. This cushion top can only be used on Pack Mobile Pedestals.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" cores must be field replaced with Pack Core/Key Sets in order for the Pack filing unit to lock. Core/Key Sets (PLCAK) must be ordered separately or by using the keying order form.

PEDESTAL AND FILE CENTER ACCESSORIES

Pack Pedestal Divider/Conversion Kit (Also for use with File Centers)

The Pedestal Divider/Conversion Kit is used to divide drawer space in the 6" (152) drawer. The 12" (305) Divider/Conversion Kit is used to divide and compress letter size files, or can convert the 12" (305) drawer to side-to-side or legal-size filing.

Available in Black only.

Pack Pencil Tray

The Pencil Tray organizes small items in both the 6" (152) and 12" (305) Pack Pedestal drawers and Lateral File Center drawers.

Available in Black only.

Pack Bookcases

The Bookcase is complete with metal top and base with leveling glides. Leveling glide allows for 5/8" (16) adjustment. The bookcase is constructed of painted metal. The outside panels are flush with the sides of the bookcase top for no-gap allowance in side-by-side applications. The shelves are 1" (25)-thick, and adjust in 1/2" (13)-height increments. All Bookcase heights are designed to accommodate standard binders on all but one shelf on each unit.

Available accessories include Shelf/File Dividers (SFDIV) and Bookcase Shelves (BCBS36).

Pack Mobile Bookcase

The mobile bookcase comes standard with black casters, two (2) locking and two (2) non-locking. The bookcase is available with optional pull styles. Pulls are located on both sides of the unit.

Terms & Policies

<u><i>Terms & Policies</i></u>	<u>44</u>
<u><i>Warranty</i></u>	<u>47</u>
<u><i>Index</i></u>	<u>48</u>

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time

by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the

steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM* test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:

U.S. Mail and UPS, FedEx Shipment:
Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material

in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume responsibility for any use spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver

between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's

delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may

not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Intrinsic Key-Alike Option

The Intrinsic Key-Alike option is available on all Intrinsic filing units for no additional upcharge. When the Key-Alike option is chosen, the list price of the purchased Intrinsic filing unit is reduced by the same amount that is charged when ordering the Intrinsic Core/Key Set (ZFLCK) needed for that unit.

The unit is assembled with a "disposable" core in place of the lock core to temporarily secure the drawers/doors for transit. In order for Key-Alike Intrinsic units to lock, the "disposable" core must be field replaced with an Intrinsic Core/Key Set (ZFLCK) which is ordered separately.

Intrinsic Core/Key Set orders should be placed with the Intrinsic filing order to ensure being installed at the time of product installation. The Core/Key Set (ZFLCK) can be ordered separately or by using the key-alike order form which can also be used as a worksheet to help combine and tag Core/Key Sets.

24. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

25. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or

to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Product	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinder •Mechanisms

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Trig[®] Desking

PRICE LIST | DECEMBER 2021

For Canadian pricing, please visit Trendealer to see the current conversion rate being used or contact your local Trendway Representative.

Trig Desking

Trig Desking is a fully integrated line of laminate freestanding components including desks, credenzas, tables and laminate storage. This line offers high-end aesthetics, with a range of styling options and finishes.

Trendway product catalogs are available in the following design software: 20/20 (CAP/Giza) and Project Matrix. The Core price book is also available in .pdf (Acrobat Reader) format on www.trenddealer.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on dealer.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TRGRECD2048 represents a Trig Rectangle Desk that is 20" (508) deep and 48" (1219)-wide.

Order specification examples are shown throughout the price book at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.

2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)

8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Trig Desking products are shipped within Trendway's standard lead time.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

- Not Available
- ↕ Non Directional - Pattern will be applied for best yield
- ↓ Down Roll - The height dimension of the tile or component is parallel to the warp of the fabric
- R Railroaded - The height dimension of the tile or component is perpendicular to the warp of the fabric
- * Multi-use fabric (seating and panel) available on Capture, Fabric Screens, and Volo
- ** Not available on Choices Panels, but approved on Choice's Tackboards and Flipper Doors

Down-Roll (↓)

Down-roll means the height dimension of the tile or component is parallel to the warp of the fabric (Fig. A).

Fig. A

Railroad

Railroad means the height dimension of the tile or component is perpendicular to the warp of the fabric (Fig. B).

Fig. B

COM Fabrics

COM fabrics may be applied either Down-roll (Fig. A) or Railroad (Fig. B). When choosing Railroad on COM fabrics please note that 84" (2134)-high Choices and TrendWall Panels cannot be Railroad due to panel fabric being 66" (1676)-wide (Fig. C).

Trig Keying Order Form

This form can be used as a worksheet or an order form to determine what key-alike Trig Core/Key Sets are needed for key-alike Trig filing and storage, Trig locks on Choices flipper units and for additional Trig Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Trig Core/Key Set

Trig Core/Key Set includes a lock core and 2 lock key. Trig Core/Key Set numbers are randomly selected from existing inventory unless otherwise specified on this form. Requesting specific numbers** may delay shipment of your key-alike order and may require partial or delayed shipment of your lock cores and keys separately from your order. Additional lock keys are available.

Trig Core Installation/Removal Key

Trig Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Trig lock cores.

*Trig Master Key

Trig Master Key is used to open any Trig style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8212. Orders are shipped within 24-hours of receipt.

			Floor	Office	

Additional Trig Lock Key(s) – TKEY

Qty.	List Price \$8	Key Number S101 - S200	

Additional Trig Core Installation/Removal Key(s) – TCK

Qty.	List Price \$4	One core removal key is included at no charge for every 50 lock sets ordered.

Trig Master Key(s)

Trig Master Keys are used to open any Trig style lock. Master keys are sent separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8121. Orders are shipped within 24-hours of receipt.

Trig Core/Key Set

The Trig Core/Key Set must be ordered when the Key-Alike Lock option is chosen to replace the “disposable” core that ships with Trig filing units in order for these units to lock. This set can also be ordered to replace an existing Trig Core/Key Set. Includes a Trig lock core and 2 lock keys.

Trig Core Installation/Removal Key

The Trig Core Installation/Removal Key is needed to install or remove Trig Cores in Trig filing units. One Core Key is included at no charge with every 1 to 50 Trig Core/Key Sets ordered. This key is available if additional Installation/Removal Keys are needed.

Trig Lock Key

Replacement Trig Keys are available for order.

Trig Desking Overview

Trig Desking is a fully integrated line of quality freestanding desks and modular case goods. The collection includes desks, credenzas, conference tables, and bench height, underdesk, combination and tower storage.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TRGC2DDCS75 is a Trig Credenza unit with 2 Double Doors, Center Shelves, 75" (1905) wide.

By following the Sample Part Number Example below, you create a Part Number for each product. This Part Number will match your acknowledgement and packaging slip.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (TRGCOS30.XZ1.XZ1.XZ4.G)

Trig Key Option

Trig Desking filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge (see page 9 for more information). When the randomly keyed option "R" is chosen the Trig Desking filing and storage unit will ship with a randomly numbered core/key.

When the key-alike option "T" is chosen the Trig Desking storage unit will ship with a "disposable" core in place of the core/key and the specified Trig Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with a Trig Core/Key set in order for the Trig filing and storage unit to lock. The Core/Key set (TLCK) must be ordered separately or by using the Trig Keying order form.

STANDARD FEATURES

Edgebanding

Components are finished with PVC edgebanding. The edgeband color will always match the color of the Thermofused Laminate unless an option pick is noted. All work surfaces and storage component tops have 3mm edgebanding. All remaining components have 1mm edgebanding.

Wire Management

Grommets are available in black or silver. (Optional)

Drawers

All drawers are built for trouble-free performance:

- Chrome plated fully progressive ball bearing suspensions with over-travel on all lateral file drawers with 150 lbs rated load capacity.
- Chrome plated ball bearing suspensions on all box drawers and file drawers with 75 lbs rated load capacity.
- Drawer construction is laminated particleboard sides with MDF bottom.
- Integrated PVC top rails for file storage on lateral drawers and 12" pedestal drawers.
- Interlock standard on all freestanding laterals.

Doors

Storage doors have 95 degree hinges and shock absorbent bumpers.

Leveling Glides

Desks and Table allow up to 1" height adjustment.

Pedestals, Laterals, Credenza, Storage Cabinets and Towers allow up to 1^{5/8}" height adjustment, and are adjustable from inside the storage unit.

Pull Style Options

Trig filing and storage units have four 128mm center applied pull options (Classic, Streamline, and Designer), and one 256mm center pull (Modern). These are all plated nickel finish.

Special Products and Finishes

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Special finishes (i.e. non-standard) may be ordered at an upcharge. Minimum quantity may be required. Please verify with our Custom Solutions Department. Delivery may take longer depending on the choice of finish or type of material.

SPECIFICATIONS

Load Capacities

All Trig Laminate storage units meet or exceed the following load requirements. For a complete listing of load capacities, contact Trendway Customer Care or visit trenddealer.com

Desks:

5 lbs. (2.3kg) per linear inch, uniformly distributed.

Pedestal:

6" (152) Pedestal Drawer — 20 lbs. (9kg)
12" (305) Pedestal Drawer — 40 lbs. (18kg)
Top — 90 lbs. (41kg)

Laterals:

Drawer — approx. 2.6 lbs. (1.17kg) per linear inch
Top — approx. 4.6 lbs. (2.1kg) per linear inch

Storage Towers:

6" (152) Pedestal Drawer — 20 lbs. (9kg)
12" (305) Pedestal Drawer — 40 lbs. (18kg)
Top — 140 lbs. (64kg)
Unit Shelf — 60 lbs. (27kg)
Unit Bottom — 90 lbs. (41kg)

Double-Door Storage Units:

Shelf — 100 lbs. (45kg)
Top — 160 lbs. (73kg)
Bottom of Cabinet — 160 lbs. (73kg)

Tables:

36" (914) - 60" (1524) — 200 lbs. (276kg)
72"(1829) and longer — 400 lbs. (552kg)

Dimensions

All dimensions listed are nominal unless otherwise noted.

Certification

All components of the Trig Desking offering meet or exceed ANSI/BIFMA X5.6-2016 performance standards unless noted.

Maximum Load Capacity For Any Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. for each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a TRGTSDD66 = load capacity for bottom + 3 shelves + unit top
 = 160 lbs. + 100 lbs. x 3 + 160 lbs.
 = 620 lbs. maximum load

Eg: Maximum load capacity for a TRG612LAT20 = load capacity for drawer x 2 drawers + unit top
 = 2.6 lbs./linear in. x 36" x 2 + 4.6lbs./linear in. x 36"
 = approx. 352 lbs. maximum load (for actual load capacities for each size Trig Laminate Lateral File contact Trendway Customer Care or visit trendealer.com).

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Laminate Lateral Files Specifications

Trig Laminate Lateral Files are factory configured for side-to-side filing. If front-to-back filing is desired, the side-to-side filing bars may be removed. No additional parts are necessary to convert drawer to front-to-back filing.

For use with Trig Laminate Lateral Files

Letter Size Filing

30" - Wide & File Center

1 Pair Trig Laminate Front-to-Back Filing Bars

Legal Size Filing

30" - Wide & File Center

1 Trig Laminate Front-to-Back Filing Bars

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights whenever lateral files or pedestals are not anchored or ganged back-to-back. Side-by-side ganging does not improve stability.

To avoid tipping, always load bottom drawers before loading top drawer.

Trig offers pre-configured desks with support legs on both ends. Work surfaces with various support options may also be specified.

Specifying Work Surfaces with Support Options

Trig work surfaces are ordered by selecting a work surface shape and then ordering supports separately for the left and right. Storage units can be used as support on both ends of the Rectangle & Wedge work surfaces, but only one end of the Blade, Primary and Secondary work surfaces.

Work Surface With No Supports

Rectangle

Wedge Left-Hand

Wedge Right-Hand

Work Surfaces With One Support

Blade Left-Hand

Primary Left-Hand

Secondary Left-Hand

Blade Right-Hand

Primary Right-Hand

Secondary Right-Hand

Work Surface Support Options

Left-Hand Under Desk Support Storage

Work Surface Support Leg

Shared Work Surface Support Leg

- Under desk support storage includes a 1" riser to attach the work surface to the storage unit
- Support leg depth must match the work surface depth

- Shared support legs are utilized when two work surfaces of equal depth are paired together
- Support leg depth must match the work surface depth

Left-Hand Combination Storage

Work Surface Support Leg

Left-Hand Pedestal Shelf Combination Storage

Work Surface Support Leg

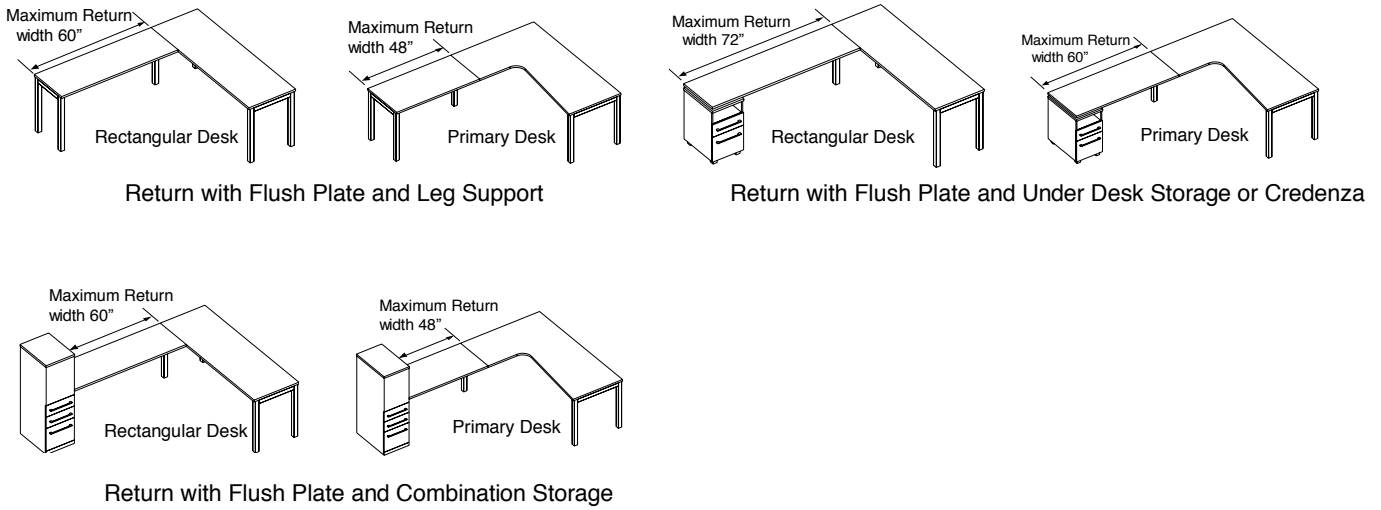

- Work surface support brackets are used with Combination Storage to mount work surface to unit.
- Support leg depth must match the work surface depth

- Work surface support brackets are used with Combination Storage to mount work surface to unit.
- Support leg depth must match the work surface depth

Creating an “L” shaped office with a return

It is easy to configure “L” shaped offices using these simple guidelines.

Returns can be used on Rectangle, Primary and Secondary Desks

Use the following chart for a quick reference for **Available Work Surface Support Options**

Desks

Support Combinations		Surface Width						
Support 1	Support 2	48"	54"	60"	66"	72"	78"	84"
Leg	Leg	Y	Y	Y	Y	Y	-	-
Leg	Under Desk / Credenza	Y	Y	Y	Y	Y	Y	Y
Leg	Combination Storage	Y	Y	Y	Y	Y	-	-
Under Desk / Credenza	Under Desk / Credenza	Y	Y	Y	Y	Y	Y	Y
Under Desk / Credenza	Combination Storage	Y	Y	Y	Y	Y	Y	Y
Combination Storage	Combination Storage	Y	Y	Y	Y	Y	-	-

Using a Bridge

A Bridge work surface can be used to connect two freestanding rectangular desks.

Bridge with Flush Plates

Credenza Support Option

- The support riser attaches the work surface to the storage unit.
- The 1" Support Riser needs to be ordered separately and field installed.
- Credenza top will need to be drilled in the field. Only Under Desk Support Storage comes pre-drilled.
- Field installed riser is 13" long, and when mounted to the bottom of the work surface, it is centered relative to the depth. To give the riser the appropriate support on the credenza, the following chart shows the maximum that the work surface can overhang the storage unit:

Work Surface Depth	Maximum Overhang
20"	3.5"
24"	5.5"
30"	8.5"

Under Desk Storage Depth for Rectangle, Blade & Secondary Work Surfaces

20" Surface

Surface Depth	Leg Depth	Storage Depth
20"	20"	20"
24"	24"	24"
30"	30"	30"

Under Desk Storage Depth for Wedge Work Surfaces

30" Surface

Surface Depth	Leg Depth	Storage Depth
20"	20"	20"
24"	24"	20"
30"	30"	24"

Under Desk Storage Depth for Primary Work Surfaces

30" Surface

Surface Depth	Leg Depth	Storage Depth
30"	30"	24"

Primary & Secondary Work Surfaces

Primary and Secondary work surfaces are available in 42" and 48" depths.

Primary & Secondary 48"-deep work surfaces can be paired together to create a U-shaped work station. This U-shaped configuration is not recommended for 42"-deep work surfaces as it creates a narrow opening. However, they can be paired with rectangular work surfaces to create L-shaped work stations.

Surface Mount Screen

Surface mount screens are used when two work surfaces are positioned back-to-back and no gap exists between them. The base of each post spans seam between two surfaces and mounts on top with two screws. Screens are available in 13" and 19" heights, and lengths that span from 24" to 84" in 6" increments. Screen lengths of 48" and less are a single screen and two vertical posts. Screen lengths greater than 48" are two screens and three posts (center post is shared) see chart below:

Application	Number of Screens	Number of Posts
24" Span	(1) 24"	2
30" Span	(1) 30"	2
36" Span	(1) 36"	2
42" Span	(1) 42"	2
48" Span	(1) 48"	2
54" Span	(1) 24" + (1) 30"	3
60" Span	(2) 30"	3
66" Span	(1) 30" + (1) 36"	3
72" Span	(2) 36"	3
78" Span	(1) 36" + (1) 42"	3
84" Span	(2) 42"	3

(Total length of each screen is .25" shorter than nominal length)

Desk Top Screen

Desk Top Screens are used in benching or multiple-workstation configurations, where surfaces

are positioned adjacent to each other end to end. Screens are available in 8" and 13" heights in each of the following widths: 16", 20", 26", 38" & 44". Screen length selected should be 4" shorter than the depth of the adjacent surfaces.

Screen / Modesty Combination

The Screen / Modesty Combinations are mounted 1" off the back edge of the work surface to

provide clearance for cord pass-through. The size needed will depend on the right and left hand support options selected. For work surfaces with legs on both ends, subtract 12" from the width of the top. For work surfaces where underdesk storage or surface support brackets are used with Combination Storage, the screen/modesty width required can be determined by subtracting 12" from the width that remains between the storage units. If the calculated necessary width does not match an available size, choose the next size larger.

Example: 84"-wide work surface with 30"-wide underdesk double door on the left and support legs on the right. The 84" surface minus 30" leaves 54". Subtract 6" from 54" to get 48" for your screen or screen / modesty combination width.

Modesty

The Modesty will be mounted 2" from the back edge of the work surface, and will be sized

to limit physical interference with legs or storage support units. The size needed will depend on the right- and left-hand support options selected. For work surfaces with legs on both ends, the modesty width required can be determined by subtracting 12" from the width of the top. For work surfaces where under desk storage or work surface support brackets are used with Combination Storage, subtract 12" from the width that remains between the storage units. If the calculated necessary width does not match an available size, choose the next size larger.

Example: 84"-wide work surface with 30"- wide under desk double door on the left and support legs on the right. The 84" surface minus 30" leaves 54". Subtract 6" from 54" to get 48" for your modesty width.

Using Support Leg and Storage to Panel Brackets

These brackets are designed to provide stability to panel layouts that otherwise would require return panels. When using these brackets, the panel layout rules for Loaded and Non-loaded panel runs must be followed to ensure a safe installation.

Non-Loaded Panel Runs

A Non-Loaded panel run is defined as having no panel hung components regardless of size or weight. The maximum length of a Non-Loaded panel run is 192" with a maximum of 66" high panels. Two Panel bracket connections, one on each end of the run, are required when used in place of a return panel (with the exception of Parallel-mounted Trig Desk). The Storage to Panel Brackets follow the same layout rules as Support Leg to Panel Brackets for maximum length and height of Non-loaded panel run. Storage units can be side-mounted or back-mounted (Fig. 1).

Fig. 1

For a perpendicular-mounted Trig Desk the following criteria must be met (Fig. 2):

- The minimum Trig Desk size is 48"W x 20"D.
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under desk storage unit.

Fig. 2

For a parallel-mounted Trig Desk the following criteria must be met:

- The minimum Trig Desk size is 48"W x 30" D if parallel-mounted desk connections are the only panel connections used on one side of a panel run. IF the desk depth is less than 30" then a third panel support is required on the back side of the panel run (Fig 3).
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under-desk storage unit (Fig. 4).

Fig. 3

Fig. 4

Loaded Panel Runs

A Loaded panel run is defined as having panel hung components with two or more panels connected in a straight line. The maximum length of a loaded panel run with one panel connection before a panel bracket is needed is 120", and with 2 panel connections is 96". The maximum panel height depends on whether there is a overhead storage on the adjacent panel. Maximum height with no overhead storage on adjacent panel is 66", and with overhead storage on the adjacent panel is 62". "Storage to Panel Brackets follow the same layout rules as Support Leg to Panel Brackets for maximum length and height of a loaded panel run. Storage units can be side-mounted or back-mounted (Fig 5).

Fig. 5

For a perpendicular-mounted Trig Desk the following criteria must be met (Fig. 6):

- The minimum Trig Desk size is 48"W x 20"D.
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under desk storage unit

Fig. 6

For parallel-mounted Trig Desk the following criteria must be met:

- The minimum Trig Desk size is 48"W x 30" D if parallel-mounted desk connections are the only panel connections used on one side of a panel run. If the desk depth is less than 30" then a third panel support is required on the back side of the panel run (Fig. 7).
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under-desk storage unit (Fig. 8).

Fig. 7

Fig. 8

Grommets

Grommets are optional on all work surfaces. They can be specified in Black or Silver.

Multiple Grommets or a single Power Grommet can be specified for Rectangle and Wedge Surfaces. If the Power Grommet option is selected the Surface will ship with a factory cut opening to house the unit, but the Grommet must be ordered separately.

Note: A power grommet will not fit into a standard grommet opening specified with GY or GY2.

Note: A power grommet cannot be installed in a worksurface with a 26.75" high storage unit below.

The following drawings show standard Grommet locations.

Code	Position
GY	Single Grommet, centered left to right, 4" from the back of the table top.
GY2	Pair of Grommets, 14" to the center from each end, and 4" from the back of the table top
PNDR	One cutout for the Power Grommet 14" from the right edge of the top, and 4 3/8" in from the back edge.
PNDL	One cutout for the Power Grommet 14" from the left edge of the top, and 4 3/8" in from the back edge.

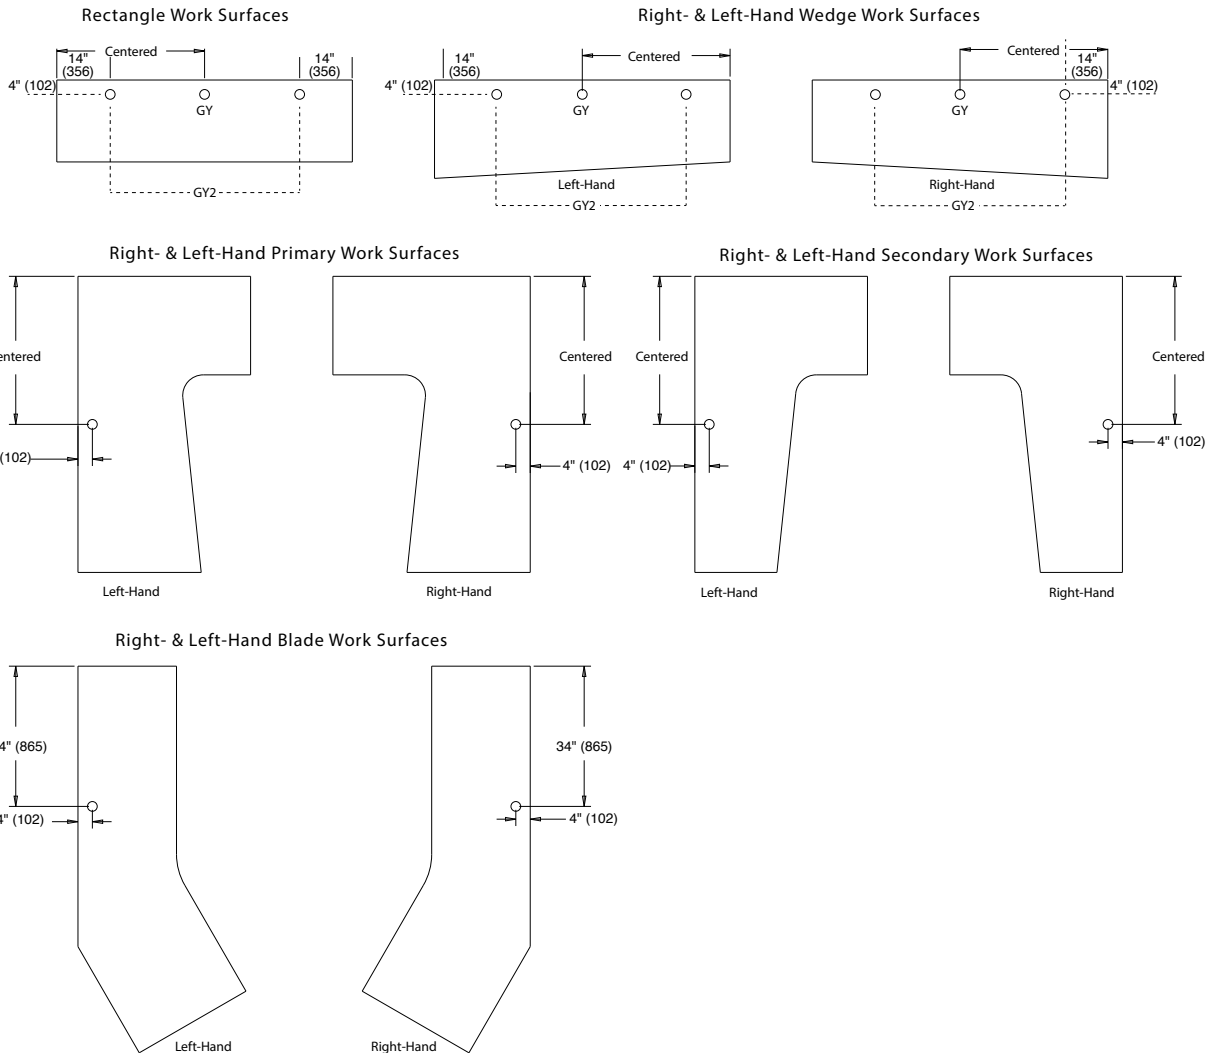

Grommet Dimensions

Power Grommet Locations

Standard Grommet Locations

Rectangular Desks

Trig Rectangular desks are constructed of 1"-thick Thermofused Laminate with a 3mm vinyl edge band. They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See planning section for standard grommet / power locations. Desks include two work surface support legs for right- and left-hand support. Additional accessories include field installed Screens, Modesties, Monitor Arms and Personal Task Lights.

Power Grommets are ordered separately. They will only fit into an opening that has been specified PNDR(L). See page 87 for details.

Note: For 36" wide surfaces with the PNDR, PNDL or GY2 option, the Trig Power sets, TRGDR12, should not be used.

Wedge Desks

Trig Wedge desks are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See grommet information in the planning section for standard grommet locations.

Desks include two work surface support legs for the right- and left-hand support. Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Power Grommets are ordered separately. They will only fit into an opening that has been specified PNDR(L). See page 87 for details.

Rectangular Work Surface

Trig Rectangular Work Surfaces are constructed of 1"-thick Thermofused Laminate with a 3mm vinyl edge band. They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See planning section for standard grommet / power locations. Work Surfaces do not include supports. Order supports separately. Additional

accessories include field-installed Screens, Modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required under one end using under desk storage or a Credenza with riser.

Power Grommets are ordered separately. They will only fit into an opening that has been specified

PNDR(L). See page 87 for details.

Note: For 36" wide surfaces with the PNDR, PNDL or GY2 option, the Trig Power sets, TRGDR12, should not be used.

Primary Work Surface

Trig Primary Work Surfaces are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

Optional grommet available in black or silver. See grommet information in the planning section for standard grommet locations.

Right-Handed Primary Work Surfaces include a support leg for Depth 1. Support for Depth 2 must be ordered separately.

Left-handed Primary Work Surfaces include a support leg for Depth 2. Support for Depth 1 must be ordered separately.

Primary Work Surfaces can be used alone or paired with Secondary Work Surfaces to create a U-shape work station. Primary Work Surfaces are available in right- and left-hand versions. Right-hand Primary surfaces are paired with left-hand Secondary surfaces to form a U-shaped work station. Or left-hand Primary surfaces are paired with right-hand Secondary surfaces to form the mirrored affect.

If Primary Work Surfaces are paired with Secondary Work Surfaces to create U-shaped work stations, a Flush Support Plate (SICSP) must be ordered to connect the two work surfaces together.

(See Planning Guide for limitations)

Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required on one end using under desk storage or a Credenza with riser.

Secondary Work Surface

Trig Secondary Work Surfaces are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

Optional grommet available in black or silver. See grommet information in the planning section for standard grommet locations.

Right-handed Secondary Work Surfaces include a support leg for Depth 2. Support for Depth 1 must be ordered separately.

Left-handed Secondary Work Surfaces include a support leg for Depth 1. Support for Depth 2 must be ordered separately.

Secondary Work Surfaces can be used alone or paired with Primary Work Surfaces to create U-shaped workstations. Secondary Work Surfaces are available in right- and left-hand versions. Right-hand Secondary surfaces are paired with left-hand Primary Surfaces to form U-shaped workstations. Or Left-hand Secondary surfaces can be paired with right-hand

Primary Surfaces to form the mirrored affect. If Secondary Work Surfaces are paired with Primary Work Surfaces to create a U-shaped workstation, a Flush Support Plate (SICSP) must be ordered to connect the two work surfaces together.

(See Planning Guide for limitations)

Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required on one end using under desk storage or a Credenza with riser.

Work Surface Support Legs

Trig Work Surface Support Legs are available in all Trendway Standard and Premium Systems Finishes.

All necessary attachment hardware is included.

Shared Work Surface Support Legs

Trig Shared Work Surface Support Legs are used when two work surfaces of equal depth are paired together back-to-back and a single support is desired. Legs are available in all Trendway Standard and Premium Systems Finishes.

All necessary attachment hardware is included.

When the Shared Work surface Support Leg is used, Flush Support Plate (SICSP) must be ordered to connect the two surfaces together in the middle.

Trig Work Surface Post Leg

The Work Surface Post Leg can be used for additional mid-span support along wider Trig work surfaces. Price includes post leg, leveling glide and attachment hardware.

Note: A pair of Work Surface Post Legs cannot be used to replace Trig Work Surface Support Legs as the main support on the end of a work surface.

Trig Bench Storage Work Surface Short Support

The Bench Storage Work Surface leg is used with Trig Bench Height Storage units to support the end of a

work surface. 20" and 24" deep work surfaces use TRGBSWSL13 and 30" deep surfaces use TRGBSWSL19. Legs are available in all Trendway Standard and Premium Finishes.

All necessary attachment hardware is included.

Side to Side Shared Work Surface Support Leg

Side to Side Shared Work Surface Support Legs are used when work surfaces of equal depth are positioned next to each other and a single support is desired. Legs are available for single depth applications (equal depth

surfaces are side to side) and dual depth applications (equal depth surfaces are back to back).

In a layout with (4) equal depth work surfaces that are both front-to-back and side-to-side, a single Side to Side Shared Support Leg can be used centrally to support all (4) surfaces. Legs are available in all Trendway Standard and Premium Systems Trim Finishes.

All necessary attachment hardware is included.

Support Riser

Trig Support Riser ships with necessary hardware to mount work surface to top of Under Desk Storage or Credenza.

Available in Black only.

Work Surface Support Brackets

Trig Work Surface Support Brackets are used with Combination Storage to support work surfaces instead of Work Surface Support Legs. All necessary attachment hardware included.

Available in Black only.

Flush Support Plates

Flush Support Plates connect a work surface that extends from an adjacent work surface at the same level. Includes two mounting plates and screws. Available in Black only.

Surface Mount Screens

Trig Surface Mount Screens are used when two work surfaces are positioned back-to-back with no gap between them. Screen widths can span from 24" to 84", in 6" increments. Screen widths 24" - 48" are a single screen and two posts. Screen widths 54" - 84" are 2 screens and three posts (center post is shared). All necessary mounting hardware is included.

All Screens available in either Plexiglass or 3-Form Ecoresin.

Desk Top Screens

Trig Desk Top Screens are intended to provide privacy between adjacent desks. Mostly used in benching applications. All Screens available in either plexiglass or 3-Form Ecoresin.

Back Edge Mount Screens

Trig Back Edge Mount Screens assemble to the back of a work surface with a 1" gap between it and another work surface. The gap allows for power cords to pass between them.

Note: See planning guide for proper size selection. All necessary mounting hardware is included.

Modesty

The Trig Modesty mounts 2" from the back edge of the work surface.

Note: See planning guide to proper size selection. All necessary mounting hardware is included.

Note: Modesty Only

If electrical components are to be used with a Modesty-Only configuration on a Rectangle, Wedge or Blade work surface, the optional grommet should be selected for cord pass-through.

Screen/Modesty Combination

The Trig Screen/Modesty Combination mounts to the underside back edge of a work surface. There is a 1" gap between the Screen/Modesty and the work surface, allowing power cords to pass between them.

See planning guide for proper size selection. All necessary mounting hardware is included. All Modesty and Screen Modesty Combinations available in either plexiglass or 3-Form Ecoresin.

Acrylic Modesty

The Acrylic Modesty mounts to the underside of any work surface or table to provide privacy. Included with the modesty is a 1/4" thick Frosted Acrylic and brackets. The brackets are a raw aluminum finish.

Note: The actual width of the acrylic modesty is 2" shorter than nominal.

Note: There is no gap between the acrylic and the underside of the desk for cable pass through.

Single Acrylic Screen - Freestanding Plate

The Freestanding Acrylic Screen can be placed on any work surface or table to provide a division. Included with the screen is either 2 or 4 Gray Brackets depending on the width of the screen. The brackets come with two types of foam pads for the underside of the bracket plates based on installation needs. One pad helps to prevent the screen from skidding on the worksurface, and the other pad uses double-sided tape for more of a secure attachment.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Note: Screens 24-54" in width will have 2 brackets and Screens 60-72" in width will have 4 brackets.

Single Acrylic Screen - Edge Mount Bracket

The Edge Mount Bracket uses clamps to attach to the back edge of a work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits slightly offset from the back edge, creating a 3/4" gap to facilitate power/data cable management and other accessories. The final installed height of the

screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Single Acrylic Screen - Top Mount Bracket

The Top Mount Bracket uses clamps to attach to the top of the work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits on the work surface creating a 1 3/4" gap between the work surface and the bottom of the screen. The final installed height of the screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Corner Connector Kit

The Corner Connector Kit attaches Edge Mount Screens to Top Mount Screens at the intersecting corners. This creates 'L' and 'U' shape configurations connected as one unit. The SCNCCK Kit provides 2 brackets to create one corner connection for an 'L' Shape. The SCNCCK2 Kit

provides 4 brackets to accommodate 2 corner connections for a 'U' Shape.

Note: these are the same corner brackets used with the Post Style and Low Profile Bracket Screens, and can be utilized as service parts for these screens if needed.

Trig Top Mounted Fabric Screen

The Trig Top Mounted Fabric Screens are mounted on top of a Trig Desk. The 18, 22 and 28 inch screens are designed to work as side screens. The larger widths are designed to mount to the front edge of a surface, or across the seam of two surfaces positioned back to back. The screen is fully tackable, fabric covered, and comes with all the hardware to attach it. The

hardware has a small reveal at the very bottom of the screen and what the trim color is related to.

Trig Fabric Screen / Modesty Combination

The Trig Fabric Screen Modesty Combination mounts to the underside back edge of the desk top. The screen is fully tackable, fabric covered, and comes with all the hardware to attach

it. It provides 13" of privacy above the surface and 14" below the surface. Match the screen width to the Trig desk width.

Note: The Fabric Screen/ Modesty Combination cannot be used in conjunction with the Trig Power Raceway.

Credenzas

Trig Credenza come with a 1" Thermofused laminate top and 2" support legs with leveling glides. Credenzas are 20" deep and 26.75" high. Units are intended for freestanding applications. Units ship fully assembled except for 2" support legs.

Note: Trim color includes support legs and Framed Door option (FD) when selected.

Credenzas with Doors

Features include hinged doors with optional locking. (Locking not available on aluminum door option) Credenzas 60", 72" and 75" wide have (1) adjustable shelf in each double door. The 45" wide Credenza has one adjustable shelf in the double door and one in the single door. Shelves adjust vertically in 2 1/2" increments.

Combination Storage

The Trig Combination Storage unit combines the functionality of a lateral and pedestal with added storage of shelves. Units are intended to be placed at the aisle side of a workstation to provide storage and privacy.

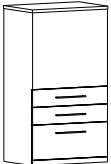

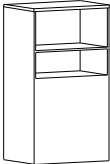

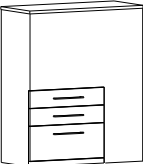

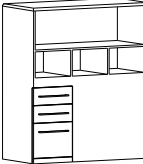

The Laterals include full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

Available accessories include Marker Board or Tackboard for addition to the aisle side of the units.

Units are intended for freestanding applications, or can be used as work surface support if used in combination with option Trig Work Surface Support Brackets.

Unit ships fully assembled.

Pedestal Shelf Combination Storage

The Trig Pedestal Shelf Combination Storage combines the functionality of a pedestal with the added storage of shelves. The storage unit is available in Right- and Left- Hand versions. The Right Hand version is intended for placement on the right-hand of a workstation with the shelves facing inward. The Left-Hand version is intended for placement on the left-hand of a workstation with the shelves facing inward. The 6612 Pedestal includes full extension ball bearing slides, side-to-side and front-to-back filing bars and leveling glides. Drawers accommodate

side-to-side letter, A4, legal and EDP filing. The shelf storage includes one adjustable shelf that adjusts vertically in 2 1/2" increments.

Available accessories include a Marker Board or Tackboard that can be added to the aisle side of the unit. Option locking available on pedestal drawers.

Units are intended for freestanding applications, or can be used as work surface support if used in combination with option Trig Work Surface Support Brackets.

Unit ships fully assembled.

Trig Wardrobe Storage Tower and Wardrobe Storage Tower with Bookcase

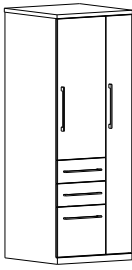

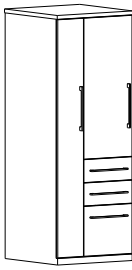

The Wardrobe Storage Tower provides, wardrobe, drawer and cupboard storage in a single cabinet. Each of these storage areas can be locked independently to allow for varying levels of security. Wardrobe Storage Towers are available in either Right-Hand version with the wardrobe on the right side or a Left-Hand version with the wardrobe on the left side.

Wardrobe Storage Towers have adjustable leveling glides. The wardrobe unit includes a wardrobe bar and one adjustable shelf. The cupboard unit includes two adjustable shelves. The bookcase unit and cupboard unit includes two adjustable shelves. Shelves adjust vertically in 2 1/2" (64) increments. The pedestals have full extension ball bearing slides on both the 6" and 12" drawers.

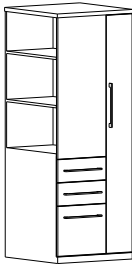

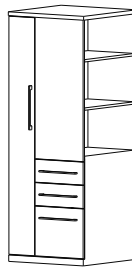

Unit ships fully assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with a Trig Core/Key set in order for the Trig filing unit to lock. The Core/Key set (CLCK) must be order separately or by using the keying order form. Check Customer Care for availability.

Trig Wardrobe Display Tower

The Wardrobe Display Tower features include a hinged locking door, one shelf, full width wardrobe bar and leveling glides. Optional laminate or framed aluminum door available. (Lock option not available with framed aluminum door). Wardrobe Display Towers are available in either Right-Hand version with the wardrobe opening to the right side or a Left-Hand version with the wardrobe opening to the left side.

Wardrobe Display Tower has adjustable leveling glides.

Units ship fully assembled.

Under Desk Lateral Support Storage

Trig Under Desk Lateral Support Storage is available in three depths. The Lateral includes full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front to back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

Trig Under Desk Lateral Support Storage is pre-drilled to accept a 1" riser (included) for mounting under the desk (mounting screws included).

Optional locking available for drawers.

Units are intended for work surface support applications.

Ships fully assembled except 2" support leg.

Under Desk Pedestal Support Storage

Trig Under Desk Pedestals include a 1" riser for mounting under the desk. Pedestals have full extension ball bearing slides, side-to-side and front to back filing bars and leveling glides.

Optional locking available for drawers.

Ships fully assembled except 2" support leg.

Trig Stack Storage - Open Shelf

Open Shelves can be used where open shelf storage is desired above any Trig credenza or freestanding storage 30" or wider. The stackers are available in two different heights to align with 53 3/4" and 65 3/4" high combination storage and storage towers. Standard features include a 3/8" (10) cord pass-through gap behind the shelves and a 1" full length cord management gap at the base of the back panel. An optional gap guard is available. The 27" high stacker has one adjustable shelf and the 39" has two adjustable shelves. Shelves are 5/8" thick and adjust in 2 1/2" increments.

Stackers ship ready to assemble with all necessary mounting hardware.

Trig Stack Storage - Paper Management Shelf

The Paper Management Shelf can be used above any Trig Credenza, Bench Height or Freestanding storage unit 30" or wider.

The Paper Management Shelf width does not need to match the width of the storage unit it stacks on. A narrower shelf can be placed anywhere along the width of the storage unit where paper management or open cubby storage is desired.

The 30" (762) & 45" (1143) wide shelf has a single opening and 60" (1524) & 75" (1905) have two openings with a center divider.

The Shelf ships ready to assemble.

Trig Overhead - Single Sliding Door

The Single Sliding Door Overhead is constructed of thermofused laminate with vinyl edgeband.

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

The thermofused laminate door travels in an aluminum track by means of a pull. Each unit has a center divider, so there is always one cubby open and one closed. The unit does not lock. For A4 (11 7/16" x 12 5/8") sized binder storage, please reference the Overhead – Open Shelf or Hinged Door units.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim colors. Two leg height options are available to align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Tower when mounted on top of a Trig work surface.

Trig Overhead – Dual Sliding Doors

The Dual Sliding Door Overhead is constructed of thermofused laminate with vinyl edgeband.

The two frosted plexiglass doors have pulls and run back to back in an aluminum track. The unit does not lock. For A4 (11 7/16" x 12 5/8") sized binder storage, please reference

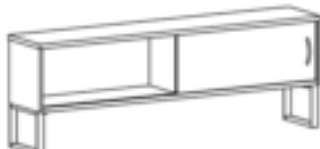

the Overhead – Open Shelf or Hinged Door units.

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim color. Two leg height options are available to align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Towers when mounted on top of a Trig work surface.

Trig Overhead – Hinged Doors

The Hinged Door Overhead is constructed of thermofused laminate with vinyl edgeband.

Each unit includes 2 pairs of locking hinged doors. The same door size is used for all units. Overheads that are 66" (1676) and wider will have a center open cubby, which increases in width proportionately with the width of the overall unit. The Overhead can accommodate standard and A4 (11 7/16" x 12 5/8") sized binders.

If a wood grain laminate is selected the grain will run vertically on the door front.

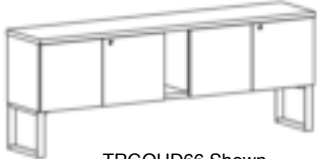

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim color. Two leg height options are available that will align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Towers when mounted on top of Trig work surfaces.

Trig Storage to Panel Brackets

Storage to Panel Brackets are used to connect Trig Storage units to Capture or Choices system panels for additional workstation rigidity. Brackets are designed to provide stability to layouts that would otherwise require return panels.

For detailed application information regarding use of the Storage to Panel Bracket, refer to the *Trig Desking Planning Guide*.

Storage to Panel Brackets are available in Charcoal only.

All necessary hardware for assembling brackets to Trig storage is included.

Trig Support Leg to Panel Brackets

The Leg to Panel Bracket is used to connect Trig Support Legs to Capture or Choices system panels for additional workstation rigidity. Brackets are designed to provide stability to configurations that would otherwise require return panels.

Two different brackets are available for use with either Capture or Choices. Their specific use depends on the orientation of the work surface relative to the panel.

Capture

TRGLCPTPB1 – Used when a work surface is parallel to a Capture panel

TRGLCPTPB2 – Used when a work surface is perpendicular to a Capture panel

TRGLCPTPB3 – Used when two work surface are parallel to a Capture panel, with a side to side shared leg between them

Choices

TRGLCSPB1 – Used when a work surface is parallel to a Choices panel

TRGLCSPB2 – Used when a work surface is perpendicular to a Choices panel

TRGLCSPB3 – Used when two work surface are parallel to a Choices panel, with a side to side shared leg between

them

For detailed application information regarding use of the Support Leg to Panel Bracket, refer to the *Trig Desking Planning Guide*.

Support Leg to Panel Brackets are available in all Standard and Premium Systems Trim Finishes.

All necessary hardware for assembling brackets to Trig Support Legs is included.

Trig Benching Electrical

Benching Electrical Components 80

Benching Electrical Accessories 83

Components

Trig Power Raceway

The Trig Power Raceway consists of four parts - Raceway to Table Connector, Trig Raceway Shroud, Power Block Brackets, and the Power Block.

The Bracket and Blocks ship attached to the Raceway to Table Connector. The Raceway to Table Connector attaches to the underside of the desk. Once installed, the Shroud attaches to it to form a complete raceway. The width of the Raceway is actual. Please refer to the chart below to specify the correct width Raceway for each desk configuration.

The Trig Power Raceway is designed to work in a double sided application. It will be placed across the seam on the underside of two Trig Tops. If a single sided option is needed, please contact Trendway Customer Care for specifics.

Specifying Raceway Widths

The support on both sides of the Trig Desk will play a part in the Raceway width needed. This chart shows how much room the support takes up. Add up the supports on both sides of the desk and subtract from the overall width of the desk.

Leg	6"
Ped	18"
Riser	18"
Under Desk Storage	36"

Support 1	Support 2	Surface Width Minus	Surface Width								
			36	42	48	54	60	66	72	78	84
Leg (6)	Leg (6)	12	Raceway Width								
Leg (6)	Bench Hgt Riser(18)	24	24	30	36	42	48	54	60	N/A	N/A
Leg (6)	Ped (18)*	24			24	30	36	42	48	54	60
Leg (6)	UD Support (30)*	42						24	30	36	42

* In order for a Raceway to span the full width, the depth of any Under Desk support used must be 4" shorter on a 24" deep surface, and 6" shorter on a 30" deep surface to allow sufficient clearance.

Trig Power Raceway Spanning Cover

The Trig Power Raceway Spanning Cover is used to enclose power and data cables when they span across to an adjacent Table's Raceway. There are three versions of the Cover to accommodate most configurations.

The TRGPRSC12SL is specified when a single U Leg is shared in the center of four adjacent Tops. There is a single notch opening to accommodate the U Leg.

The TRGPRSC12DL is specified when two U Legs are shared legs in the center of four adjacent Tops. There is a single notch opening large enough to accommodate two U Legs.

The TRGPRSC364R is specified when four risers are used, or a combination of four storage pieces that all must be at least 4" shorter than the depth of the Top. There is no opening. This version can be used to accommodate most configurations.

Power Block

Power Blocks ship complete with the Raceway.

- Power Blocks provide power access on both sides, accommodating up to two snap-in Power Duplexes per side.
- 24" (610) Raceways include only one Power Block, a single Distribution Block that accommodates up to two snap-in Power Duplexes (maximum one per side).
- 30" (762), 36" (914), 42" (1067), 48" (1219), 54" (1372) and 60" (1524) Raceways ship with two Distribution Blocks to accommodate up to four snap-in Power Duplexes (maximum two per side).

Trig Electrical Harness

Electrical Harnesses connect power horizontally from one adjacent Work Surface to another. The Harness attaches to a Block positioned 9" from the end of each Raceway, so when specifying the Harness length you will add 18" (9" + 9") to the distance between adjacent raceways. The type of Support used will determine the length of Harness required (see table below).

Leg	6"
Ped	18"
Riser	18"
Under Desk Storage	36"

In the figure below, connection A supports include a Ped and a Leg (18" + 6") + (18" for the distance inside the raceway), for a total of 42". For connection B, the supports consist of a Leg and a Leg (6" + 6") + (18" for the distance inside the raceway) for a total of 30".

NOTE: A Harness cannot be used if a full depth storage piece is located next to a Leg. This configuration does not allow sufficient clearance for the Harness to extend to the next table.

NOTE: If no full depth under desk storage is present and full-depth U legs are positioned diagonally from each other on facing Work Surfaces, you must add 6" to the length of a Harness in order to pass around the U Legs.

Trig Power Infeed

Trig End Mount Infeed

The Trig End Mount Infeed installs into the end of a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit Base Feed to the building's electrical system. It can be used on its own or housed by a Trig Floor Power Pole.

Trig Floor Power Pole

The Trig Floor Power Pole is used to channel electrical components and communication cables. It attaches to the side of a Trig U Leg.

Trig Ceiling Feed

The Trig Ceiling Feed supplies power from the ceiling to the Power Block. The Feed is housed by the Trig Ceiling Power Pole. It has 13' (3962) of wire and 12' (3658) of flexible conduit.

Trig Ceiling Power Pole

The Trig Ceiling Power Pole is used to house electrical components and communication cables accessed from the ceiling. It attaches to a Trig U Leg at the end of a run.

Trig Electrical Duplex

The Trig Electrical Duplex provides user access to power. It plugs into the Power Blocks that ship complete with the Raceway. There are nine different duplexes used to create three different 4-Circuit options (See Electrical Circuit Planning section). Each Duplex is color coded and marked to distinguish whether it is a general, dedicated or isolated circuit.

Circuits are marked with the following symbols: I, II, III, IV, I, II, III, III, IV. Duplexes must be specified separately to match the desired electrical circuit plan.

Communication Module

The Communication Module snaps into an open Duplex location in the Raceway to provide access to communication distribution.

The 8-Wire Trig Electrical Circuit Planning and Hardwiring to Building Electrical Source

The Trig Electrical System is an 8-Wire, 4-Circuit system including a dedicated neutral and ground. Each circuit is rated for 20 amps. The PowerPac Electrical Schematic is included to show how the system installs to the building's power source (Fig. 1). There are three - four circuit options which include:

- Three general circuits, one dedicated circuit (Fig. 2).
- Three isolated circuits, one dedicated circuit (Fig. 3).
- Two general circuits, two isolated circuits (Fig. 4).

Fig. 1 Installing to Buildings Power Source

Options for PowerPac Four Circuit System

Fig. 2 Three General Circuits, One Dedicated

Fig. 3 Three Isolated Circuits, One Dedicated

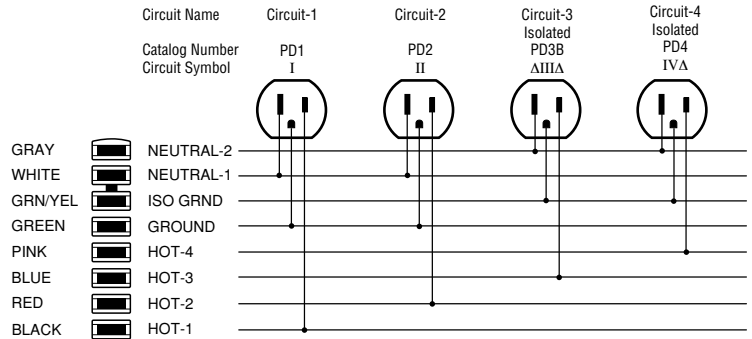

Fig. 4 Two General Circuits, Two Isolated

Trig Power Raceway

The Trig Power Raceway provides a steel enclosure that houses and routes power and data in Trig Benching applications. Each Raceway 30" and wider has four openings per side, two for power duplexes and two for data. The 24" Power Raceway has one power and two data openings per side. Raceways are specified to accommodate Trendway's standard 8 wire 4 circuit power system (P1) or a hardwire solution (H). The Power Raceway ships with an Electrical Block or 2 hardwire boxes included, and attachment brackets installed. Power

Duplexes, Harnesses and Infeeds must be specified separately.

The unit ships with all attachment hardware included. The Raceway is available in all Trendway Standard and Premium Finishes.

Trig Power Raceway End Cover

The Trig Power Raceway End Cover provides a finished appearance at the end of a Trig Power Raceway.

Not to be used on the same side as an Infeed.

The unit ships with all attachment hardware included. The End Cover is available in all Trendway Standard and Premium Finishes.

Trig Power Raceway Spanning Covers

The Trig Power Raceway Spanning Cover is used to conceal power and data cables where they span to an adjacent Raceway. The Cover attaches two Trig Power Raceways to create a continuous steel enclosure beneath the surfaces.

The Spanning Cover is available in all Trendway Standard and Premium Finishes.

Trig Ceiling Power Pole

The Trig Ceiling Power Pole encloses and routes power and communication cables from the ceiling to the Trig Power Raceway. The Power Pole is 12' in height and will attach structurally into the ceiling and to the Trig U Leg at the end of a run. Pole capacity is 50 1/4" diameter cables with a ceiling feed.

Note: To connect the Trig electrical system to ceiling power, order the CFTP power feed.

Trig Floor Power Pole

The Trig Floor Power Pole has a 2 inch by 2 inch profile that attaches seamlessly to the side of a Trig U Leg. The Power Pole has a removable 4th side that allows for easy access to power and communication cables. The Pole is 26" high and attaches on the inside quarter of the leg. The Pole capacity is 31 1/4" diameter cables without an infeed, and 23 1/4" diameter cables with an infeed.

Note: To connect the Trig electrical system to building power, order the EBFH Infeed.

Trig Ceiling Feed

The Ceiling Feed supplies power from the ceiling to the Trig Raceway. The feed is channeled through the Trig Ceiling Power Pole. The CFTP which has 13' (3692) of wire and 12' (3658) of flexible conduit when fully extended. The Ceiling Feed includes junction box and attachment hardware.

Trig End Mount Feed

The End Mount Base Feed plugs into a Power Block to feed power from the building's electrical system. It provides 6' (1829) of flexible liquid tight conduit for hardwiring the standard four-circuit system. UL and CUL Listed/CSA Certified.

Available in Black only.

Trig Benching Electrical Harness

Trig Electrical Harnesses connect Trig Electrical Blocks, distributing power horizontally from one Trig unit to another. The Electrical Harness is UL Listed and CUL Listed/CSA Certified.

Trig Power Duplexes

The Power Duplex plugs into Electrical Blocks for access to the circuit. Power Duplex is clearly marked for Circuit I, II, III, IV, IΔ, IIΔ, IIIΔ, ΔIIIΔ or IV access. See Power Electrical Components and Electrical Circuit Planning for guidelines on specifying Electrical Duplexes. Packaged in boxes of six of the same duplex. UL and CUL Listed/CSA Certified.

Communication Modules

The Communication Module snaps into an open duplex location in the baseline and at the beltway. It provides access to communication cables. Jacks are color coded as noted below. Includes icon tabs for easy identification of Data, Phone, Voice, and LAN (Local Area Network) lines.

Note: Verify your configuration with your building telecommunication contractor.

Note: All modules can be installed back to back.

Note: The RJ11 Jacks are rated category 3. The RJ45 Jacks are rated category 5e.

Trig Electrical

Electrical Specification Guide 90

Electrical Components 91

Electrical Accessories 93

Trig Electrical Planning Guide

Trig Workstations can be powered by the optional 4-wire, 2-circuit, 20 Amps each (circuit 1 and 2 only) electrical system. The systems supports up to 10 receptacles per circuit, 20 receptacles per Base Feed. Allowing for a total of 10 Power Sets per Base Feed.

The main system components are Power Sets, Electrical Harnesses, H-Connectors and Power Base Feeds. All components are UL listed.

All work surfaces are predrilled to accept Power Sets. These are attached to the underside of the surface by a metal spring clip. The overall height of the system is just over an inch. This provides a very low profile which will not interfere with the user's legs under the table.

There is currently no capacity in this system for data management.

Electrical Harness Selection

Trig Electrical Harnesses are used to connect Power Sets mounted on different work surfaces. The length of the harness needed will depend on the layout and size of work surfaces used. The following diagrams and tables will help identify the specific length harness needed for a particular layout.

Side By Side

For this layout, the harness length is calculated by the following equation:

$$(\text{Half of Surface 1 width}) + (\text{Half of Surface 2 width}) - 6" = \text{Harness Length}$$

If calculated harness length does not match an exact size, select next longer length.

Example: Surface (1) is 60" wide
Surface (2) is 66" wide

$$(30") + (33") - 6" = 57" \text{ (57" is not a standard size so a 60" length is selected)}$$

Back to Back (Surfaces of Equal Width)

In this layout, the power Base Feed connects to the H-Connector. From there, the power is split to the Electrical Harness to bring power to each surface.

The chart below shows the needed harness length for each width of work surface. (A separate harness will need to be ordered for each surface)

Work Surface Width	48"	54"	60"	66"	72"	78"	84"
Harness Length	18"	24"	24"	30"	30"	36"	36"

COMBINING LAYOUTS Side by Side and Back to Back

In this layout, both side-by-side and back-to-back planning information is needed to specify the correct electrical components. The harness length required to connect the work surfaces side-by-side is determined by using this equation:

$$(\text{Half of Surface 1 width}) + (\text{Half of Surface 2 width}) - 6" = \text{Harness Length}$$

To connect these work surfaces back-to-back, refer to the corresponding chart above.

In this U-Shape layout where only 48" deep ends can be used, the power Base Feed will connect to the H-Connector and the power is split to go to each surface. The chart below shows the needed harness length for each width of work surface. (A separate harness will need to be ordered for each surface)

Work Surface Width	54"	60"	66"	72"	78"	84"
Harness Length	60"	60"	66"	66"	66"	66"

L-Shape (Except Blade)

For this layout, the needed harness length will vary as the width and depth of the work surfaces change. The Trig Base Feed will end mount to Power Sets on one of the tables, but the harness length that connects the two work surfaces is determined from the following tables:

Layout 1

Main Surface (1) = 20" deep
Return Surface (2) = 20", 24" or 30" deep

Return Surface (2) width (maximum size is 72" with under desk)

	54"	60"	66"	66"	72"
48"	48"	48"	54"	54"	60"

84"	60"	66"	66"	72"	72"

Power Set

The Trig Power Sets allow power to be connected between work surfaces without the need for a system panel. Each Power Set includes two receptacles for a total of 4 outlets. Each outlet has one receptacle for circuit 1 and one for circuit 2.

Power Sets are centrally located on the work surfaces. Spring clips for mounting are included. Power Sets are connected between work surfaces with Trig Electrical Harnesses. Trig Base Feed brings power to the Power Sets.

Note: Work surfaces are predrilled for Trig Power Set mounting to assure a standard location that is centrally located.

UL and CUL Listed/CSA Certified

Trig Base Feed

The Trig Base Feed conducts power from the building to the Trig Power Set. It includes 6' (1829) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply.

Trig Base Feed is also used with a Trig H-Connector in cases where a single power feed needs to be split in two directions. Trig Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration.

Electrical Harnesses

Trig Electrical Harnesses connect Trig Power Sets between two surfaces. Harnesses are also used with Trig H-Connectors when a single Base Feed is split in two directions. The specific length of the harness needed will depend on the layout and work surface sizes. Refer to Trig Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

New York Base Feed

The Trig New York Base Feed conducts power from the building to the Trig Power Set. It includes 18" (457) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply.

Trig New York Base Feed is also used with a Trig H-Connector in cases where a single power feed needs to be split in two directions. Trig Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration.

H-Connector

The Trig H-Connector allows power to be routed in up to 3 different directions. This is useful in layouts that require a single Base Feed to reach multiple work surfaces.

(See Planning Guide for Specific Uses.)

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26" of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle.

Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

Luma Touch™ LED Desk Lamp

The Luma Touch LED personal task light is specified with either a Round or an Elongated lamp style. The Lamp can be selected with a Freestanding Base, Clamp Mount, or Slatwall Mount. The Slatwall Mount is compatible with Choices and Capture. Its double-arm articulated design allows the user to position the light effortlessly for optimum illumination. The single control responds to the lightest touch to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting

level if turned off and on. The optional Occupancy Sensor turns the lamp on when a user approaches and shuts it off after 30 minutes of inactivity, conserving energy use. Available in three colors. ETL, TAA and BAA certified.

complements any interior. The single control responds to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting level if turned off and on. The Lamp is available as a freestanding model or with a clamp mount. UL Listed. Available in a Brushed Nickel finish

ORI LED Desk Lamp

The ORI LED Personal Task Light provides 390 Lumens of clear white light right where you need it. It offers a wide range of vertical and rotational adjustment so the user can direct the light where it's needed. The clean, simple and attractive design

Terms, Policies & Index

<i>Terms & Policies</i>	<i>104</i>
<i>Warranty</i>	<i>107</i>
<i>Index</i>	<i>108</i>

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section

8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM* test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:
U.S. Mail and UPS, FedEx Shipment:
Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or

damage shall remain with Buyer. Buyer must assume responsibility for any use spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations,

orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not

apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the

common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a**

general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components •Screens 	<ul style="list-style-type: none"> •System Textiles •Finishes

2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Intrinsic Freestanding

Intrinsic Freestanding is a fully integrated line of laminate freestanding components including desks, credenzas, bridges, returns, hutches, bookcases, tables and laminate storage. This line offers high-end aesthetics, with a range of styling options and finishes.

Trendway product catalogs are available in the following design software: 20/20 (CAP/Giza) and Project Matrix. The Core price book is also available in .pdf (Acrobat Reader) format on www.trendway.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, ZFCD2436 represents an Intrinsic **C**orner **D**esk that is **24"** (610)-deep and is **36"** (914)-wide.

Order specification examples are shown throughout the price book at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.

2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)

8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Intrinsic Freestanding products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES**Standard Program Binder Cards**

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

Intrinsic Keying Order Form

This form can be used as a worksheet or an order form to determine what key-alike Intrinsic Core/Key Sets are needed for key-alike Intrinsic filing and storage, Intrinsic locks on Choices flipper units and for additional Intrinsic Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Intrinsic Core/Key Set

Intrinsic Core/Key Set includes a lock core and 1 lock key. Intrinsic Core/Key Set numbers are randomly selected from existing inventory unless otherwise specified on this form. Requesting specific numbers** may delay shipment of your key-alike order and may require partial or delayed shipment of your lock cores and keys separately from your order. Additional lock keys are available.

Intrinsic Core Installation/Removal Key

Intrinsic Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Intrinsic lock cores. One Core Key is included at no charge for every 1 to 50 Core/Key Sets ordered.

*Intrinsic Master Key

Intrinsic Master Key is used to open any Intrinsic style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8212. Orders are shipped within 24-hours of receipt.

Qty.	List Price \$4	One core removal key is included at no charge for every 50 lock sets ordered.

Intrinsic Master Key(s)

Intrinsic Master Keys are used to open any Intrinsic style lock. Master keys are sent separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8121. Orders are shipped within 24-hours of receipt.

The Intrinsic Core/Key Set must be ordered when the Key-Alike Lock option is chosen to replace the “disposable” core that ships with Intrinsic filing units in order for these units to lock. This set can also be ordered to replace an existing Intrinsic Core/Key Set. Includes an Intrinsic lock core, 1 lock key and 1 Core Installation/Removal Key for every 1 to 50 Core/Key Sets ordered.

Intrinsic Core Installation/Removal Key

The Intrinsic Core Installation/Removal Key is needed to install or remove Intrinsic Cores in Intrinsic filing units or in Intrinsic Locks for Choices Flipper Units (ZCHFLA and ZCTAFLA). One Core Key is included at no charge with every 1 to 50 Intrinsic Core/Key Sets ordered. This key is available if additional Installation/Removal Keys are needed.

Intrinsic Lock Key

Intrinsic Lock Keys have a unique fold-away design to allow for a larger key grip area. These keys are available if additional Intrinsic Lock Keys are needed.

Intrinsic Freestanding Overview

Intrinsic Freestanding is a fully integrated line of quality freestanding desks and modular case goods. The collection includes desks, credenzas, hutches, modular filing and storage, and conference tables. This line offers high-end aesthetics, with a range of styling options and finishes.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, ZFCD2436 represents an Intrinsic **Corner Desk, 24"** (610)-deep by **36"** (762)-wide.

By following the Sample Part Number Example at the bottom of each page, you create a Part Number for each product. This Part Number will match your acknowledgement and packing slip.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (ZFERDR427230.F.XZ1.XZ4.XZ1).

Intrinsic Key Option

Intrinsic Laminate filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge (see page 9 for more information). When the randomly keyed option "R" is chosen the Intrinsic Laminate filing and storage unit will ship with a randomly numbered core/key.

When the key-alike option "T" is chosen the Intrinsic Laminate filing unit will ship with a "disposable" core in place of the core/key and the specified Intrinsic Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic Laminate filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the Intrinsic Keying order form.

STANDARD FEATURES

Modesties

Modesty panels are available as full-height or half-height. Half-height modesties provide 12" (305) of space under the modesty for accessing wall outlets.

End Panels and Supports

Desks come with full depth end panels or Adjustable Support Column and T-base (Peninsula and Extended Conference desks only). Returns come with a full or recessed end panel.

Edgebanding

Components are finished with PVC edgebanding. The edgeband color will always match the color of the Thermofused Laminate unless an option pick is noted. All work surfaces and storage component tops have 3mm edgebanding. All remaining components have 1mm edgebanding.

Wire Management

All desks, credenzas, returns, bridges, and reception stations are equipped, at work surface level, with one or multiple grommets. An optional grommet is available for field installation in all modesty panels. Grommets are available in black only.

Drawers

All drawers are built for trouble-free performance:

- Chrome plated fully progressive ball bearing suspensions with over-travel on all lateral file drawers with 150 lbs rated load capacity.
- Chrome plated ball bearing suspensions on all box drawers and file drawers with 75 lbs rated load capacity.
- Drawer construction is laminated particleboard sides with MDF bottom.
- Integrated PVC top rails for file storage on lateral drawers and 12" pedestal drawers.
- Interlock standard on all freestanding laterals.

Doors

Hutch and Storage doors have 95 degree hinges and shock absorbent bumpers.

Leveling Glides

Desks, Credenzas, Returns, Bridges, Reception Stations, Tables and Bookcases allow up to 1" height adjustment.

Pedestals, Laterals, File Centers, Storage Cabinets and Towers allow up to 1⁵/₈" height adjustment, and are adjustable from inside the storage unit.

Pull Style Options

Intrinsic Laminate Freestanding filing and storage units have four 128mm center applied pull options (Classic, Streamline, Designer and Mod2) and one 256mm center pull (Modern). These are all plated nickel finish.

Dimensions

All dimensions listed are nominal unless otherwise noted.

Certification

All components of the Intrinsic Freestanding offering meet or exceed ANSI/BIFMA x5.5-2014 performance standards unless noted.

Special Products and Finishes

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Special finishes (i.e. non-standard) may be ordered at an upcharge. Minimum quantity may be required. Please verify with our Custom Solutions Department. Delivery may take longer depending on the choice of finish or type of material.

SPECIFICATIONS

Component Capacities

Trendway Corporation will not, under any circumstances, guarantee or assume responsibility for loading performance beyond the basic individual component capacities given below.

Desks:

5 lbs. (2.3kg) per linear inch, uniformly distributed.

Hutches and Bookcases:

3 lbs. (1.4kg) per linear inch of usable space.

Overhead Storage Units: Inside — 3 lbs. (1.4kg) per linear inch.

Top — 2 lbs. (.9kg) per linear inch of usable space.

Pedestal:

6" (152) Pedestal Drawer — 20 lbs. (9kg)

12" (305) Pedestal Drawer — 40 lbs. (18kg)

Top — 90 lbs. (41kg)

Laterals:

Drawer — approx. 2.6 lbs. (1.17kg) per linear inch

Top — approx. 4.6 lbs. (2.1kg) per linear inch

Storage Towers:

6" (152) Pedestal Drawer — 20 lbs. (9kg)

12" (305) Pedestal Drawer — 40 lbs. (18kg)

Top — 140 lbs. (64kg)

Wardrobe Shelf — 30 lbs. (14kg)

Wardrobe Bottom — 50 lbs. (23kg)

Cupboard Shelf — 60 lbs. (27kg)

Cupboard Bottom — 90 lbs. (41kg)

Coat Rod — 55 lbs. (25kg)

Double-Door Storage Units:

Shelf — 100 lbs. (45kg)

Top — 160 lbs. (73kg)

Bottom of Cabinet — 160 lbs. (73kg)

Coat Rod — 55 lbs. (25kg)

Tables:

36" (914) - 60" (1524) — 200 lbs. (276kg)

72"(1829) and longer — 400 lbs. (552kg)

Reception Stations:

Counter Caps: 3.5 lbs. (1.6kg) per linear inch, uniformly distributed.

Maximum Load Capacity For Any Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. for each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a ZFDDF536 = load capacity for bottom + 3 shelves + unit top
 = 160 lbs. + 100 lbs. x 3 + 160 lbs.
 = 620 lbs. maximum load

Eg: Maximum load capacity for a ZFLATF236 = load capacity for drawer x 2 drawers + unit top
 = 2.6 lbs./linear in. x 36" x 2 + 4.6lbs./linear in. x 36"
 = approx. 352 lbs. maximum load (for actual load capacities for each size Intrinsic Laminate Lateral File contact Trendway Customer Care or visit trenddealer.com).

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Laminate Lateral Files and File Center Specifications

Intrinsic Laminate Lateral Files and Lateral File Centers are factory configured for side-to-side filing. If front-to-back filing is desired, the side-to-side filing bars may be removed. No additional parts are necessary to convert drawer to front-to-back filing.

For use with Intrinsic Laminate Lateral Files and File Center

Legal Size Filing

36" - Wide

1 Pair Intrinsic Laminate Front-to-Back Filing Bars

36" - Wide

1 Pair Intrinsic Laminate Front-to-Back Filing Bars

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights whenever lateral files or pedestals are not anchored or ganged back-to-back. Side-by-side ganging does not improve stability.

To avoid tipping, always load bottom drawers before loading top drawer.

Intrinsic Freestanding Components Planning

These planning guidelines provide instructions for safely configuring Intrinsic Freestanding product applications. The following diagrams illustrate the proper use of supporting elements, connecting hardware, and overhead components.

C-Leg Supports and Recessed Support Leg Kits

- In many applications, C-Legs or Recessed Support Leg Kits (ZFRL) can be used for additional support and stability (Fig. A).

Fig. A

Peninsula P-Top and D-Top Desks

Peninsula P-Top and D-Top Desks are required to be attached to a Return or Bridge. They are not to be used as freestanding desks (Fig. B).

Fig. B

Bridges

When a 48" (1219) Bridge is attached to any desk, a Peninsula C-Leg or Recessed Support Leg Kit is required near center of Bridge. When a 36" (914) or wider Bridge is attached to an extended desk on either side, a Peninsula C-Leg or Recessed Support Leg Kit is required near the center of the Bridge (Fig. B). Bridges are shipped with all necessary attachment hardware.

Returns

Returns are non-handed and available with a full end panel or a recessed end panel. Returns are shipped with all necessary attachment hardware (Fig. C).

The recessed end panel support may not be used as an end of run support. Returns specified with the recessed end panel are designed to be used with an extended conference desk (ZFEC2448) and will allow additional leg clearance.

Fig. C

Corner Desk

The Corner Desk is required to have a Return or Bridge on at least one side. It is not a freestanding desk (Fig. D).

Fig. D

Extended Conference Desk

The Extended Conference Desk must be attached to two Returns. The recessed end panel is recommended for increased leg clearance and accessibility (Fig. E).

Fig. E

Rectangular and Bowed Front Desks

Rectangular/Credenza Desks

Returns and Bridges

Work Surfaces

The Intrinsic Freestanding work surfaces are 1" thick. Please consider this prior to attaching anything to the underside of the work surface. Using incorrectly sized mounting hardware may cause damage to the top of the work surface. It is also recommended that a pilot hole be drilled prior to fastening any mounting hardware.

Hutch Component Planning

All Hutches are attached to work surface with double-sided foam tape. All Hutches require a floor supported element (Pedestal, Lateral, File Center, Double-Door Storage Cabinet, end panel, Recessed Support Leg Kits or C-Leg) directly under each Hutch side panel. In addition, the Desk/ Credenza that the hutch is attached to is required to be attached to a Return, Bridge or be situated against a wall.

Intrinsic Freestanding Hutch and Open Hutch Placement Guide

The following illustrations show valid locations for attaching Freestanding Hutches with Doors and Open Hutches to Desk modules.

Extended Peninsula Desks P-Top and D-Top

Hutches with Doors may be placed on Extended Peninsula Desks if accompanied by proper length Return or Bridge with required floor support element (Fig. F).

Fig. F

Corner Desks

Corner Desks accept Freestanding 36" (914) Open Hutch.

Corner Desks accept 72" (1829) Hutch with properly sized Return to allow floor support under Hutch side panel.

Extended Rectangular Desks

Extended Rectangular Desks accept Hutches with Doors and Open Hutches

Rectangular Desks

Grommets

Work surface grommets are standard on all desk units, bridges and returns.

Grommets are available in black only. The following drawings show standard grommet locations.

Contact your Customer Care representative for more information.

Rectangular Desks/Credenza

The Rectangular Desk has a Thermofused Laminate top with vinyl edging. Standard features include a modesty, end panels, leveling glides and grommets. See grommet information in the planning section for standard grommet locations.

End panels are non-handed and can be field installed on either the left or right side.

Pedestals, File Centers, Pencil Drawers and other Filing and Storage units are

specified separately for maximum flexibility. These units are offered in the filing and storage section.

If using a 24" (610)-deep desk as a Credenza, the inside dimensions are 57^{5/8}" (1464) for a 60" (1524)-wide and 69^{5/8}" (1768) for a 72" (1829)-wide. Therefore, two 30" (762)-wide storage units will not fit under a ZFRD2460 and two 36" (914)-wide storage units will not fit under a ZFRD2472.

Shipped ready to assemble.

Bowed Front Desks

The Bowed Front Desk has a Thermofused Laminate top with vinyl edging. Standard features include a modesty, end panels, leveling glides and grommets. See grommet information in the planning section for standard grommet locations.

The Bowed Front Desk has a bowed top that is curved on the guest side extending 6" at the center.

End panels are non-handed and can be field installed on either the left or right side.

Pedestals, File Centers, Pencil Drawers and other Filing and Storage units are specified separately for maximum flexibility. These units are offered in the filing and storage section.
Shipped ready to assemble.

D-Top Peninsula Desks

D-Top Peninsula and Extended D-Top Peninsula Desks have Thermofused Laminate D shaped top with vinyl edging. Standard features include a T-base support with adjustable height support column, or a modesty with end panels, leveling glides and grommets. See grommet information in the planning section for standard grommet locations.

D-Top Peninsula Desks are non-handed and Extended D-Top Peninsula Desks are handed.

If T-Base is chosen, specify a trim color for the support column.

Note: A D-Top Peninsula Desk must be connected to other Freestanding units for proper stability. Refer to planning guidelines for more information.

Pedestals, File Centers, Pencil Drawers and other Filing and Storage units are specified separately for maximum flexibility. These units are offered in the filing and storage section.

Shipped ready to assemble.

Freestanding Desks

Intrinsic Freestanding Desks have a 1" Thermofused Laminate top with a 3mm vinyl edgeband. They are available with the following top shapes: Kidney, Rectangular and Bowed. They can be configured with 4" column legs with either adjustable leveling glides or locking casters. Freestanding desks also offer multiple grommet options. See grommet information in the planning section.

Accessories include field-installed laminate and mesh modesties, steel front center drawers (CDW), pencil drawers (PDR), Pop-up Power/Data Modules (SICELECM), Keyboard Platforms, Monitor Arms and Personal Task Lights.

Note: The Kidney shaped desk may only be used in a freestanding application. It cannot be attached to a bridge or return.

Note: Freestanding Rectangular and Bowed front desks include a steel hat section and mounting hardware that

must be installed on the underside of the worksurface.

The Freestanding Rectangular and Bowed front desks may be attached to a bridge or return when the return includes a recessed support leg (i.e. 60"-72" Returns) or when a Recessed Support Leg Kit (ZFRL) is ordered and placed within 4" of the modesty edge on the end that connects to the freestanding desk.

Shipped ready to assemble.

Laminate Modesty

The Laminate Modesty is made of 5/8" Thermofused laminate. It is available in standard Intrinsic Freestanding Thermofused laminate colors with matching edge color. The modesty should be ordered to match the style and length of the Intrinsic Freestanding Desk ordered. Modesties include mounting hardware. Freestanding Desks are pre-drilled to accommodate the modesty.

Mesh Modesty

The Mesh Modesty provides privacy with a lighter feel. The modesty is a dimensional knit of polyester with a nylon pouch for cable management. The modesty should be ordered to match the length of the Intrinsic Freestanding Desk ordered. Modesties include mounting hardware. Freestanding Desks are pre-drilled to accommodate the modesty.

Returns

Returns are designed to be used as an extension off the front edge of a Freestanding Desk, the sides of a Corner Desk or the side of a Peninsula Desk.

The Return has a rectangular Thermofused Laminate top with vinyl edging. Standard features include a modesty, end panel, leveling glides and grommet. See grommet information in the planning section for standard grommet locations. All necessary attachment hardware included.

Returns are non-handed and can be field installed on either the left or right side.

Shipped ready to assemble.

Note: Intrinsic Returns may be ordered with a 14" (356) recessed end panel for applications requiring additional leg clearance. Refer to planning guidelines for more information.

Bridges

The Bridge is designed to be used as a connection between two desks to create a U-shaped configuration. The Bridge has a rectangular Thermofused Laminate top with vinyl edging. Standard features include a modesty and grommet. See grommet information

in the planning section for standard grommet locations. All necessary attachment hardware included.

Shipped ready to assemble.

C-Leg or Recessed Support Leg Kit

The C-Leg or Recessed Support Leg Kit is required in certain applications as outlined in the planning section. The C-Leg kit is available in all Trendway standard smooth trim colors. The recessed support leg kit is available in all Intrinsic Thermofused laminate colors. All necessary attachment hardware is included.

Hutches with Doors

The Intrinsic Hutch with doors is available in a variety of widths, and is available with two door style options. Standard features include equally proportioned non-locking hinged doors (2 doors for 36" to 48" hutches and 4 doors for wider hutches), 1" (25)-thick top, full-coverage back panel with finished wire management ring at task light level, and integrated 1 1/2" full-length cord management gap at base of the back panel.

Available accessories include full-width paper management slots, tackboard, task lights, cord management gap guard, and framed door kits.

The optional Hutch with doors and standard Low Profile paper management

slot quantities and dimensional widths are as follows:

Width	Slot qty	Slot width
36" (914)	3	10 7/8" (276)
42" (1067)	3	12 1/8" (325)
48" (1219)	3	14 7/8" (378)
60" (1524)	5	11" (279)
66" (1676)	5	12 1/2" (318)
72" (1829)	5	13 3/8" (340)

The color of the paper management option on the Hutch with doors will always match the unit color.

Note: Unit color refers to side panels, back panel and valance.

Note: Framed door option includes silver frame and choice of available insert options.

Note: All Hutches attach to work surface with double-sided foam tape. Shipped assembled.

Low-Profile Paper Management Hutch

The Low-Profile Paper Management Hutch is available in a variety of widths. Standard features include paper management slots as defined on this page, 5/8" (16) top, full-coverage back panel with finished wire management ring at task light level, and integrated 1 1/2" full length cord management gap at base of the back panel.

Available accessories include tackboards, task lights, and cord management gap guard.

Shipped assembled.

Open Hutch

The Open Hutch is available in 30" (762) and 36" (914) widths. The units are for use above work surfaces, above the 24" (610)-deep 2-high Double Door Storage Cabinet and above the 24" (610)-deep two-drawer lateral. The open hutches have a 3/8" (10) cord pass through gap behind the shelves and a 1" (25) full length cord management gap at base of the back panel. Each unit comes standard with two adjustable shelves and necessary shelf mounting pins. Each shelf is adjustable in 2 1/2" (64) increments.

Available accessories include additional shelves with mounting pins, tackboards and task lights.

Shipped ready to assemble.

Wall Mounted Storage Unit with Doors

The Wall Mounted Storage Unit with Doors is available in 30" (762) and 36" (914) widths. Each unit has two hinged non-locking doors. Attachment for Wall Mounted Storage Unit requires individual cabinet to be secured by a minimum of two wall mounting locations/studs.

The Wall Mounted Storage Unit is designed for installation on interior and

perimeter walls that are constructed of wood or metal studs.

Note: The back of the unit is recessed to eliminate visibility of the wall mount brackets.

Note: The unit includes mounting brackets to accommodate most installation applications. It is the responsibility of the dealer or installer to obtain any additional fasteners that may be needed to safely attach the unit to the wall.

Shipped assembled.

Tackboards

Can be mounted under Hutch with Doors or paper management, Open Hutches and Wall Mounted Storage Units.

Tackboard has a tackable panel fabric front and velcro attachment tabs.

Shipped assembled.

Note: Review Fabric Planning guidelines on page 2 to better understand directional fabric application details for Intrinsic freestanding tackboards.

Cord Management Gap Guard

The Cord Management Gap Guard bridges the open space between a hutch back and the top of the work surface below. Made of flexible material, it allows easy passage of electrical and data cables. The Cord Management Gap Guard is attached with adhesive tape (included). The Gap Guards are sized to fit on the Intrinsic Hutch with Doors. Find your correct corresponding sizes and catalog numbers on page 38. The

Cord Management Gap Guard can also be cut to size to be used on all other hutches. Available in black only.

Shown with one adjustable shelf removed

INTRINSIC LAMINATE PEDESTALS

When the key-alike lock option "T" is chosen, the Core/Key Set (ZFLCK) must be ordered separately or by using the Keying Order Form.

Shipped assembled.

Laminate Modular Pedestals

The Intrinsic Laminat Modular Pedestal is designed to be used beneath the work top.

Intrinsic Laminat Pedestals offer two drawer configurations: 12/12 with two 12" drawers or 6/6/12 with two 6" and one 12" drawer. 6/6/12 Pedestals include one pencil tray.

The Laminat Modular Pedestal has full extension ball bearing slides on both 6" and 12" drawers and includes lockable drawers and leveling glides.

Available accessories include Side-to-Side Filing Bars and additional Pencil Trays.

Laminate 3/4 Mobile Pedestal

The Intrinsic Laminat Mobile 3/4 Pedestal is designed with a full skirt that conceals the pedestal's casters. The 3/4 Pedestal has full extension ball bearing slides on both 6" and 12" drawers and includes lockable drawers, one pencil tray, four casters and counterbalance weight.

Available accessories include Side-to-Side Filing bars and Cushion Top.

Laminate Two-Drawer Lateral Files

The Intrinsic Laminate Two-Drawer Lateral Files include full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side filing bars, front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

The 18" (457)-deep lateral files are intended for use under work surfaces and may not be used in freestanding applications. The 24" (610)-deep, full-depth lateral is a freestanding element.

Shipped assembled.

Laminate Combination Lateral File Center

The Laminate Combination Lateral File Center combines the functionality of a pedestal and the lateral file into a single cabinet that fits below a work surface. The lateral file center has a handed drawer configuration as shown below.

The laminate file center includes full extension ball bearing slides, side-to-side filing bars and front-to-back filing bars in the lateral drawer, one pencil tray and leveling glides.

The laminate file center is intended for use under a work surface and may not be used in freestanding applications.

One lock secures the 12" file drawer and lateral drawer. The 6" box drawers are non-locking.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form.

Laminate Double-Door Storage Cabinets

The Laminate Double-Door Storage cabinet is available in two depths (18" and 24") and two heights, two- and five-high.

Features include hinged locking double-doors with one adjustable shelf in the two-high unit and three adjustable shelves in the five-high unit. Shelves adjust vertically in 2 1/2" increments. Units also includes leveling glides.

Available accessories include additional Double-Door Storage Shelves and wardrobe bars.

Note: The 18" (457)-deep Double-Door Storage Cabinet is intended for use under the work surface and may not be used in freestanding applications. The 24" (610)-deep Double-Door Storage Cabinet is a freestanding element.

Shipped assembled.

Laminate Wardrobe Storage Cabinet

The Laminate Wardrobe Storage cabinet is available as a five-high unit. Features include hinged locking double-doors, one shelf, a full-width wardrobe bar and leveling glides.

Available accessories include Double-Door Storage shelves.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form. Check Customer Care for availability.

Intrinsic Storage Credenzas

The Intrinsic Storage Credenzas come in three configurations, each with a unified Thermofused Laminate top. The **lateral units** include full extension ball bearing slides, an interlock mechanism (for each 2-drawer unit) allowing only one drawer to open at a time, side-to-side filing bars, front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing. The **double-door units** include hinged locking double doors with one adjustable shelf and leveling glides. Shelves adjust vertically in 2¹/₂" increments.

Note: The storage credenza with a double-door and lateral unit (ZFSC2LATDD) is unhandled. Therefore, storage components can be placed on the left or right depending on user preference.

All versions ship in three pieces and require some assembly.

Laminate Storage Towers

The Laminate Storage Tower provides wardrobe, drawer and cupboard storage in a single cabinet. Each of these storage areas can be locked independently to allow for varying levels of security. Storage Towers are available in either a Right-Hand version with the wardrobe on the right side, or a Left-Hand version with the wardrobe on the left side.

Storage Towers have adjustable leveling glides. The wardrobe unit includes a wardrobe bar and one adjustable

shelf. The cupboard unit includes two adjustable shelves. Shelves adjust vertically in 2¹/₂" (64) increments. The pedestals have full extension ball bearing slides on both 6" and 12" drawers. 6/6/12 pedestals include one pencil tray.

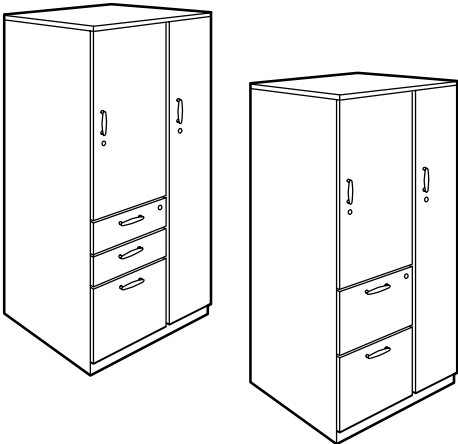

Available accessories include, side-to-side filing bars, additional shelves, and a pencil tray.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form. Check Customer Care for availability.

Laminate Bookcases

The Bookcase is complete with laminate top and base with leveling glides. The Two-high cases have one adjustable shelf. The three-high case has two adjustable shelves. The four-high case has two adjustable shelves and one fixed shelf. The five-high cases have three adjustable shelves and one fixed shelf (see picture). The shelves are 1" (25)-thick, and adjust in 2 1/2" (64) increments. Two, and three-high bookcase heights are designed to accommodate standard binders on all

shelves. The four-high bookcase will only accommodate binder storage on three of the four shelves and the five-high on four of the five shelves.

Additional Bookcase Shelves are available.

Note: Fixed shelf on four and five-high Bookcases is fixed at work surface height.

Shipped ready to assemble.

Intrinsic Executive Freestanding Overview

Intrinsic Executive brings a premium look to the executive suite. Featuring generous 1 1/2" embossed High-Pressure Laminate work surfaces and filing/storage tops. Executive is offered with a choice of decorative fluted or simple flat edge band. Models are available in all current Intrinsic Freestanding colors.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, ZEFCD2436 represents an Intrinsic Executive Corner Desk, 24" (610)-deep by 36" (762)-wide.

By following the Sample Part Number Example at the bottom of each page, you create a Part Number for each product. This Part Number will match your acknowledgement and packing slip.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (ZEFERDR427230.F.XS.XZ1.XZ4).

Intrinsic Key Option

Intrinsic Laminate filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge (see Page 9 for more information). When the randomly keyed option "R" is chosen the Intrinsic Laminate filing and storage unit will ship with a randomly numbered core/key.

When the key-alike option "T" is chosen the Intrinsic Laminate filing unit will ship with a "disposable" core in place of the core/key and the specified Intrinsic Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic Laminate filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the Intrinsic Keying order form.

STANDARD FEATURES

Modesties

Modesty panels are available as full-height or half-height. Half-height modesties provide 12" (305) of space under the modesty for accessing wall outlets.

End Panels and Supports

Desks come with full depth end panels or Adjustable Support Column and T-base (Peninsula and Extended Conference desks only). Returns come with a full or recessed end panel.

Edgebanding

All components are finished with a thick PVC edgebanding. The edgeband color will always match the color of the Thermofused Laminate. All work surfaces and storage component tops have 3mm edgebanding. All remaining components have 1mm edgebanding. The Intrinsic Executive Freestanding product offering is available with optional fluted detail or flat.

Fluted Edge Band

Wire Management

All desks, credenzas, returns, bridges, and reception stations are equipped, at work surface level, with one or multiple grommets. An optional grommet is available for field installation in all modesty panels. Grommets are available in black only.

Drawers

All drawers are built for trouble-free performance:

- Chrome plated fully progressive ball bearing suspensions with over-travel on all lateral file drawers with 150 lbs rated load capacity.
- Chrome plated ball bearing suspensions on all box drawers and file drawers with 75 lbs rated load capacity.
- Drawer construction is laminated particleboard sides with MDF bottom.
- Integrated PVC top rails for file storage on lateral drawers and 12" pedestal drawers.
- Interlock standard on all freestanding laterals.

Doors

Hutch and Storage doors have 95 degree hinges and shock absorbent bumpers.

Leveling Glides

Desks, Credenzas, Returns, Bridges, Reception Stations, Tables and Bookcases allow up to 1" height adjustment.

Pedestals, Laterals, File Centers, Storage Cabinets and Towers allow up to 1^{5/8}" height adjustment, and are adjustable from inside the storage unit.

Work Surfaces and Tops

Intrinsic Executive Freestanding work surfaces and tops are constructed of 1^{1/2}" High-Pressure Laminate.

Pull Style Options

Intrinsic Executive Laminate Freestanding filing and storage units have four 128mm center applied pull options (Classic, Streamline, Designer, and Mod2) and one 256mm center pull (Modern). These are all plated nickel finish.

Classic
(Satin nickel)

Streamline
(Brushed nickel)

Designer
(Lacquered satin nickel)

Mod2
(Satin nickel)

Modern
(Satin nickel)

Dimensions

All dimensions listed are nominal unless otherwise noted.

Certification

All components of the Intrinsic Freestanding offering meet or exceed ANSI/BIFMA x5.6-2016 performance standards unless noted.

Special Products and Finishes

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Special finishes (i.e. non-standard) may be ordered at an upcharge. Minimum quantity may be required. Please verify with our Custom Solutions Department. Delivery may take longer depending on the choice of finish or type of material.

SPECIFICATIONS

Load Capacities

All Intrinsic Laminate filing units meet or exceed the following load requirements. For a complete listing of load capacities, contact Trendway Customer Care or visit trenddealer.com

Desks:

5 lbs. (2.3kg) per linear inch, uniformly distributed.

Hutches and Bookcases:

3 lbs. (1.4kg) per linear inch of usable space.

Overhead Storage Units: Inside — 3 lbs. (1.4kg) per linear inch.

Top — 2 lbs. (.9kg) per linear inch of usable space.

Pedestal:

6" (152) Pedestal Drawer — 20 lbs. (9kg)

12" (305) Pedestal Drawer — 40 lbs. (18kg)

Top — 90 lbs. (41kg)

Laterals:

Drawer — approx. 2.6 lbs. (1.17kg) per linear inch

Top — approx. 4.6 lbs. (2.1kg) per linear inch

Storage Towers:

6" (152) Pedestal Drawer — 20 lbs. (9kg)

12" (305) Pedestal Drawer — 40 lbs. (18kg)

Top — 140 lbs. (64kg)

Wardrobe Shelf — 30 lbs. (14kg)

Wardrobe Bottom — 50 lbs. (23kg)

Cupboard Shelf — 60 lbs. (27kg)

Cupboard Bottom — 90 lbs. (41kg)

Coat Rod — 55 lbs. (25kg)

Double-Door Storage Units:

Shelf — 100 lbs. (45kg)

Top — 160 lbs. (73kg)

Bottom of Cabinet — 160 lbs. (73kg)

Coat Rod — 55 lbs. (25kg)

Executive Desks
Executive Returns & Bridges
Executive Hutches
Executive Filing & Storage
Executive Reception Stations

Tables:

36" (914) - 60" (1524) — 200 lbs. (276kg)
 72"(1829) and longer — 400 lbs. (552kg)

Reception Stations:

Counter Caps: 3.5 lbs. (1.6kg) per linear inch, uniformly distributed.

Maximum Load Capacity For Any Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. for each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a ZEFDDF536 = load capacity for bottom + 3 shelves + unit top
 = 160 lbs. + 100 lbs. x 3 + 160 lbs.
 = 620 lbs. maximum load

Eg: Maximum load capacity for a ZEFLATF236 = load capacity for drawer x 2 drawers + unit top
 = 2.6 lbs./linear in. x 36" x 2 + 4.6lbs./linear in. x 36"
 = approx. 352 lbs. maximum load (for actual load capacities for each size Intrinsic Laminate Lateral File contact Trendway Customer Care or visit trenddealer.com).

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Laminate Lateral Files and File Center Specifications

Intrinsic Laminate Lateral Files and Lateral File Centers are factory configured for side-to-side filing. If front-to-back filing is desired, the side-to-side filing bars may be removed. No additional parts are necessary to convert drawer to front-to-back filing.

For use with Intrinsic Laminate Lateral Files and File Center Letter Size Filing

30" - Wide & File Center

1 Pair Intrinsic Laminate Front-to-Back Filing Bars

30" - Wide & File Center

1 Intrinsic Laminate Front-to-Back Filing Bar

36" - Wide

1 Pair Intrinsic Laminate Front-to-Back Filing Bars

36" - Wide

1 Pair Intrinsic Laminate Front-to-Back Filing Bars

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights whenever lateral files or pedestals are not anchored or ganged back-to-back. Side-by-side ganging does not improve stability.

To avoid tipping, always load bottom drawers before loading top drawer.

Intrinsic Executive Freestanding Components Planning

These planning guidelines provide instructions for safely configuring Intrinsic Executive Freestanding product applications. The following diagrams illustrate the proper use of supporting elements, connecting hardware, and overhead components.

C-Leg Supports and Recessed Support Leg Kits

- In many applications, C-Legs or Recessed Support Leg Kits (ZFRL) can be used for additional support and stability (Fig. A).

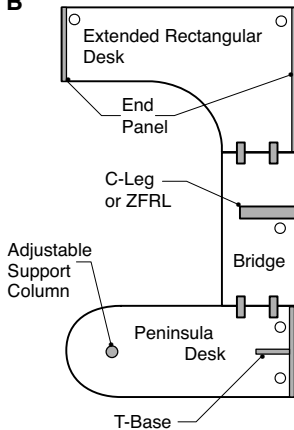

Fig. A

Peninsula P-Top and D-Top Desks

Peninsula P-Top and D-Top Desks are required to be attached to a Return or Bridge. They are not to be used as freestanding desks (Fig. B).

Fig. B

Bridges

When a 48" (1219) Bridge is attached to any desk, a Peninsula C-Leg or Recessed Support Leg Kit is required near center of Bridge. When a 36" (914) or wider Bridge is attached to an extended desk on either side, a Peninsula C-Leg or Recessed Support Leg Kit is required near the center of the Bridge (Fig.B). Bridges are shipped with all necessary attachment hardware.

Returns

Returns are non-handed and available with a full end panel or a recessed end panel. Returns are shipped with all necessary attachment hardware (Fig. C).

The recessed end panel support may not be used as an end of run support. Returns specified with the recessed end panel are designed to be used with an extended conference desk (ZEFEC2448) and will allow additional leg clearance.

Fig. C

Corner Desk

The Corner Desk is required to have a Return or Bridge on at least one side. It is not a freestanding desk (Fig. D).

Fig. D

Extended Conference Desk

The Extended Conference Desk must be attached to two Returns. The recessed end panel is recommended for increased leg clearance and accessibility (Fig. E).

Fig. E

Rectangular and Bowed Front Desks

Rectangular/Credenza Desks

Returns and Bridges

Work Surfaces

The standard Intrinsic Freestanding work surfaces are 1" thick. Please consider this prior to attaching anything to the underside of the work surface. Using incorrectly sized mounting hardware may cause damage to the top of the work surface. It is also recommended that a pilot hole be drilled prior to fastening any mounting hardware.

The Intrinsic Executive Freestanding work surfaces are 1 1/2" thick.

The nominal height of the top of the standard Intrinsic Freestanding product is 28 3/4" (730). The nominal height of the top of the Intrinsic Executive Freestanding offering is 29 1/4" (743).

Intrinsic standard work surfaces and Executive work surfaces are not designed or intended to be used together in the same office configuration.

Executive Desks
Executive Returns & Bridges
Executive Hutches
Executive Filing & Storage
Executive Reception Stations

Hutch Component Planning

All Hutches are attached to work surface with double-sided foam tape. All Hutches require a floor supported element (Pedestal, Lateral, File Center, Double-Door Storage Cabinet, end panel, Recessed Support Leg Kits or C-Leg) directly under each Hutch side panel. In addition, the Desk/ Credenza that the hutch is attached to is required to be attached to a Return, Bridge or be situated against a wall.

Intrinsic Freestanding Hutch and Open Hutch Placement Guide

The following illustrations show valid locations for attaching Freestanding Hutches with Doors and Open Hutches to Desk modules.

Extended Peninsula Desks P-Top and D-Top

Hutches with Doors may be placed on Extended Peninsula Desks if accompanied by proper length Return or Bridge with required floor support element (Fig. F).

Fig. F

Rectangular Desks

Note: The overall height of the Intrinsic Executive Hutches is the same as the standard Intrinsic Hutches, but the Executive top is 1 1/2" thick and the standard top is 1" thick. The side panels and back panel of the Executive Freestanding Hutches have been shortened by 1/2" to allow a consistent overall height of stacked components and shared storage units between offerings.

Corner Desks

Corner Desks accept Freestanding 36" (914) Open Hutch.

Corner Desks accept 72" (1829) Hutch with properly sized Return to allow floor support under Hutch side panel.

Extended Rectangular Desks

Extended Rectangular Desks accept Hutches with Doors and Open Hutches

Executive Rectangular Desks/Credenza

The Rectangular Desk has a High-Pressure Laminate top with vinyl edging. Standard features include a modesty, end panels, leveling glides and grommets. See grommet information in the planning section for standard grommet locations.

End panels are non-handed and can be field installed on either the left or right side.

Pedestals, File Centers, Pencil Drawers and other Filing and Storage units are specified separately for maximum

flexibility. These units are offered in the filing and storage section.

If using a 24" (610)-deep desk as a Credenza, the inside dimensions are 57^{5/8}" (1464) for a 60" (1524)-wide and 69^{5/8}" (1768) for a 72" (1829)-wide. Therefore, two 30" (762)-wide storage units will not fit under a ZEFRD2460 and two 36" (914)-wide storage units will not fit under a ZEFRD2472.

Shipped ready to assemble.

Note: The Intrinsic Executive Freestanding Desk work surface is 1/2" higher than the standard Intrinsic work surface. Refer to planning guidelines for more information.

Executive Freestanding Desks

Intrinsic Freestanding Desks have a 1 1/2" High-Pressure Laminate top with a 3mm matched vinyl edgeband. They are available with the following top shapes: Kidney, Rectangular and Bowed. They can be configured with 4" column legs with either adjustable leveling glides or locking casters. Freestanding desks also offer multiple grommet options. See grommet information in the planning section.

Accessories include field-installed laminate and mesh modesties, steel front center drawers (CDW), pencil drawers (PDR), Pop-up Power/

Data Modules (SICELECM), Keyboard Platforms, Monitor Arms and Personal Task Lights.

Note: The Kidney shaped desk may only be used in a freestanding application. It cannot be attached to a bridge or return.

Note: Freestanding Rectangular and Bowed front desks include a steel hat section and mounting hardware that must be installed on the underside of the worksurface.

The Freestanding Rectangular and Bowed front desks may be attached to

a bridge or return when the return includes a recessed support leg (i.e. 60"-72" Returns) or when a Recessed Support Leg Kit (ZFRL) is ordered and placed within 4" of the modesty edge on the end that connects to the freestanding desk.

Shipped ready to assemble.

Note: The Intrinsic Executive Freestanding Desk work surface is 1/2" higher than the standard Intrinsic work surface. Refer to planning guidelines for more information.

Laminate Modesty

The Laminate Modesty is made of 5/8" Thermofused laminate. It is available in the five standard Intrinsic Freestanding Thermofused laminate colors with matching edge color. The modesty should be ordered to match the style and length of the Intrinsic Freestanding Desk ordered. Modesties include mounting hardware. Freestanding Desks are pre-drilled to accommodate the modesty.

Mesh Modesty

The Mesh Modesty provides privacy with a lighter feel. The modesty is a dimensional knit of polyester with a nylon pouch for cable management. The modesty should be ordered to match the length of the Intrinsic Freestanding Desk ordered. Modesties include mounting hardware. Freestanding Desks are pre-drilled to accommodate the modesty.

Executive Returns

Returns are designed to be used as an extension off the front edge of a Freestanding Desk, the sides of a Corner Desk or the side of a Peninsula Desk.

The Return has a rectangular High-Pressure Laminate top with vinyl edging. Standard features include a modesty, end panel, leveling glides and grommet. See grommet information in the planning section for standard grommet locations. All necessary attachment hardware included.

Returns are non-handed and can be field installed on either the left or right side.

Shipped ready to assemble.

Note: Intrinsic Returns may be ordered with a 14" (356) recessed end panel for applications requiring additional leg clearance. Refer to planning guidelines for more information.

Executive Bridges

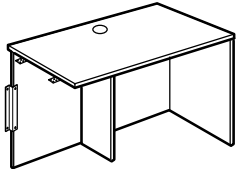

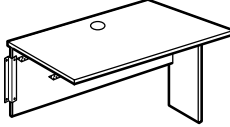

The Bridge is designed to be used as a connection between two desks to create a U-shaped configuration. The Bridge has a rectangular High-pressure Laminate top with vinyl edging. Standard features include a modesty and grommet. See grommet information

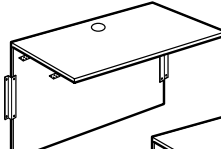

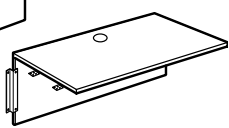

in the planning section for standard grommet locations. All necessary attachment hardware included.

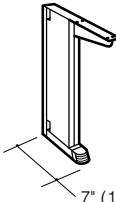

Shipped ready to assemble.

C-Leg or Recessed Support Leg Kit

The C-Leg or Recessed Support Leg Kit is required in certain applications as outlined in the planning section. The C-Leg kit is available in all Trendway standard smooth trim colors. The recessed support leg kit is available in all Intrinsic Thermofused laminate colors. All necessary attachment hardware is included.

Executive Hutches with Doors

The Intrinsic Hutch with doors is available in a variety of widths, and is available with two door style options. Standard features include equally proportioned non-locking hinged doors (2 doors for 36" to 48" hutches and 4 doors for wider hutches), 1 1/2" (25)-thick top, full-coverage back panel with finished wire management ring at task light level, and integrated 1 1/2" full-length cord management gap at base of the back panel.

Available accessories include full-width paper management slots, tackboard, task lights, cord management gap guard, and framed door kits.

The optional Hutch with doors and standard Low Profile paper management

slot quantities and dimensional widths are as follows:

Width	Slot qty	Slot width
36" (914)	3	10 7/8" (276)
42" (1067)	3	12 1/8" (325)
48" (1219)	3	14 7/8" (378)
60" (1524)	5	11" (279)
66" (1676)	5	12 1/2" (318)
72" (1829)	5	13 3/8" (340)

The color of the paper management option on the Hutch with doors will always match the unit color.

Note: Unit color refers to side panels, back panel and valance.

Note: Framed door option includes silver frame and choice of available insert options.

Note: All Hutches attach to work surface with double-sided foam tape. Shipped assembled.

Low-Profile Paper Management Hutch

The Low-Profile Paper Management Hutch is available in a variety of widths. Standard features include paper management slots as defined on this page, 1 1/2" (38) top, full-coverage back panel with finished wire management ring at task light level, and integrated 1 1/2" full length cord management gap at base of the back panel.

Available accessories include tackboards, task lights, and cord management gap guard.

Shipped assembled.

Executive Open Hutch

The Open Hutch is available in 30" (762) and 36" (914) widths. The units are for use above work surfaces, above the 24" (610)-deep 2-high Double Door Storage Cabinet and above the 24" (610)-deep two-drawer lateral. The open hutches have a 3/8" (10) cord pass through gap behind the shelves and a 1" (25) full length cord management gap at base of the back panel. Each unit comes standard with two adjustable shelves and necessary shelf mounting pins. Each shelf is adjustable in 2 1/2" (64) increments.

Available accessories include additional shelves with mounting pins, tackboards and task lights.

Shipped ready to assemble.

Executive Wall Mounted Storage Unit with Doors

The Wall Mounted Storage Unit with Doors is available in 30" (762) and 36" (914) widths. Each unit has two hinged non-locking doors. Attachment for Wall Mounted Storage Unit requires individual cabinet to be secured by a minimum of two wall mounting locations/studs.

The Wall Mounted Storage Unit is

designed for installation on interior and perimeter walls that are constructed of wood or metal studs.

Note: The back of the unit is recessed to eliminate visibility of the wall mount brackets.

Note: The unit includes mounting brackets to accommodate most installation applications. It is the responsibility of the dealer or installer to obtain any additional fasteners that may be needed to safely attach the unit to the wall.

Shipped assembled.

Tackboards

Can be mounted under Executive Hutch with Doors or paper management, Executive Open Hutches and Executive Wall Mounted Storage Units.

Tackboard has a tackable panel fabric front and velcro attachment tabs.

Shipped assembled.

Note: Review Fabric Planning guidelines on page 2 to better understand directional fabric application details for Intrinsic freestanding tackboards.

Shown with one adjustable shelf removed

Cord Management Gap Guard

The Cord Management Gap Guard bridges the open space between a hutch back and the top of the work surface below. Made of flexible material, it allows easy passage of electrical and data cables. The Cord Management Gap Guard is attached with adhesive tape (included). The Gap Guards are sized to fit on the Intrinsic Hutch with Doors. Find your correct corresponding sizes and catalog numbers on Page 94. The

Cord Management Gap Guard can also be cut to size to be used on all other hutches. Available in black only.

INTRINSIC LAMINATE PEDESTALS

When the key-alike lock option "T" is chosen, the Core/Key Set (ZFLCK) must be ordered separately or by using the Keying Order Form.

Shipped assembled.

Laminate Modular Pedestals

The Intrinsic Laminate Modular Pedestal is designed to be used beneath the work top.

Intrinsic Laminate Pedestals offer two drawer configurations: 12/12 with two 12" drawers or 6/6/12 with two 6" and

one 12" drawer. 6/6/12 Pedestals include one pencil tray.

The Laminate Modular Pedestal has full extension ball bearing slides on both 6" and 12" drawers and includes lockable drawers and leveling glides.

Available accessories include Laminate Modular Freestanding Pedestal Conversion Kit, Side-to-Side Filing Bars and additional Pencil Trays.

Executive Laminate 3/4 Mobile Pedestal

The Intrinsic Laminate Mobile 3/4 Pedestal is designed with a full skirt that conceals the pedestal's casters. The 3/4 Pedestal has full extension ball bearing slides on both 6" and 12" drawers and includes lockable drawers, one pencil tray, four casters and counterbalance weight.

Available accessories include Side-to-Side Filing bars and Cushion Top.

Note: The Executive 3/4 Mobile Pedestal has 1/2" thick High-Pressure Laminate top.

Laminate Two-Drawer Lateral Files

The Intrinsic Laminate Two-Drawer Lateral Files include full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side filing bars, front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

The 18" (457)-deep lateral files are intended for use under work surfaces and may not be used in freestanding applications. The Executive 24" (610)-deep, full-depth lateral is a freestanding element.

Shipped assembled.

Laminate Combination Lateral File Center

The Laminate Combination Lateral File Center combines the functionality of a pedestal and the lateral file into a single cabinet that fits below a work surface. The lateral file center has a handed drawer configuration as shown below.

The laminate file center includes full extension ball bearing slides, side-to-side filing bars and front-to-back filing bars in the lateral drawer, one pencil tray and leveling glides.

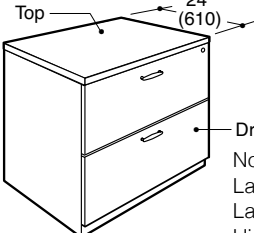

The laminate file center is intended for use under a work surface and may not be used in freestanding applications.

One lock secures the 12" file drawer and lateral drawer. The 6" box drawers are non-locking.

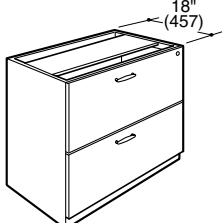

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form.

Laminate Double-Door Storage Cabinets

The Laminate Double-Door Storage cabinet is available in two depths (18" and 24") and two heights, two- and five-high.

Features include hinged locking double-doors with one adjustable shelf in the two-high unit and three adjustable shelves in the five-high unit. Shelves adjust vertically in 2 1/2" increments. Units also includes leveling glides.

Available accessories include additional Double-Door Storage Shelves and wardrobe bars.

Note: The 18" (457)-deep Double-Door Storage Cabinet is intended for use under the work surface and may not be used in freestanding applications. The Executive 24" (610)-deep Double-Door Storage Cabinet is a freestanding element.

Shipped assembled.

Executive Laminate Wardrobe Storage Cabinet

The Laminate Wardrobe Storage cabinet is available as a five-high unit. Features include hinged locking double-doors, one shelf, a full-width wardrobe bar and leveling glides.

Available accessories include Double-Door Storage shelves.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form. Check Customer Care for availability.

Executive Storage Credenzas

The Intrinsic Storage Credenzas come in three configurations, each with a unified High-Pressure Laminate top. The **lateral units** include full extension ball bearing slides, an interlock mechanism (for each 2-drawer unit) allowing only one drawer to open at a time, side-to-side filing bars, front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing. The **double-door units** include hinged locking double doors with one adjustable shelf and leveling glides. Shelves adjust vertically in 2¹/₂" increments.

Note: The storage credenza with a double-door and lateral unit (ZEFSC2LATDD) is unhandled. Therefore, storage components can be placed on the left or right depending on user preference.

All versions ship in three pieces and require some assembly.

Note: The Executive Storage Credenzas have a 1¹/₂" thick High-Pressure Laminate top.

Executive Laminate Storage Towers

The Laminate Storage Tower provides wardrobe, drawer and cupboard storage in a single cabinet. Each of these storage areas can be locked independently to allow for varying levels of security. Storage Towers are available in either a Right-Hand version with the wardrobe on the right side, or a Left-Hand version with the wardrobe on the left side.

Storage Towers have adjustable leveling glides. The wardrobe unit includes a wardrobe bar and one adjustable

shelf. The cupboard unit includes two adjustable shelves. Shelves adjust vertically in 2 1/2" (64) increments. The pedestals have full extension ball bearing slides on both 6" and 12" drawers. 6/6/12 pedestals include one pencil tray.

Available accessories include, side-to-side filing bars, additional shelves, and a pencil tray.

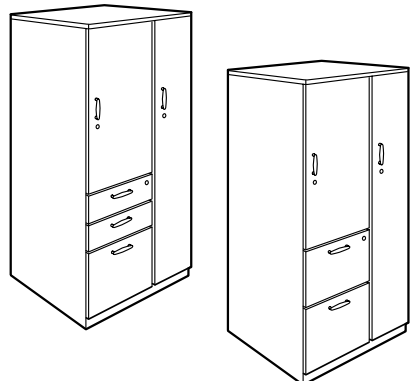

Shipped assembled.

Note: The Executive Storage Towers have a 1 1/2" thick High-Pressure Laminate top.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form. Check Customer Care for availability.

Executive Laminate Bookcases

The Bookcase is complete with High-Pressure Laminate top and base with leveling glides. The Two-high cases have one adjustable shelf. The three-high case has two adjustable shelves. The four-high case has two adjustable shelves and one fixed shelf. The five-high cases have three adjustable shelves and one fixed shelf (see picture). The shelves are 1" (25)-thick, and adjust in 2 1/2" (64) increments.

Two, and three-high bookcase heights are designed to accommodate standard binders on all shelves. The four-high bookcase will only accommodate binder storage on three of the four shelves and the five-high on four of the five shelves.

Additional Bookcase Shelves are available.

Note: Fixed shelf on four and five-high Bookcases is fixed at work surface height.

Shipped ready to assemble.

Note: The Executive Bookcases have a 1 1/2" thick High-Pressure Laminate top and are not available in XZ4 Black.

Intrinsic Freestanding Assembly Tool

The Intrinsic Freestanding Assembly Tool makes assembling freestanding products much easier. The tool fits into a power driver chuck and provides a guide for driving quarter-turn cam pins into Thermofused Laminate surfaces. This tool will save you time during the installation process, and reduce laminate surface chipping.

Intrinsic Freestanding Touch Up Markers

The Touch Up Markers are for use with the Thermofused Laminate. They are available individually or as a kit. The kit includes one marker of each color.

CPU Holder – Vertical Mount

The CPU Holder mounts beneath a work surface to provide convenient vertical CPU storage. The holder has sturdy straps that adjust to fit the shape of the computer. The holder extends forward up to 12" (305) and swivels 360°. Supports up to 75 pounds (34kg). Includes mounting hardware. Available in Black only.

Pop-up Power/Data Module

The Pop-up Power/Data Module provides two grounded outlets and two openings for communication connectors. The module can be installed in any table or work surface greater than 18" (457)-deep. A 6' power cord is included. UL and CUL Listed/CSA Certified. Available in Black only.

Maximum Size: 65" (1651) perimeter
(example: 11 1/2" (292) high by 21" (533) wide)

Adjustable Tilt Keyboard and Mouse Platform

The Adjustable Tilt Keyboard and Mouse Platform has a 5 1/4" (133) height adjustment range, a low profile keyboard tray and a swing-out mouse platform. The keyboard mechanism features total knee clearance and simple, spring-assisted height adjustment without the use of knobs or levers. The keyboard tray includes a full-width, gel-filled wrist support for comfort and non-slip pads to keep the keyboard in place.

Keyboard tilt allows for a zero-to-negative 10° tilt capability. Keyboard tilt is easily changed by adjusting a sliding switch mounted on top of the keyboard mechanism. Includes mounting hardware. Available in Black only.

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26" of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle.

Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

LED Task Lights

Ultra slim LED task lights are only 2" (51)-wide, just over 1/2" high and available in 3 widths-17, 31 and 44. They come complete with hardware to attach to both metal flipper doors and laminate freestanding hutches. All LED task lights include a dimmer, 10 hour auto shut off, and a 50,000 hour life span. The unit is anodized aluminum with white end caps. ETL listed.

LED Task Light Complete

The LED Task Light Complete includes the light, mounting hardware and power source. It is the equivalent of a regular fluorescent task light.

LED Task Light Main Power Daisy Chain

The Task light with main power provides the light and mounting hardware plus a 60 watt power supply capable of powering more than one light. The power supply can accommodate a maximum of 60 watts. Please see the chart-for appropriate wattages as to not overload the power supply.

Width	Watts
17	9
31	18
44	25

LED Task Light Daisy Chain Jumper Cord

The LED Daisy Chain Jumper Cord Task Light includes the light and mounting hardware, plus an 8" and 30" jumper cord to attach to another task light. The jumper cord can attach to a Daisy Chain Main Power Task Light or another Daisy Chain Jumper Cord Task Light. Each connected light will have an independent power switch.

LED Task Light Occupancy Sensor

The LED Occupancy Sensor will automatically turn off all interlinked fixtures after 30 minutes of no movement. One occupancy sensor can 'control' all the lights that are daisy chained together.

Luma Touch™ LED Desk Lamp

The Luma Touch LED personal task light is specified with either a Round or an Elongated lamp style. The Lamp can be selected with a Freestanding Base, Clamp Mount, or Slatwall Mount. The Slatwall Mount is compatible with Choices and Capture. Its double-arm articulated design allows the user to position the light effortlessly for optimum illumination. The single control responds to the lightest touch to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting

level if turned off and on. The optional Occupancy Sensor turns the lamp on when a user approaches and shuts it off after 30 minutes of inactivity, conserving energy use. Available in three colors. ETL, TAA and BAA certified.

ORI LED Desk Lamp

The ORI LED Personal Task Light provides 390 Lumens of clear white light right where you need it. It offers a wide range of vertical and rotational adjustment so the user can direct the light where it's needed. The clean, simple and attractive design

complements any interior. The single control responds to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting level if turned off and on. The Lamp is available as a freestanding model or with a clamp mount. UL Listed. Available in a Brushed Nickel finish

Terms, Policies & Index

Terms & Policies 110

Index 114

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section

8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a COM test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:

U.S. Mail and UPS, FedEx Shipment:
Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1 1/2 yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1 1/2 yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer

must assume responsibility for any use spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal,

State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges $\frac{1}{4}$ of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be

requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original

Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Intrinsic Key-Alike Option

The Intrinsic Key-Alike option is available on all Intrinsic filing units for no additional upcharge. When the Key-Alike option is chosen, the list price of the purchased Intrinsic filing unit is reduced by the same amount that is charged when ordering the Intrinsic Core/Key Set (ZFLCK) needed for that unit.

The unit is assembled with a "disposable" core in place of the lock core to temporarily secure the drawers/doors for transit. In order for Key-Alike Intrinsic units to lock, the "disposable" core must be field replaced with an Intrinsic Core/Key Set (ZFLCK) which is ordered separately.

Intrinsic Core/Key Set orders should be placed with the Intrinsic filing order to ensure being installed at the time of product installation. The Core/Key Set (ZFLCK) can be ordered separately or by using the key-alike order form which can also be used as a worksheet to help combine and tag Core/Key Sets.

24. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

25. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service.

The fees are listed below:

Field Installation Assistance: 2 Day
On-Site, \$1,200

Field Installation Assistance: 3 Days
On-Site, \$1,800

Field Installation Assistance: 4 Days
On-site, \$2,400

Field Installation Assistance: 5 Days
On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinder •Mechanisms

2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Code, Sketch, Jet, Live, Live II, and Zego have been tested to meet or exceed all ANSI/BIFMA x5.1-2011.

If you do not find the product you are looking for in this price list, please contact an authorized Trendway dealer or Trendway Customer Care at 1-800-893-8115 for more information. Trendway specializes in making products to meet specific customer needs. See www.trendway.com for a complete listing of Trendway products.

Seating

Our vast collection of chairs offer adjustability and aesthetics to fit your needs.

Ordering Information

Trendway product catalogs are available in the following design software: CAP, Giza, Midnight-Oil, and Project Matrix. The Seating price book is also available in .pdf (Acrobat Reader) format on www.trenddealer.com.

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

Order specification examples are shown throughout the price book. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type your order or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name, phone number and email address at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/

finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to the price book for ordering options.)

8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of our chairs ship within Trendway's standard lead time.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Product Questions, Quotes & Order Placement On-Line

dealer.trendway.com
Hours: 24 Hours, 7 Days a Week

Customer Care Representative

Hours: Monday-Friday 7am to 6pm EST

Understanding the performance and adjustability options of your chair is essential for selecting the right chair for the task or job at hand. Trendway provides a wide range of mechanical controls for every work environment.

Simple Adjustable Mechanism

Functions:

- Pneumatic seat height adjustment
- Back angle adjustment with infinite lock
- Swivels 360 degrees

Synchro-tilt Mechanism

Functions:

- Pneumatic seat height adjustment
- Back tilt (2 degrees back tilt to 1 degree seat tilt)
- Seat depth adjustment (if noted under additional features)
- Tilt tension adjustment
- Swivels 360 degrees

Knee-tilt Mechanism

Functions:

- Pneumatic seat height adjustment
- Back tilt (seat and back tilt in unison)
- Forward tilt-pivot point (reduces lift on legs while tilting back)
- Tilt tension adjustment
- Swivels 360 degrees

Fully Adjustable Mechanism

Functions:

- Pneumatic seat height adjustment
- Independent back angle adjustment with infinite lock
- Independent seat angle tilt with infinite lock
- Forward seat tilt angle
- Seat depth adjustment (if noted under additional features)
- Tilt tension adjustment
- Swivels 360 degrees

Mechanisms Continued

Swivel Mechanism

Functions:

- a. Pneumatic seat height adjustment
- b. Swivels 360 degrees

Swivel-tilt Mechanism

Functions:

- a. Pneumatic seat height adjustment
- b. Back tilt (seat and back tilt in unison)
- c. Tilt tension adjustment
- d. Upright back lock
- e. Swivels 360 degrees

Surface Material Program

The Trendway Surface Material program includes a broad selection of coordinated fabric and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead times than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex[®]

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a

high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customer's Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information, see item #11, COM, in the Pricing, Procedures and Policies section in the back of the pricebook or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics preapproved by Trendway. Customers are able to search the COM library on www.trenddealer.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

CAL 117-2013

All Trendway's seating fabrics and foam comply with requirement of the State of California Technical Bulletin 117-2013.

CAL 133

Trendway offers chairs compliant with California Technical Bulletin TB-133 in select fabrics and options. See individual fabric patterns listed below for availability.

Due to the special construction and materials required for CAL 133-compliant chairs, an upcharge will be applied and lead times may be extended. Options and models not available under this program are noted in the price book (e.g., ballistic nylon outer backs).

Find individual chair models in this Price List for specific availability and pricing details. Contact Trendway Customer Care at 800-893-8115 to process orders and determine lead times.

Jet Stack Cart

Cart accommodates Jet Stack plastic and upholstered chairs. Stacking height is 40-high for plastic chairs and 10-high for upholstered chairs. The cart has four 5" diameter casters. The cart is not to be used to stack the Cafe Stool.

Available in Black only.

TO ORDER, SPECIFY

① Catalog Number

Example: $\overset{\textcircled{1}}{\boxed{\text{TWSC}}}$
 $\$576 = \576 Total Cost

Jet Ganging Device

Package includes 4 devices per box. Only 1 ganging device is needed to gang 2 chairs together. Therefore, one box will gang 5 chairs. The ganging device is not to be used to gang the Cafe Stool.

Available in Black only.

Jet Stack Cart

Description	List Price	Catalog Number
Jet Stack Cart	\$576	TWSC

Jet Ganging Device

Description	List Price	Catalog Number
Jet Ganging Device (4 per box)	\$60	TWGC

Jet Tablet Arm

The Tablet Arm can be added to the Jet Stack chair. The flip-up arm is available in right- and left-handed models. The tablet table is black, the frame is chrome.

Jet Book Rack

The Book Rack can be added to the Jet Stack chair. Available in chrome only. No tools required for assembly.

Note: When Tablet Arm and/or Book Rack are installed chairs can not be stacked.

Collaborative Charging Stand

The Collaborative Charging Stand has a narrow, sleek profile. The design along with the 10' braided cord allows it to be easily moved and positioned exactly where you need power. The top of the stand has one outlet, 2 USB and 1 USB-C charging ports, the base of the unit has 2 more additional outlets. Product is UL listed.

Collaborative Power Table

The Collaborative Power Table is a perfect blend of charging station and side table. It has 12 tamper resistant outlets, 3 USB ports and 3 USB c ports accessible on 3 sides. Constructed of sturdy metal, the three shelves provide a proper resting place for all your devices. The base of the unit allows for the extra cord to be neatly stored, and has slots allowing the whole unit to be stationary. Product is ETL listed.

Terms, Policies & Index

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Firm quotations are available upon request and will be honored for a period of sixty (60) days. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted in writing or placed on-line at www.trenddealer.com, to assure completeness and avoid errors and duplications. See page 2 for ordering information.

To expedite your order call Customer Care direct instead of fax or mail. Minimum order must be \$50.00 list.

3. Confirmation

Upon receiving an order, Trendway Corporation will send a written acknowledgment with exact pricing information and scheduled shipping date. Orders can also be confirmed by going on-line at www.trenddealer.com. Customer is responsible for checking acknowledgments to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 8 business days for Express orders,

4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to ensure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care at 1-800-893-8115 for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customer shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors or suppliers are required to pay. For shipments to AZ, CO, CA, DC, FL,

GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past Due Accounts

Past Due Accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM testing process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/ COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a COM Order Submission Form (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a COM test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.

5. Ship COM samples to:

U.S. Mail and UPS, FedEx
Shipment:

Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request

6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

If product is a seating product, a fabric certified by a manufacturer to be constructed to meet California 117 is required.

TEST YARDAGE REQUIREMENTS	
Parley	1 yard
Zego	1 1/2 yards
all other seating	Trendway requests

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume responsibility for any spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials may not qualify for U.L. Listing or meet fire codes.

NOTE: Listed yardage requirements are actual dimensions based on 54" (1372)- wide material.

Refer to the individual price book pages for COM yardage requirements.

NOTE: Most fabric houses have a one yard minimum or an upcharge on less than one yard cuts.

NOTE: All COM applications are priced at Grade A; all COL applications are priced at Grade D.

12. Special Product

When Trendway purchases special surface materials (i.e. fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges a one-time charge of 1/4 of 1% list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as if the product has been shipped to a Buyer specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Federal Express, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Fridays will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 2 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute

Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway tests packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care. Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt.

Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department at 1-800-893-8115.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department at 1-800-893-8115.**

All Returned Goods Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, non-standard items, Trendway Express products, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for

goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Upholstery

Trendway takes pride in the quality and craftsmanship of our products. With the wide array of fabrics and surface materials offered, there may be differences in materials that can affect the appearance of the final product. Each product is upholstered by hand and the upholstery may vary between similar products.

Trendway cannot be held liable for any upholstery cover with regard to durability, colorfastness, shrinkage, or stretching beyond what the surface material supplier extends to Trendway.

25. Trendway Field Technical and Installation Support

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Product	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components •Screens 	<ul style="list-style-type: none"> •System Textiles •Finishes 	
3 Year	<ul style="list-style-type: none"> •Veneer •Magnetic Ballasts 		<ul style="list-style-type: none"> •Trim •Foam •Upholstery •Arm Pads
2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Tables

This price list includes detailed product information and pricing for these products.

Trendway product catalogs are available in the following design software: 2020 CAP, 2020 Giza, Project Matrix, Configura, and Ice. The Systems price list is also available in .pdf (Acrobat Reader) format on dealer.trendway.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Table Top is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TTRT2436HPL represents a **Training Table Rectangle** that is **24"** (610)-deep and **36"** (914)-wide.

Order specification examples are shown throughout the price list at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.

3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)
8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Table products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

Grommet/Pop Up Electrical Units for Trendway Training Tables

When specifying training tables, grommets or pop up cutouts may be specified for power/data routing and access. Grommets are available in black or silver and come pre-installed in the table top when GY1 or GY2 are specified as the Power Option. If Pop Up electrical units are chosen as the Power Option, the table top will ship with a factory-cut opening to house the unit, but the Pop Up units must be ordered separately. The chart below indicates which Grommet or Pop Up options are available for specific Training Tables.

Code	Position
GY1	Single grommet, centered left-to-right, 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
GY2	Pair of grommets, ¼ the width of the top in from each side, and 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
PMP & PNC	One cutout for Pop Up Unit, centered left-to-right, 4 ¾" in from back of table top for a 24" deep top and 5 ½" in for 30" and 36" deep tops.
PMH	One cutout for Pop Up Unit, centered left-to-right, 4 ½" in from back of table top for a 24" deep top and 5 ¼" in for 30" and 36" deep tops.

Training Table Electrical Options

The Angled Leg Training Tables have two Pop Up options: Corded and Daisy Chained and a 4-wire 2 circuit power system.

Corded Pop Ups

The corded Pop Ups come with a 6' cord that plugs into an outlet. Corded Pop Ups cannot plug into other corded Pop Ups or to Daisy Chain Pop Ups.

Daisy Chain Pop Ups

Daisy Chain Pop Ups allow a single Base Feed to power up to eight tables, depending on table width. The Daisy Chain Pop Up consists of three parts, the Base Feed, the Pop Up unit, and the Jumper. The Base Feed plugs into building power using a standard 15 amp plug. The Jumper is used to connect tables 66" and 72" to adjacent tables. In the connection sequence, each Jumper counts as a table in planning for the number of tables that can be linked (maximum eight). The Base Feed prevents overloading and will shut off power if the load is exceeded. It has a regulator with an LED light that is green in normal conditions and red in overload conditions. Pop Up unit includes the Pop Up and two connectors that will each attach to a connector on an adjacent table or to a Base feed.

This example uses three Daisy Chain Pop Up units to run power through three 60" wide tables. Since the tables are all less than 66" wide, no Jumpers are required. (Fig. A)

Daisy Chain Pop Ups as shown on 60" wide table
3 of 8 connections used.

This example uses three Daisy Chain Pop Up units and two Jumpers to run power through three 72" tables. Tables 66" and 72" wide each require one Jumper in order to connect to an adjacent table. (Fig. B)

Daisy Chain Pop Ups as shown on 72" wide table
5 of 8 connections used.

Training Table Power System

The Power System provides a 4-wire, 2-circuit system, with 20 Amps for each system (circuit 1 and 2 only). The system accepts up to 10 receptacles per circuit and 20 receptacles per Base Feed, for a total of 10 Power Sets per Base Feed. The main system components include the Power Set, Electrical Harness, H-Connector and Base Feed. Grommets are required to access the power box under the table.

For this layout, the harness length is calculated by the following equation:

$$(\text{Half of Surface 1 width}) + (\text{Half of Surface 2 width}) - 6" = \text{Harness Length}$$

If calculated harness length does not match an exact size, select next longer length.

Example: Surface (1) is 60" wide
Surface (2) is 60" wide

$$(30") + (30") - 6" = 54" \text{ (Fig. C)}$$

Modesty Guidelines

Trendway offers five modesty options for Training Tables. Each provides a different function, aesthetic and price to meet various user requirements. All modesty options can be mounted on a Fixed Base table. Laminate, Mesh and Metal modesties have also flip function, and when attached to a Flip Top Table will rotate out of the way when tables are flipped and nested.

Flip Modesty Planning – 24" Deep Tables

There are two configuration options for Laminate, Mesh and Metal flip modesties when specified for 24" deep table tops.

Full width: Modesty must be installed inset from the Table's front edge, 3.5" for Laminate and Metal Modesties and 5.5" for Mesh. Pop Up electrical units and Grommets cannot be specified for this configuration.

12" Shorter: Modesties specified at least 12" shorter than the Table width

can be mounted at the front edge of the Table. They flip into the clearance space between the table legs. Pop Up units and Grommets can be specified for this configuration.

Flip Modesty Planning – 30" Deep Tables

Modesties specified for 30" deep Tables **must** be 12" shorter than the table width. They can then be mounted at the front edge of the table and can flip into the clearance space between table legs. Pop Up units and Grommets can be specified for this configuration.

Modesty Full Width of Table

Pop up Electrical units can not be used with full width modesties on flip top tables.

Modesty 12" Less than Width of Table

Pop up Electrical units can be used with these inset modesties on flip top tables.

Note: 36" deep tables cannot accommodate modesties that flip.

Idea Starters

So many ways to arrange and rearrange for almost any learning environment

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Complete Fixed Top Rectangle Training Tables – High Pressure Laminate

Complete Tables ship with all parts required for assembly, including top and angled training table Legs. Complete Fixed Top Rectangle Training Tables High Pressure Laminate tops are constructed of high pressure laminate with a 3mm vinyl edge. Table tops are a nominal 1 1/4" thick. Tables are available with glides or locking casters. Casters are 3" high, and available in Black or in a two-tone

platinum/black color. Tables may also be optioned with a factory-cut opening for a Pop Up Electrical Unit or Grommet. Grommets are available in black or silver and ship with the table when specified.

Pop Up Electrical Units are ordered separately, see page 38 & 39 for details.

Shipped ready to assemble. Tables are 29" (737) high.

For additional Table Top shapes and sizes and base options please refer to pages 26-32.

Modesty Panels

The following Modesty Panels can be specified for the Complete Fixed Top Tables on page 18 and 19.

Laminate Modesty

The Laminate Modesty is 10" in height, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Mesh Modesty

The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" in height. Available in black mesh only.

Metal Modesty

With a clean, simple aesthetic, the Metal Modesty is 10" in height with a very narrow side profile. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

Acrylic Modesty

The Acrylic Modesty is 10" in height and available in clear, frosted or decorative acrylic. Side brackets are available in all Trendway trim colors. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Cable Management Modesty

The Cable Management Modesty is constructed of steel and is 10" in height. The Cable Management Modesty installs into a pre-drilled location 1/2" recessed from the front edge of the

table. It is drilled to accommodate one Power Set for a hidden power source. It also provides a channel for cable management. This Modesty provides the flexibility to specify a fully powered Table without visible cables. It should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Complete Flip Top Rectangle Training Tables High Pressure Laminate

Flip Top Tables offer a simple flip function that allows multiple tables to be nested together for space-saving storage. Complete Tables ship with all parts required for assembly, including top and angled training table Legs. Complete Flip Top Rectangle Training Tables High Pressure Laminate tops are constructed of high pressure laminate with a 3mm vinyl edge. Table tops are a nominal 1 1/4" thick. Tables

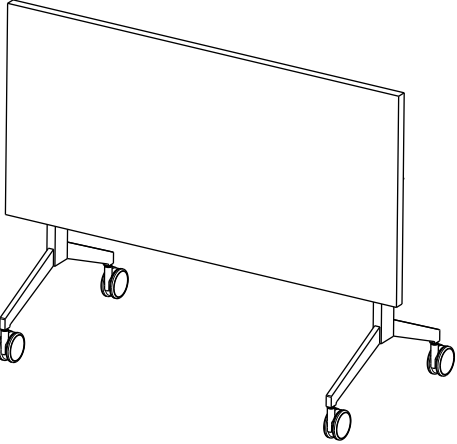

ship standard with locking casters. Casters are 3" high, and are available in Black or in a two-tone platinum/black color. Tables may be optioned with a factory-cut opening for a Pop Up Electrical Unit or with a Grommet. Grommets are available in black or silver and ship with the table when specified.

Shipped ready to assemble. Tables are 29" (737) high.

For additional Table Top shapes and sizes and base options please refer to pages 26-32.

Pop Up Electrical Units are ordered separately, see page 38-39 for details.

Modesty Panels

The following Modesty Panels can be specified for the Complete Flip Top Tables on page 22 and 23. They have a flip function and will tilt out of the way when Flip Top Tables are flipped and nested. See Modesty Guidelines on page 16 for more details.

Laminate Modesty

The Laminate Modesty is 10" high, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Laminate Modesty option has a

flip function and will fold out of the way when Flip Top Tables are flipped and nested. Mounting hardware is included.

Mesh Modesty

The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" high and has a flip function and will fold down out of the way when Tables are flipped and nested. Available in black mesh only.

Metal Modesty

With a clean, simple aesthetic, Metal Modesty is 10" in height with a very narrow side profile. The Metal Modesty has a flip function and will fold down out of the way when Flip Top Tables are flipped and nested. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

High Pressure Laminate Trapezoid Training Table Tops

These Trapezoid Training Table Tops are constructed with High Pressure Laminate and have a 3mm vinyl edge. Tops are a nominal 1 1/4" thick. The Tops are available with an optional black or silver grommet or a factory-cut opening for a pop up units. **Pop ups are ordered separately, see page 38 & 39 for details.**

These Table Tops are designed for use with the Angled Training Table Base. They are drilled to accept Fixed or Flip bases (except 36" deep tops).

Trapezoid Table Tops can be arranged to create many configurations and environments. For instance, they can be used as corner transitions, or combined with rectangles to create a video conference space.

Thermofused Laminate Trapezoid Training Table Tops

These Trapezoid Training Table Tops are constructed with a Thermofused laminate top and have a 3mm vinyl edge. Tops are 1" thick. The Tops are available with an optional black or silver grommet or a factory-cut opening for a pop up units.

Pop ups are ordered separately, see page 38 & 39 for details.

These Tops are designed for use with the Angled Training Table Base. They are drilled to accept Fixed and Flip bases (except 36" deep tops).

Trapezoid Table Tops can be arranged to create many configurations and environments. For instance, they can be used as corner transitions, or combined with rectangles to create a video conference space.

High Pressure Laminate Quarter Round Tops

These Quarter Round Tops are constructed with High Pressure Laminate and have a 3mm vinyl edge. Tops are a nominal 1 1/4" thick. They can be used in conjunction with rectangular tables to provide a rounded 90 degree transition. Tops come with attachment hardware.

To ensure that Quarter Round tops line up with the Rectangular tops, be sure to

order both top pieces with the same top material (High Pressure Laminate vs Thermofused Laminate).

Thermofused Laminate Quarter Round Tops

Fixed Angle Training Table Base

The Fixed Angle Base is designed for use with the Table Tops found on pages 26-31. It ships as a set of two leg units. Fixed Angle Bases are available with Locking Casters or Glides. Optional Casters are 3" high, and available in Black or in 2-Tone platinum/black color. Bases are designed to produce a table 29" high when used with High Pressure Laminate tops, and 28 3/4" high when used with Thermofused laminate tops. Bases are available in all Trendway trim colors.

22" legs are required for use on 24" deep table tops. 28" legs can be used on 30" and 36 inch deep table tops.

If attaching this Base to a table top not supplied by Trendway, it is the customer's responsibility to provide an adequate number of base supports and

to install it according to the instructions provided.

The optional Wire Manager conceals and routes wires and cables from the table top to the floor. The black plastic unit affixes to the inside of the table leg with the double-sided adhesive included. When WMY is specified, one wire manager will ship with the Bases.

Flip Angle Training Table Base

The Flip Angle Base is designed for use with the Table Tops found on pages 26-28 and 30-31. It ships as a set of two leg units. The Flip Angle Base allows the Table Top to flip forward to allow multiple tables to nest together. These Bases are available with Casters only. Casters are 3" high, and available in Black or in 2-Tone platinum/black color. Bases are designed to produce a table 29" high when used with High Pressure Laminate tops, and 28 3/4" high when

used with Thermofused laminate tops. Bases are available in all Trendway trim colors.

22" legs are required for use on 24" deep table tops. 28" legs can be used on 30" deep table tops.

Note: Flip Angle Bases cannot accommodate 36" deep Table Tops.

If attaching this Base to a table top not supplied by Trendway, it is the customer's responsibility to provide an adequate number of base supports and to install it according to the instructions provided.

The optional Wire Manager conceals and routes wires and cables from the table top to the floor. The black plastic unit affixes to the inside of the table leg with the double-sided adhesive included. When WMY is specified, one wire manager will ship with the Base.

TRAINING TABLE ACCESSORIES

Laminate Modesty

The Laminate Modesty is 10" high, 5/8" thick and constructed of High Pressure Laminate. It is available in 21 colors with matching edge color. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included. 24" (610) 30" (762) and 36" (914) modesties are for use on the short side of Trapezoid Tables. Mounting hardware is included.

Note: See Modesty Guidelines on page 16.

The Laminate Modesty is available in a Fixed and Flip version. The Flip Modesty option is designed for the Flip Top Table configuration and folds down when the Top is flipped to accommodate nesting and storage.

Mesh Modesty

The Mesh Modesty has a narrow metal frame covered in black mesh. It includes a Velcro closure pocket for cable management. The Modesty is 12" high and can be utilized as a Fixed Modesty or can fold down when the Top is flipped to accommodate nesting and storage on a Flip Top Table.

Note: See Modesty Guidelines on page 16.

Available in Black mesh only.

Metal Modesty

With a clean, simple aesthetic, Metal Modesty is 10" in height with a very narrow side profile. The Metal Modesty can be used with the Flip Top Table and will fold down to accommodate flipping and nesting. It is constructed of steel and available in all Trendway trim colors. Mounting hardware is included.

Note: See Modesty Guidelines on page 16.

Acrylic Modesty

The Acrylic Modesty is 10" high and available in clear, frosted or decorative acrylic. Side brackets are available in all Trendway trim colors. The Modesty should be specified at the same width as the table top to which it will be attached. Mounting hardware is included.

Note: Acrylic Modesty does not flip

Note: See Modesty Guidelines on page 16.

Cable Management Modesty

The Cable Management Modesty is designed to be used with the Fixed Top Training Table only. It is constructed of steel and is 10" high. The Cable Management Modesty installs into a pre-drilled location ½" recessed from the front edge of the table. It is drilled to accommodate one Power Set for a hidden power source. It also provides a channel for cable management. This Modesty provides the flexibility to specify a fully powered Table without visible cables. It should be specified at the same width as the table top to

which it will be attached. Mounting hardware is included.

Note: See Modesty Guidelines on page 16.

Corded Pop Up Electrical Units

Corded Pop Ups consist of the unit and 6' cord which plugs into an adjacent standard 15 amp outlet. The unit inserts into a factory-cut electrical opening in the table top. All units are UL and CUL listed.

The Pop Up must be ordered to match the factory-cut electrical opening specified for the Table Top.

Note: Corded Pop Up units cannot connect to other Corded Pop Up units or Daisy Chain Pop Up units.

Refer to page 14 and 15 for additional pop up information.

Training Table Daisy Chain Power Pop Ups

Daisy Chain Power Pop Ups allow a Base Feed to power from four to eight tables, depending on table width. Since they are easy to disconnect and reconnect, they are ideal for applications where frequent reconfiguration of tables is desired.

Each consists of the Pop Up unit and two connector cables. The unit inserts into a factory-cut opening. Cables attach to the underside of a table with supplied wire management clips, and connect to the Base Feed or to Daisy Chain Pop Ups in adjacent tables. Elements can be assembled in any sequence, allowing greater flexibility for space planning and reconfiguration.

The Pop Up must be ordered to match the factory-cut electrical opening specified for the Table Top. Each unit has one male and one female connection and is able to link two tables, or link to one Base Feed and one table. All units are UL and CUL listed.

Refer to page 14 and 15 for additional pop up information.

Base Feed

The Base Feed provides power to the connection. It has a 6' cord which plugs into a buildings standard 15 amp outlet. The regulator on the Base Feed prevents overloading and will shut off power if the load is exceeded. It includes an LED light that is green in normal conditions and red in overload conditions.

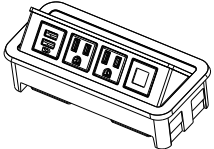

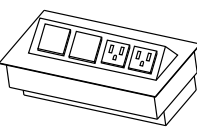

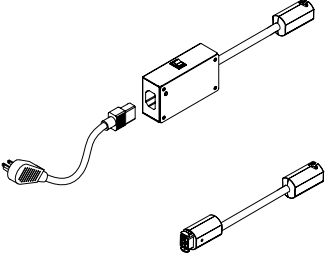

Jumper

If a unit is installed in a 66" or 72" wide table, a Jumper is needed to connect power to the adjacent table. In the connection sequence, each Jumper counts as a table in planning for the number of tables that can be linked (maximum eight).

Note: Daisy Chain Pop Up units and Corded Pop Up units cannot connect to each other.

Note: Daisy Chain Pop Up units purchased January 2020 and after cannot connect to units purchased before this date.

Training Table Power System

Training Table Power Set

The Training Table Power Set 4-wire, 2-circuit, 20Amp electrical system, allow power to be connected between Training Tables. Each Power Set includes two receptacles, for a total of four outlets. Each outlet has one receptacle for circuit 1 and one for circuit 2. Power Sets are a good solution when there is need for greater power access and where the table arrangement will remain static.

Power sets can be mounted to the underside of the table, near the edge for easy access. Spring clips for mounting are included. Power Sets should be located centrally to a long side of the work surface – all specification information in this document is based on the central

location. For a less visible location, they can also install in the optional Cable Management Modesty (see page 27 for details). Power Sets are connected between work surfaces with Training Table Electrical Harnesses. The Training Table Base Feed brings power to the Power Sets. All components are UL and CUL Listed/CSA Certified.

Training Table Base Feed

The Training Table Base Feed conducts power from the building to the Training Table Power Set. It includes 6' (1829) or 12' (3658) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply. Training Table Base Feed is also used with a Training Table H-Connector in cases where a single power feed must be split in two directions. Training Table Electrical Harnesses are used

to link the H-Connector to the Power Sets in this type of configuration. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table Electrical Harness

Training Table Electrical Harnesses connect Training Table Power Sets between two surfaces. Harnesses are also used with Training Table H-Connectors when a single Base Feed is split in two directions. The specific length of the harness needed will depend on the layout and work surface sizes. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table New York Base Feed
The Training Table New York Base Feed conducts power from the building to the Training Table Power Set. It includes 18" (457) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply. Training Table New York Base Feed is also used with a Training Table H-Connector in cases where a single power feed must be split in two directions. Training Table Electrical Harnesses are used to link the H-Connector to the Power Sets in this

type of configuration. Refer to Training Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

Training Table H-Connector
The Training Table H-Connector allows power to be routed in up to 3 different directions. This is useful in layouts that require a single Base Feed to reach multiple work surfaces. (See Planning Guide for Specific Uses.)

<i>Accessories & Base Only</i>	52

Table Tops

Standard Features

Each table is surfaced with a high-pressure laminate. Tables will have a PVC flat T-Molded edge or banded edge depending on model.

- Square, Rectangular and Trapezoid training tables are available with PVC Banded Edge only.
- The Half Round table comes with a Banded edge on the flat side and a Flat T-Molded edge on the radiused side.

Wood grain vinyl edges are available as Banded edge only, therefore Half Round tables will be manufactured with a PVC Banded edge.

Tables	Table Top Edge	
	PVC	T-Mold
Rectangular	X	
Trapezoid	X	
Half Round*		combination

PVC Banded Edge

*If wood grain and Platinum vinyl edge is specified, the entire table will have a PVC Banded Edge

Table Bases

The Training Table Bases in this section are made up of 2-inch tubular steel with flat metal end caps. The bases are powder coated and available in two base styles: T-Base or C-Base.

The T-Base is available on a rectangular, trapezoid or half round table top; allows the top to be fixed or flip.

The C-Base is available on a rectangular desk.

The T-Base, and the C-Base have casters or glides. The flip tables are available with casters only.

Training Table T-Base

Training Table C-Base

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Training Table Arrangement

The new shapes of Training Tables allow for many different configurations but not limited to the ones below:

Nested Flip Top Training Table

Table Grommets

Grommets are available on the Rectangular, Trapezoid and Half Round Training Tables. They are centered on the table along the back edge. The grommet occupies the same location as the pop-up power/data module. Therefore, allowing only one or the other to be specified.

Grommets are available in black only. The following drawings show standard grommet locations.

Grommet Dimensions

Rectangular Training Table

Trapezoid Training Table

Half Round Training Table

Electrical

Training Table:

The pop-up power data/module ("EN" option) for Training Tables is black molded plastic. The pop-up module can be placed in the Rectangular, Trapezoid and Half Round Training Tables. There is one module per table; see diagram for location. The pop-up module has 2 power receptacles and 2 data openings. A 6' power cord is included. The table ships with a pre-cut mounting location for the pop-up module. The pop-up module is field installed.

RECTANGULAR TABLES AND DESKS - FIXED TOP

Each table has a high-pressure laminate top with PVC Banded edge. They have optional glides or casters. They can also be specified with an optional grommet or pop-up power/data module. If specified, the grommet or power/data module is located along the back edge in the center of the table.

The Rectangular Tables and Desks can be teamed with the Training Table Electrical System for high power applications. Shipped ready to assemble.

Tables are 29" (737)-high.

Rectangular Training Tables - Fixed Top

The Rectangular Training Table has a welded leg. The leg is mounted in the center of the table with both feet being the same distance out from the column.

Rectangular Desk Tables - Fixed Top

The Rectangular Desk has a welded leg. The leg is mounted toward the back of the table with two different length feet. They are arranged to provide support but provide the knee clearance of a desk which is ideal for a classroom or training room.

RECTANGULAR TRAINING TABLES

Each table has a high-pressure laminate top with PVC Banded edge. They have optional pop-up power/data module or grommet. Either a pop-up module or grommet can be specified, not both, as they occupy the same location. The Flip Top have welded legs.

Shipped ready to assemble.

Tables are 29" (737)-high

Rectangular Training Tables - Flip Top

The Flip Top Table has a top that will pivot forward over the legs. The mechanism will lock in both the up (in use) and down (stored) position. The mechanism is operated with a one touch release handle. The tables have casters so they can be easily moved and nested by one person.

HALF ROUND TRAINING TABLES

Each table has a high-pressure laminate top with a PVC Banded edge on the flat side and a Flat T-Molded edge on the radiused side. If a wood grain vinyl edge is selected, the entire table will be manufactured with a PVC Banded edge. They have optional pop-up power/data module or grommet. Either a pop-up module or grommet can be specified, not both, as they occupy the same location. The grommet or module is located in the back center of the table on the straight side. The legs are welded.

Half Round Tables provide the ability to create a circle shaped table or use as a cap on the end of rectangular tables.

Shipped ready to assemble.

Tables are 29" (737)-high.

Half Round Training Tables - Fixed Top

Fixed Tables are available with casters or glides.

Half Round Training Tables - Flip Top

The Flip Top Table has a top that will pivot forward (to the straight side) over the legs. The mechanism will lock in both the up (in use) and down (stored) position. The mechanism is operated with a one touch release handle. The tables have casters so they can be easily moved and nested by one person.

TRAINING TABLE ACCESSORIES FOR CHOICES TUBE BASE TABLES

Laminate Modesty

The Laminate Modesty is made of 5/8" HPL. It is available in the seven standard trim colors with matching edge color. The modesty should be ordered to match the length of the table top. The fixed modesty will not move once installed. The Folding Modesty will fold down when a Flip Top Table is flipped so the top can be flat. The modesties are mounted 2 inches in from the front edge of the table. Includes

mounting hardware. The 24" (610) and 30" (762) modesties are for use with the Trapezoid Tables.

Mesh Modesty

The Mesh Modesty provides a little more visual privacy while providing a lighter feel. It is available for the fixed top version and has a pocket for holding and sorting cables. The modesty should be ordered to match the length of the table top. Includes mounting hardware.

Available in Black mesh only.

TRAINING TABLE ACCESSORIES CONT.

Training Table Ganging Hardware

Ganging Hardware is used to lock two tables together so they do not move. Table ganging hardware is field installed and can be placed at the outer corners or in the middle of the tables. Attachment hardware included.

Note: If the Training Table Electrical System is used, the tables must be ganged together.

Training Table Glides

Training Table Glides can be ordered as a replacement for damaged glides or to retrofit a castered table.

Note: If glides are used to retrofit a castered table the overall height of the table will be up to 2 inches shorter than designed.

Training Table Casters

Training Table Casters can be ordered as a replacement for damaged casters or to retrofit a non-mobile table with glides.

Note: If casters are used to retrofit a table with glides the overall height of the table will be up to 2 inches taller than designed.

Training Table Legs

The Training Table Legs are available for retrofit installation beneath existing table tops. Bases are 27 1/2" (699)-high.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

Grommet/Pop Up Electrical Units for Trendway Zona Training Tables

When specifying training tables, grommets or pop up cutouts may be specified for power/data routing and access. Grommets are available in black or silver and come pre-installed in the table top when GY1 or GY2 are specified as the Power Option. If Pop Up electrical units are chosen as the Power Option, the table top will ship with a factory-cut opening to house the unit, but the Pop Up units must be ordered separately. The chart below indicates which Grommet or Pop Up options are available for specific Training Tables.

Code	Position
GY1	Single grommet, centered left-to-right, 3 1/8" in from back of table top for a 24" deep top and 3 5/8" in for 30" deep tops.
GY2	Pair of grommets, 1/4 the width of the top in from each side, and 3 1/8" in from back of table top for a 24" deep top and 3 5/8" in for 30" deep tops.
PMP & PNC	One cutout for Pop Up Unit, centered left-to-right, 3 1/8" in from back of table top for a 24" deep top and 3 1/2" in for 30" deep tops.
PMH	One cutout for Pop Up Unit, centered left-to-right, 3 1/8" in from back of table top for a 24" deep top and 3 5/8" in for 30" deep tops.

30"D x 60"W	x	x	x	x	x
30"D x 72"W	x	x	x	x	x

Training Table Electrical Options

The Zona Leg Training Tables have two Pop Up options: Corded and Daisy Chained and a 4-wire 2 circuit power system.

Corded Pop Ups

The corded Pop Ups come with a 6' cord that plugs into an outlet. Corded Pop Ups cannot plug into other corded Pop Ups or to Daisy Chain Pop Ups.

Daisy Chain Pop Ups

Daisy Chain Pop Ups allow a single Base Feed to power up to eight tables, depending on table width. The Daisy Chain Pop Up consists of three parts, the Base Feed, the Pop Up unit, and the Jumper. The Base Feed plugs into building power using a standard 15 amp plug. The Jumper is used to connect tables 66" and 72" to adjacent tables. In the connection sequence, each Jumper counts as a table in planning for the number of tables that can be linked (maximum eight). The Base Feed prevents overloading and will shut off power if the load is exceeded. It has a regulator with an LED light that is green in normal conditions and red in overload conditions. Pop Up unit includes the Pop Up and two connectors that will each attach to a connector on an adjacent table or to a Base feed.

This example uses three Daisy Chain Pop Up units to run power through three 60" wide tables. Since the tables are all less than 66" wide, no Jumpers are required. (Fig. A)

Daisy Chain Pop Ups as shown on 60" wide table
3 of 8 connections used.

This example uses three Daisy Chain Pop Up units and two Jumpers to run power through three 72" tables. Tables 66" and 72" wide each require one Jumper in order to connect to an adjacent table. (Fig. B)

Daisy Chain Pop Ups as shown on 72" wide table
5 of 8 connections used.

Idea Starters

So many ways to arrange and rearrange for almost any learning environment

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Zona Rectangular Training Table - Flip Top – High Pressure Laminate

The Zona Training tables are constructed of High Pressure Laminate Tops with a 3mm vinyl edge. Table tops are a nominal 1 1/4" thick. Tables ship standard with four locking casters that are 3" high. Tables may be optioned with a factory-cut opening for a Pop Up Electrical Unit or Grommet. Grommets are available in black or silver and ship with the table when specified.

Pop Up Electrical Units are ordered separately, see page 38 & 39 for details.

Shipped ready to assemble. Tables are 29" (737) high.

Training Table Acrylic Modesty

The Training Table Acrylic Modesty mounts to the underside of any tabletop to provide privacy. It can be used on both a fixed height table or flip top table. When used on a flip top table the modesty will need to be positioned so it can fold down when the table is flipped and nested. Included with the modesty is a 1/4" thick Frosted Acrylic, and brackets. The brackets are a raw aluminum finish.

Note: When used with the Zona Flip Top Tables, Grommet or Electrical Options can NOT be specified, as they occupy the same location.

Note: The actual width of the acrylic modesty is 1/4" shorter than nominal.

Table Tops

Rejuve Height Adjustable Table	Table Top Edge
	PVC
Rectangular	X

Standard Features

Tables are available with either a 1 1/4" high-pressure laminate top or a 1" thermofused laminate top. Tables will have a PVC Banded Edge.

PVC Banded Edge

Table Bases

The Rejuve Tables bases have an all steel base frame powdercoated with a C-leg design. The frame has a quick connect feature making install very straightforward. It is also outfitted with a Gyro Sensor anti-collision feature. The power cord length is 9".

Rejuve Height Adjustable Table Base

Table Grommets

Grommets are available on the Rejuve Height Adjustable Tables, except the D-Shape Table. They are centered on the table along the back edge. Grommets are available in black or silver. The following drawing shows standard grommet location.

Grommet Dimensions

Rectangular Table

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Rejuve Two Stage Rectangle Height Adjustable Table – HPL

The Rejuve Two Stage Rectangle Height Adjustable Table features a nominal 1 1/4" thick High Pressure Laminate top with a PVC banded edge. An optional grommet is located in the back-center of the table top. The table comes with standard glides. The Rejuve 2 Stage Rectangle Height

Adjustable Table offers a height adjustment range from 26.5"–43.5" for a total of 17" of adjustment. Add the top thickness to determine the total height dimension. These tables tops have an option for true to size, which is perfect for a stand alone table or to have the perimeter 1" shorter on all sides to work within any panel environment. The handset is an up and down lever

which has a digital read out and 2 memory settings. Each base leg is a two-section telescoping column. Two rails attach to the legs on the underside of the table top to ensure stability and support. The foot depth on the base is 23" for 24" deep tops, and 29" for 30" deep tops. Tables Ship Ready to Assemble.

Rejuve Two Stage Rectangle Height Adjustable Table Base

The Rejuve Two Stage Rectangle Height Adjustable Table Base is available to purchase for retrofit installations using the customer's table tops. The height adjustment ranges from 26.5"–43.5" high (without the top). The foot depth is 23" for 24" deep tops, and 29" for 30" deep tops. There are

specific bases available to support top widths from 36-72" wide. The bases are available in Charcoal, Designer White, or Platinum paint finishes. Do not operate the adjustment function of a base if the combined load limit exceeds 220 pounds. This load limit includes the weight of the table top plus the weight of any items it supports (e.g., desktop computer, printer etc.).

When attaching the base to a table top not supplied by Trendway, the customer is responsible for selecting the properly sized table base for the intended table top, and for following the installation instructions provided.

Table Tops

Standard Features

Each table is surfaced with a high-pressure laminate. Tables will have a PVC Banded Edge.

Height Adjustable Table	Table Top Edge	
	PVC	
Rectangular	X	
Corner	X	
Extended Corner	X	

PVC Banded Edge

Table Bases

The Height Adjustable Table has an all-steel base frame. Finish is powder coat. The 4 Adjustability electric bases have a 9' power cord.

The horizontal rails have cut outs that can be used to house wires.

Height Adjustable Table Base

Extended Corner Height Adjustable Table Base
Right Hand Shown

Table Grommets

Grommets are available on the 4 Adjustability Height Adjustable Table. They are along the back edge of the table top. Grommets are available in black or silver. The following drawings show standard grommet locations.

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

4 Adjustability Tables

The 4 Adjustability tables features an all-steel base frame with four height adjustment mechanism choices. On the underside of the table top, 2 rails attach to the legs to assure stability and support. Each table has a high-pressure laminate top with a PVC banded edge. They are rectangular in shape with standard glides and an optional grommet located in the center of the table back. Tables ship ready to assemble.

4 Adjustability – Crank Table

Crank Tables offer height adjustment ranges from 27" to 46", plus a nominal 1¼" thick HPL top for total height dimension. The crank can be positioned on the right or left hand of the table and stored under the table when not needed for adjustment. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability – Single and Dual Stage Electric Corner Tables

Corner tables can be used in a freestanding or panel application. Tops are sized to provide a gap between the Adjustable Table and adjoining work surfaces, to ensure free movement and to avoid pinch points. Electric Corner Table bases offer height adjustment ranges of 26" to 44 3/4" for the Single Stage and 21" to 47" for the Dual Stage. For total surface height dimension, add a nominal 1 1/4" thickness of the HPL top. Electric Corner Tables feature

an optional control pad with digital readout, which can store up to 4 pre-set heights. When not in use, the control pad stores under the table. The functional inner leg that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

4 Adjustability – Single and Dual Stage Extended Electrical Corner Table

Extended Corner tables can be used in a freestanding or panel application. Tops are sized to provide a gap between the Adjustable Table and adjoining work surfaces, to ensure free movement and to avoid pinch points. Electric Extended Corner Table bases offer height adjustment ranges of 26" to 44 3/4" for the Single Stage and 21" to 47" for the Dual Stage. For total surface height dimension, add a nominal 1 1/4" thickness of the HPL top. The grommet option will provide two grommets for cord management. Electric

Extended Corner Tables feature an optional control pad with digital readout, which can store up to 4 pre-set heights. When not in use, the control pad stores under the table. The functional inner leg

that raises and lowers the table is not available in textured or premium trim finishes. If textured or premium trim finish is specified, the inner leg will match the standard smooth trim color.

Collapsible Height Adjustable Table Wire Manager

This vertical wire manager is constructed of durable plastic and flexes to accommodate the full range of a height adjustable table. It attaches to the underside of the table and has a weighted base to hold it in place on the ground. There are magnets that hold the links tight to the column of the table to assure everything is held in place. Available in 3 colors, Black, DesignerWhite and Platinum.

4 Adjustability Table

Choices 4 Adjustability Table bases are available to purchase for retrofit installation with existing table tops. The height adjustment ranges from 26"-44 1/4", plus a nominal 1 1/4" thickness of the top. Bases ship ready to install.

Do not operate the adjustability function of a base if the combined load limit is exceeded, as specified in the table below. This load limit includes the weight of the table top plus the weight of any items it supports (e.g., desktop computer, printer etc.).

When attaching the base to a table top not supplied by Trendway, the customer is responsible for selecting the proper sized table base for the intended table top, and for following the installation instructions provided. Correct top sizes are specified for each base size in the table below. Trendway will not be held responsible for improperly sized or installed table/base applications.

Post Mount Single Screen

The Post Mount Single Screen can be mounted with screws to any laminate work surface, desk or table top to provide a division. Included with the Screen are two posts, one acrylic screen, and the necessary mounting hardware.

Note: The No Gap option will have a 3/4" gap to allow for cord pass through.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Single Acrylic Screen - Freestanding Plate

The Freestanding Acrylic Screen can be placed on any work surface or table to provide a division. Included with the screen is either 2 or 4 Gray Brackets depending on the width of the screen. The brackets come with two types of foam pads for the underside of the bracket plates based on installation needs. One pad helps to prevent the screen from skidding on the worksurface, and the other pad uses double-sided tape for more of a secure attachment.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Note: Screens 24-54" in width will have 2 brackets and Screens 60-72" in width will have 4 brackets.

Single Acrylic Screen - Edge Mount Bracket

The Edge Mount Bracket uses clamps to attach to the back edge of a work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits slightly offset from the back edge, creating a 3/4" gap to facilitate power/data cable management and other accessories. The final installed height of the

screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Single Acrylic Screen - Top Mount Bracket

The Top Mount Bracket uses clamps to attach to the top of the work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits on the work surface creating a 1 3/4" gap between the work surface and the bottom of the screen. The final installed height of the screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Corner Connector Kit

The Corner Connector Kit attaches Edge Mount Screens to Top Mount Screens at the intersecting corners. This creates 'L' and 'U' shape configurations connected as one unit. The SCNCCK Kit provides 2 brackets to create one corner connection for an 'L' Shape. The SCNCCK2 Kit

provides 4 brackets to accommodate 2 corner connections for a 'U' Shape.

Note: these are the same corner brackets used with the Post Style and Low Profile Bracket Screens, and can be utilized as service parts for these screens if needed.

Post Mount Screen - U Configuration
 The Post Mount Screen U Configuration can be mounted with screws or adhesive to any laminate work surface, desk or table top to provide a division. Included with the screen are six posts, three acrylic screens, and the necessary mounting hardware.

Note: The No Gap option will have a 3/4" gap to allow for cord pass through.

Note: The minimum overall width of a desk needed to house a screen is 2.25" less than nominal. The minimum overall depth needed to house the screen is 2.5" less than the nominal depth.

Back Edge Mount Screens

Back Edge Mount Screens assemble to the back of a Height Adjustable Table Top with a 1" gap. The gap allows for power cords to pass between them.

All necessary mounting hardware is included.

When Specifying Screens for:

Rejuve and Levado Height Adjustable Tables

They attach to the back edge using hardware provided. Screens must be selected at the proper size for successful installation. Note that Height Adjustable Tables use nominal sizing and screens use actual sizing.

For tables that are specified as True to Size order a screen that is the same size as the width of the table. If the '1P' option is selected a screen 6" less in width must be specified.

4 Adjustability Table

Screens must be selected at the proper size for successful installation. Note that Height Adjustable Tables use nominal sizing and screens use actual sizing.

For all rectangular Tables, Screens must be specified 12" (actual size) shorter in width than the table to which they will attach.

Example: a 60" 4 Adjustability Table RHATE13060 will require a 48" Screen TRGBMS4813

Collaborative	27 3/4" (705)
Cafe	40 7/8" (1038)

*Please note the overall height of the table is dependent on the thickness of the Top selected

Seating Capacity

Trendway Tables allow the following suggested seating capacities:

	Table Size	Seating Capacity
Round	24 dia	2
	30 dia	2
Square	24x24	2
	30x30	2

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Collaborative Table Tops for use with Steel Trumpet Base

All Collaborative Table Tops are used with the Steel Trumpet Base. Table Tops will come with the appropriate hardware to affix the top to the base. Bases must be ordered separately.

The Thermofused and High Pressure Laminate tops are 5/8" thick and finished with a 1mm vinyl edge. They are available in two diameters.

The Glass top is 3/8" thick tempered glass, available in Clear or Frost finish.

Table Tops continued

The Coated MDF top is 3/4" thick with a knife edge. They are available in 2 shapes, round and soft square.

Knife Edge Detail

Steel Trumpet Base for use with Collaborative Table Tops

The Steel Trumpet base is designed to be used with Collaborative Table Tops.

The Trumpet Base is available in 3 heights, and comes with standard glides. The diameter of the base is 19.625" and of the column is 2.375". The base finish is satin chrome.

Note: The overall height of the table will vary depending on the table top style selected.

Note: The Steel Trumpet base assembles to the Table Top by means of a top support connector. This connector ships with the specified Top. If ordering the Trumpet base to support a non-glass top not supplied by Trendway, you must order the Wood Top Support from the Service Parts Catalog (customer-supplied glass tops can not be accommodated).

Choices Collaborative and Café Tables

Choices tables are constructed with High Pressure Laminate. Tables will have a PVC Flat T-Molded edge or banded edge depending on model. The Flat T-Molded edge provides a

radius at the corners, while the banded edge provides a clean squared corner. Bases are constructed of steel and have a powder coat finish. The 4-point and Angle Bi-Point bases have molded end covers. X- and Disc-Base tables are available with a Round or Square

table top in standard or Café Height. The X-Base standard height has a 2" diameter vertical column, and the Café Height has a 4" diameter column. The Disc-Base has a 4" diameter column.

Table Legs

The Table Legs are available for retrofit installation beneath existing table tops. Bases are 27¹/₂" (699)-high. X-Base is shipped ready to assemble.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

Casters are not available on Café Height Tables.

Steel Bases

Steel bases are available for retrofit installation beneath existing table tops. Bases are 27⁷/₈" (708)-high. Steel 4-Point Base shipped ready to assemble.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

Intrinsic Collaborative, Café and Occasional Tables

The Standard 1" Intrinsic Top is surfaced with Thermofused Laminate. The Executive Top is 1.5" thick and surfaced with High Pressure Laminate. All tables have a PVC flat banded

edge. The Executive Tops offer a Flat or Fluted edge option. The tops are available in either round or square or rectangle (occasional only) shapes. Intrinsic Tables offer three base style options. One is constructed of laminate material, two are steel with

a powder coat finish. The laminate base is X-shaped. Column Leg Tables have four 4" diameter column legs. Disc Bases have a 4" column and are available for Round or Square table tops in standard or Café Height.

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Round	30 dia	2
	36 dia	3
	42 dia	4
	48 dia	4
	60 dia	6
Square	30x30	2
	36x36	4
	42x42	4
	48x48	4
	60x60	6

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

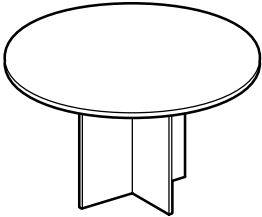

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables - Standard Edge

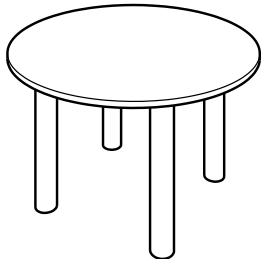

Intrinsic Tables are shipped complete with your choice of base options and leveling glides. Each table has a 1" Thermofused Laminate top with a 3mm vinyl edgeband. The following bases are available: Thermofused Laminate, steel disc base(s) or 4" steel column legs. Tables are 28³/₄" (730)-high.

Shipped ready to assemble.

Collaborative, Cafe & Occasional Tables

Trig		
<hr/>		
<i>Overview</i>		122
<i>Collaborative</i>	<i>Square</i>	123

Trig Collaborative Tables

Trig Collaborative Tables have square Thermofused laminate tops with a PVC edge band.

The base consists of two 2"x 2" U-shaped powder-coated steel legs. The table comes standard with glides. The finished height of the table is 28 ¾" (730)

Table Base

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Square	36x36	4
	42x42	4
	48x48	4
	60x60	6

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables

Trig Tables are shipped complete with a 1"-thick Thermofused Laminate top and 3mm vinyl edge band. Shipped ready to assemble.

Square Tables

Trig Square Tables come with two work surface support legs, 2" square, and all necessary hardware.

Choices Conference Tables

Choices Conference Tables are surfaced with High Pressure Laminate. Tables will have a PVC Flat T-Molded Edge or Banded Edge depending on model. The Flat T-Molded edge provides a radius at the corners, while

the banded edge provides a clean squared corner.

The base is powder coated steel with molded end caps. The Base includes adjustable glides.

All tables in this section have a finished height of 29" (737)

Grain Direction

Single piece tops – grain direction runs parallel to the length.

Multiple piece tops – grain direction runs perpendicular to the length.

Table Base

Conference Double-Tube Column Bi-Point

Electrical

Conference Table:

The pop-up power/data module for the Conference Tables is made of clear anodized aluminum. Only Conference Tables that are 96" (2438) and wider have two optional electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. When specified the table ships with a pre-cut mounting location for the pop-up module. A 6' power cord is included. The pop-up module is field installed.

Steel Bases

Steel bases are available for retrofit installation beneath existing table tops. Bases are 27^{7/8}" (708)-high. Steel 4-Point Base shipped ready to assemble.

When attaching this base to a table top not supplied by Trendway, it is the customer's responsibility to provide adequate number of base supports and install according to provided installation instructions.

Intrinsic Conference Tables

The standard 1" Intrinsic Conference Table top is surfaced with Thermofused Laminate. Executive Tables are 1.5" thick with a High Pressure Laminate top. All tables have a PVC flat banded edge. Executive Tops have a Fluted edge option. Tops are either round or square in shape.

Intrinsic Tables offer three base style options. One is constructed of laminate material, two are steel with a powder coat finish. The laminate base is X-shaped. Column Leg Tables have four 4" diameter column legs. Disc Bases have a 4" column and are available for Round or Square table tops in standard or Café Height.

The finished height for the Standard top Table is 28 ¾" (730") high. The finished height for the Executive top is 29 ¼" (743).

Grain Direction

Single piece tops – grain direction runs parallel to the length.
Multiple piece tops – grain direction runs perpendicular to the length.

Seating Capacity

Trendway Tables have the following suggested seating capacities:

	Table Size	Seating Capacity
Racetrack	36x72	6
	48x72	6
	48x96	6
	48x120	10
	48x144	10
	60x96	8
Rectangular	36x72	6
	48x72	6
	48x96	8
	48x120	10
	48x144	10
	60x96	8

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables - Standard Edge

All Intrinsic Racetrack tables 96" or less in width have one piece tops, and all tables greater than 96" in width have three piece tops.

Laminate Base Tables, 120" or 144" in width, will have a base with three supporting legs.

Conference Tables

Trig

<i>Overview</i>	144
<i>Rectangular</i>	145

Trig Conference Tables

Trig Collaborative Tables have rectangular Thermofused laminate tops with a PVC edge band. The base consists of four or six 4" x 4" square powder-coated steel legs. Tables 72"-96" wide will have 4 legs and tables 120"-144" will have 6 legs. The table comes standard with glides.

The finished height of the table is 28 ¾" (730)

Grain Direction

Single piece tops – grain direction runs parallel to the length.
Multiple piece tops – grain direction runs perpendicular to the length

Table Base

Electrical

Trig Conference Tables:

The pop-up power/data module for the Conference Tables is made of clear anodized aluminum. Conference Tables that are 72" (1829) wide have one optional electrical pop up centered on the table; tables that are 96" (2438) and wider can be outfitted with two optional electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. When specified, the table ships with a pre-cut mounting location for the pop-up module. A 6' power cord is included. The pop-up module is field installed.

Pop-up Module Locations:

Rectangular Conference Table 96" (2438) and Wider

Rectangular Conference Table 72" (1819)

Seating Capacity

Trendway Tables have the following suggested seating capacities:

Table Size	Seating Capacity
Rectangular 36x72	6
42x72	6
48x72	6
48x96	8
48x120	10
48x144	10

TABLE WEIGHT LIMITS

Tables with the recommended base/top size combination can support a maximum of 1.5 lb. for each inch of perimeter, evenly distributed.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed weight limits, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not honor the product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Tables

Trig Tables are shipped complete with a 1"-thick Thermofused Laminate top and 3mm vinyl edge band. Shipped ready to assemble.

Rectangular Conference Tables

Trig Rectangular Conference Table tops 72" - 96" wide are shipped in one piece, and tops 120" - 144" wide are shipped in three pieces. Trig Rectangular Conference Tables come with 4"-square legs and all necessary hardware.

The pop-up power/data module for the Rectangular Conference Table is made of clear anodized aluminum. Conference tables that are 96" (2438) and wider have two electrical pop-up modules. The pop-up module has 3 power receptacles and 1 data opening. Each receptacle is rated for 15 amps. A 6' power cord is included.

<i>Presentation/Marker Board Cabinet</i>	148
<i>Mobile Media Cart</i>	149
<i>Lectern</i>	150

Presentation/Marker Board Cabinet

The Intrinsic Presentation/Marker Board Cabinet includes marker board, two side-opening hinged doors, marker stop rail and mounting hardware to accommodate most installation applications.

Optional accessories include black fabric wrapped tackboards.

Note: The back of the unit is recessed to eliminate visibility of the wall mount brackets.

Note: The unit includes mounting brackets to accommodate most installation applications. It is the responsibility of the dealer or installer to obtain any additional fasteners that may be needed to safely attach the unit to the wall.

Note: The Marker Board is non-magnetic High-Pressure Laminate.

Tackboards for Presentation/Marker Board Cabinet

Tackboards can be mounted on the inside of the Presentation/Marker Board Cabinet doors. The tackboard has a tackable panel fabric front with velcro attachment tabs in the back.

Available with Anchorage, GEB Onyx fabric only.

Note: The Tackboards for Presentation/Marker Board Cabinet are sold individually.

Shown with optional—

Intrinsic Mobile Media Cart

The Intrinsic Mobile Media Cart has two lockable hinged doors, one adjustable shelf behind the doors, one open storage shelf, wire management from top to base of unit and four locking casters. One Grommet is standard.

Shipped assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with an Intrinsic Core/Key set in order

for the Intrinsic filing unit to lock. The Core/Key set (ZFLCK) must be ordered separately or by using the keying order form.

Terms, Policies
& Index

Terms, Policies & Index

<i>Terms & Policies</i>	154
<i>Index</i>	158

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgment with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COMLibrary, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM test request* on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.

5. Ship COM samples to:

U.S. Mail and UPS, FedEx Shipment:

Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request

6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume

responsibility for any spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any

regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges $\frac{1}{4}$ of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 2 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply

to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care. Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for dam-

age upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Key-Alike Option

The key-alike option is available on all orders. To order key-alike items within a workstation, follow these steps:

- Fill out a key-alike form and submit it with your purchase order. If key-alike orders are placed with your PO or within 30 days of receipt of your order, they will be sent at no charge.
- After 30 days of your PO regardless of your installation date, the cost of key-alike requests will be \$3.00 net per core and key, if the quantity exceeds 10.

Note: Credit will not be issued for return of unused cores and key's.

Key-Alike forms are available on www.trenddealer.com or through Trendway Customer Care.

24. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

25. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Measurement Assistance: 1 Day on-Site, \$1,800.00

Field Installation Assistance: 3 Days on-site, \$3,000.00

These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trenddealer.com, in the Price List section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components 	<ul style="list-style-type: none"> •System Textiles •Finishes

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Accessories

PRICE LIST | DECEMBER 2021

For Canadian pricing, please visit Trendealer to see the current conversion rate being used or contact your local Trendway Representative.

Accessories

Trendway product catalogs are available in the following design software: CAP, Data One, Giza, Midnight-Oil, and Project Matrix. The Systems price list is also available in .pdf (Acrobat Reader) format on www.trenddealer.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on www.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

Order specification examples are shown throughout the price list at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.
2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which

means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)

8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Accessory products are shipped within Trendway's standard lead time. Extended lead-time items in the catalog are designated by shading.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Trendway Custom Solutions

Phone: 1-800-893-8117

For more information on Order Placement, Confirmation, and Lead-Times, see the Pricing, Procedures & Policies section in the back of this Price List.

1. Transportation

All orders are shipped by Trendway truck or common carrier. List prices shown include Trendway specified freight cost on all orders. For additional information about transportation, contact the Trendway Customer Care Department at 1-800-893-8115.

2. Prices

Prices shown in this offering are F.O.B. origin, freight prepaid. Trendway reserves the right to change prices without notice.

Sequence Information

The table below shows a sample of the price list format's sequence of information which will assist when placing an order and checking an order acknowledgement.

Sample Part Number:

C5FR2034	.H	.BB	.K	.FF	.AH2
-----	-	--	-	--	---

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

- Not Available
- ↔ Non Directional - Pattern will be applied for best yield
- ↓ Down Roll - The height dimension of the tile or component is parallel to the warp of the fabric
- R Railroaded - The height dimension of the tile or component is perpendicular to the warp of the fabric
- * Multi-use fabric (seating and panel) available on Capture, Fabric Screens, and Volo
- ** Not available on Choices Panels, but approved on Choice's Tackboards and Flipper Doors

Down-Roll (↓)

Down-roll means the height dimension of the tile or component is parallel to the warp of the fabric (Fig. A).

Fig. A

Railroad

Railroad means the height dimension of the tile or component is perpendicular to the warp of the fabric (Fig. B).

Fig. B

COM Fabrics

COM fabrics may be applied either Down-roll (Fig. A) or Railroad (Fig. B). When choosing Railroad on COM fabrics please note that 84" (2134)-high Choices and TrendWall Panels cannot be Railroad due to panel fabric being 66" (1676)-wide (Fig. C).

Single Acrylic Screen - Post Style Bracket- Screw Mount

The Post Style Bracket can be mounted with screws to any laminate work surface, desk or table top to provide a division. Included with the Screen are two posts, one acrylic screen, and the necessary mounting hardware.

Note: The No Gap option will have a 3/4" gap to allow for cord pass through.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Single Acrylic Screen - Freestanding Plate

The Freestanding Acrylic Screen can be placed on any work surface or table to provide a division. Included with the screen is either 2 or 4 Gray Brackets depending on the width of the screen. The brackets come with two types of foam pads for the underside of the bracket plates based on installation needs. One pad helps to prevent the screen from skidding on the worksurface, and the other pad uses double-sided tape for more of a secure attachment.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Note: Screens 24-54" in width will have 2 brackets and Screens 60-72" in width will have 4 brackets.

Single Acrylic Screen - Edge Mount Bracket

The Edge Mount Bracket uses clamps to attach to the back edge of a work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits slightly offset from the back edge, creating a 3/4" gap to facilitate power/data cable management and other accessories. The final installed height of the

screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Single Acrylic Screen - Top Mount Bracket

The Top Mount Bracket uses clamps to attach to the top of the work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits on the work surface creating a 1 3/4" gap between the work surface and the bottom of the screen. The final installed height of the screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Corner Connector Kit

The Corner Connector Kit attaches Edge Mount Screens to Top Mount Screens at the intersecting corners. This creates 'L' and 'U' shape configurations connected as one unit. The SCNCCK Kit provides 2 brackets to create one corner connection for an 'L' Shape. The SCNCCK2 Kit

provides 4 brackets to accommodate 2 corner connections for a 'U' Shape.

Note: these are the same corner brackets used with the Post Style and Low Profile Bracket Screens, and can be utilized as service parts for these screens if needed.

U-Shape Acrylic Screen - Post Style Bracket

The U-Shape Post Style Bracket can be mounted with screws or adhesive to any laminate work surface, desk or table top to provide a division. Included with the screen are six posts, three acrylic screens, and the necessary mounting hardware.

Note: The No Gap option will have a 3/4" gap to allow for cord pass through.

Note: The minimum overall width of a desk needed to house a screen is 2.25" less than nominal. The minimum overall depth needed to house the screen is 2.5" less than the nominal depth.

Panel Topper Acrylic Screen

The Panel Topper Acrylic Screen attaches to any Choices or Capture Panel – monolithic, fabric, vinyl or glass. The Panel Topper attaches over the existing top cap and requires no field drilling. The acrylic screen is available in either Clear or Frosted Plexi and includes attachment hardware. Foam pads to protect the finish of the panel are included with the attachment hardware.

Note: The actual screen acrylic width is 5/8" shorter than nominal.

Note: Panel Topper Screens cannot attach behind steel overhead flipper units or on return panels next to any overhead storage unit.

Screen size	Number of Brackets
24" – 42"	2
48"	3
60"	4

Screen Alignment Clip

The Screen Alignment Clip is used in a straight line condition to assure straightness from one Panel Topper Screen to another. The Clip comes with foam pads and slides over the acrylic. It is available in all Trendway Trim colors.

Top Mounted Fabric Screen

The Top Mounted Fabric Screens can be mounted on top of any work surface. The 18, 22 and 28 inch screens are designed to work as side screens. The larger widths are designed to mount to the front edge of a surface, or across the seam of two surfaces positioned back to back. The screen is fully tackable, fabric covered, and comes with all the hardware to attach it. The

hardware has a small reveal at the very bottom of the screen and what the trim color is related to.

Fabric Screen / Modesty Combination

The Fabric Screen Modesty Combination mounts to the underside back edge of the desk top. The screen is fully tackable, fabric covered, and comes with all the hardware to attach

it. It provides 13" of privacy above the surface and 14" below the surface.

LED Task Lights

Ultra slim LED task lights are only 2" (51)-wide, just over 1/2" high and available in 3 widths-17, 31 and 44. They come complete with hardware to attach to both metal flipper doors and laminate freestanding hutches. All LED task lights include a dimmer, 10 hour auto shut off, and a 50,000 hour life span. The unit is anodized aluminum with white end caps. ETL listed.

LED Task Light Complete

The LED Task Light Complete includes the light, mounting hardware and power source. It is the equivalent of a regular fluorescent task light.

LED Task Light Main Power Daisy Chain

The Task light with main power provides the light and mounting hardware plus a 60 watt power supply capable of powering more than one light. The power supply can accommodate a maximum of 60 watts. Please see the chart-for appropriate wattages as to not overload the power supply.

Width	Watts
17	9
31	18
44	25

LED Task Light Daisy Chain Jumper Cord

The LED Daisy Chain Jumper Cord Task Light includes the light and mounting hardware, plus an 8" and 30" jumper cord to attach to another task light. The jumper cord can attach to a Daisy Chain Main Power Task Light or another Daisy Chain Jumper Cord Task Light. Each connected light will have an independent power switch.

LED Task Light Occupancy Sensor

The LED Occupancy Sensor will automatically turn off all interlinked fixtures after 30 minutes of no movement. One occupancy sensor can 'control' all the lights that are daisy chained together.

Luma Touch™ LED Desk Lamp

The Luma Touch LED personal task light is specified with either a Round or an Elongated lamp style. The Lamp can be selected with a Freestanding Base, Clamp Mount, or Slatwall Mount. The Slatwall Mount is compatible with Choices and Capture. Its double-arm articulated design allows the user to position the light effortlessly for optimum illumination. The single control responds to the lightest touch to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting

level if turned off and on. The optional Occupancy Sensor turns the lamp on when a user approaches and shuts it off after 30 minutes of inactivity, conserving energy use. Available in three colors. ETL, TAA and BAA certified.

complements any interior. The single control responds to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting level if turned off and on. UL Listed. Available in a Brushed Nickel finish

ORI LED Desk Lamp

The ORI LED Personal Task Light provides 390 Lumens of clear white light right where you need it. It offers a wide range of vertical and rotational adjustment so the user can direct the light where it's needed. The clean, simple and attractive design

Horizontal Wire Manager

The Horizontal Wire Manager accommodates electrical cords and communication cables. It attaches under all work tops and desks. Includes mounting hardware.

Available in Black only.

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26"

of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle. Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

Adjustable Tilt Keyboard and Mouse Platform

The Adjustable Tilt Keyboard and Mouse Platform has a 5 1/4" (133) height adjustment range, a low profile keyboard tray and a swing-out mouse platform. The keyboard mechanism features total knee clearance and simple, spring-assisted height adjustment without the use of knobs or levers. The keyboard tray includes a full-width, gel-filled wrist support for comfort and non-slip pads to keep the keyboard in place.

Keyboard tilt allows for a zero-to-negative 10° tilt capability. Keyboard tilt is easily changed by adjusting a sliding switch mounted on top of the keyboard mechanism. Includes mounting hardware. Available in Black only.

Terms, Policies & Index

<i>Terms & Policies</i>	<i>22</i>
<i>Warranty</i>	<i>25</i>
<i>Index</i>	<i>26-28</i>

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment

differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM* test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:
 - U.S. Mail and UPS, FedEx Shipment:
 - Trendway Corporation
 - 13467 Quincy Street
 - Holland, MI 49424
 - Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1 1/2 yards
Fabric screens	2 yards
Flipper doors	2 1/2 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1 1/2 yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller,

processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Specials Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to,

compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/2 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be

requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original

Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day
On-Site, \$1,200

Field Installation Assistance: 3 Days
On-Site, \$1,800

Field Installation Assistance: 4 Days
On-site, \$2,400

Field Installation Assistance: 5 Days
On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in woodgrain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

- Not Available
- ↕ Non Directional - Pattern will be applied for best yield
- ↓ Down Roll - The height dimension of the tile or component is parallel to the warp of the fabric
- R Railroaded - The height dimension of the tile or component is perpendicular to the warp of the fabric
- * Multi-use fabric (seating and panel) available on Capture, Fabric Screens, and Volo
- ** Not available on Choices Panels, but approved on Choice's Tackboards and Flipper Doors

Down-Roll (↓)

Down-roll means the height dimension of the tile or component is parallel to the warp of the fabric (Fig. A).

Fig. A

Railroad

Railroad means the height dimension of the tile or component is perpendicular to the warp of the fabric (Fig. B).

Fig. B

COM Fabrics

COM fabrics may be applied either Down-roll (Fig. A) or Railroad (Fig. B). When choosing Railroad on COM fabrics please note that 84" (2134)-high Choices and TrendWall Panels cannot be Railroad due to panel fabric being 66" (1676)-wide (Fig. C).

VOLO® MOVABLE WALLS

Volo Movable Walls let the beauty and convenience of modular construction be effortlessly integrated into a variety of commercial applications. Volo offers a unique blend of segmented panel aesthetics with unitized panel construction. This allows designers and specifiers to create almost unlimited wall elevations, yet provides facility managers and installers the ease of fully-unitized, non-progressive functionality.

Panels are shipped complete. Base covers, floor plates and crown are shipped in 12' (3658) lengths except Aluminum Base at 9' length which may be field-trimmed for a clean, permanent appearance.

Electrical and communications cabling can be channeled through wireways located between panels and at the base of each panel. When Volo POWERPAC® Electrical is specified, Trendway will plan and include the electrical components, along with any optional receptacle punchouts.

Volo Moveable Walls consist of five distinct elements:

1. VOLO FRAMES
 - Standard Panel Frame
 - Door Height Panel Frame
2. VOLO DOORS
 - Swing and Sliding Doors
 - Full Height
 - Partial Height
3. VOLO TILES
 - Glazed Center Mount Inserts
 - Inserts
 - Outserts
4. CONNECTORS
5. ELECTRICAL

VOLO FRAMES

Volo frames consist of aluminum vertical (stile) and horizontal (rail) elements. They can be specified in widths from 6" to 48" for Standard Frames or 6" to 60" for Door Height Frames, in 1/8" increments. NOTE: All Glass Frames may be specified up to 60" wide if at least one muntin is included. Frames can accommodate ceiling heights between 88" and 120", in 1/2" increments. Frames can be specified with one of Trendway's powder coat finishes or in a Satin Etch anodized finish. Volo frames are offered in a choice of styles and aesthetic options. All frame types can be specified with one of four base options: Aluminum Base, 2" Vinyl Reveal, 4" and 6" Vinyl Base, and one of two distinct crown styles: Traditional or Reveal.

BASE OPTIONS

The **Aluminum Base** is 1/8" thick and sits proud on the face of the panel frame. (Fig A)

Fig A

The **2" Vinyl Reveal Base** sits inside of the panel's lower rail, for subtle recessed transition to the floor. (Fig B)

Fig B

The **4" Vinyl Base** sits proud of the panel's lower rail. This option most closely resembles traditional building cove base. (Fig C)

Fig C

The **6" Vinyl Base** option is similar to the 4" base, but the taller profile can accommodate base modular power access. (Fig D)

Fig D

CEILING CROWN OPTIONS

The **Traditional Crown** is a capture style in which the Crown is outside of the upper horizontal rail. The Traditional Crown should be specified when using Volo in conjunction with TrendWall. (Fig E)

Fig E

The **Reveal Crown** sits inside of the top horizontal rail, giving a simple, modern feel and diminished visibility of attachment elements. (Fig F)

Fig F

FRAME TYPES

Standard Panel Frames

Standard Panel Frames may be segmented in any combination of tiles, up to 7 tiles per side. Different tile configurations can be specified

for each side of a frame. Single-sided muntins are used to support tiles that do not have a corresponding tile on the opposite side. Frames have been designed to accept specific bases. Order the frame model that was created for the specific base desired.

Example: for a 4'x8' panel with Aluminum Base or 2" Vinyl Reveal Base, order the Standard Panel Frame for Aluminum Base or 2" Vinyl Reveal Base. Catalog number VFV252R48096.

Door Height Panel Frames

Door Height Panel Frames come standard with one muntin rail pre-placed at door height, which can be selected at 7'-0", 8'-0" or 9'-0". These frames are designed to work with Partial Height Door sections. Door Height Frames can be segmented below the door height, but not above.

Doors

Door Units are available as either Sliding or Swing and in Full Height or Partial Height (partial height doors are offered at 7', 8' and 9'). Doors can be specified in Frameless Glass (full-height only), Aluminum Framed or Wood. Aluminum Framed Doors are available in four stile height/ rail width combinations:

- 2-2-2: 2" Vertical Stiles and 2" Horizontal Rails (Sliding Style only)

- 2-2-4: 2" Vertical Stiles and 2" Top Horizontal Rail paired with a 4" Bottom Horizontal Rail (Sliding Style only)

- 4-4-4: 4" Vertical Stiles and 4" Horizontal Rails

- 4-4-10: 4" Vertical Stiles and 4" Top Horizontal Rail paired with a 10" Bottom Horizontal Rail (ADA compliant)

Wood Frame Doors are available in Flush and Full Lite Styles (8-4-10) and are available in both HPL and Veneer surface materials. The Full Lite door has 8" vertical stiles, 4" top horizontal rail and 10" bottom horizontal rail.

Sliding Door Hardware Options

Aluminum and wood Doors are available with several hardware options:

- BD – Blank Door: The BD door must be machined/drilled on-site. No pulls.
- BDL – Blank Door with Lock: The BDL (non SFIC), BDLICWOC – SFIC less core door must be machined/drilled on-site. No pulls. Lock included.
- 18" Post Pull: The 18" Post Pull is 12" centerline-to-centerline of mounting hardware (18" overall), and is available in Non-Locking (18N) and Locking (18L) (non SFIC), 18LICWOC – SFIC less core.
- 36" Post Pull: The 36" Post Pull is 22.5" centerline-to-centerline of mounting hardware (36" overall) and is available in Non-Locking (36N) and Locking (36L) (non SFIC), 36LICWOC – SFIC less core.
- 72" Ladder Pull: The 72" Ladder Pull is 72" overall and is available in Non-Locking (72N) and Locking (72L). The Locking 72L is not available on the 222 and 224 door.

All pulls come in a Satin Chrome 626 finish.

An interchangeable core or "IC" is a compact keying mechanism in a specific "small format" figure-eight shape. Unlike a standard key cylinder, which is accessible for combining only via locking device disassembly, an interchangeable mechanism relies upon a specialized "Control" key for insertion and extraction of the essential (or "core") combining components.

Frameless Glass Sliding Door

Note: When ordering 18L and 36L the lock is separate from the pull and is accomplished by incorporating a Patch Lock. Finish on the Patch Lock cover is stainless steel effect (provided by the manufacturer). Finish provides a similar look to the brushed Satin Chrome 626 of the pulls and lock cylinder.

Aluminum Framed and Wood Sliding Door

The 18" and 36" pulls feature an Adams Rite "C" keyway mortise lockset that latches into the Door Frame. The 72" Locking Ladder pull features a Dorma "C" keyway and throws a lock rod into a dustless floor grommet. This option does require floor machining at the job site by a certified installer.

Swing Door Hardware Options

Aluminum and Wood framed swing doors are available with several hardware options:

- NH – No Hardware: This option allows for COM lever sets. Doors are not machined. Doors must be drilled/machined to accept COM hardware.
- LP - Lever Passage set is non-locking
- LL - Lever Lock (non SFIC) set is random key locking
- LLICWOC – SFIC less core

An interchangeable core or "IC" is a compact keying mechanism in a specific "small format" figure-eight shape. Unlike a standard key cylinder, which is accessible for combining only via locking device disassembly, an interchangeable mechanism relies upon a specialized "Control" key for insertion and extraction of the essential (or "core") combining components.

Volo Tiles:

Volo Tiles are available in three styles:

- Center Mount Glazed
- Inserts
- Outserts

Center Mount Glazing Tiles

- Provide transparency or translucence anywhere in the panel
- 1/4" thick glazing material
- 5 standard glazing
 - o Clear Tempered
 - o Frost Tempered
 - o Low Iron Tempered
 - o Clear Laminate
 - o Ecoresin
- Widths: 6" – 60" in 1/8" increments for Door Height Frames NOTE: All Glass Frames may be specified up to 60" wide if at least one muntin is included.
- Lengths: 8" – 114" in 1/2" increments (Eco Resin is available in a maximum width of 48" and a height of 74 1/4")

Insert Tiles

- Recessed 1/16" from face of frame and leave the entire aluminum frame exposed.
- Constructed from a low VOC MDF 1/2" material (except Tackable Tiles are cellulose fiber material)
- Available in several surface material choices:
 - o Vinyl
 - o HPL
 - o Tackable (Fabric)
 - o Veneer
- Widths: 6" – 48" in 1/8" increments
- Heights: 8" – 114" in 1/2" increments

Outsert Tiles

- Sit 1/4" proud of the frame, leaving 1/4" reveal of the frame exposed.
 - Constructed from a low VOC MDF 3/4" material
 - Upper and Lower Outserts must be specified depending on the location on the frame
- Lower Outsert Tiles are required for the lowest tile position, where a tile installs on the base frame.
- Lower Outsert Tiles must be specified for this position to allow the full range of height adjustment for the panel.
- Available in several surface material choices:
 - o HPL
 - o Veneer
 - o Back-Painted Glass Marker Boards
 - o Metal-Backed-Painted Glass Marker Boards
 - Widths: 6" – 48" in 1/8" increments
 - Heights: 8" – 114" in 1/2" increments

Volo Horizontal Connectors

Volo Horizontal Connectors are the horizontal framing elements of the system that connect the panels to the ceiling and floors. These elements are:

Ceiling Crown

- Traditional and Reveal
- Trim Colors: All Systems Paints and Satin Etch

Floor Runner

- Aluminum Base and 2" Vinyl Reveal base panels come with the Floor Runner attached
- Ordered separately when specifying 4" and 6" Vinyl Base
- Trim Color: Available in all Systems Paints and Satin Etch.

Base Trim

All bases are field cut. The Aluminum Base ships in 9' lengths. All three Vinyl Bases ship in 12' lengths.

- Aluminum Base is offered in all trim colors
- 2" Vinyl Reveal Base is offered in 2 Trim Colors (Charcoal (K) and Shadow Silver (SS))
- 4" Vinyl Base is offered in all smooth trim colors
- 6" Vinyl Base allows for base-way power access and is offered in all smooth trim colors

Panel Extender

Allows the height of the panel to extend by 1" at the base or crown.

Volo Vertical Connectors

Volo Vertical Connectors are the elements that finish Volo panel runs, join them to existing building walls or join two or more Volo Panels. Typical conditions are:

Wall Starts

Wall Starts create a clean finished connection with an existing building wall.

- Reveal
- Adjustable

End of Run

End of Runs are used to create a finished panel when it does not join another panel or abut an existing building element.

In Line Connectors

In Line connectors include covers for electrical punch-outs or open duplex boxes to accommodate hardware power.

- 2-Way Power Spacer
- 3-Way Power Spacer

Transition Posts

Transition Posts provide easy connectivity and clean lines when transitioning between Volo Wall to Clear Wall. (Fig. 1)

Full Height Glass or Vinyl

Volo Frameless Wall

A Frameless Wall must be specified and used as a kit of parts consisting of: Inserts and Framing Elements.

Inserts are either 1/2" or 3/8" tempered glass that can be specified to any width from 8" to 48" in 1/8" increments. Ceiling Height for 1/2" glass can be specified up to 10' and 3/8" glass can be specified up to 9' in 1/8" increments. They come standard in four distinct glazing color options: Clear, Low Iron, Frost or Clear Laminated.

Framing Elements

The Vertical Adapter attaches to either drywall or a Volo Post or Door Section. When attaching to drywall, the optional foam tape shipped with the Vertical Adapter must be applied and used as a seal/light block on the building wall. 1/2" glass seals ship installed in the runners and vertical adapter to provide a secure fit for the inserts. When ordering 3/8" glass, you will need to order the additional seal model SIVSEAL38GLASS to change out in the field.

Monolithic Glass Panel for Aluminum Base or 2" Vinyl Reveal Base

A Monolithic Glass Panel includes the frame complete with center-mounted 1/4" monolithic Glazing Tile. Base and Crown are specified separately. There is a specific Monolithic Panel designed for each base style. Order the Panel model designated for your desired base style.

Volo frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Panels can be ordered in heights ranging from 7'4" to 10' in

1/2" increments and widths ranging from 6" to 48" in 1/8" increments.

Panel widths are specified using a nominal dimension that is center-of-panel-clip to center-of-panel-clip. Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6-3/8" is specified as 42.375". Actual panel dimensions are slightly less. Ceiling height is specified using the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 9'5-1/2" is

specified as 113.5". Actual panels will be slightly shorter.

Aluminum and 2" Vinyl Bases offer +/-1" of adjustment. The Reveal Crown offers +1" and -1/2". Combined they allow for a total adjustment of 3-1/2". When specifying the Aluminum Base and 2" Vinyl Base, the floor runner comes pre-attached and carpet teeth are supplied. Carpet Teeth are designed to grab the carpet for added stability. For hard floor installations, substitute double sided tape (tape purchased separately).

Monolithic Glass Panel for 6" Vinyl Base

A Monolithic Glass Panel includes the frame complete with center-mounted 1/4" monolithic Glazing Tile. Base and Crown are specified separately. There is a specific Monolithic Panel designed for each base style. Order the Panel model designated for your desired base style.

Volo frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Panels can be ordered in heights ranging from 7'4" to 10' in

1/2" increments and widths ranging from 6" to 48" in 1/8" increments.

Panel widths are specified using a nominal dimension that is center-of-panel-clip to center-of-panel-clip. Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6-3/8" is specified as 42.375". Actual panel dimensions are slightly less. Ceiling height is specified using the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 9'5-1/2" is

specified as 113.5". Actual panels will be slightly shorter.

6" Vinyl Base offers +1" and -1/2" of adjustment. The Reveal Crown offers +1" and -1/2". Combined they allow for a total adjustment of 3-1/2". When specifying the 6" Vinyl Base, the floor runner and crown must be specified separately. Carpet teeth are supplied. Carpet Teeth are designed to grab the carpet for added stability. For hard floor installations, substitute double sided tape (tape purchased separately).

Standard Panel Frames for Aluminum Base or 2" Vinyl Reveal Base

Frames have been designed to accept specific bases. Order the same model that was created to accept the specific base desired.

Volo frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Frames can be ordered in heights ranging from 7' 4" to 10' in 1/2" increments and widths ranging from 6" to 48" in 1/8" increments. Frames can accept virtually any combination of tiles, starting at the minimum 8" high tile up to the maximum 114" high tile for a monolithic look at the maximum 120" ceiling height.

Panel Width: Frames are specified using a nominal frame dimension that is center-of-panel clip to center-of-panel clip. Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6-3/8" is specified as 42.375". Actual panel frame dimensions are slightly less.

Ceiling height is specified using the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 9' 5 1/2" is specified as 113.5". Actual frames will be slightly shorter.

The Aluminum Base and 2" Vinyl Reveal offers +/-1" of adjustment. The Reveal Crown (specified separately) offers +1" and -1/2". Combined they allow for a total adjustment of 3 1/2".

When specifying the Aluminum Base and 2" Vinyl Reveal Base, the floor runner comes pre-attached and carpet teeth will be supplied. Carpet Teeth are designed to grab the carpet so that the panel doesn't move. For hard floor installations, use double sided tape instead (tape purchased separately).

Note: These are Frames only. To complete the desired panel, tiles must be specified separately.

Note: Optional horizontal cross rail shown dependent upon tile size selection.

Standard Panel Frames for 4" Vinyl Base

Frames have been designed to accept specific crown and base configurations. Order the frame model that was created to accept the base desired.

Volo Standard Panel Frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Frames can be ordered in heights ranging from 7'4" to 10' in 1/2" increments and widths ranging from 6" to 48" in 1/8" increments. Frames can accept virtually any combination of tiles, starting at the minimum 8" high tile up to the maximum

114" high tile for a monolithic look at the maximum 120" ceiling height.

Panel Width: Frames are specified using a nominal frame dimension that is center-of-panel clip to center-of-panel clip. Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6-3/8" is specified as 42.375". Actual panel frame dimensions are slightly less.

Ceiling height is specified using the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 9' 5-1/2" is specified

as 113.5". Actual frames will be slightly shorter.

The 4" Vinyl Base offers +1" and -1/2" of adjustment. The Reveal Crown offers +1" and -1/2". Combined they allow for a total adjustment of 3".

Note: Floor Runner and Reveal Crown must be specified separately.

Note: These are Frames only. To complete the desired panel, tiles must be specified separately.

Standard Panel Frame for 4" Vinyl Base

Note: Optional horizontal cross rail shown dependent upon tile size selection.

Door Height Panel Frame for Aluminum Base or 2" Vinyl Reveal Base

Door Height Frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Frames can be ordered in heights ranging from 8' to 10' in 1/2" increments and widths ranging from 6" to 60" in 1/8" increments.

Door Height frames come with one horizontal cross rail pre-placed at the selected door height. Door Height frames can be segmented below the door height, but not above. These panels are designed to be placed adjacent to Partial Height Door Frames for consistent top tile dimensioning.

The Aluminum Base or 2" Vinyl Reveal Base offers + or -1" of adjustment. The Reveal Crown offers +1" or -1/2". Combined they allow for a total vertical adjustment of 3 1/2".

Specify the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 8'6 1/2" is specified as 102.5". Actual frames will be slightly shorter.

Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6 - 3/8" is specified as 42.375". Actual panel frame dimensions are slightly less.

When specifying the Aluminum Base and 2" Vinyl Reveal Base, the floor runner comes pre-attached and carpet teeth will be supplied. Carpet Teeth are designed to grab the carpet so that the panel doesn't move. For hard floor installations, use double sided tape instead (tape purchased separately).

Note: Reveal Crown must be specified separately.

Note: These are Frames only. To complete the desired panel, tiles must be specified separately.

Door Height Panel Frame for 4" Vinyl Base

Door Height Panel Frames are constructed of aluminum vertical (stile) and horizontal (rail) elements. Frames can be ordered in heights ranging from 8' to 10' in 1/2" increments and widths ranging from 6" to 60" in 1/8" increments.

Door Height Panel Frames come with one horizontal cross rail pre-placed at the selected door height. Door Height Panel Frames can only be segmented below the door height, but not above. These panels are designed to be placed adjacent to Partial Height Door Frames for consistent top tile dimensioning.

The 4" Vinyl Base offers +1 or -1/2" of adjustment. The Reveal Crown offers +1" or -1/2". Combined they allow for a total adjustment of 3".

Note: Floor Runner and Reveal Ceiling Crown must be specified separately.

Specify the actual ceiling height in inches, using a decimal to represent fractions in 1/2" increments. Example: 8'6-3/4" is specified as 102.5". Round down to the nearest 1/2" increment to allow for height adjustability.

Actual frames will be slightly shorter.

Specify the actual panel width in inches, using a decimal to represent fractions in 1/8" increments. Example: 3'6-3/8" is specified as 42.375". Actual panel frame dimensions are slightly less.

Note: These are Frames only. To complete the desired panel, tiles must be specified separately.

Volo Sliding Doors

<u><i>Frameless Glass Sliding Door Section - Full Height</i></u>	<u>32</u>
<u><i>Aluminum Framed Sliding Door Section - Full & Partial Height</i></u>	<u>33</u>
<u><i>Wood Sliding Door Section - Full & Partial Height</i></u>	<u>37</u>
<u><i>Sliding Door Outsert Kit</i></u>	<u>40</u>

Volo Swing Doors

<u><i>Swing Door Frame – Full & Partial Height</i></u>	<u>41</u>
<u><i>Aluminum Framed Swing Door - Full & Partial Height</i></u>	<u>43</u>
<u><i>Wood Swing Door - Full & Partial Height</i></u>	<u>45</u>

Frameless Glass Sliding Door Section – Full Height

Frameless Glass Sliding Doors are 1/2" thick and available at Full Height Only. 42" width is available up to 9'. 48" width available at 8' height ONLY. Doors are specified as either Right or Left opening as viewed from the exterior of the space.

Frameless Glass Sliding Doors are available with the same three glazing options offered for panel frames. All tempered - Clear, Frost or Low Iron.

Hardware Options:

Frameless Glass Doors are available with three pull options - both locking and non-locking versions of each. All door pulls are a Satin Chrome 626 finish.

- 18N – 18" Post Pull non locking
- 18L* – 18" Post Pull locking
- 36N – 36" Post Pull non locking
- 36L* – 36" Post Pull locking
- 72N – 72" Ladder Pull non locking
- 72L – 72" Ladder Pull locking (locks into floor)

*Note: When ordering 18L & 36L the lock is separate from the pull and is accomplished by incorporating a Patch Lock.

Note: Finish on the Patch Lock cover is stainless steel effect (provided by the manufacturer). Finish provides a similar look to the Satin Chrome 626 finish of the pulls and lock cylinder.

Soft Close Mechanism:

Frameless glass sliding door design supports soft close or dual action soft close AND soft open capability. Order 1 SC or 2 SC accordingly.

Door Size	Actual Door Width	Clear Opening
42" x 8'	40 3/4"	34"
42" x 9'	40 3/4"	34"
48" x 8'	46 3/4"	40"

Trendway Patch Lock – SFIC Point of View Statement

The Trendway Patch Lock has a European Cylinder, Schlage C-5 pin, Keyed Differently / Random Key. The European Core is not available with SFIC or any type of interchangeable core. Alternate keyway options are very limited, and are all COM.

If the client requires a different core, the most efficient and cost effective way to do so is to swap out the supplied core in the field with a COM core. You may also contact your local locksmith to rekey.

Note: Switching a core requires the removal of 3 screws. The Euro Cylinder and Keys cost about \$40 COM. The current Supplier Model is Hafele PN 916.19.11. The unit has a 2.56" cylinder length.

Swing Door Frames: Full Height

Volo Full Height Swing Door Frames are constructed of aluminum vertical (stile) and horizontal (rail) elements and are designed to work with either the Traditional or Reveal Ceiling Crown, but can only accept Full Height Swing Doors (specified separately).

Volo Swing Door Frames are available in all four base styles: Aluminum Base, 2" Vinyl Reveal, 4" and 6" Vinyl base. Remember to specify the base style that matches the adjacent panels.

Frames can be ordered in heights ranging from 7'4" to 10' in ½" increments.

Swing Door Frames offer up to 2" of total height adjustment.

Specify the actual ceiling height in inches, using a decimal to represent fractions in one half inch increments. Example: 7'6½" is specified as 90.5".

Note: These are Door Frames only. Swing Doors must be specified separately. The Actual Width of the Swing Door Frame is 39".

Aluminum Framed Swing Door – Full Height

Aluminum Framed Doors are offered in two stile/rail combinations:

- 4-4-4: 4" Vertical Stiles and 4" Horizontal Rails
- 4-4-10: 4" Vertical Stiles Top Rails and 10" Horizontal Rails

Aluminum Framed Doors are handed and need to be specified as either Right or Left opening as viewed from the exterior of the space.

Aluminum Framed Doors are available with the same glazing options offered for panel frames.

Full Height Doors MUST match the NOMINAL Height of the corresponding Full Height Door Frame. Example: a Full Height Door Frame that has a ceiling height of 7'6½" = 90.5" would require a Full Height Swing Door = 90.5" high.

Hardware Options:

All door levers are a brushed chrome finish.

- NH - No Hardware: Allows for COM lever sets. Standard door prep identified on Volo Aluminum Framed Swing Door cut sheet.
- LP - Lever Passage set non-locking

- LL - Lever Lock set random key locking (non SFIC)
- LLICWOC – Lever Lock set SFIC less core

Center Mount Glazing Tiles

Center Mount Glazing Tiles provide transparency or translucency for a Volo panel. Glazing tiles are Class A fire rated when specified with tempered glass.

Center Mount Glazing Tiles are available in widths up to 60" and in heights up to 114".

Note: 48 1/8" to 60" Center Mount Glazing Tiles are only available in heights up to 96".

Laminate Lower Outsert Tile

Laminate Lower Outserts sit 1/4" proud of the frame and leave only 1/4" of surrounding framing exposed.

Lower Outsert Tiles are required for the lowest tile position, where a tile installs on the base frame. Lower Tiles must be specified for this position to allow the full range of height adjustment for the panel.

Glass Marker Board – Steel Backed Lower Outsert Tile

Glass Marker Board Lower Outserts sit ¼" proud of the frame and leaves ¼" of surrounding frame exposed.

Lower Outsert Tiles are required for the lowest tile position, where a tile installs on the base frame. Lower Tiles must be specified for this position to allow the full range of height adjustment for the panel.

Steel backing enables the use of strong (e.g., rare earth) magnets to attach items to the glass tile.

Surface Materials

Glass Marker Board – Steel Backed Upper Outsert Tile

Glass Marker Board Upper Outserts sit ¼" proud of the frame and leaves ¼" of surrounding frame exposed.

Space Planning

Upper Outsert Tiles are required for all tile positions above the lowest position. (Lower Tiles must be specified for the lowest position where a tile installs on the base frame.)

Monolithic Panels

Steel backing enables the use of strong (e.g., rare earth) magnets to attach items to the glass tile.

Volo Connectors

Horizontal Frame Connectors **80**

Vertical Frame Connectors **81**

Volo Horizontal Connectors

Horizontal Connectors are the horizontal framing elements of the system that connect the panels to the ceiling and floors.

Ceiling Crown

Ceiling Crown is available in two styles - Traditional and Reveal. Comes in 12' lengths.

Panel Extender

Allows the height of the panel to extend by 1" at the base or crown.

Base

Aluminum Base is available in 9' lengths, Reveal and Vinyl Base is available in 12' lengths to create a seamless run. Order base to match the frame style. The 6" Traditional Base allows for base-way power access.

Floor Runner

Floor Runner needs to be ordered when specifying 4" and 6" base.

90° Corner

A preformed 90° Corner Base is available to provide a finished appearance for the 4" or 6" Base only.

End Cap

End Caps are available to provide a finished appearance on the 4" and 6" Base in an End of Run condition.

Note: End Caps are included when End of Run connectors are ordered. They are also included with all door frames.

Note: The 6" Base End Cap is handed. Right or Left hand is determined by whether the part would be on your right or left hand if you faced the End Caps in their installed position.

Volo Ceiling Grid Blocks

Ceiling Grid Blocks are required to attach the Crown to Traditional/reveal tile type ceilings. Specify one for every 2' of Wall run. Grid Blocks are sized for standard 1" and

9/16" ceiling grids. Verify the tile recess of the ceiling tiles to determine which Grid Block is required. (Tile recess is the measure of how much the ceiling tile sits proud of its grid.) Grid Blocks are offered for two tile recess dimensions, 1/4" (16) and 3/8" (22). **Available in Stucco finish color only.**

For Traditional Crown with 1" ceiling grid, specify VTGBLOCK14 for a 1/4" tile recess, VTGBLOCK38 for a 3/8" recess.

For Traditional Crown with 9/16" ceiling grid, specify VTGBLOCKS14 for a 1/4" tile recess, VTGBLOCKS38 for a 3/8" recess

For Reveal Crown with 1" ceiling grid, specify VRGBLOCK14 for a 1/4" tile recess, VRGBLOCK38 for a 3/8" recess.

For Reveal Crown with 9/16" ceiling grid, specify VRGBLOCKS14 for a 1/4" tile recess, VRGBLOCKS38 for a 3/8" recess

Special sizes available upon request.

Volo Vertical Connectors

Vertical Connectors are the elements that finish Volo panel runs, join them to existing building walls or join two or more Volo Panels.

Wall Starts

Wall Starts create a clean finished connection with an existing building wall.

Note: Wood Blocking is required only when attaching a swing door to an adjustable wall start.

End of Run

End of runs are used to create a finished panel when it does not join another panel or abut an existing building element.

Note: End Caps are included when End of Run connectors are ordered. They are also included with all door frames.

Inline Connectors

Inline Connectors include covers for electrical punch-outs or open duplex boxes to accommodate hardwire power.

Modular power may not be utilized in vertical Inline Connectors; power must be hard-wired by a qualified electrician.

Punch-out heights available are:

- 6" (152) – Data Height
 - 18" (407) – Standard Height Power
 - 32" (813) – Work Height Power
 - 45" (1219) – Switch Height
 - 72" (1829) – AV Height
- Note: Punch-out can only be on one side.

Punch-out Description:

- C0B Switch Height w/Box
- C2AB Standard Height w/Box
- C3B Work Height w/Box
- C4B Data Height w/Box
- C5AB Standard and Work Height w/Box
- C6AB Standard and Data Height w/Box
- C7B Data and Work Height w/Box
- C8B Special Punch out location w/Box
- AVB AV Height w/Box
- AVC5AB AV, Standard and Work Height w/Box
- AVC6AB AV, Data and Standard Height w/Box

Wood Blocks

Wood Blocks are used to attach panels to a fixed wall at an angle other than 90 degrees. The desired angle is cut on site. These wood blocks support projects where field measurements of the wall angle are not available when the order is placed. Confirm there are capabilities to cut the angle on site during installation.

Angle Wall Start Wood Blocks

Angle Wall Start Wood Blocks can be specified in a range of degrees of angle. They are used to accommodate attachment to fixed wall conditions. (Wall Start Model - VCASB10).

Angle Wall Start Wood Blocks (VCASB10) are to be considered as an extension of the architecture, not as part of the wall system. Crown & Wall Start connectors abut to these Blocks.

Specify angle between 3 degrees - 87 degrees. Detailed drawing must be submitted with order.

All Wood Blocks are specified in one of our standard smooth paint finishes. (Includes PA Platinum - Smooth)

Angle Conditions (Panel-to-Panel) Wood Blocks

Angle Panel-to-Panel Wood Blocks can be specified in a range of degrees of angle.

They are used to attaching panels together at a range of angles other than 90 degrees. Panel-to-panel (Model - VCVS2W)

Panel-to-Panel Angle Blocks (VCVS2W) maintain 1.75" center-of-clip to center-of-wood-block dimension for lay-

out planning purposes. They ship with two Stiles cut to size and attached to the Wood Block, and with 10 panel-to-panel connectors. Specify ceiling height in 1/2" increments.

Specify angle between 3 degrees - 87 degrees. Detailed drawing must be submitted with order.

All Wood Blocks are specified in one of our standard smooth paint finishes. (Includes PA Platinum - Smooth).

Transition Posts

All Transition Posts are made from the highest-grade extruded aluminum. They can be specified in Anodized finish or in one of our Standard or Premium finishes.

Note: All vertical posts are field cut to ensure the best possible fit and finish.

Transition Posts provide easy connectivity and clean lines when transitioning between Volo Wall to Clear Wall.

Power Block

The Power Block offers two distribution connections at each end and distributes up to four 20amp circuits. It is UL listed and CSA certified. The Power Block with base cover includes one 6" high base cover that can be cut to fit a specific application. The Base cover has a single (VPBB6INS) or double (VPBB6IND) knock-out vertically centered at 24" from each end.

Power Blocks can only be used in conjunction with 6" base panel.

Ceiling Feed

The Ceiling Feed connects a building's electrical supply from a ceiling access to the base electrical system. It distributes up to four 20amp circuits and attaches directly to a Power Block at any one of the four distribution connections. UL listed and CSA certified.

End Mount Base Feed

The End Mount Base Feed is an external electrical supply solution designed to bridge the building electrical with the Volo electrical system. The modular end of the base feed occupies one duplex location on the power block.

Electrical Hardwire Box

The Hardwire Box is a custom size and comes with 2 mounting brackets. UL Listed.

Power Duplexes

The TFS Power Duplex plugs into the pre-wired Floor Box. Each Power Duplex is clearly marked for Circuit I, II, III, or IVΔ access. Circuit IVΔ is marked in orange to designate it as a dedicated circuit. Power Duplexes are sold individually or in boxes of 6.

Electrical End Blocks (SITTEEB) connect one PowerPac connector to another within a modular electrical run. One is required at the end of each run.

Terms, Policies & Index

Terms & Policies 90

Index 94

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 8 business days for Express orders, 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment

of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/ COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care).
4. If the material requested is not in the COM Library, customer must submit a *COM Test Request* on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:
 - U.S. Mail Shipment and UPS, FedEx Shipment:
 - Trendway Corporation
 - 13467 Quincy Street
 - Holland, MI 49424
 - Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway.

Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume responsibility for any spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Specials Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Custom Solutions/ Coordinator or email with specifier color number and follow up with a sample.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color tracking form, sent from Trendway providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Solutions/ Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- Customer Color program is not available within Express lead-time.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Specials Request form for details when re-ordering a COM, supply pre-matched finish number.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the

customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges $\frac{1}{4}$ of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 4 hours) will be billed at \$50 per hour

after the initial 4 hour unloading period.

- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.
- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care. Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 15 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If mate-

rial is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, Express products, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.**

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day
On-Site, \$1,200

Field Installation Assistance: 3 Days
On-Site, \$1,800

Field Installation Assistance: 4 Days
On-site, \$2,400

Field Installation Assistance: 5 Days
On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Product	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components 	<ul style="list-style-type: none"> •System Textiles •Finishes 	
3 Year	<ul style="list-style-type: none"> •Veneer •Magnetic Ballasts 		<ul style="list-style-type: none"> •Trim •Foam •Upholstery •Arm Pads
2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product •Rexxi™ Chair
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.

TrendWall®

PRICE LIST | DECEMBER 2021

For Canadian pricing, please visit [Trenddealer](#) to see the current conversion rate being used or contact your local Trendway Representative.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

- Not Available
- ↕ Non Directional - Pattern will be applied for best yield
- ↓ Down Roll - The height dimension of the tile or component is parallel to the warp of the fabric
- R Railroaded - The height dimension of the tile or component is perpendicular to the warp of the fabric
- * Multi-use fabric (seating and panel) available on Capture, Fabric Screens, and Volo
- ** Not available on Choices Panels, but approved on Choice's Tackboards and Flipper Doors

Down-Roll (↓)

Down-roll means the height dimension of the tile or component is parallel to the warp of the fabric (Fig. A).

Fig. A

COM Fabrics

COM fabrics may be applied either Down-roll (Fig. A) or Railroad (Fig. B). When choosing Railroad on COM fabrics please note that 84" (2134)-high Choices and TrendWall Panels cannot be Railroad due to panel fabric being 66" (1676)-wide (Fig. C).

Railroad

Railroad means the height dimension of the tile or component is perpendicular to the warp of the fabric (Fig. B).

Standard Systems Finishes

Trendway standard paints include smooth and textured styles in our six trim colors. If textured or premium finishes are specified, non-painted components will default to the coordinating standard smooth trim color. Non-painted components include, but are not limited to, base trim, window moldings, special angle conditions, etc.

Systems Paints and Trim

K	Charcoal	TK	Textured Charcoal
DW	Designer White	TDW	Textured Designer White
G	Gray	TG	Textured Gray

V49	Textured Stucco	Stucco

Note: Lite frame and louvers match panel trim color.

Glazing

Note: Due to the nature of the material and its manufacturing process, glass may exhibit minor imperfections. The presence of a limited amount of them is considered acceptable quality under industry standards. Trendway follows ASTM C1036 Q3 Industry Standards as a reference for all glass quality guidelines.

TrendWall

TrendWall can be specified with or without Trendway-supplied glazing. If specified to be supplied by Trendway, the glazing will be shipped separately in its own crating to be installed AFTER the panels have been installed.

Note: If glazing is to be supplied by Trendway, there is a crating upcharge for orders less than 10 pieces. Pricing is as follows:

- Eastern Region – \$364 list
- Southern Region – \$468 list
- Western Region (including all of Canada) – \$676 list

Trendway offers several glazing options for its glass panels, doors and transoms.

- GN – No Glazing, supplied in the field
- G2 – Tempered Glass
- G3 – Safety Glass

TrendWall Swing Door & Panels – Glass Options

Safety Glass G2

TRENDWALL MOVEABLE WALLS

TrendWall panels are the first floor-to-ceiling panels to integrate fully with the open plan office.

Panels are shipped complete. Base covers, floor plates and crown are shipped in 12' (3658) lengths which may be field trimmed for a clean, permanent appearance. When a corner or end condition is specified, Trendway includes all needed trim kits.

Electrical and communications needs can be channeled through wireways located between panels behind pilaster and at the base of each panel. When TrendWall POWERPAC® Electrical is specified, Trendway will plan and include the electrical components and the optional pilaster covers with switch or receptacle punch-outs.

PANEL TYPES

Vinyl Panels

Vinyl surfaced TrendWall panels have welded steel frames with vinyl laminated to gypsum surfaces. The core is filled with therma-fiber. The Vinyl Panel provides an attractive, easily maintained panel to meet any layout requirement.

Vinyl Panels are available in a wide range of solid colors.

Fabric Panels

Fabric Panels are made with the same construction as the Vinyl Panels. The surface is laminated with fabric. They are available in five fabric grades and a wide variety of colors.

Vinyl/Fabric Panels

Vinyl/Fabric Panels offer the advantages of the durability of vinyl on one side of the panel and aesthetics of fabric on the other. A typical application would be a shared wall between a storage room and an executive office, with the fabric side facing the office. These panels are available in the full range of vinyls and fabrics.

Glazed Panels –

Hi Lite, Full Lite, Full Lite to Door Height and Window Lite, and Sliding Window Lite

All Glazed Panels have steel frame construction and have a small section at the bottom of vinyl or fabric. Panels are shipped without glass and include an extruded vinyl molding designed to accommodate glass thickness of 1/4" (6).

The Hi Lite Panel has an opening starting at the 6'8" (2032) or 7' (2134) door height and extending to the crown. The Full Lite Panel has an opening that extends from just above the base to the crown. The Full Lite to Door Height Panel has an opening that starts at just above the base but only extends to door height 6'8" (2032) and 7' (2134). The Window Lite Panel has a standard opening which starts at 42 1/2" (1067) above the floor and extends to door height. Optional sized openings are available and should be specified on the order form. All glass is Tempered Glass.

Glazing Options

- Trendway offers three ways to add glazing to Glazed Panels and doors.
- GN – No Glazing, supplied in the field
 - G2 – Tempered Glass
 - G3 – Frost or Clear Laminated Glass

Door Sections

Door Sections are available a door only (3.5" wide), or a door with side panel (4" wide). Side Panels are vinyl or fabric. Standard doors are vinyl surfaced, 3" (914) by 6'8" (2032) or 7' (2134) by 1 3/4" (44)-thick hollow core. Door Panels are shipped with doors pre-hung in steel jambs with hinges. Six standard swing door styles are available: Flush, Flush with Standard Louver, Half Lite, Half Lite with Louver, Vision Lite, or solid core door with Full Lite (glass not included in any door). Optional doors and hardware may be specified by contacting Trendway Customer Care at 1-866-584-0201. Doors and Transoms are also available in special finishes.

Wall Filler Panels

Wall Filler Panels are available to compensate for uneven wall conditions without shimming. A wall filler panel has a vinyl or fabric surface laminated to a core of foam and gypsum. The filler panel is placed at the end of a run of panels that abuts a fixed wall. Because one end of the panel can be easily field trimmed, it can compensate for inexact measurements or uneven wall conditions.

PANEL CONNECTIONS

The TrendWall Panel System has one-piece connectors that slide into slots in the panel's side rails. Connectors are designed to accommodate the laying-in of electrical and communications wiring while still allowing the removal of the panel without disturbing the wiring. All panels are shipped with the connectors required for attaching one panel to another.

Corner Connectors will be included for each corner condition that is specified in the panel layout. If the layout requires angles other than 180° or 90°, you can specify the angle required on the order. Where special requirements are needed, you should send a copy of the layout along with your order, noting the areas requiring special conditions. There will be an extra charge for these special conditions.

Pilasters

Pilasters are available in Standard or Enhanced styles and are designed to snap into place between panels to conceal the panel connectors and wiring. Panels include two matching pilasters, one for each side of the panel. Standard punchouts are available to accommodate electrical, data and switches. Pilasters are available in all vinyl finishes and all fabric colors.

Crown and Vinyl Base

All Crown and Vinyl Base are specified during layout and ordered as line items. Crown and Vinyl Base are shipped in 6' (1829) or 12' (3658) lengths and must be trimmed at the site if necessary. Crown Corners are pre-formed.

ELECTRICAL COMPONENTS

Power Modules

Power Modules are available in three styles to bring power access to the area between the panels at varying heights. One end has a connector for attachment to Pass-Through Harnesses and the other end has a distribution block to accept Power Duplexes, one on each side.

Power Duplexes

The Power Duplex plugs into the distribution block on the Power Module to access the power circuit. Each Power Duplex is clearly marked for Circuit I, II, III or IVΔ access. Circuit IVΔ has an orange numeral and delta symbol (Δ) to indicate it accesses the dedicated circuit.

Top Feed

The CFTP Ceiling Feed supplies power from the ceiling to the distribution block on the Power Module.

Pass-Through Harnesses

Pass-Through Harnesses bring power from a feed point to a distribution point at a Power Module. Harnesses are available in lengths from 24" (610) to 141" (3581) in 3" (76) increments.

Electrical boxes for hardwire and switch patch:

- Appleton M1-250 (Orderable through Trendway #SITM1250)
- Bowers 1-MBS
- Raco 562
- Thomas & Betts GW-125-C
- or equivalent

With a knowledge of the TrendWall product offering, you can now begin to plan your space.

If you are working with an existing space, you must make an on-site inspection to determine the ceiling height. This is probably the most important step in the design phase. TrendWall panels have $\frac{3}{4}$ " (19) adjustment upward and $\frac{3}{4}$ " (19) adjustment downward.

Panels are available in three standard heights of 8' (2438), 9' (2743) and 10' (3048) for floor-to-ceiling applications. However, if your requirements call for a panel of 7'2" (2184) for cornice height installations, you can specify that size and use the 8' (2438) panel price.

The area into which the Crown is attached must be sound. When installing into a suspended ceiling, the Crown is screwed into the metal "T" frames with self-tapping screws.

There are many physical characteristics of a building that can be critical to the development of your space plan. Besides the ceiling height, there are windows, columns, doors, elevators, light fixtures, sprinklers and ductwork. Also, observe interior finishes and floor construction and record all of this data on your first trip to the job site to save on return trips.

Trendway will assist in developing your space planning, figuring the panel widths and types of hardware needed. All you need to do is determine the size of the office and the requirements of the individual in the space. Do this by surveying departments or individuals to find the equipment and amount of work area required. This will determine the filling, work surface storage and special equipment needs of each office. This information should be provided to Trendway; then Trendway can assist in developing the final space plan.

TrendWall Office Layout

When designing your layout, it is best to work in standard dimensions of even footage. An example is shown in the sample layout (Figure 2): 15' (4572) by 10' (3048).

An important consideration is the cost of the different panel types and sizes. The most cost-efficient size is the 4' (1219)-wide panel (see "Panel Pricing"). It takes less time to install 12 lineal feet of 4' (1219) panels than 12 lineal feet of 2' (610) panels. Also, for future changes, standard width panel modules will make modifications easier.

The first step is to measure the perimeter dimension of the space to be enclosed. Be sure to measure through door

Figure 2

sections and glazed panels. This represents the total footage of TrendWall panels required. The individual cost of the door is an added upcharge page 30.

Panel widths are based on center-to-center of the connection device so there is no addition of width in a straight line connection. TrendWall panels are $2\frac{3}{4}$ " (70) thick. Half this thickness $1\frac{3}{8}$ " (35) must be added to the length of the panel run for an outside dimension, or subtracted for an inside dimension when panels are joined in a 90° corner condition (Figure 3).

Once you have decided the amount of space and the components desired, Trendway will figure the widths of panels needed to achieve your office plan. Notice that we have used two 4' (1219)-wide panels to accommodate the Lateral Files side-to-side (Figure 2). 1' (305)-wide panels on either end of that wall make up the rest of the 10' (3048) width and center the components on the wall. Minimum width panel available is 6" (152).

Component Planning

To accommodate mounting accessories, specify either Solid Panels or Hi Lite Glazed Panels for Accessory Mounting panels.

Figure 3

ELECTRICAL PLANNING

POWERPAC® Electrical

The TrendWall POWERPAC® 8 Wire Electrical System offers the power and flexibility of four circuits, one with a dedicated neutral and ground.

The TrendWall electrical system is routed through the base wireway and up or down through the connections between panels. Power is distributed from panel-to-panel or a run of panels by the use of Pass-Through Harnesses. Pass-Through Harnesses are available in lengths of 24" (610) to 141" (3581) in 3" (76) increments. Power Modules are plugged into the Pass-Through Harnesses to provide power to the plug-in duplex receptacles. The SITCFTP or SITCFTP144 Ceiling Feed supplies power from the ceiling or floor to the distribution block on the Power Module.

Power Modules are available in two heights; 14" (356) on-center from the floor for standard height and 32" (813) on-center from the floor for work height access above a work surface. An optional work height adapter is available to extend power from a standard height module to work height. Power Modules attach between panels in standard width Straight Connections only. They will not attach in extended conditions.

Hardwire Option

TrendWall Panels can be hardwired, if required, by routing conduit through the base wireways and run either up or down through the connections between panels. Electrical outlets and switches are mounted in junction boxes attached to the conduit.

Switches and receptacles are accessed through punch-outs in the pilasters. Pilasters are available with a switch punch-out located 45" (1143) on-center from the floor. If switches are to be back-to-back on a pilaster, one must be specified with a punch-out located at least 5³/₈" (137) above or below the other punch-out. The same would be required for a receptacle punch-out. Receptacle punch-outs are located 18" (457) on-center above the floor. Electrical boxes are not included, however, Trendway recommends the use of one of the following: Appleton M1-250 (orderable through Trendway catalog #SITMI250), Bowers 1-MBS, Raco 690, Steel City GW-125-C or equivalent. Electrical conduit and hardware must be supplied and installed by a local electrician.

Planning Summary

These steps outline the planning process:

1. Measure the ceiling height throughout the space to be sure of ordering the correct panel height.
2. Measure area to be enclosed by TrendWall, including door and glazed panels.
3. Plan components, doors, and optional panels to meet requirements of each office.
4. Develop elevations of each office, showing placement of components, doors, etc.
5. Develop an electrical layout to show the placement of electrical switches, receptacles, etc.
6. Trendway will figure widths of panels, hardware needed and POWERPAC electrical components. Plans will be returned to you for your review, to be signed and returned.

Figure 7

Glazed Panel Glass Sizes

The following chart lists the glass size for standard size panels. To calculate glass sizes for panel sizes not listed, simply take the glass size for the next largest panel and SUBTRACT the panel size difference (in inches) from the glass size.

Examples:

1. For a WPGF4808 specified at a ceiling height of 95" the glass size to order is:
 - a. $82.75" - 1" = 81.75"$
 - b. $43.625"$
2. For a WPGF4208 specified at a ceiling height of 95" the glass size to order is:
 - a. $82.75" - 1" = 81.75"$
 - b. $43.625" - 6" = 37.625"$ (43.625 from the chart for a 48"-wide panel - 6" as $48" - 42" = 6"$)
3. For a WPGD4209 specified at a ceiling height of 104.5" and a door height of 7' the glass size to order is:
 - a. 74.25" (For a DOOR LITE, the glass height is always 74.25, regardless of panel height)
 - b. $43.625" - 6" = 37.625"$

Solid Panels

TrendWall Solid Panels are constructed using a welded steel frame with a theta-fiber core and 3/8" (10) gypsum wall-board skins that can be laminated with a wide variety of vinyls or fabrics.

Solid Panels can be ordered in heights ranging from 7' (2134) to 10' (3048) in 1/8" (3) increments.

The inside and outside skins can be in one of the following combinations:

- Vinyl/Vinyl
- Vinyl/Fabric
- Fabric/Fabric

Note: When mixing fabrics and vinyls on a single panel, the panel is priced at the highest grade surface material selected.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6 1/2" = 90.5".

Specify actual panel width in inches using a decimal to represent fractions in one eighth inch increments.
Example: 3'6" = 42".

Note: This panel is not to be used when mounting accessories (eg. monitors, paintings, etc.)

Filler Panels

TrendWall Filler Panels are designed to be easily field cut on one end to allow for wall run-out. Filler Panels are placed at the end of a TrendWall Panel run that abuts a fixed wall using a wall channel. Filler Panels have one steel side rail and a vinyl or fabric surface laminated to a core of gypsum and Styrofoam. They are available in both Filler Panel and Ceiling Filler Panel styles.

Filler Panels are available in heights ranging from 7' (2134) to 10' (3048) and are intended to be used next to Solid or Glazed Panels.

Note: One wall channel should be ordered for every Filler Panel.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6½" = 90.5".

Glazed Panels

TrendWall Glazed Panels are constructed using the same welded frame and core materials as the TrendWall Solid Panels, but also include a framed opening that accommodates 1/4" (6) thick glass.

TrendWall Glazed Panels are available in a variety of opening styles:

- Full Lite - A Full Lite opening begins at 9 1/4" (235) from the floor and ends 3 1/2" (89) from the ceiling.

Full Lite Glazed panels have the ability to become multi-segmented by simply

selecting the base panel style and specifying the number of segments in the Glazed Segment option string.

- S1** - 1 Opening
- S2** - 2 Opening
- S3** - 3 Opening
- S4** - 4 Opening
- S5** - 5 Opening

Example: To obtain a Full Lite panel with two segments, choose catalog number WPGF and add option S2.

Note: Full Lite panels are segmented at the specified door height. If a different glass line is desired, use a Segmented Variable Glazed Panel.

Full Lite Glazed Panels

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6 1/2" = 90.5".

Specify actual panel width in inches using a decimal to represent fractions in one eighth inch increments.
Example: 3'6" = 42".

Glazing Options

Basic Glazed Panels DO NOT come with any glass or glass alternative from Trendway. There are, however, numerous ways to glaze TrendWall Glaze Panels, including a factory direct option. These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed. Trendway will supply a detailed glass schedule to facilitate this process.

- G2 – Clear Tempered Glass Glazing Alternative
- G3 – Frost and Clear Laminated Glass Glazing Alternative

Note: All graded in glazing alternatives (G2 and G3) are shipped from Trendway, but need to be field installed.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6 1/2" = 90.5".

Specify actual panel width in inches using a decimal to represent fractions in one eighth inch increments.

Example: 3'6" = 42".

Glazing Options

Basic Glazed Panels DO NOT come with any glass or glass alternative from Trendway. There are, however, numerous ways to glaze TrendWall Glaze Panels, including a factory direct option. These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed. Trendway will supply a detailed glass schedule to facilitate this process.

- G2 – Clear Tempered Glass Glazing Alternative
- G3 – Frost and Clear Laminated Glass Glazing Alternative

Note: All graded in glazing alternatives (G1, G2 and G3) are shipped from Trendway, but need to be field installed.

Sliding Window Lite Glazed Panels

Sliding Window Lite Glazed Panels feature a framed opening with an installed track to accommodate by-pass glass windows that are field installed. Panels can be ordered with optional shelf.

The Window Lite opening begins at 42 1/2" (1080) from the floor and ends at the door height (80" [2032] or 84" [2134]).

Glazing Options

Glazed Panels can be specified with or without glass. These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed.
- G1Z – Clear Tempered Glass Glazing Alternative
- G3Z – Frost and Clear Laminated Glass Glazing Alternative

Note: G1Z glazing options are not available in cut sizes over 74 1/4" (1886)

Note: All graded in glazing alternatives (G1Z and G3Z) are shipped from Trendway, but need to be field installed.

TrendWall Glazed Panels for Accessory Mounting are available in a variety of opening styles:

- Hi Lite - A Hi Lite opening begins at the door height (80" [2032] or 84" [2134]) and ends 3 1/2" (89) from the ceiling.

Glazed Panel Options

In addition to aluminum louvers, additional panel options are available in Glazed Panels. They are:

- **P2** - Aluminum Louver Bottom. Aluminum Louvers can be added to any Solid Panel 36" (914) or greater.

Accessory Mounting – Wood Block Option Location

The **AV** option includes 2 - 10" wood blocks mounted 26" and 65" from the bottom.

The **CH** option includes 2 - 10" wood blocks mounted 46 1/2" and 56 1/2" from the bottom.

The **2CH** option includes 2 - 10" wood blocks mounted 56 1/2" and 69" from the bottom.

Specifying TrendWall® Variable Glass Panels with Custom Segments

TrendWall Variable Glass Panels with Custom Segments allow specifiers to select a different height, placement and glazing material for each individual segment in a panel. This is especially useful for designs requiring a segment of non-transparent material to provide a degree of privacy, or to create a special sill height.

Customers can choose up to 5 segments per panel. Different catalog numbers apply according to the number of segments desired. Segments are specified as S1, S2, S3, S4, S5 as required, with the lowest segment in the panel always A1, the next lowest A2, etc. up to A5. Panel Widths are available from 12" - 48" in 1/8" increments (same as Glazed Panels).

There are three basic categories of Variable Glass Panels with Custom Segments: Full Height, Door Height with Top Glass and Door Height with Top Solid.

In order to specify these panels, you will need to determine the following:

1. Panel type from the 3 options above
2. Ceiling height
3. Panel width
4. The Sill height (minimum 9.25")
5. Glass Size Pricing Category for each section (8 categories, 1A - 1H, depending on the size)
6. The position (height) of each glass line, measured from above the finished floor level

Catalog numbers for variable glass panels with custom segments will begin with one of the following: WPGV__, WPGVF__, WPGVD__, and end with S1, S2, S3, S4 or S5.

To easily determine the Glass Size Pricing category, use the Variable Panel Worksheet, located in the Products/Specifications - Training section of Trenddealer, under the Architectural Products category. This easy-to-use tool will generate the category for each segment to simplify final specification. [Click here to see it now.](#)

Ceiling Stacker Panels

TrendWall Ceiling Stacker Panels are constructed using a welded steel frame with a thermafiber core and 3/8" (10) gypsum wall-board skins that can be laminated with a wide variety of vinyls or fabrics. Ceiling Stacker Panels are used in conjunction with other panels to reach ceiling heights greater than 10' (3048).

Ceiling Stacker Panels may not be used with component mounting.

Ceiling Braces must be used at every door section and every 8' (2438).

Note: When mixing fabrics and vinyls on a single panel, the panel is priced at the highest grade surface material selected.

Specify actual ceiling height in inches using a decimal to represent fractions in one quarter inch increments.
Example: 7'6 1/2" = 90.5".

Specify actual panel width in inches using a decimal to represent fractions in one eighth inch increments.
Example: 3'6" = 42".

Ceiling Stacker Filler Panels

Ceiling Stacker Filler Panels are available in heights ranging from 1' (305) to 4' (1219) and are intended to be used next to Ceiling Panels.

Ceiling Stacker Filler Panels may not be used with component mounting.

Ceiling braces must be used at every door section and every 8' (2438).

Specify actual ceiling height in inches using a decimal to represent fractions in one quarter inch increments.
Example: 7'6¹/₂" = 90.5".

Glazed Ceiling Stacker Panels

TrendWall Glazed Ceiling Stacker Panels are constructed using the same welded steel frame and core materials as the TrendWall Solid Ceiling Stacker Panels, but also include a framed opening that accommodates 1/4" (6)-thick glass. Glazed Ceiling Stacker Panels are used in conjunction with other panels to reach ceiling heights greater than 10' (3048).

Note: When mixing fabrics and vinyls on a single panel, the panel is priced at the highest grade surface material selected.

Specify actual ceiling height in inches using a decimal to represent fractions in one quarter inch increments.
Example: 7'6 1/2" = 90.5".

Glazed Ceiling Stacker Panels may not be used with component mounting.

Ceiling Braces must be used at every door section and every 8' (2438).

Glazing Options

Basic Glazed Panels DO NOT come with any glass or glass alternative from Trendway. There are, however, numerous ways to glaze TrendWall Glazed Ceiling Stacker Panels, including a factory direct option. These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed. Trendway will supply a detailed glass schedule to facilitate this process.

- G2 – Clear Tempered Glass Glazing Alternative
- G3 – Frost and Clear Laminated Glass Glazing Alternative

Note: All graded in glazing alternatives (G2 and G3) are shipped from Trendway, but need to be field installed.

Wood Sliding Door Sections

Wood Sliding Door Sections are available as a space saving alternative to standard swing doors. TrendWall Sliding Door Sections are available in two styles: Standard and Minimum Door Sections. Standard sections have an 8" (203) side panel and are nominally 48" (1219) wide, while minimum sections omit the side panel and are nominally 40" (1016) wide.

The doors can be specified as either LH or RH. The hand is determined by the direction the door slides to open. A RH door will open to the users right when

facing an exterior mounted door.

Sliding Doors come with an ADA compliant, satin chrome (BMHA 626, US28 finish).

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments. Example: 7'6 1/2" = 90.5".

Nominal Door Section	Actual Door Width	Clear Opening
42"	41"	32 1/4"
48"	41"	32 1/4"

Glazing Options

Door Sections ship with glass or glass alternative installed.

These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed. Trendway will supply a detailed glass schedule to facilitate this process.
- G1Z – Clear Tempered Glass
- G3Z – Frost and Clear Laminated Glass

Wood Swing Door Sections

Wood Swing Door Sections are available in two styles: Standard Door Sections and Minimum Door Sections. Standard sections have an 8" (203) side panel and are nominally 48" (1219)-wide, while minimum sections omit the side panel and are nominally 40" (1016)-wide.

Both Door Sections can come with a factory pre-hung door, or less door for applications in which doors will be purchased locally. In either case, the door height must be specified; 6'8" (2032) or 7' (2134). The transom in door

sections can come solid, glazed or with painted metal louver.

Note: Glazed transoms are NOT available in ANY fabrics.

Note: Glazed and Louvered transoms are only available in ceiling heights greater than 8'4" (2515).

TrendWall Swing Doors can be ordered with a Lever Passage Set (non-locking) or a Lever Lock Set.

The included door is available in four styles: Flush, Window Lite, Full Lite and Vision.

Wood Double Swing Door Section

Double Swing Door Sections create a 71" (1829) opening by using one active door (the door with lever set) and one passive inactive door (the door with no lever set).

Double Door Sections have the same factory options as Standard Doors, however, these doors require field assembly. Door panels, headers, jambs and hardware are all sent separately.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6¹/₂" = 90.5".

Door Sections ship with glass or glass alternative installed.

These options are:

- GN (No glass). If this option is chosen, no glass will be supplied. All 1/4" (6) material will need to be field installed. Trendway will supply a detailed glass schedule to facilitate this process.
- G2 – Clear Tempered Glass Glazing Alternative
- G3 – Frost and Clear Laminated Glass Glazing Alternative

Wood Bi-Fold Door Sections

Wood Bi-Fold Door Sections can create a variety of storage areas within TrendWall installations. Bi-Fold sections come in only the flush door style with solid transoms. Like Double Door Sections, Bi-Fold Door Sections requires field assembly.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6¹/₂" = 90.5".

Note: The actual bi-fold door opening is 12" (305) less than the nominal door section.

Crown, Base and Miscellaneous Ceiling Components

Ceiling brace to be used with cornice height walls. Includes ceiling bezel.

Refer to Figure 1, page 6.

Caddy Clips may be used to attach the Crown to the ceiling grid. Use one every 2' (610) of Crown.

Caution: There will be a loss of 1/2" (13) to 5/8" (16) ceiling height adjustment when using Caddy Clips.

Ceiling Grid Blocks

Ceiling Grid Blocks are finished stucco color. Specify either 3/8" (19)-high x 7/8" (22)-wide or 1/4" (16)-high x 7/8" (22)-wide. Special sizes available upon request.

Miscellaneous Connectors – When Ordered Separately

Individual items that are included with the panel price are available when ordered separately.

Crown Filler Block

The Crown Filler Block is used to create a false soffit below the ceiling grid. This allows up to an additional 12" of panel height for instances where panels are shorter than the actual ceiling height.

For example: TrendWall was ordered at 108", but the actual drop ceiling was installed at 112". Crown Filler Block (TCFB) can be used at a specified height of 4.375" to make up the gap. Note: Remember to add .375" for the reveal gap in the TrendWall Crown.

Floor Plate

Carpet Grippers are supplied as standard with Floor Plate.

Sound Packing

Sound packing may be added to panel runs to enhance the overall STC performance of the wall. It includes loose mineral fiber pieces to pack inside of base, crown, wall channels and pilaster cavities. Sound packing for ceiling fillers requires 50% (1/2) of the lineal footage of ceiling fillers.

Note: Sound control results will vary based on grade of ceiling, floor coverings, draperies, duct work, etc.

Note: Sound Packing is shipped separate from TrendWall panels and requires additional installation time.

Laminated Gypsum

Individual sheets of vinyl laminated or fabric covered gypsum. Will be shipped on pallets only.

MATERIAL PIECES PER PALLET

3/8" (10) Gypsum 25

Cut Fabric or Vinyl

Fabric and Vinyl are available by the yard. Fabric width is 66" (1676); Vinyl width is 62" (1575).

CONDITIONS

TrendWall Conditions are the connector kits that join individual panels together. These conditions include all necessary trim pieces and hardware to trim out and connect a TrendWall installation. Conditions may be specified in one of two possible styles: Standard and Enhanced. Standard pilasters are designed to fit flush within the panel run and highlight the panel's side rail, while Enhanced pilasters mount over the panel connection and cover the side rails to give a more monolithic aesthetic.

Straight Conditions

These conditions include two straight pilasters and panel connectors and are used to make an inline panel connection. Straight Conditions are available in both standard and enhanced versions. They can also be ordered with electrical punch-outs to accommodate either hard-wire or modular power.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments. Example: 7'6 1/2" = 90.5".

Note: Punch-out for Side 1 can not be the same as Side 2 for switch height only.

Punch-Out Description

Punch-out size is Decora: 1.38"w x 2.7"h

CORNER CONDITIONS

Corner Conditions include one outside corner pilaster cover, panel connectors, one crown corner and one base cover. Corner Conditions are used to create 90° corner in panel runs. Corner Conditions are available in both Standard and Enhanced versions.

Note: Corner Conditions maintain centerline dimensioning (see Page 5).

Enhanced Extended Corner Conditions

Extended Corner Conditions include one outside corner pilaster cover, one

inside corner pilaster, panel connectors, one crown corner and one base cover. Extended Corner Conditions are used to create 90° corner in panel runs. Extended Corner Conditions are available in the Enhanced version only.

Note: Extended Conditions allow for inside room dimensioning (rather than center line dimensioning). Using Extended Conditions allow for module sized freestanding furniture to fit within TrendWall layouts without increasing panel sizes. Please refer to pages 4 and 5 of the planning sections for typical layouts.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments. Example: 7'6¹/₂" = 90.5".

Angled Conditions

The TrendWall system allows specification of a standard 90 degree 2-way condition, plus virtually any angle within 72 degrees of a straight in-line condition, as shown in the drawing. As with standard 90 degree 2-way conditions, the Standard Angle Condition (WCSAXX) comes with a mating crown corner (24" leg length). The service items (SITWCSAXX) do not include the mating crown corner. 30, 45 and 60 degree angled conditions

do not require a drawing to be submitted; however, when specifying angled conditions other than 30, 45 or 60, a detailed scale drawing must be submitted.

Standard Angle Conditions

3-WAY CONDITIONS

3-Way Conditions, commonly called "T" conditions, are used to create a 3-way panel connection in panel runs. Choices panel hung components. They can also be ordered with electrical punch-outs to accommodate either hardwire or modular power. Punch-Outs are available on the outside face only.

Standard 3-Way Conditions

Standard 3-Way Conditions include one standard straight pilaster cover and panel connectors.

Enhanced 3-Way Conditions

Enhanced 3-Way Conditions include one enhanced straight pilaster cover and panel connectors.

Note: 3-Way Conditions maintain centerline dimensioning.

Punch-Out Description

Punch-out size is Decora: 1.38" w x 2.7" h

- C0 Switch Height w/ Box
- C1 45" Switch Height
- C2A 18" Standard Height
- C3 32" Work Height

4-Way Conditions

4-Way Conditions include one steel pilaster, one wall channel and panel connectors. 4-Way Conditions are specified with Trim color only, as only the painted wall channel is seen.

Finished End Kits

Finished End Kits are used to create an end of run that does not abut an existing building element. They can be used in pairs to create archways. One kit includes a painted finished end, one crown cap and two vinyl door base ends.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.
Example: 7'6¹/₂" = 90.5".

Wall Channels

Wall Channels are used with a filler panel at the end of a panel run to create a clean finish against an existing building wall.

Standard Pilasters

Standard Pilasters leave the vertical painted frames of the panels showing on each side of the Pilaster. Standard Pilasters are available for Straight or Outside Corner Conditions.

Enhanced Pilasters

Enhanced Pilasters are designed to cover the panel's metal frame to give a continuous look to the panel run. Enhanced Pilasters are available as Straight, Outside Corner, and Inside Corner configurations.

Specify actual ceiling height in inches using a decimal to represent fractions in one eighth inch increments.

Example: 7'6¹/₂" = 90.5".

Note: Punch-out for Side 1 can not be the same as Side 2 for switch height only.

Vertical Hardwire Box

The Vertical Hardwire Box is a custom size and comes with 2 mounting brackets. UL Listed.

Hardwire Box

The Hardwire Box is an Appleton M1250. It is 2 1/2" deep x 3 3/4" high x 1 13/16" wide with 1/2" and 3/4" knock outs. UL Listed.

Ceiling Feed

The Ceiling Feed supplies power from the ceiling to the distribution block on the Power Module. Length is 12' (3658) of conduit with 13' (3962) of wire.

Power Modules

Power Modules are available in three styles to bring power access to the area between the panels at varying heights. One end has a connector for attachment to Power Harnesses and the other end

has a distribution block to accept a Power Duplex, both sides back to back.

Power Duplexes

The TrendWall Power Duplex plugs into the distribution block on the Power Module to access the power circuit. Each Power Duplex is clearly marked for Circuit I, II, III or IVΔ access. Circuit IVΔ has an orange numeral and delta symbol (Δ) to indicate it accesses the dedicated circuit. Packaged in boxes of six of the same duplex.

Pass-Through Harness

Pass-Through Harnesses bring power from a feed point to a distribution point at a Power Module. Harnesses are available in lengths from 24" (610) to 141" (3581) in 3" (76) increments and 16" (406) Male/Male Harness for connecting Power at 3- and 4-way panel intersections.

For Hardwire Installations

Electrical boxes are not included, however, Trendway recommends the use of one of the following: Appleton M1-250, Bowers 1-MBS, Raco 562, Thomas & Betts GW-125-C or equivalent.

Male/Male Harness

One is required at each 4-way condition.

End Block

The new TrendWall Electrical End Block (TEEB) provides necessary connectors at the end of a TrendWall Modular Electrical run. One is required at the end of a run.

For Hardwire Installations

Electrical boxes are not included, however, Trendway recommends the use of one of the following: Appleton M1-250, Bowers 1-MBS, Raco 690, Steel City GW-125-C or equivalent.

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement prices effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices shown include standard Trendway specified freight cost on all orders.

PRICING DETAILS

a. Non-Listed Panel Sizes

Component pricing is given for discrete panel sizes. Off module sizes are figured from the next largest panel. Example: The cost of a 40" (1016) solid panel, 96" (2438) tall in standard vinyl is \$525.

b. Unfinished Panels and COM

No credit is provided for Customer's Own Material.

COM fabric or vinyl pricing see page 12. Customer supplies material. Approval subject to prior testing.

Contact Customer Care for unfinished panel pricing.

c. Trim Colors

All trim parts, steel or vinyl, can be specified in all standard Systems finishes.

Premium System finishes are offered at a modest upcharge on painted parts only. Please refer to a specific item in your price book to determine finish availability and the amount of upcharge.

d. Cartoning

The prices do not include cartoning. If cartoning is required, please add \$10.00 to list price per lineal footage of product required.

Trendway will package product as required for LTL shipment. Cartoning as referenced here is typically for panels going into storage for a period of time, and client asks for this additional protection.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date to dealer. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 8 business days for Express orders, 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgement of Trendway, the financial condition of Buyer at any time does not justify the terms specified, Trendway may at any time by notice to Buyer require prepayment or other terms of payment differing from those specified in Section 8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care 1-800-893-8115 for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or**

full purchase price. Customer shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes which Trendway Corporation, Trendway Corporation subcontractors or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past Due Accounts

Past Due Accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM fabric.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from a Trendway

4. If the material requested is not in the COM Library, customer must submit a **COM Test Request** on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Fabric sample should include fabric name, pattern number and color, manufacturer, direction fabric should be applied, and Control # from the COM Request Form automated e-mail response.
5. Ship COM samples to:
 U.S. Mail Shipment and
 UPS, FedEx Shipment:
 Trendway Corporation
 13467 Quincy Street
 Holland, MI 49424
 Attn: COM Request
6. You will be notified within five (5) working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS	
TrendWall	4 yards
Volo	4 yards

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or damage shall remain with Buyer. Buyer must assume responsibility for any spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials may not qualify for UL Listing or meet fire codes.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead-times. Set up fees and lead-times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).

- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- Customer Color program is not available within Express lead-time.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations, orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale,

including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Federal Express, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.
- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care..
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 	<ul style="list-style-type: none"> •Electrical Components 	<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Laminate, Paint, Plastic •Electronic Ballasts •Height-Adjustable Table Mechanical Components 	<ul style="list-style-type: none"> •System Textiles •Laminate, Paint, Plastic 	
3 Year	<ul style="list-style-type: none"> •Veneer •Magnetic Ballasts 	<ul style="list-style-type: none"> •Veneer 	<ul style="list-style-type: none"> •Trim •Foam •Upholstery •Arm Pads
2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.
