

MAXIMUM VIRUS PROTECTION

Fellowes AeraMax® Pro air purifiers remove airborne contaminants, including coronavirus, using a combination of smart and integrated technologies.

For months, the CDC, ASHRAE, and 'healthy building' scientific advocates have recommended portable air cleaners using HEPA filtration for protection against SARS-Cov-2. Fellowes AeraMax Pro air purifiers' four-stage True HEPA filtration system proved to be effective in reducing the aerosolized airborne concentration of Human Coronavirus 229E in a test chamber, reaching 99.99% airborne reduction within one hour of operation.

"These latest test results on the Fellowes AeraMax Pro air purifiers provided by an independent third-party accredited (ISO/IEC 17025) laboratory are significant. I continue to be impressed with the findings on the efficacy of this technology/device by Fellowes."

"Typically, single-strand RNA envelope viruses (e.g. common cold coronavirus 229E, etc.) are used as a surrogate for SARS CoV-2 to study the antiviral effect of a specific device."

Dr. Rajiv Sahay, Director of Environmental Diagnostics Laboratory at Pure Air Control Services based in Clearwater, Florida

Why Fellowes Air Purifiers?

It Starts with Great Filtration

The four-stage filtration process uses the following proven methods to effectively clean the air:

1. Pre-Filter
Captures large particles

2. Active Carbon Filter
Adsorbs odors and Volatile Organic Compounds (VOCs)

4. PlasmaTrue™ Bipolar Ionizer
Improves capture efficiency

3. True HEPA Filter
Captures particles as small as 0.3 microns

Fellowes Air Purifiers Are Smart

For over a decade Fellowes AeraMax Pro air purifiers have been a leading choice for localized air purification. Fellowes is the only solution that combines True HEPA filtration with EnviroSmart and PureView Technologies.

Our proprietary and patented EnviroSmart technology enables AeraMax Pro commercial-grade air purifiers to continuously monitor your environment and automatically adjust to clean the air, conserve energy and reduce operating costs.

PureView's patented sensor technology and display makes the invisible visible with real time status updates as the air is cleaned. It provides maximum peace of mind that the air you and others breathe is clean.

Integrated

A Seamless Addition

AeraMax Pro was designed to seamlessly integrate into your space, whether on the floor, wall-mounted or recessed into the wall. All models are unobtrusive and aesthetically pleasing, so you can provide worry-free air purification wherever it's needed most.

Reliable

Commercial Grade Durability

AeraMax Pro commercial-grade air purifiers are built to last, with high-quality components ensuring your unit is reliable, durable, and tamper-proof.

THE AERAMAX PRO LINE UP

AeraMax Pro room size recommendations are based on delivering the recommended 3-5 Air Changes per Hour (ACH).
