
Trig[®] Desking

PRICE LIST | JANUARY 2022

For Canadian pricing, please visit Trendealer to see the current conversion rate being used or contact your local Trendway Representative.

Trig Desking

Trig Desking is a fully integrated line of laminate freestanding components including desks, credenzas, tables and laminate storage. This line offers high-end aesthetics, with a range of styling options and finishes.

Trendway product catalogs are available in the following design software: 20/20 (CAP/Giza) and Project Matrix. The Core price book is also available in .pdf (Acrobat Reader) format on www.trenddealer.com. For Architects and Designers, a free FSL (Furniture Symbol Library) is available on dealer.trendway.com.

Product dimensions are given throughout the product catalog and are followed by parenthesis which have the metric equivalent in millimeters. For example: A Rectangular Work Surface is available in a 48" (1219)-width.

Ordering Information

The most efficient way to enter an order is through Trendway On-Line Order Entry on dealer.trendway.com, which also accepts .sif files from the design software listed above. Faxed orders are available as well but may extend lead-times.

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TRGRECD2048 represents a Trig Rectangle Desk that is 20" (508) deep and 48" (1219)-wide.

Order specification examples are shown throughout the price book at the bottom of each page. Be sure to follow the order sequence carefully to ensure complete and accurate order specification.

After placing an order, Trendway will send an order acknowledgement that follows the sequence of information outlined below. Trendway encourages you to follow the same steps so that checking your order against the acknowledgement will be as easy as possible.

Placing an Order

To make placing an order simple, Trendway On-Line Order Entry automatically prompts the product and option decisions that are required. For accurate order processing on faxed orders, please type or use legible handwriting, and be sure to include the following information:

1. A complete "sold to" address with correct Zip code.

2. A complete "ship to" address with correct Zip code.
3. A purchase order number. (The order is issued to Trendway Corporation, Holland, Michigan.)
4. A signature or name of person authorizing the purchase order.
5. A contact name and phone number at your company.
6. An actual calendar date for the requested delivery date (not ASAP).
7. Line items that are complete, which means all catalog numbers and descriptions, options listed for each product selected, fabric/finish pattern and color descriptions, and all corresponding letter or number codes. Be sure to make a pick for all available options. Also, combine identical items and specify total quantity unless using special marking or tagging.

(Refer to your price list for ordering options.)

8. Special products referenced by their control numbers as well as their descriptions.
9. Line items that include price per unit, as well as extended totals.
10. A total dollar amount for the purchase order.
11. Any special shipping requirements clearly noted; i.e., "call before delivery."

By placing your orders correctly and completely the first time around, your order will be processed and scheduled without delay (subject to credit approval).

Lead-Times

The majority of Trig Desking products are shipped within Trendway's standard lead time.

Note: Shipping lead-times are subject to product availability due to order size. For exact lead-times on your order contact Trendway Customer Care.

Surface Material Program

The Trendway Surface Material Program includes a broad selection of coordinated fabrics, laminate and trim finish options. Additionally, Trendway offers a Customers Own Material (COM) program to allow customers to further personalize their work stations.

The following sections describe the Trendway Surface Materials vocabulary.

Standard Program

Trendway's Standard Program of timeless and popular fabrics, finishes, vinyls and laminates, is recommended for corporate standards programs. These fabrics are carded and swatched by Trendway. Materials in the Trendway Standard Program offering are readily available for orders to ship within 2-4 weeks. Refer to individual panels for fire rating classifications.

Scheduled Program

Trendway's Schedule Program is made up of additional colors of standard patterns, as well as an evolving collection of fabrics from our textile partners designed to solve all your needs. Influenced and kept up to date by emerging trends, the typical life span in this program is one to three years and is not considered part of the standard program. To see the Scheduled fabrics go to the the surface material page on our website at www.Trendway.com and filter for "Scheduled" under "Lead-Times". Scheduled fabrics may have different lead time than standard fabrics. Please call Trendway customer care for estimated ship dates.

Both Standard and Scheduled Materials in this program comply with the industry standards for quality and performance.

They all pass California Technical Bulletin 117-2013 and are listed as part of the UL recognized component program.

Terratex®

Terratex is a Duvaltex brand designating fabrics that are made from 100% recycled or compostable material using increasingly sustainable manufacturing practices to produce a high-quality product that is recyclable at the end of its useful life. For more information, go to www.terratex.com.

COM

Customers Own Material program allows customers to select and specify their own fabric or laminate on Trendway product. For detailed information see item #11 (COM) in the Pricing, Procedures and Policies section in the back of the price list or on Trenddealer.com.

Pre-Approved COM

Select from popular COM fabrics pre-approved by Trendway. Customers are able to search the COM library on dealer.trendway.com for fabrics and specific applications that have passed manufacturability testing on Trendway product.

HOW TO ORDER SAMPLES

Standard Program Binder Cards

Seating and panel binder cards are available through Trendway fulfillment. dealer.trendway.com

Standard Program Samples

Samples of fabrics and finishes are available through Trendway fulfillment. dealer.trendway.com

Scheduled Samples

Samples must be ordered directly through the supplier. Contact information is listed below and also on our website www.trendway.com/surfacematerials. Click on the link next to the swatch samples.

Trig Keying Order Form

This form can be used as a worksheet or an order form to determine what key-alike Trig Core/Key Sets are needed for key-alike Trig filing and storage, Trig locks on Choices flipper units and for additional Trig Lock Keys, Core Keys and Master Keys*. It is also used to specify special tagging instructions to designate installation locations, which is offered free of charge.

The information on this form can either be entered in Trendway's design software, or through Trendway On-line Order Entry on trenddealer.com using the catalog numbers listed below or it can be used as an order form and faxed to Trendway Customer Care.

Trig Core/Key Set

Trig Core/Key Set includes a lock core and 2 lock key. Trig Core/Key Set numbers are randomly selected from existing inventory unless otherwise specified on this form. Requesting specific numbers** may delay shipment of your key-alike order and may require partial or delayed shipment of your lock cores and keys separately from your order. Additional lock keys are available.

Trig Core Installation/Removal Key

Trig Core Installation/Removal Key is needed to install Core/Key Sets and to remove or replace existing Trig lock cores.

*Trig Master Key

Trig Master Key is used to open any Trig style lock. Master keys are sent out separately from the product order. Request for Master keys must be made on the end users letterhead and faxed to Trendway Customer Care at 1-800-893-8212. Orders are shipped within 24-hours of receipt.

Trig Core/Key Set

The Trig Core/Key Set must be ordered when the Key-Alike Lock option is chosen to replace the “disposable” core that ships with Trig filing units in order for these units to lock. This set can also be ordered to replace an existing Trig Core/Key Set. Includes a Trig lock core and 2 lock keys.

Trig Core Installation/Removal Key

The Trig Core Installation/Removal Key is needed to install or remove Trig Cores in Trig filing units. One Core Key is included at no charge with every 1 to 50 Trig Core/Key Sets ordered. This key is available if additional Installation/Removal Keys are needed.

Trig Lock Key

Replacement Trig Keys are available for order.

Trig Desking Overview

Trig Desking is a fully integrated line of quality freestanding desks and modular case goods. The collection includes desks, credenzas, conference tables, and bench height, underdesk, combination and tower storage.

Ordering Information

For ease in specifying, Trendway's catalog numbering system uses meaningful characters to convey description, surface type, and size. For example, TRGC2DDCS75 is a Trig Credenza unit with 2 Double Doors, Center Shelves, 75" (1905) wide.

By following the Sample Part Number Example below, you create a Part Number for each product. This Part Number will match your acknowledgement and packaging slip.

When ordering filing and storage units, list the following:

1. Quantity (combine same products)
2. Complete Part Number, see Sample Part Number at the bottom of each page for correct number sequence.
3. For ease of reading, place a period between each option number (TRGCOS30.XZ1.XZ1.XZ4.G)

Trig Key Option

Trig Desking filing and storage units have two lock options to choose from. Units can be randomly keyed (option "R") or they can be key-alike (option "T") for no additional upcharge (see page 9 for more information). When the randomly keyed option "R" is chosen the Trig Desking filing and storage unit will ship with a randomly numbered core/key.

When the key-alike option "T" is chosen the Trig Desking storage unit will ship with a "disposable" core in place of the core/key and the specified Trig Core/Key set(s) will be packaged separately for field installation. The "disposable" core must be field replaced with a Trig Core/Key set in order for the Trig filing and storage unit to lock. The Core/Key set (TLCK) must be ordered separately or by using the Trig Keying order form.

STANDARD FEATURES

Edgebanding

Components are finished with PVC edgebanding. The edgeband color will always match the color of the Thermofused Laminate unless an option pick is noted. All work surfaces and storage component tops have 3mm edgebanding. All remaining components have 1mm edgebanding.

Wire Management

Grommets are available in black or silver. (Optional)

Drawers

All drawers are built for trouble-free performance:

- Chrome plated fully progressive ball bearing suspensions with over-travel on all lateral file drawers with 150 lbs rated load capacity.
- Chrome plated ball bearing suspensions on all box drawers and file drawers with 75 lbs rated load capacity.
- Drawer construction is laminated particleboard sides with MDF bottom.
- Integrated PVC top rails for file storage on lateral drawers and 12" pedestal drawers.
- Interlock standard on all freestanding laterals.

Doors

Storage doors have 95 degree hinges and shock absorbent bumpers.

Leveling Glides

Desks and Table allow up to 1" height adjustment.

Pedestals, Laterals, Credenza, Storage Cabinets and Towers allow up to 1^{5/8}" height adjustment, and are adjustable from inside the storage unit.

Pull Style Options

Trig filing and storage units have four 128mm center applied pull options (Classic, Streamline, and Designer), and one 256mm center pull (Modern). These are all plated nickel finish.

Special Products and Finishes

Please contact Trendway Custom Solutions 1-800-893-8117 for product availability and pricing on non-standard products.

Special finishes (i.e. non-standard) may be ordered at an upcharge. Minimum quantity may be required. Please verify with our Custom Solutions Department. Delivery may take longer depending on the choice of finish or type of material.

SPECIFICATIONS

Load Capacities

All Trig Laminate storage units meet or exceed the following load requirements. For a complete listing of load capacities, contact Trendway Customer Care or visit trenddealer.com

Desks:

5 lbs. (2.3kg) per linear inch, uniformly distributed.

Pedestal:

6" (152) Pedestal Drawer — 20 lbs. (9kg)
12" (305) Pedestal Drawer — 40 lbs. (18kg)
Top — 90 lbs. (41kg)

Laterals:

Drawer — approx. 2.6 lbs. (1.17kg) per linear inch
Top — approx. 4.6 lbs. (2.1kg) per linear inch

Storage Towers:

6" (152) Pedestal Drawer — 20 lbs. (9kg)
12" (305) Pedestal Drawer — 40 lbs. (18kg)
Top — 140 lbs. (64kg)
Unit Shelf — 60 lbs. (27kg)
Unit Bottom — 90 lbs. (41kg)

Double-Door Storage Units:

Shelf — 100 lbs. (45kg)
Top — 160 lbs. (73kg)
Bottom of Cabinet — 160 lbs. (73kg)

Tables:

36" (914) - 60" (1524) — 200 lbs. (276kg)
72"(1829) and longer — 400 lbs. (552kg)

Dimensions

All dimensions listed are nominal unless otherwise noted.

Certification

All components of the Trig Desking offering meet or exceed ANSI/BIFMA X5.6-2016 performance standards unless noted.

Maximum Load Capacity For Any Storage Unit

The maximum load capacity for any storage unit is calculated by multiplying the above stated lbs. for each shelf or drawer that is included with the unit and adding them together (includes the top of the unit and the inside bottom).

Eg: Maximum load capacity for a TRGTSDD66 = load capacity for bottom + 3 shelves + unit top
 = 160 lbs. + 100 lbs. x 3 + 160 lbs.
 = 620 lbs. maximum load

Eg: Maximum load capacity for a TRG612LAT20 = load capacity for drawer x 2 drawers + unit top
 = 2.6 lbs./linear in. x 36" x 2 + 4.6lbs./linear in. x 36"
 = approx. 352 lbs. maximum load (for actual load capacities for each size Trig Laminate Lateral File contact Trendway Customer Care or visit trendealer.com).

Note: The addition of more shelves does not increase the maximum amount a unit can be loaded.

WARNING:

Failure to observe the recommended practices, such as loading beyond listed capacities, will result in unsafe usage conditions and may result in bodily injury or failure of other components.

Any modification to Trendway product will change the criteria referenced above. Trendway will not be responsible for product warranty if modifications are made to the product or if the capacities referenced are exceeded.

Laminate Lateral Files Specifications

Trig Laminate Lateral Files are factory configured for side-to-side filing. If front-to-back filing is desired, the side-to-side filing bars may be removed. No additional parts are necessary to convert drawer to front-to-back filing.

For use with Trig Laminate Lateral Files

Letter Size Filing

30" - Wide & File Center

1 Pair Trig Laminate Front-to-Back Filing Bars

Legal Size Filing

30" - Wide & File Center

1 Trig Laminate Front-to-Back Filing Bars

Lateral Files

CAUTION: Any freestanding lateral file, if improperly used or loaded, can tip. Since files may contain significant weight, this tipping can result in serious damage and/or personal injury. For proper and safe performance, read and follow instructions provided with each file.

Do not attempt to open more than one lateral file drawer at a time. Do not use drawers as steps. Failure to follow these instructions may cause tipping of cabinet, resulting in personal injury.

Use counterbalance weights whenever lateral files or pedestals are not anchored or ganged back-to-back. Side-by-side ganging does not improve stability.

To avoid tipping, always load bottom drawers before loading top drawer.

Trig offers pre-configured desks with support legs on both ends. Work surfaces with various support options may also be specified.

Specifying Work Surfaces with Support Options

Trig work surfaces are ordered by selecting a work surface shape and then ordering supports separately for the left and right. Storage units can be used as support on both ends of the Rectangle & Wedge work surfaces, but only one end of the Blade, Primary and Secondary work surfaces.

Work Surface With No Supports

Rectangle

Work Surface Support Leg

- Work surface support brackets are used with Combination Storage to mount work surface to unit.
- Support leg depth must match the work surface depth

- Work surface support brackets are used with Combination Storage to mount work surface to unit.
- Support leg depth must match the work surface depth

Creating an “L” shaped office with a return

It is easy to configure “L” shaped offices using these simple guidelines.

Returns can be used on Rectangle, Primary and Secondary Desks

Rectangular Desk

Primary Desk

Rectangular Desk

Primary Desk

Return with Flush Plate and Leg Support

Return with Flush Plate and Under Desk Storage or Credenza

Rectangular Desk

Primary Desk

Return with Flush Plate and Combination Storage

Use the following chart for a quick reference for **Available Work Surface Support Options**

Desks

Support Combinations		Surface Width						
Support 1	Support 2	48"	54"	60"	66"	72"	78"	84"
Leg	Leg	Y	Y	Y	Y	Y	-	-
Leg	Under Desk / Credenza	Y	Y	Y	Y	Y	Y	Y
Leg	Combination Storage	Y	Y	Y	Y	Y	-	-
Under Desk / Credenza	Under Desk / Credenza	Y	Y	Y	Y	Y	Y	Y
Under Desk / Credenza	Combination Storage	Y	Y	Y	Y	Y	Y	Y
Combination Storage	Combination Storage	Y	Y	Y	Y	Y	-	-

Using a Bridge

A Bridge work surface can be used to connect two freestanding rectangular desks.

Bridge with Flush Plates

Credenza Support Option

- The support riser attaches the work surface to the storage unit.
- The 1" Support Riser needs to be ordered separately and field installed.
- Credenza top will need to be drilled in the field. Only Under Desk Support Storage comes pre-drilled.
- Field installed riser is 13" long, and when mounted to the bottom of the work surface, it is centered relative to the depth. To give the riser the appropriate support on the credenza, the following chart shows the maximum that the work surface can overhang the storage unit:

Work Surface Depth	Maximum Overhang
20"	3.5"
24"	5.5"
30"	8.5"

Under Desk Storage Depth for Rectangle, Blade & Secondary Work Surfaces

20" Surface

Surface Depth	Leg Depth	Storage Depth
20"	20"	20"
24"	24"	24"
30"	30"	30"

Under Desk Storage Depth for Wedge Work Surfaces

30" Surface

Surface Depth	Leg Depth	Storage Depth
20"	20"	20"
24"	24"	20"
30"	30"	24"

Under Desk Storage Depth for Primary Work Surfaces

30" Surface

Surface Depth	Leg Depth	Storage Depth
30"	30"	24"

Primary & Secondary Work Surfaces

Primary and Secondary work surfaces are available in 42" and 48" depths.

Primary & Secondary 48"-deep work surfaces can be paired together to create a U-shaped work station. This U-shaped configuration is not recommended for 42"-deep work surfaces as it creates a narrow opening. However, they can be paired with rectangular work surfaces to create L-shaped work stations.

Surface Mount Screen

Surface mount screens are used when two work surfaces are positioned back-to-back and no gap exists between them. The base of each post spans seam between two surfaces and mounts on top with two screws. Screens are available in 13" and 19" heights, and lengths that span from 24" to 84" in 6" increments. Screen lengths of 48" and less are a single screen and two vertical posts. Screen lengths greater than 48" are two screens and three posts (center post is shared) see chart below:

Application	Number of Screens	Number of Posts
24" Span	(1) 24"	2
30" Span	(1) 30"	2
36" Span	(1) 36"	2
42" Span	(1) 42"	2
48" Span	(1) 48"	2
54" Span	(1) 24" + (1) 30"	3
60" Span	(2) 30"	3
66" Span	(1) 30" + (1) 36"	3
72" Span	(2) 36"	3
78" Span	(1) 36" + (1) 42"	3
84" Span	(2) 42"	3

(Total length of each screen is .25" shorter than nominal length)

Desk Top Screen

Desk Top Screens are used in benching or multiple-workstation configurations, where surfaces

are positioned adjacent to each other end to end. Screens are available in 8" and 13" heights in each of the following widths: 16", 20", 26", 38" & 44". Screen length selected should be 4" shorter than the depth of the adjacent surfaces.

Screen / Modesty Combination

The Screen / Modesty Combinations are mounted 1" off the back edge of the work surface to

provide clearance for cord pass-through. The size needed will depend on the right and left hand support options selected. For work surfaces with legs on both ends, subtract 12" from the width of the top. For work surfaces where underdesk storage or surface support brackets are used with Combination Storage, the screen/modesty width required can be determined by subtracting 12" from the width that remains between the storage units. If the calculated necessary width does not match an available size, choose the next size larger.

Example: 84"-wide work surface with 30"-wide underdesk double door on the left and support legs on the right. The 84" surface minus 30" leaves 54". Subtract 6" from 54" to get 48" for your screen or screen / modesty combination width.

Modesty

The Modesty will be mounted 2" from the back edge of the work surface, and will be sized

to limit physical interference with legs or storage support units. The size needed will depend on the right- and left-hand support options selected. For work surfaces with legs on both ends, the modesty width required can be determined by subtracting 12" from the width of the top. For work surfaces where under desk storage or work surface support brackets are used with Combination Storage, subtract 12" from the width that remains between the storage units. If the calculated necessary width does not match an available size, choose the next size larger.

Example: 84"-wide work surface with 30"- wide under desk double door on the left and support legs on the right. The 84" surface minus 30" leaves 54". Subtract 6" from 54" to get 48" for your modesty width.

Using Support Leg and Storage to Panel Brackets

These brackets are designed to provide stability to panel layouts that otherwise would require return panels. When using these brackets, the panel layout rules for Loaded and Non-loaded panel runs must be followed to ensure a safe installation.

Non-Loaded Panel Runs

A Non-Loaded panel run is defined as having no panel hung components regardless of size or weight. The maximum length of a Non-Loaded panel run is 192" with a maximum of 66" high panels. Two Panel bracket connections, one on each end of the run, are required when used in place of a return panel (with the exception of Parallel-mounted Trig Desk). The Storage to Panel Brackets follow the same layout rules as Support Leg to Panel Brackets for maximum length and height of Non-loaded panel run. Storage units can be side-mounted or back-mounted (Fig. 1).

Fig. 1

For a perpendicular-mounted Trig Desk the following criteria must be met (Fig. 2):

- The minimum Trig Desk size is 48"W x 20"D.
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under desk storage unit.

Fig. 2

For a parallel-mounted Trig Desk the following criteria must be met:

- The minimum Trig Desk size is 48"W x 30" D if parallel-mounted desk connections are the only panel connections used on one side of a panel run. IF the desk depth is less than 30" then a third panel support is required on the back side of the panel run (Fig 3).
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under-desk storage unit (Fig. 4).

Fig. 3

Fig. 4

Loaded Panel Runs

A Loaded panel run is defined as having panel hung components with two or more panels connected in a straight line. The maximum length of a loaded panel run with one panel connection before a panel bracket is needed is 120", and with 2 panel connections is 96". The maximum panel height depends on whether there is a overhead storage on the adjacent panel. Maximum height with no overhead storage on adjacent panel is 66", and with overhead storage on the adjacent panel is 62". "Storage to Panel Brackets follow the same layout rules as Support Leg to Panel Brackets for maximum length and height of a loaded panel run. Storage units can be side-mounted or back-mounted (Fig 5).

Fig. 5

For a perpendicular-mounted Trig Desk the following criteria must be met (Fig. 6):

- The minimum Trig Desk size is 48"W x 20"D.
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under desk storage unit

Fig. 6

For parallel-mounted Trig Desk the following criteria must be met:

- The minimum Trig Desk size is 48"W x 30" D if parallel-mounted desk connections are the only panel connections used on one side of a panel run. If the desk depth is less than 30" then a third panel support is required on the back side of the panel run (Fig. 7).
- The maximum Trig Desk length with 2 Support-Legs is 72". Desks length of 78" and 84" require an under-desk storage unit (Fig. 8).

Fig. 7

Fig. 8

Grommets

Grommets are optional on all work surfaces. They can be specified in Black or Silver.

Multiple Grommets or a single Power Grommet can be specified for Rectangle and Wedge Surfaces. If the Power Grommet option is selected the Surface will ship with a factory cut opening to house the unit, but the Grommet must be ordered separately.

Note: A power grommet will not fit into a standard grommet opening specified with GY or GY2.

Note: A power grommet cannot be installed in a worksurface with a 26.75" high storage unit below.

The following drawings show standard Grommet locations.

Code	Position
GY	Single Grommet, centered left to right, 4" from the back of the table top.
GY2	Pair of Grommets, 14" to the center from each end, and 4" from the back of the table top
PNDR	One cutout for the Power Grommet 14" from the right edge of the top, and 4 3/8" in from the back edge.
PNDL	One cutout for the Power Grommet 14" from the left edge of the top, and 4 3/8" in from the back edge.

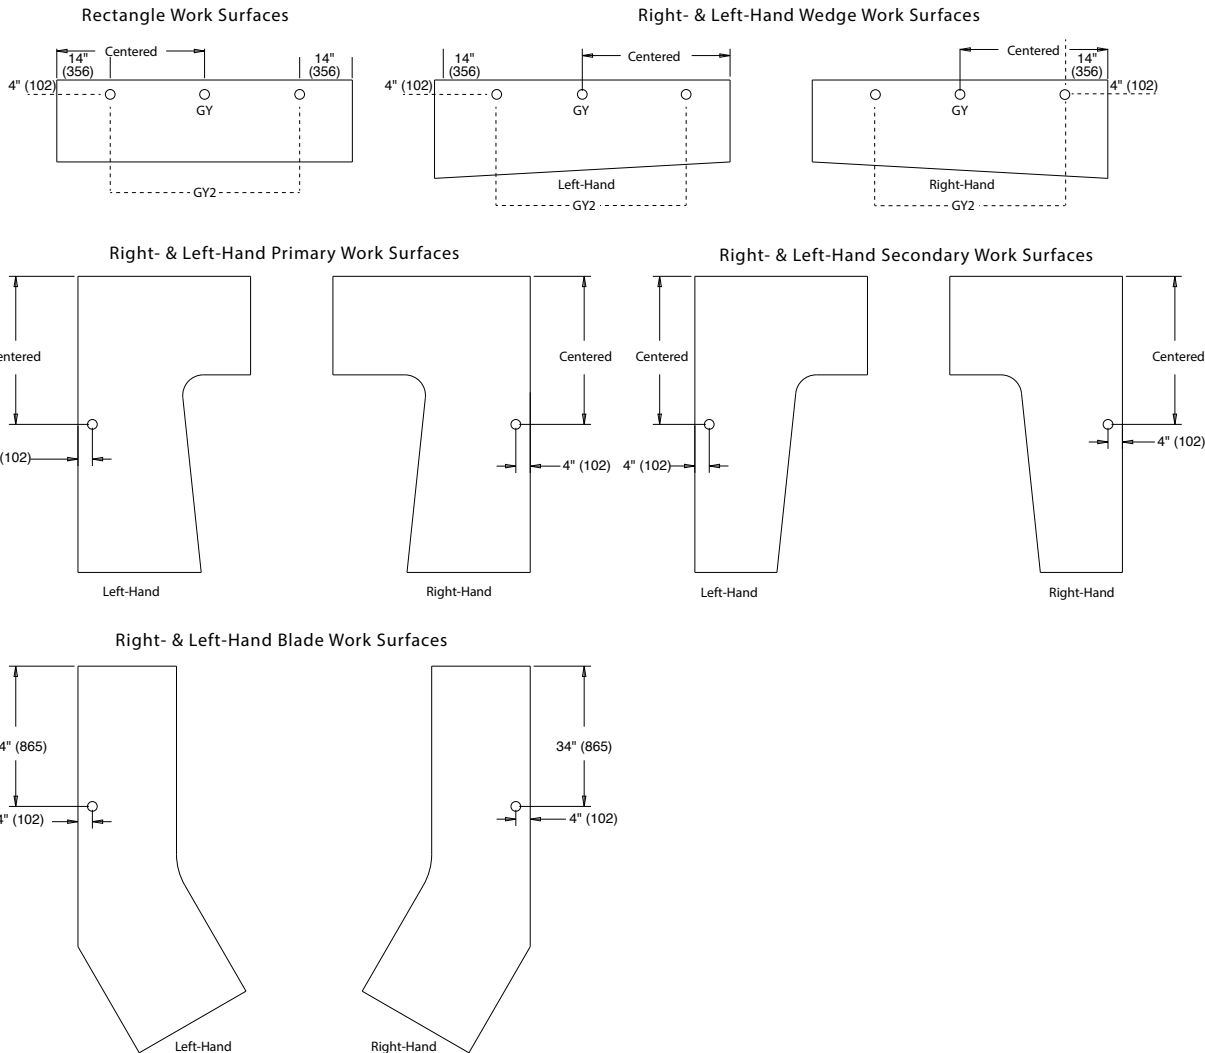

Grommet Dimensions

Power Grommet Locations

Standard Grommet Locations

Rectangular Desks

Trig Rectangular desks are constructed of 1"-thick Thermofused Laminate with a 3mm vinyl edge band. They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See planning section for standard grommet / power locations. Desks include two work surface support legs for right- and left-hand support. Additional accessories include field installed Screens, Modesties, Monitor Arms and Personal Task Lights.

Power Grommets are ordered separately. They will only fit into an opening that has been specified PNDR(L). See page 87 for details.

Note: For 36" wide surfaces with the PNDR, PNDL or GY2 option, the Trig Power sets, TRGDR12, should not be used.

Wedge Desks

Trig Wedge desks are constructed of 1"-thick Thermofused Laminate with a 3mm vinyl edge band. They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See planning section for standard grommet / power locations. Desks include two work surface support legs for right- and left-hand support. Additional accessories include field installed Screens, Modesties, Monitor Arms and Personal Task Lights.

Power Grommets are ordered separately. They will only fit into an opening that has been specified PNDR(L). See page 87 for details.

Rectangular Work Surface
 Trig Rectangular Work Surfaces are constructed of 1"-thick Thermofused Laminate with a 3mm vinyl edge band. They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See planning section for standard grommet / power locations. Work Surfaces do not include supports. Order supports separately. Additional

accessories include field-installed Screens, Modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required under one end using under desk storage or a Credenza with riser.

Power Grommets are ordered separately. They will only fit into an opening that has been specified

PNDR(L). See page 87 for details.

Note: For 36" wide surfaces with the PNDR, PNDL or GY2 option, the Trig Power sets, TRGDR12, should not be used.

They are available with an optional black or silver grommet and/or a factory-cut opening for a power grommet. See grommet information in the planning section for standard grommet locations.

Work Surfaces do not include supports. Order supports separately. Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required on one end using under desk storage or a Credenza with riser.

Power Grommets are ordered separately. They will only fit into an opening that has been specified PNDR(L). See page 87 for details.

Blade Work Surface

Trig Blade Work Surface are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

Optional grommet available in black or silver. See grommet information in the planning section for standard grommet locations.

Right-handed Blade Work Surfaces include a support leg for Depth 2. Support for Depth 1 must be ordered separately.

Left-handed Blade Work Surfaces include a support leg for Depth 1. Support for Depth 2 must be ordered separately.

Primary Work Surface

Trig Primary Work Surfaces are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

Optional grommet available in black or silver. See grommet information in the planning section for standard grommet locations.

Right-Handed Primary Work Surfaces include a support leg for Depth 1. Support for Depth 2 must be ordered separately.

Left-handed Primary Work Surfaces include a support leg for Depth 2. Support for Depth 1 must be ordered separately.

Primary Work Surfaces can be used alone or paired with Secondary Work Surfaces to create a U-shape work station. Primary Work Surfaces are available in right- and left-hand versions. Right-hand Primary surfaces are paired with left-hand Secondary surfaces to form a U-shaped work station. Or left-hand Primary surfaces are paired with right-hand Secondary surfaces to form the mirrored affect.

If Primary Work Surfaces are paired with Secondary Work Surfaces to create U-shaped work stations, a Flush Support Plate (SICSP) must be ordered to connect the two work surfaces together.

(See Planning Guide for limitations)

Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required on one end using under desk storage or a Credenza with riser.

Secondary Work Surface

Trig Secondary Work Surfaces are 1"-thick Thermofused Laminate with a 3mm vinyl edge band.

Optional grommet available in black or silver. See grommet information in the planning section for standard grommet locations.

Right-handed Secondary Work Surfaces include a support leg for Depth 2. Support for Depth 1 must be ordered separately.

Left-handed Secondary Work Surfaces include a support leg for Depth 1. Support for Depth 2 must be ordered separately.

Secondary Work Surfaces can be used alone or paired with Primary Work Surfaces to create U-shaped workstations. Secondary Work Surfaces are available in right- and left-hand versions. Right-hand Secondary surfaces are paired with left-hand Primary Surfaces to form U-shaped workstations. Or Left-hand Secondary surfaces can be paired with right-hand

Primary Surfaces to form the mirrored affect. If Secondary Work Surfaces are paired with Primary Work Surfaces to create a U-shaped workstation, a Flush Support Plate (SICSP) must be ordered to connect the two work surfaces together.

(See Planning Guide for limitations)

Additional accessories include field-installed screens, modesties, Monitor Arms and Personal Task Lights.

Note: For 78" and 84" wide work surfaces, support is required on one end using under desk storage or a Credenza with riser.

Work Surface Support Legs

Trig Work Surface Support Legs are available in all Trendway Standard and Premium Systems Finishes.

All necessary attachment hardware is included.

Shared Work Surface Support Legs

Trig Shared Work Surface Support Legs are used when two work surfaces of equal depth are paired together back-to-back and a single support is desired. Legs are available in all Trendway Standard and Premium Systems Finishes.

All necessary attachment hardware is included.

When the Shared Work surface Support Leg is used, Flush Support Plate (SICSP) must be ordered to connect the two surfaces together in the middle.

Trig Work Surface Post Leg

The Work Surface Post Leg can be used for additional mid-span support along wider Trig work surfaces. Price includes post leg, leveling glide and attachment hardware.

Note: A pair of Work Surface Post Legs cannot be used to replace Trig Work Surface Support Legs as the main support on the end of a work surface.

Trig Bench Storage Work Surface Short Support

The Bench Storage Work Surface leg is used with Trig Bench Height Storage units to support the end of a

work surface. 20" and 24" deep work surfaces use TRGBSWSL13 and 30" deep surfaces use TRGBSWSL19. Legs are available in all Trendway Standard and Premium Finishes.

All necessary attachment hardware is included.

Side to Side Shared Work Surface Support Leg

Side to Side Shared Work Surface Support Legs are used when work surfaces of equal depth are positioned next to each other and a single support is desired. Legs are available for single depth applications (equal depth

surfaces are side to side) and dual depth applications (equal depth surfaces are back to back).

In a layout with (4) equal depth work surfaces that are both front-to-back and side-to-side, a single Side to Side Shared Support Leg can be used centrally to support all (4) surfaces. Legs are available in all Trendway Standard and Premium Systems Trim Finishes.

All necessary attachment hardware is included.

Support Riser

Trig Support Riser ships with necessary hardware to mount work surface to top of Under Desk Storage or Credenza.

Available in Black only.

Work Surface Support Brackets

Trig Work Surface Support Brackets are used with Combination Storage to support work surfaces instead of Work Surface Support Legs. All necessary attachment hardware included.

Available in Black only.

Flush Support Plates

Flush Support Plates connect a work surface that extends from an adjacent work surface at the same level. Includes two mounting plates and screws. Available in Black only.

Surface Mount Screens

Trig Surface Mount Screens are used when two work surfaces are positioned back-to-back with no gap between them. Screen widths can span from 24" to 84", in 6" increments. Screen widths 24" - 48" are a single screen and two posts. Screen widths 54" - 84" are 2 screens and three posts (center post is shared). All necessary mounting hardware is included.

All Screens available in either Plexiglass or 3-Form Ecoresin.

Desk Top Screens

Trig Desk Top Screens are intended to provide privacy between adjacent desks. Mostly used in benching applications. All Screens available in either plexiglass or 3-Form Ecoresin.

Back Edge Mount Screens

Trig Back Edge Mount Screens assemble to the back of a work surface with a 1" gap between it and another work surface. The gap allows for power cords to pass between them.

Note: See planning guide for proper size selection. All necessary mounting hardware is included.

Modesty

The Trig Modesty mounts 2" from the back edge of the work surface.

Note: See planning guide to proper size selection. All necessary mounting hardware is included.

Note: Modesty Only

If electrical components are to be used with a Modesty-Only configuration on a Rectangle, Wedge or Blade work surface, the optional grommet should be selected for cord pass-through.

Screen/Modesty Combination

The Trig Screen/Modesty Combination mounts to the underside back edge of a work surface. There is a 1" gap between the Screen/Modesty and the work surface, allowing power cords to pass between them.

See planning guide for proper size selection. All necessary mounting hardware is included. All Modesty and Screen Modesty Combinations available in either plexiglass or 3-Form Ecoresin.

Acrylic Modesty

The Acrylic Modesty mounts to the underside of any work surface or table to provide privacy. Included with the modesty is a 1/4" thick Frosted Acrylic and brackets. The brackets are a raw aluminum finish.

Note: The actual width of the acrylic modesty is 2" shorter than nominal.

Note: There is no gap between the acrylic and the underside of the desk for cable pass through.

Single Acrylic Screen - Freestanding Plate

The Freestanding Acrylic Screen can be placed on any work surface or table to provide a division. Included with the screen is either 2 or 4 Gray Brackets depending on the width of the screen. The brackets come with two types of foam pads for the underside of the bracket plates based on installation needs. One pad helps to prevent the screen from skidding on the worksurface, and the other pad uses double-sided tape for more of a secure attachment.

Note: The actual width of the acrylic screen is 3 3/8" shorter than nominal.

Note: Screens 24-54" in width will have 2 brackets and Screens 60-72" in width will have 4 brackets.

Single Acrylic Screen - Edge Mount Bracket

The Edge Mount Bracket uses clamps to attach to the back edge of a work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits slightly offset from the back edge, creating a 3/4" gap to facilitate power/data cable management and other accessories. The final installed height of the

screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Single Acrylic Screen - Top Mount Bracket

The Top Mount Bracket uses clamps to attach to the top of the work surface. It is compatible with work surfaces up to 1 1/3" thick. The screen sits on the work surface creating a 1 3/4" gap between the work surface and the bottom of the screen. The final installed height of the screen is measured from the desktop to the top of the screen. The screen width is 3/8" shorter than nominal. All necessary mounting hardware is included.

Note: Screens 24"-54" wide will ship with 2 brackets. Screens 60" and wider will ship with 3 brackets.

Corner Connector Kit

The Corner Connector Kit attaches Edge Mount Screens to Top Mount Screens at the intersecting corners. This creates 'L' and 'U' shape configurations connected as one unit. The SCNCCK Kit provides 2 brackets to create one corner connection for an 'L' Shape. The SCNCCK2 Kit

provides 4 brackets to accommodate 2 corner connections for a 'U' Shape.

Note: these are the same corner brackets used with the Post Style and Low Profile Bracket Screens, and can be utilized as service parts for these screens if needed.

Trig Top Mounted Fabric Screen

The Trig Top Mounted Fabric Screens are mounted on top of a Trig Desk. The 18, 22 and 28 inch screens are designed to work as side screens. The larger widths are designed to mount to the front edge of a surface, or across the seam of two surfaces positioned back to back. The screen is fully tackable, fabric covered, and comes with all the hardware to attach it. The

hardware has a small reveal at the very bottom of the screen and what the trim color is related to.

Trig Fabric Screen / Modesty Combination

The Trig Fabric Screen Modesty Combination mounts to the underside back edge of the desk top. The screen is fully tackable, fabric covered, and comes with all the hardware to attach

it. It provides 13" of privacy above the surface and 14" below the surface. Match the screen width to the Trig desk width.

Note: The Fabric Screen/ Modesty Combination cannot be used in conjunction with the Trig Power Raceway.

Credenzas

Trig Credenza come with a 1" Thermofused laminate top and 2" support legs with leveling glides. Credenzas are 20" deep and 26.75" high. Units are intended for freestanding applications. Units ship fully assembled except for 2" support legs.

Note: Trim color includes support legs and Framed Door option (FD) when selected.

Credenzas with Doors

Features include hinged doors with optional locking. (Locking not available on aluminum door option) Credenzas 60", 72" and 75" wide have (1) adjustable shelf in each double door. The 45" wide Credenza has one adjustable shelf in the double door and one in the single door. Shelves adjust vertically in 2 1/2" increments.

Bench-Height Storage

The Trig Bench-Height Storage is available in five different widths. Lateral units include full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front-to-back filing bars, and leveling glides.

Optional locking available on drawers.

45" wide Lateral Open Shelf unit comes with (1) shelf that adjusts vertically in 2 1/2" increments.

Units are intended for freestanding applications.

Units ship fully assembled except for 2" support legs.

Combination Storage

The Trig Combination Storage unit combines the functionality of a lateral and pedestal with added storage of shelves. Units are intended to be placed at the aisle side of a workstation to provide storage and privacy.

The Laterals include full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front-to-back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

Available accessories include Marker Board or Tackboard for addition to the aisle side of the units.

Units are intended for freestanding applications, or can be used as work surface support if used in combination with option Trig Work Surface Support Brackets.

Unit ships fully assembled.

Trig Wardrobe Storage Tower and Wardrobe Storage Tower with Bookcase

The Wardrobe Storage Tower provides, wardrobe, drawer and cupboard storage in a single cabinet. Each of these storage areas can be locked independently to allow for varying levels of security. Wardrobe Storage Towers are available in either Right-Hand version with the wardrobe on the right side or a Left-Hand version with the wardrobe on the left side.

Wardrobe Storage Towers have adjustable leveling glides. The wardrobe unit includes a wardrobe bar and one adjustable shelf. The cupboard unit includes two adjustable shelves. The bookcase unit and cupboard unit includes two adjustable shelves. Shelves adjust vertically in 2 1/2" (64) increments. The pedestals have full extension ball bearing slides on both the 6" and 12" drawers.

Unit ships fully assembled.

When the key-alike lock option "T" is chosen a "disposable" core is assembled in the filing unit to temporarily secure the drawers and doors for transit. The "disposable" core must be field replaced with a Trig Core/Key set in order for the Trig filing unit to lock. The Core/Key set (CLCK) must be order separately or by using the keying order form. Check Customer Care for availability.

Under Desk Lateral Support Storage

Trig Under Desk Lateral Support Storage is available in three depths. The Lateral includes full extension ball bearing slides, an interlock mechanism that allows only one drawer to open at a time, side-to-side and front to back filing bars and leveling glides. Drawers accommodate side-to-side letter, A4, legal and EDP filing.

Trig Under Desk Lateral Support Storage is pre-drilled to accept a 1" riser (included) for mounting under the desk (mounting screws included).

Optional locking available for drawers.

Units are intended for work surface support applications.

Ships fully assembled except 2" support leg.

Under Desk Pedestal Support Storage

Trig Under Desk Pedestals include a 1" riser for mounting under the desk. Pedestals have full extension ball bearing slides, side-to-side and front to back filing bars and leveling glides.

Optional locking available for drawers.

Ships fully assembled except 2" support leg.

Trig Stack Storage - Open Shelf

Open Shelves can be used where open shelf storage is desired above any Trig credenza or freestanding storage 30" or wider. The stackers are available in two different heights to align with 53 3/4" and 65 3/4" high combination storage and storage towers. Standard features include a 3/8" (10) cord pass-through gap behind the shelves and a 1" full length cord management gap at the base of the back panel. An optional gap guard is available. The 27" high stacker has one adjustable shelf and the 39" has two adjustable shelves. Shelves are 5/8" thick and adjust in 2 1/2" increments.

Stackers ship ready to assemble with all necessary mounting hardware.

Trig Stack Storage - Paper Management Shelf

The Paper Management Shelf can be used above any Trig Credenza, Bench Height or Freestanding storage unit 30" or wider.

The Paper Management Shelf width does not need to match the width of the storage unit it stacks on. A narrower shelf can be placed anywhere along the width of the storage unit where paper management or open cubby storage is desired.

The 30" (762) & 45" (1143) wide shelf has a single opening and 60" (1524) & 75" (1905) have two openings with a center divider.

The Shelf ships ready to assemble.

Trig Overhead - Single Sliding Door

The Single Sliding Door Overhead is constructed of thermofused laminate with vinyl edgeband.

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

The thermofused laminate door travels in an aluminum track by means of a pull. Each unit has a center divider, so there is always one cubby open and one closed. The unit does not lock. For A4 (11 7/16" x 12 5/8") sized binder storage, please reference the Overhead – Open Shelf or Hinged Door units.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim colors. Two leg height options are available to align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Tower when mounted on top of a Trig work surface.

Trig Overhead – Dual Sliding Doors

The Dual Sliding Door Overhead is constructed of thermofused laminate with vinyl edgeband.

The two frosted plexiglass doors have pulls and run back to back in an aluminum track. The unit does not lock. For A4 (11 7/16" x 12 5/8") sized binder storage, please reference

the Overhead – Open Shelf or Hinged Door units.

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim color. Two leg height options are available to align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Towers when mounted on top of a Trig work surface.

Trig Overhead – Hinged Doors

The Hinged Door Overhead is constructed of thermofused laminate with vinyl edgeband.

Each unit includes 2 pairs of locking hinged doors. The same door size is used for all units. Overheads that are 66" (1676) and wider will have a center open cubby, which increases in width proportionately with the width of the overall unit. The Overhead can accommodate standard and A4 (11 7/16" x 12 5/8") sized binders.

If a wood grain laminate is selected the grain will run vertically on the door front.

Overheads are for use above any Trig work surface that uses either legs or under desk storage as supports. Overheads cannot be used with work surfaces supported by Trig Combination Storage Towers.

Overheads are supported by steel legs, which can be specified in any Trendway Standard or Premium Systems Trim color. Two leg height options are available that will align the Overhead with either the 53 3/4" (1365) or 65 3/4" (1670) Trig Storage Towers when mounted on top of Trig work surfaces.

Trig Storage to Panel Brackets

Storage to Panel Brackets are used to connect Trig Storage units to Capture or Choices system panels for additional workstation rigidity. Brackets are designed to provide stability to layouts that would otherwise require return panels.

For detailed application information regarding use of the Storage to Panel Bracket, refer to the *Trig Desking Planning Guide*.

Storage to Panel Brackets are available in Charcoal only.

All necessary hardware for assembling brackets to Trig storage is included.

Trig Support Leg to Panel Brackets

The Leg to Panel Bracket is used to connect Trig Support Legs to Capture or Choices system panels for additional workstation rigidity. Brackets are designed to provide stability to configurations that would otherwise require return panels.

Two different brackets are available for use with either Capture or Choices. Their specific use depends on the orientation of the work surface relative to the panel.

Capture

TRGLCPTPB1 – Used when a work surface is parallel to a Capture panel

TRGLCPTPB2 – Used when a work surface is perpendicular to a Capture panel

TRGLCPTPB3 – Used when two work surface are parallel to a Capture panel, with a side to side shared leg between them

Choices

TRGLCSPB1 – Used when a work surface is parallel to a Choices panel

TRGLCSPB2 – Used when a work surface is perpendicular to a Choices panel

TRGLCSPB3 – Used when two work surface are parallel to a Choices panel, with a side to side shared leg between them

them

For detailed application information regarding use of the Support Leg to Panel Bracket, refer to the *Trig Desking Planning Guide*.

Support Leg to Panel Brackets are available in all Standard and Premium Systems Trim Finishes.

All necessary hardware for assembling brackets to Trig Support Legs is included.

Trig Benching Electrical

Benching Electrical Components 80

Benching Electrical Accessories 83

Components

Trig Power Raceway

The Trig Power Raceway consists of four parts - Raceway to Table Connector, Trig Raceway Shroud, Power Block Brackets, and the Power Block.

The Bracket and Blocks ship attached to the Raceway to Table Connector. The Raceway to Table Connector attaches to the underside of the desk. Once installed, the Shroud attaches to it to form a complete raceway. The width of the Raceway is actual. Please refer to the chart below to specify the correct width Raceway for each desk configuration.

The Trig Power Raceway is designed to work in a double sided application. It will be placed across the seam on the underside of two Trig Tops. If a single sided option is needed, please contact Trendway Customer Care for specifics.

Specifying Raceway Widths

The support on both sides of the Trig Desk will play a part in the Raceway width needed. This chart shows how much room the support takes up. Add up the supports on both sides of the desk and subtract from the overall width of the desk.

Leg	6"
Ped	18"
Riser	18"
Under Desk Storage	36"

Support 1	Support 2	Surface Width	Surface Width								
			36	42	48	54	60	66	72	78	84
		Minus	Raceway Width								
Leg (6)	Leg (6)	12	24	30	36	42	48	54	60	N/A	N/A
Leg (6)	Bench Hgt Riser(18)	24			24	30	36	42	48	54	60
Leg (6)	Ped (18)*	24			24	30	36	42	48	54	60
Leg (6)	UD Support (30)*	42						24	30	36	42

* In order for a Raceway to span the full width, the depth of any Under Desk support used must be 4" shorter on a 24" deep surface, and 6" shorter on a 30" deep surface to allow sufficient clearance.

Trig Power Raceway Spanning Cover

The Trig Power Raceway Spanning Cover is used to enclose power and data cables when they span across to an adjacent Table's Raceway. There are three versions of the Cover to accommodate most configurations.

The TRGPRSC12SL is specified when a single U Leg is shared in the center of four adjacent Tops. There is a single notch opening to accommodate the U Leg.

The TRGPRSC12DL is specified when two U Legs are shared legs in the center of four adjacent Tops. There is a single notch opening large enough to accommodate two U Legs.

The TRGPRSC364R is specified when four risers are used, or a combination of four storage pieces that all must be at least 4" shorter than the depth of the Top. There is no opening. This version can be used to accommodate most configurations.

Power Block

Power Blocks ship complete with the Raceway.

- Power Blocks provide power access on both sides, accommodating up to two snap-in Power Duplexes per side.
- 24" (610) Raceways include only one Power Block, a single Distribution Block that accommodates up to two snap-in Power Duplexes (maximum one per side).
- 30" (762), 36" (914), 42" (1067), 48" (1219), 54" (1372) and 60" (1524) Raceways ship with two Distribution Blocks to accommodate up to four snap-in Power Duplexes (maximum two per side).

Trig Electrical Harness

Electrical Harnesses connect power horizontally from one adjacent Work Surface to another. The Harness attaches to a Block positioned 9" from the end of each Raceway, so when specifying the Harness length you will add 18" (9" + 9") to the distance between adjacent raceways. The type of Support used will determine the length of Harness required (see table below).

Leg	6"
Ped	18"
Riser	18"
Under Desk Storage	36"

In the figure below, connection A supports include a Ped and a Leg (18" + 6") + (18" for the distance inside the raceway), for a total of 42". For connection B, the supports consist of a Leg and a Leg (6" + 6") + (18" for the distance inside the raceway) for a total of 30".

NOTE: A Harness cannot be used if a full depth storage piece is located next to a Leg. This configuration does not allow sufficient clearance for the Harness to extend to the next table.

NOTE: If no full depth under desk storage is present and full-depth U legs are positioned diagonally from each other on facing Work Surfaces, you must add 6" to the length of a Harness in order to pass around the U Legs.

Trig Power Infeed

Trig End Mount Infeed

The Trig End Mount Infeed installs into the end of a Power Block. It includes 6' (1829) of flexible liquid tight conduit for hardwiring the standard 4-Circuit Base Feed to the building's electrical system. It can be used on its own or housed by a Trig Floor Power Pole.

Trig Floor Power Pole

The Trig Floor Power Pole is used to channel electrical components and communication cables. It attaches to the side of a Trig U Leg.

Trig Ceiling Feed

The Trig Ceiling Feed supplies power from the ceiling to the Power Block. The Feed is housed by the Trig Ceiling Power Pole. It has 13' (3962) of wire and 12' (3658) of flexible conduit.

Trig Ceiling Power Pole

The Trig Ceiling Power Pole is used to house electrical components and communication cables accessed from the ceiling. It attaches to a Trig U Leg at the end of a run.

Trig Electrical Duplex

The Trig Electrical Duplex provides user access to power. It plugs into the Power Blocks that ship complete with the Raceway. There are nine different duplexes used to create three different 4-Circuit options (See Electrical Circuit Planning section). Each Duplex is color coded and marked to distinguish whether it is a general, dedicated or isolated circuit.

Circuits are marked with the following symbols: I, II, III, IV, I, II, III, III, IV. Duplexes must be specified separately to match the desired electrical circuit plan.

Communication Module

The Communication Module snaps into an open Duplex location in the Raceway to provide access to communication distribution.

The 8-Wire Trig Electrical Circuit Planning and Hardwiring to Building Electrical Source

The Trig Electrical System is an 8-Wire, 4-Circuit system including a dedicated neutral and ground. Each circuit is rated for 20 amps. The PowerPac Electrical Schematic is included to show how the system installs to the building's power source (Fig. 1). There are three - four circuit options which include:

- Three general circuits, one dedicated circuit (Fig. 2).
- Three isolated circuits, one dedicated circuit (Fig. 3).
- Two general circuits, two isolated circuits (Fig. 4).

Fig. 2 Three General Circuits, One Dedicated

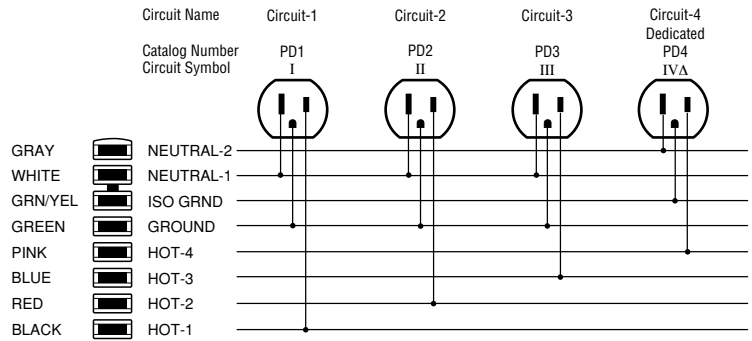

Fig. 3 Three Isolated Circuits, One Dedicated

Fig. 4 Two General Circuits, Two Isolated

Trig Power Raceway

The Trig Power Raceway provides a steel enclosure that houses and routes power and data in Trig Benching applications. Each Raceway 30" and wider has four openings per side, two for power duplexes and two for data. The 24" Power Raceway has one power and two data openings per side. Raceways are specified to accommodate Trendway's standard 8 wire 4 circuit power system (P1) or a hardwire solution (H). The Power Raceway ships with an Electrical Block or 2 hardwire boxes included, and attachment brackets installed. Power

Duplexes, Harnesses and Infeeds must be specified separately.

The unit ships with all attachment hardware included. The Raceway is available in all Trendway Standard and Premium Finishes.

Trig Power Raceway End Cover

The Trig Power Raceway End Cover provides a finished appearance at the end of a Trig Power Raceway.

Not to be used on the same side as an Infeed.

The unit ships with all attachment hardware included. The End Cover is available in all Trendway Standard and Premium Finishes.

Trig Power Raceway Spanning Covers

The Trig Power Raceway Spanning Cover is used to conceal power and data cables where they span to an adjacent Raceway. The Cover attaches two Trig Power Raceways to create a continuous steel enclosure beneath the surfaces.

The Spanning Cover is available in all Trendway Standard and Premium Finishes.

Trig Ceiling Power Pole

The Trig Ceiling Power Pole encloses and routes power and communication cables from the ceiling to the Trig Power Raceway. The Power Pole is 12' in height and will attach structurally into the ceiling and to the Trig U Leg at the end of a run. Pole capacity is 50 1/4" diameter cables with a ceiling feed.

Note: To connect the Trig electrical system to ceiling power, order the CFTP power feed.

Trig Floor Power Pole

The Trig Floor Power Pole has a 2 inch by 2 inch profile that attaches seamlessly to the side of a Trig U Leg. The Power Pole has a removable 4th side that allows for easy access to power and communication cables. The Pole is 26" high and attaches on the inside quarter of the leg. The Pole capacity is 31 1/4" diameter cables without an infeed, and 23 1/4" diameter cables with an infeed.

Note: To connect the Trig electrical system to building power, order the EBFH Infeed.

Trig Ceiling Feed

The Ceiling Feed supplies power from the ceiling to the Trig Raceway. The feed is channeled through the Trig Ceiling Power Pole. The CFTP which has 13' (3692) of wire and 12' (3658) of flexible conduit when fully extended. The Ceiling Feed includes junction box and attachment hardware.

Trig End Mount Feed

The End Mount Base Feed plugs into a Power Block to feed power from the building's electrical system. It provides 6' (1829) of flexible liquid tight conduit for hardwiring the standard four-circuit system. UL and CUL Listed/CSA Certified.

Available in Black only.

Trig Benching Electrical Harness

Trig Electrical Harnesses connect Electrical Blocks, distributing power horizontally from one Trig unit to another. The Electrical Harness is UL Listed and CUL Listed/CSA Certified.

Trig Power Duplexes

The Power Duplex plugs into Electrical Blocks for access to the circuit. Power Duplex is clearly marked for Circuit I, II, III, IV, IΔ, IIΔ, IIIΔ, ΔIIIΔ or IV access. See Power Electrical Components and Electrical Circuit Planning for guidelines on specifying Electrical Duplexes. Packaged in boxes of six of the same duplex. UL and CUL Listed/CSA Certified.

Communication Modules

The Communication Module snaps into an open duplex location in the baseline and at the beltway. It provides access to communication cables. Jacks are color coded as noted below. Includes icon tabs for easy identification of Data, Phone, Voice, and LAN (Local Area Network) lines.

Note: Verify your configuration with your building telecommunication contractor.

Note: All modules can be installed back to back.

Note: The RJ11 Jacks are rated category 3. The RJ45 Jacks are rated category 5e.

Trig Electrical

Electrical Specification Guide 90

Electrical Components 91

Electrical Accessories 93

Trig Electrical Planning Guide

Trig Workstations can be powered by the optional 4-wire, 2-circuit, 20 Amps each (circuit 1 and 2 only) electrical system. The systems supports up to 10 receptacles per circuit, 20 receptacles per Base Feed. Allowing for a total of 10 Power Sets per Base Feed.

The main system components are Power Sets, Electrical Harnesses, H-Connectors and Power Base Feeds. All components are UL listed.

All work surfaces are predrilled to accept Power Sets. These are attached to the underside of the surface by a metal spring clip. The overall height of the system is just over an inch. This provides a very low profile which will not interfere with the user's legs under the table.

There is currently no capacity in this system for data management.

Electrical Harness Selection

Trig Electrical Harnesses are used to connect Power Sets mounted on different work surfaces. The length of the harness needed will depend on the layout and size of work surfaces used. The following diagrams and tables will help identify the specific length harness needed for a particular layout.

Side By Side

For this layout, the harness length is calculated by the following equation:

$$(\text{Half of Surface 1 width}) + (\text{Half of Surface 2 width}) - 6" = \text{Harness Length}$$

If calculated harness length does not match an exact size, select next longer length.

Example: Surface (1) is 60" wide
Surface (2) is 66" wide

$$(30") + (33") - 6" = 57" \text{ (57" is not a standard size so a 60" length is selected)}$$

Back to Back (Surfaces of Equal Width)

In this layout, the power Base Feed connects to the H-Connector. From there, the power is split to the Electrical Harness to bring power to each surface.

The chart below shows the needed harness length for each width of work surface. (A separate harness will need to be ordered for each surface)

Work Surface Width	48"	54"	60"	66"	72"	78"	84"
Harness Length	18"	24"	24"	30"	30"	36"	36"

COMBINING LAYOUTS Side by Side and Back to Back

In this layout, both side-by-side and back-to-back planning information is needed to specify the correct electrical components. The harness length required to connect the work surfaces side-by-side is determined by using this equation:

$$(\text{Half of Surface 1 width}) + (\text{Half of Surface 2 width}) - 6" = \text{Harness Length}$$

To connect these work surfaces back-to-back, refer to the corresponding chart above.

In this U-Shape layout where only 48" deep ends can be used, the power Base Feed will connect to the H-Connector and the power is split to go to each surface. The chart below shows the needed harness length for each width of work surface. (A separate harness will need to be ordered for each surface)

Work Surface Width	54"	60"	66"	72"	78"	84"
Harness Length	60"	60"	66"	66"	66"	66"

L-Shape (Except Blade)

For this layout, the needed harness length will vary as the width and depth of the work surfaces change. The Trig Base Feed will end mount to Power Sets on one of the tables, but the harness length that connects the two work surfaces is determined from the following tables:

Layout 1

Main Surface (1) = 20" deep
Return Surface (2) = 20", 24" or 30" deep

Return Surface (2) width (maximum size is 72" with under desk)

	54"	60"	66"	66"	72"

84"	60"	66"	66"	72"	72"

Power Set

The Trig Power Sets allow power to be connected between work surfaces without the need for a system panel. Each Power Set includes two receptacles for a total of 4 outlets. Each outlet has one receptacle for circuit 1 and one for circuit 2.

Power Sets are centrally located on the work surfaces. Spring clips for mounting are included. Power Sets are connected between work surfaces with Trig Electrical Harnesses. Trig Base Feed brings power to the Power Sets.

Note: Work surfaces are predrilled for Trig Power Set mounting to assure a standard location that is centrally located.

UL and CUL Listed/CSA Certified

Trig Base Feed

The Trig Base Feed conducts power from the building to the Trig Power Set. It includes 6' (1829) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply.

Trig Base Feed is also used with a Trig H-Connector in cases where a single power feed needs to be split in two directions. Trig Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration.

Electrical Harnesses

Trig Electrical Harnesses connect Trig Power Sets between two surfaces. Harnesses are also used with Trig H-Connectors when a single Base Feed is split in two directions. The specific length of the harness needed will depend on the layout and work surface sizes. Refer to Trig Electrical Planning guide before specifying a harness length. (If your specific layout is not shown, please contact Trendway Customer Care for assistance.)

New York Base Feed

The Trig New York Base Feed conducts power from the building to the Trig Power Set. It includes 18" (457) of flexible liquid-tight conduit for hard-wiring the standard two-circuit system to the building power supply.

Trig New York Base Feed is also used with a Trig H-Connector in cases where a single power feed needs to be split in two directions. Trig Electrical Harnesses are used to link the H-Connector to the Power Sets in this type of configuration.

H-Connector

The Trig H-Connector allows power to be routed in up to 3 different directions. This is useful in layouts that require a single Base Feed to reach multiple work surfaces.

(See Planning Guide for Specific Uses.)

Monitor Arm

The monitor arms can be affixed to the back edge of the work surfaces between the panel and work surface or can also be bolted through the surface, with a drilled hole or grommet. The height can be adjusted 13" vertically and has 26" of reach. The arm can be adjusted to accurately counterbalance the weight of the monitor. Finally the arm can swivel 360 degrees. All this leads to an ergonomically correct viewing angle.

Available in silver only.

Single Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 14 lbs.

Dual Monitor Arm

The monitor arm will support any VESA compliant monitor with both 75mm and 100mm mounting holes up to 20 lbs total. Measured diagonally, the maximum screen width for each monitor is 22".

Luma Touch™ LED Desk Lamp

The Luma Touch LED personal task light is specified with either a Round or an Elongated lamp style. The Lamp can be selected with a Freestanding Base, Clamp Mount, or Slatwall Mount. The Slatwall Mount is compatible with Choices and Capture. Its double-arm articulated design allows the user to position the light effortlessly for optimum illumination. The single control responds to the lightest touch to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting

level if turned off and on. The optional Occupancy Sensor turns the lamp on when a user approaches and shuts it off after 30 minutes of inactivity, conserving energy use. Available in three colors. ETL, TAA and BAA certified.

complements any interior. The single control responds to turn on, turn off or dim to the perfect level. Once dimmed, the lamp will resume the same lighting level if turned off and on. The Lamp is available as a freestanding model or with a clamp mount. UL Listed. Available in a Brushed Nickel finish

ORI LED Desk Lamp

The ORI LED Personal Task Light provides 390 Lumens of clear white light right where you need it. It offers a wide range of vertical and rotational adjustment so the user can direct the light where it's needed. The clean, simple and attractive design

Terms, Policies & Index

<i>Terms & Policies</i>	<i>104</i>
<i>Warranty</i>	<i>107</i>
<i>Index</i>	<i>108</i>

1. Prices

Prices shown in this price list are F.O.B. origin, freight prepaid, in the contiguous United States. Trendway Corporation reserves the right to change prices without notice. Trendway may implement price changes effective at time of shipment if shipping date is more than 120 days from date written order was received by Trendway.

Pricing for shipments outside the contiguous United States will be based on the port of departure. Freight will be prepaid to port of departure.

List prices include coverage of prepaid standard, Trendway-specified freight cost.

2. Order Placement

Trendway Corporation requires all orders to be submitted electronically via on-line order entry at www.trenddealer.com, or in writing following Ordering Procedures on page 1. Trendway recommends using design software for larger projects which allows the dealer to design, specify, and enter an order more efficiently and accurately which will assure completeness and avoid errors and duplications. The Buyer assumes all responsibility for the correct content of any order which has been acknowledged.

3. Confirmation

Upon receiving an order, Trendway Corporation will send an acknowledgement with exact pricing information and scheduled shipping date. Orders can also be confirmed on-line at www.trenddealer.com. Customer is responsible for checking acknowledgements to ensure that the order is correct. Order will be processed as acknowledged.

4. Lead-Times

Trendway Corporation reserves the right to alter lead times as demand for products fluctuate. Stated lead-times begin after a complete order is entered and scheduled. Shipments are subject to product availability. Special products and larger orders may extend lead-times. Orders placed by dealers without a requested delivery date will be assigned a delivery date of 4 weeks for standard product orders and 6 weeks for custom product orders. Please contact your customer care representative for exact lead-times.

5. Buyer's Credit

If, in the judgment of Trendway, the financial condition of the Buyer at any time does not justify the terms specified, Trendway may at any time by notice to the Buyer require prepayment or other terms of payment differing from those specified in Section

8 or other satisfactory security to insure prompt payment of invoices.

6. Order Changes

To change an order, the customer must call Trendway Customer Care for order status. If approved, the customer must confirm the changes in writing to Trendway Corporation. Customer agrees to accept any and all charges involved in altering an order. This includes payment, determined by Trendway, for product already in production. Changes in orders also may result in delayed shipments.

7. Cancellation

All cancellations must be approved by Trendway Corporation. **Orders in production cannot be cancelled without incurring substantial or full purchase price.** Customers shall agree to accept any and all charges involved in the cancellation transaction, as determined by Trendway. Non-standard items may not be cancelled.

8. Terms of Sale

Terms of sale on all invoices to approved Trendway customers are Net 30 days from date of invoice. These terms may be changed at any time by Trendway Corporation based on credit rating information available on specific customers. Payment in advance may be requested at the discretion of Trendway without explanation.

9. Taxes

Prices listed do not include any federal, state, local, or other taxes. Purchaser agrees to pay or reimburse any such taxes that Trendway Corporation, Trendway Corporation subcontractors, or suppliers are required to pay. For shipments to AZ, CA, CO, DC, FL, GA, IL, IN, KS, MA, MI, MN, MS, NJ, NY, OH, PA, TX and Canada, add appropriate tax rate. All authorized dealers should ensure that a resale exemption certificate is on file with Trendway Corporation.

10. Past-Due Accounts

Past-due accounts will be charged 1.5% per month. This is an annual rate of 18% or the highest legal rate on the unpaid balance. The purchaser agrees to pay all collection agency fees, court costs, and/or reasonable attorney fees incurred by Trendway in the collection of past-due balances.

11. Customer's Own Material (COM)

The Trendway COM program allows customers to use special materials. By complying with the COM testing for manufacturability procedure in the steps below, Trendway will be able to identify if your material is appropriate for application to the products you specify.

To comply with the COM process, please follow these steps:

1. Select the COM material.
2. Check first with www.trenddealer.com/COM Library, to determine if this material has already passed testing for manufacturability on the intended product.
3. If the material is pre-approved in the COM Library, customer must submit a *COM Order Submission Form* (available from Trendway Customer Care Representative).
4. If the material requested is not in the COM Library, customer must submit a *COM* test request on-line at www.trenddealer.com, send a sample of the COM material (see Test Yardage Requirements below), and include a list of Trendway product numbers designated for the COM application. Material sample should include pattern name, pattern number and color, manufacturer, direction material should be applied, and Control number from the COM Request Form automated e-mail response.
5. Ship COM samples to:
U.S. Mail and UPS, FedEx Shipment:
Trendway Corporation
13467 Quincy Street
Holland, MI 49424
Attn: COM Request
6. You will be notified within five working days of receiving the material sample by Trendway, whether your COM has been approved or disapproved for application.

TEST YARDAGE REQUIREMENTS

Capture Tiles	1 yard
Choices panels	1½ yards
Fabric screens	2 yards
Flipper doors	2/3 yard
Intrinsic Freestanding	1 yard
Ped Cushions	1 yard
Seating	Trendway requests
Seating - Parley	1 yard
Seating - Zego	1½ yards
Tackboards	1 yard
TrendWall	4 yards
Volo tiles	4 yards

NOTE: Most fabric houses have a yardage minimum or an upcharge on less than one-yard cuts.

NOTE: All COM applications are priced at Grade 1 or Grade A.

If Buyer desires to use his own material in the production of Trendway's products, it is necessary to obtain the prior written consent of Trendway. Material provided by the Buyer shall be shipped to seller, freight prepaid, and all risk of loss or

damage shall remain with Buyer. Buyer must assume responsibility for any use spoilage that takes place in the course of processing or during transportation. Buyer hereby holds Trendway harmless against any and all claims for loss, liability, injury, or damage arising from use of customer material; and Buyer takes full responsibility for performance and quality of customer material. Buyer should also be aware that Buyer-furnished materials will not qualify for UL Listings and may not meet fire codes. Please discuss specific concerns and special needs with Trendway Customer Care PRIOR to placing your order.

11a. Custom Color

Trendway's Custom Color program allows the customer to specify their own color or stain on many of Trendway's products. See www.trenddealer.com for product availability, individual product guidelines and lead times. Set up fees and lead times are product specific and will vary.

To request a Custom Color or Stain:

- Complete a Custom Color Request form (available on www.trenddealer.com).
- Send request form along with two 2"x3" samples to Trendway Customer Care Color Coordinator.
- After the receipt of the request, Trendway will provide customer with one color sample.
- If approved, Dealer or customer completes custom color form, providing the custom match color number on the back of the sample, signs, and returns by fax or mail to Custom Color Coordinator.
- Samples will be matched under cool white florescent lighting. All orders processed under the Custom Color program will be manufactured within commercially acceptable tolerances.
- If applicable, dealer will be sent an invoice for \$250 color matching fee per customer, per color. See Custom Color Request form for details.

12. Special Product

When Trendway purchases special surface materials (i.e., fabrics and laminates) at the request of the customer, the customer takes full responsibility for the performance and quality of the surface material.

13. Delays

Trendway shall not be liable for loss or damage due to delay in manufacturing or delivery resulting from any cause beyond Trendway's reasonable control, including, but not limited to, compliance with any regulations,

orders, or instructions of any Federal, State, or Municipal Government, or any department or agency thereof, acts of God, acts or omissions of Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, war, riot, delays in transportation or inability due to causes beyond Trendway's reasonable control to obtain necessary labor, manufacturing facilities, or material from Trendway's usual sources. In no event shall Trendway be liable for special or consequential damages for any delay for any cause.

14. Postponement of Delivery

If unforeseen circumstances occur, Trendway Corporation may postpone delivery of ordered products. Customer will be notified when such postponement occurs.

15. Storage

When shipment is delayed by the Buyer, Trendway reserves the right to place the goods in storage at customer's risk and cost. Trendway charges 1/4 of 1% of list price per week to cover storage. All terms and conditions of the sale, including but not limited to invoicing and payment, will continue as Buyer-specified destination; except that title remains with Trendway and that Trendway reserves the right to modify payment terms to assure recovery of any additional cost incurred.

16. Transportation

All orders shipped to any destination, within the contiguous United States, will be F.O.B. origin, freight prepaid, and risk of loss or damage shall pass to Buyer upon delivery to carrier. Trendway will determine the method and agency of transportation to be used.

Exceptions to standard prepaid freight are as follows:

- Customer directed expedites (Air Freight, Team Hauls) will be prepaid by Trendway and Customer will be billed the difference between standard and expedited freight.
- Truckload deliveries that are requested to deliver on weekends, Holidays or after 12:00 noon EST on Friday's will have an additional charge of \$450 per truck.
- Excessive unloading (in excess of 2 hours) will be billed at \$50 per hour after the initial 4 hour unloading period.
- LTL shipments normally deliver between 8:00 am and 5:00 pm, Monday through Friday. A specific delivery time on your assigned delivery date can be requested for an additional charge of \$150. This charge does not

apply to full-truckload shipments. Requests for specific dates/times falling outside standard delivery timeframe for the carrier serving your area constitute Expedites (see Customer-Directed Expedites, above). Expedite charges do apply to full-truckload shipments.

- Lift gate service will have an additional charge of \$85 for an LTL carrier. For lift gate service on a truckload, contact Customer Care.
- Inside delivery service starts at \$50. Call Customer Care for quote.
- Reconsignment cost after shipment, starts at \$50. Call Customer Care for quote.
- Special equipment requirements call for a quote.

In the event that special F.O.B. Destination terms are agreed to by Trendway or delivery is made on Trendway-owned or -leased equipment, customer or authorized representative is responsible for noting any freight damage or shortage on the freight bill of lading at time of delivery and must notify Trendway within five (5) days of delivery day of any such damage or shortage. Assistance in a concealed damage claim on an F.O.B. Destination shipment will be provided by Trendway only if the product has been immediately unpacked and both the carrier and Trendway have been promptly notified of resultant damage so the proper inspection can be made.

Shipping Note:

Trendway strives to minimize packaging to help the environment and to make installations faster and cleaner.

Trendway ships products in using various packaging methods based upon the product type and shipping method (full truck vs. LTL), all of which are designed to provide protection for the product while minimizing packaging materials.

Trendway test packaging designs to ensure their effectiveness.

17. Product Ownership

Title and risk of loss to all goods sold shall pass to Buyer upon Trendway's delivery to Buyer or to a carrier at shipping point. Trendway, however, retains the Purchase Money Security Interest in all goods shipped and the right to perfect same.

18. Damaged Materials

Trendway Corporation is not responsible for shipped products when the

common carrier is in receipt of the material. Trendway expects all customers to thoroughly inspect orders on receipt regardless of point of delivery. Clear receipt should not be given on the material until it has been checked for damage in transit. All claims for noted damaged material must be made by the customer to Trendway Customer Care.

Concealed damage or damage not noted at time of delivery shall be made by the customer to the common carrier within 5 days after receipt. Trendway assumes no liability for such damage.

19. Shortage on Order

Shortage on ordered products must be reported to Trendway Corporation within five (5) days of product delivery and must be noted on bill of lading at time of delivery.

20. Product Usage and Compliance

Buyer assumes full responsibility for the application of Trendway's product to Buyer's use, and compliance with Trendway installation and maintenance instructions and reasonable load restrictions. Compliance to local code restrictions regarding fire, electrical, and building codes are the responsibility of the customer or his authorized agent.

21. Post-Delivery Assistance

Installation and servicing of Trendway products are normally handled directly by Trendway-authorized dealers. When this is not possible, assistance is available by calling Trendway's Customer Care Department, Holland, Michigan.

22. Returned Goods

As a basic policy, Trendway does not accept returned material, because most items are manufactured per order and are not in stock at the factory. If material is authorized for return because of Trendway error, shipment may be made freight collect. Any other goods for which Trendway does authorize a return will be sent prepaid and a restocking charge of 35% will apply. **To receive authorization to return goods, please contact Trendway's Customer Care Department.**

All Returned Materials Authorizations expire thirty (30) days from date of issue. Any product returned after 30 days will be refused and returned to sender collect.

Electrical components, nonstandard items, and fabric-covered goods may not be returned. Replacement products will be billed to you with credit being issued upon return of the product in good condition. All goods returned must be in the original Trendway packing cartons. Goods will be inspected for damage upon return. No credit will be issued for goods which are damaged. **As a**

general statement of policy, return authorization will not be issued for items unless they are Trendway stock items.

23. Special Marking or Tagging

Special tagging is available on all orders free of charge. Trendway suggests this option to simplify the staging and installation of product. **Tag designations must be specified at the time an order is placed.**

24. Trendway Field Technical and Installation Support:

On-site field measurement and installation support is available as a service. The fees are listed below:

Field Installation Assistance: 2 Day On-Site, \$1,200

Field Installation Assistance: 3 Days On-Site, \$1,800

Field Installation Assistance: 4 Days On-site, \$2,400

Field Installation Assistance: 5 Days On-Site, \$3,000

Days include 1/2 day travel to and 1/2 day travel from location. These fees are based on a minimum 14 business days advanced notification and booking. Service requests booked less than 14 business days in advance may be subject to additional fees due to added travel cost. For more information or to place a request, contact Trendway Customer Care at 1-616-399-3900.

Find the most current terms and conditions on www.Trendway.com, in the Price list section.

Limited Lifetime Warranty

Trendway Corporation warrants to the original purchaser that the products described in its price lists, sold after August 1, 2004 will be free from defects in materials and workmanship commencing with the date of initial purchase and continuing for as long as the original owner uses these products. This warranty provides limits on the following products:

	Systems	Architectural Products	Seating
10 Year	<ul style="list-style-type: none"> •Electrical Components •Height-Adjustable Table Frame 		<ul style="list-style-type: none"> •Pneumatic Cylinders •Mechanisms
5 Year	<ul style="list-style-type: none"> •Drawer Slides •Systems Textiles •Finishes •Electronic Ballasts •Height-Adjustable Table Mechanical Components •Screens 	<ul style="list-style-type: none"> •System Textiles •Finishes

2 Year	<ul style="list-style-type: none"> •Surface Trend Fabrics •Height-Adjustable Table Electrical Components 	<ul style="list-style-type: none"> •Surface Trend Fabrics 	
1 Year	<ul style="list-style-type: none"> •Non-Standard Product •Personal Task Lighting 	<ul style="list-style-type: none"> •Non-Standard Product 	<ul style="list-style-type: none"> •Non-Standard Product
Not Covered	<ul style="list-style-type: none"> •Light Bulbs •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material 	<ul style="list-style-type: none"> •Customer's Own Material

The following exceptions apply to all product lines:

- The Trendway warranty applies to normal three shift office use, with the exception of seating. Seating is warranted for single-shift usage.
- Damage caused by improper treatment of the product including exposure to unusual environmental conditions (extreme climates, acids, and moisture)

This comprehensive warranty applies to all products installed or reconfigured by a Trendway authorized installer. Trendway will repair, or at its option, replace defective merchandise, free of charge, which, when used normally and pursuant to Trendway's published instructions, and applicable planning guide information, prove to be defective within the period stated. This remedy is expressly agreed to be exclusive as a condition of sale. No person is authorized to assume for Trendway any warranty liability, except as expressly set forth in this paragraph, or set forth in writing by an authorized officer of the company at its headquarters in Holland, Michigan.

Any and all labor charge backs must be pre-approved by Trendway's Customer Care Manager in writing. Trendway will reimburse authorized Trendway dealers and service centers for approved warranty labor during the first year of use.

This warranty does not apply to damage resulting from accident, alteration, transport, or misuse, as well as damage from normal wear and tear such as dents, nicks, scratches, fading and improper maintenance. Trendway employs quality measures to ensure color consistency in our products. However, due to the effects of light and other environmental factors, no guarantee can be made for an exact match to product in an existing installation.

Natural variations occurring in materials such as wood and leather are not considered defects, and Trendway does not warrant the matching of colors, grains, textures or colorfastness of these materials.

Trendway provides a three-year warranty on veneer products for quality and craftsmanship. Due to the natural properties of wood, the following are not covered under this warranty:

- Changes in wood color resulting from exposure to light or aging
- Natural color variation between wood veneer and solid wood pieces, or resulting from veneer lay-up
- Natural variation in wood grain or the presence of character marks
- Normal wear and tear
- Exact match to swatch materials

Trendway makes no warranty to purchasers who acquire products for personal, family, or household purposes, or to purchasers acquiring the product other than directly from Trendway Corporation, its authorized dealers, or others who are specifically authorized by Trendway to sell such products. Trendway's liability with respect to its products shall not exceed that expressly set forth above irrespective of the theory upon which a claim might be based, including negligence. Under no circumstances shall Trendway be liable for incidental or consequential damages. Original product label must be attached to the product in question.

The warranty period is not interrupted or prolonged by the performance of a service under the terms of the warranty. There are no other warranties except as expressly set forth above, either express or implied, including any warranty of design, merchantability or fitness for any purpose.

This warranty supersedes all previously printed Trendway warranties.
